

Count Reduction in First Time CVD Event for Alabama and Female

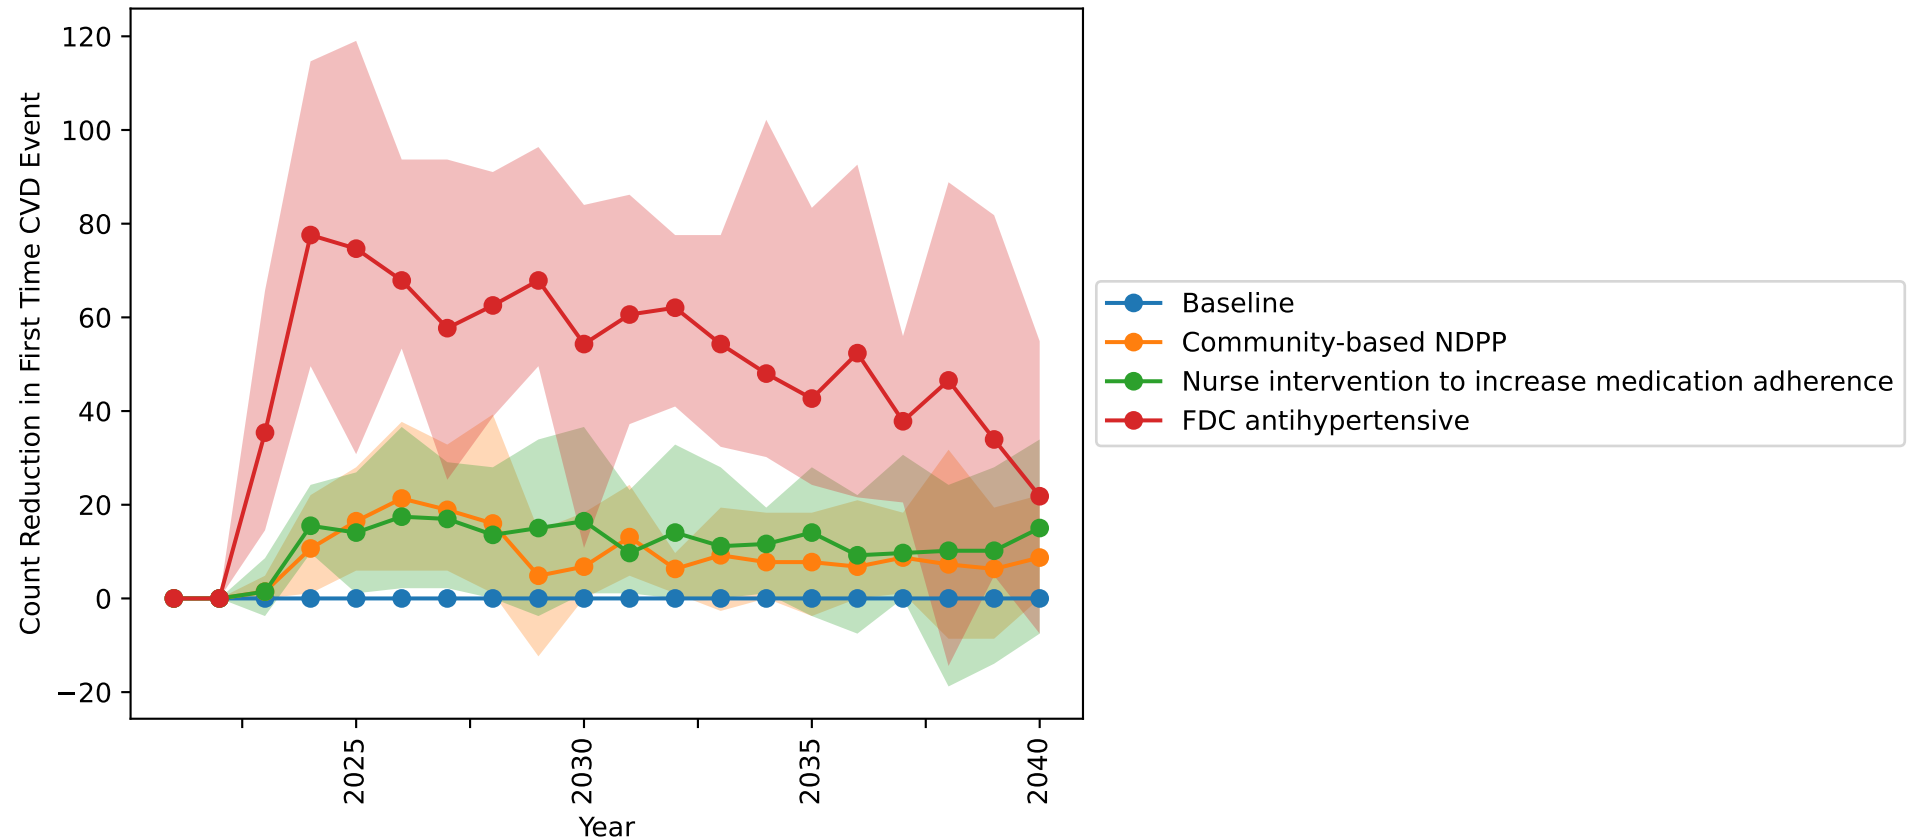

Count Reduction in First Time CVD Event for Alabama and Male

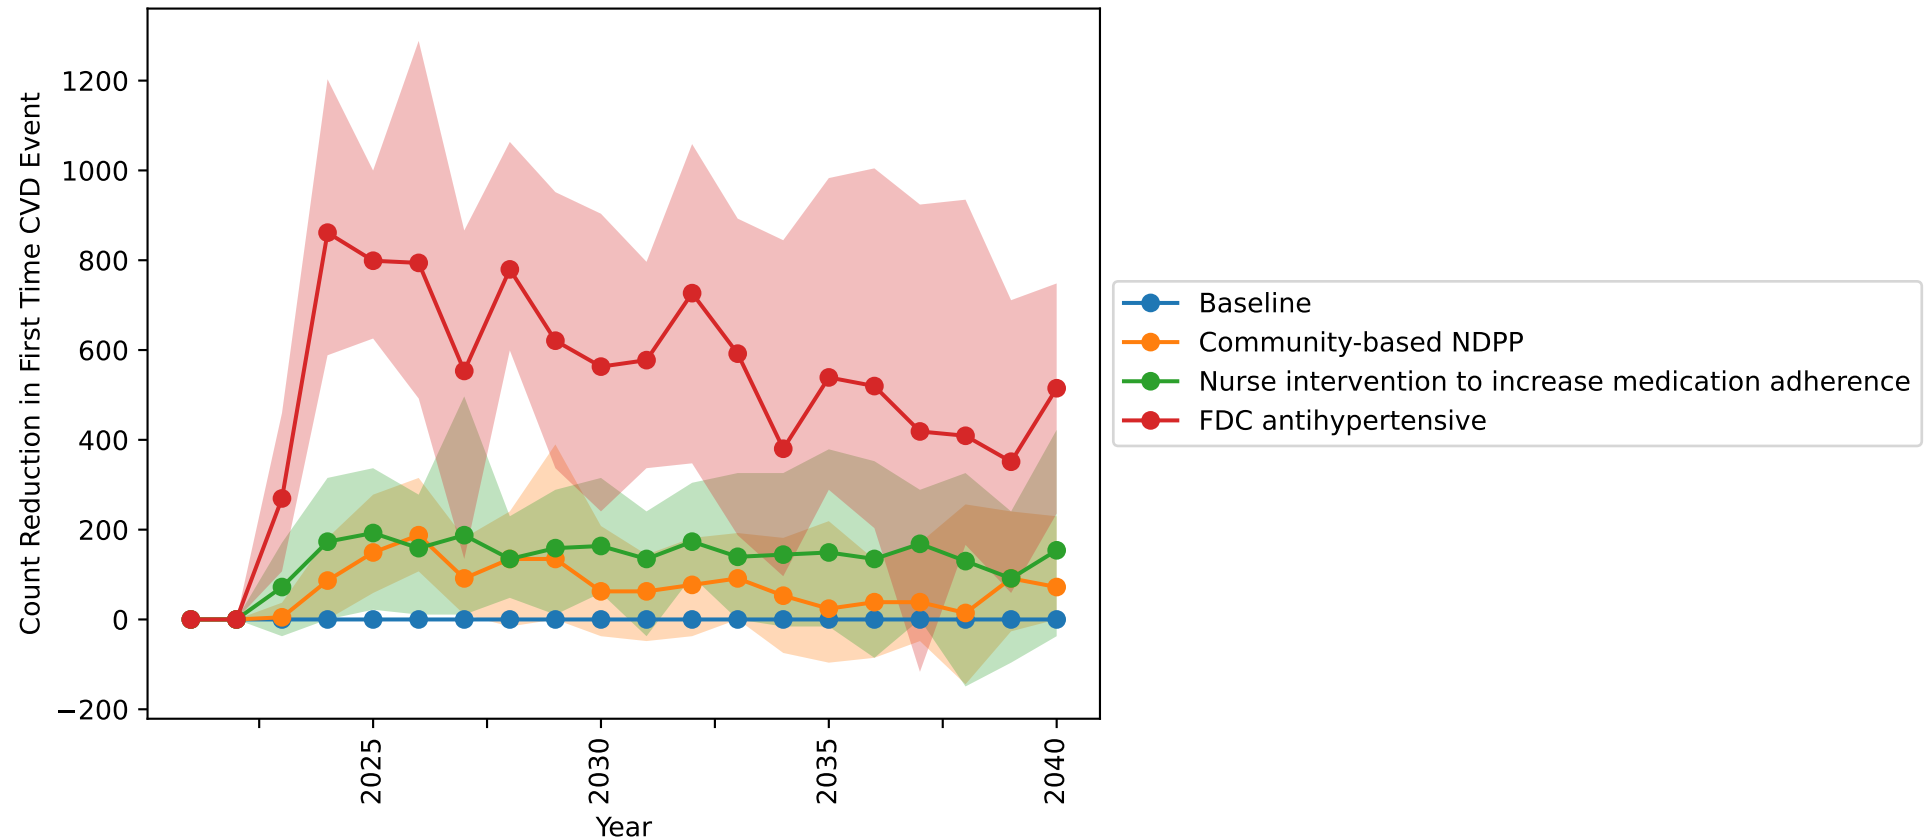

Count Reduction in First Time CVD Event for Alaska and Female

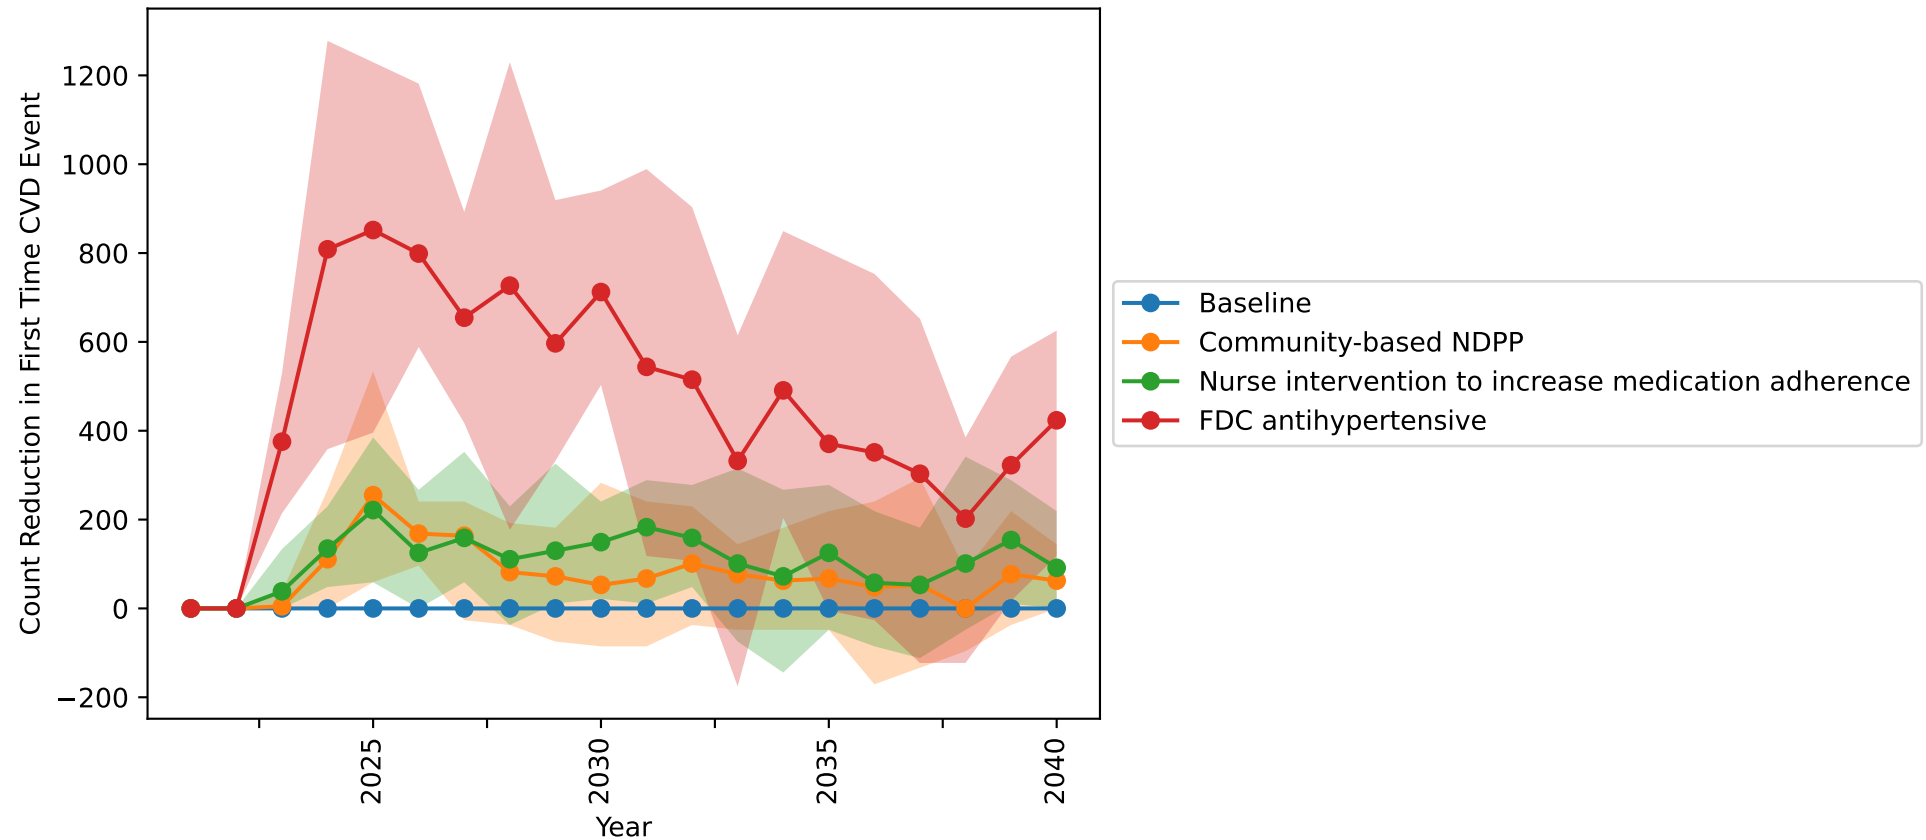

Count Reduction in First Time CVD Event for Alaska and Male

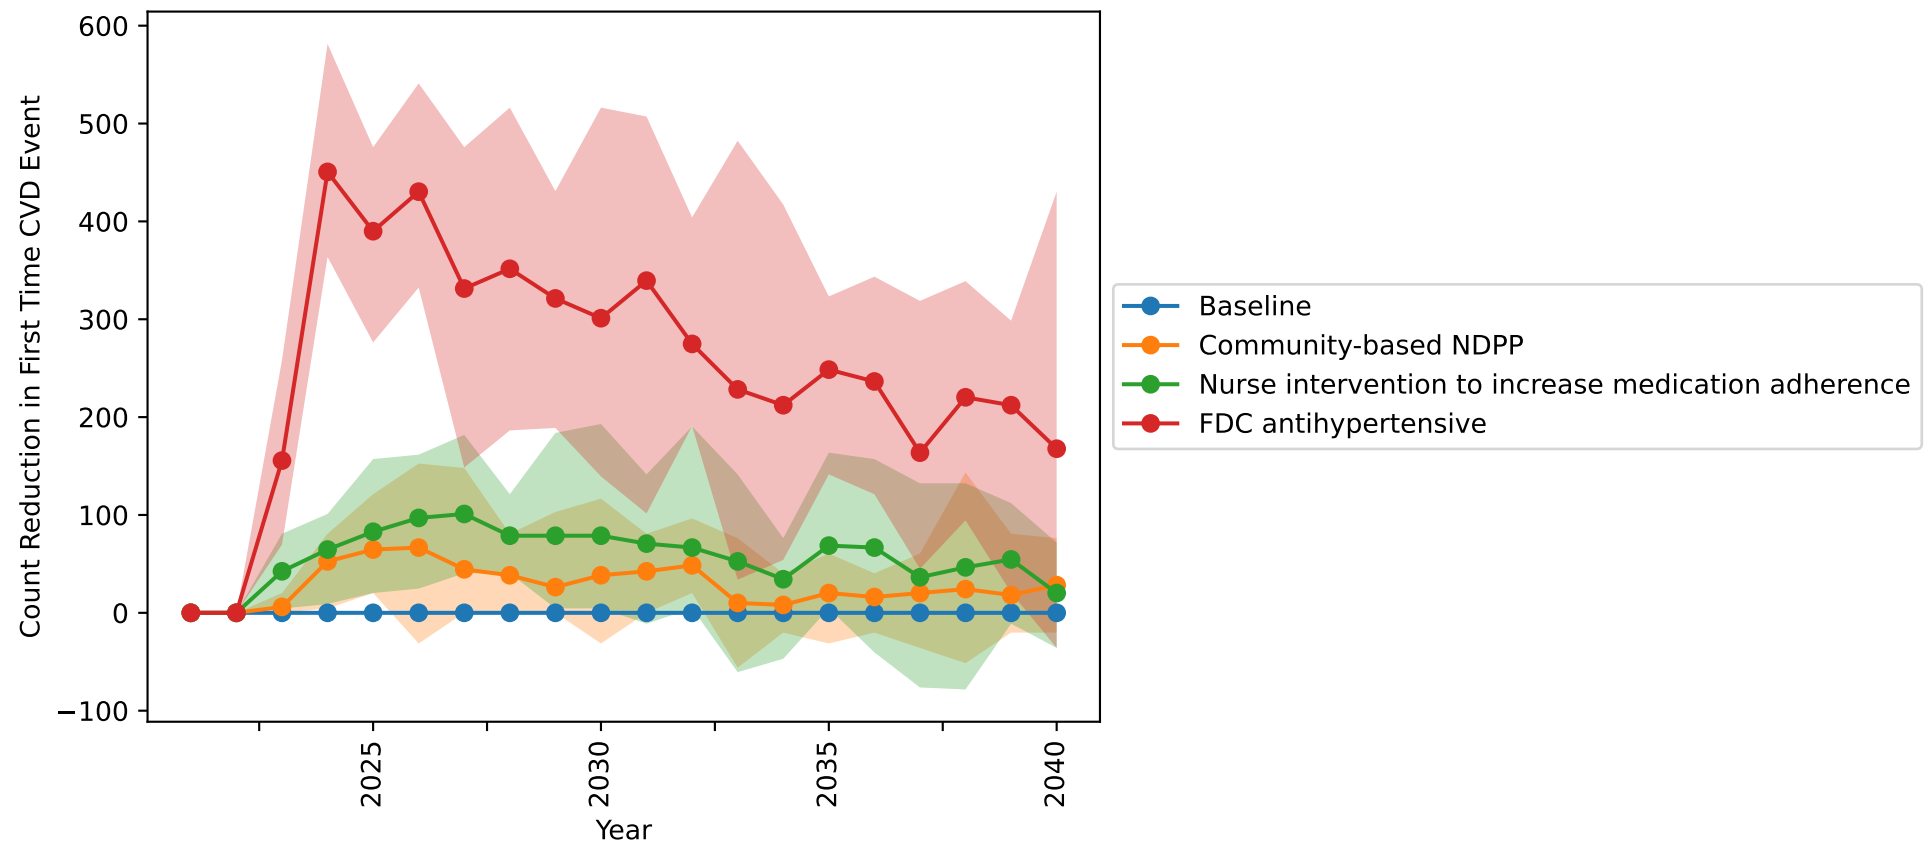

Count Reduction in First Time CVD Event for Arizona and Female

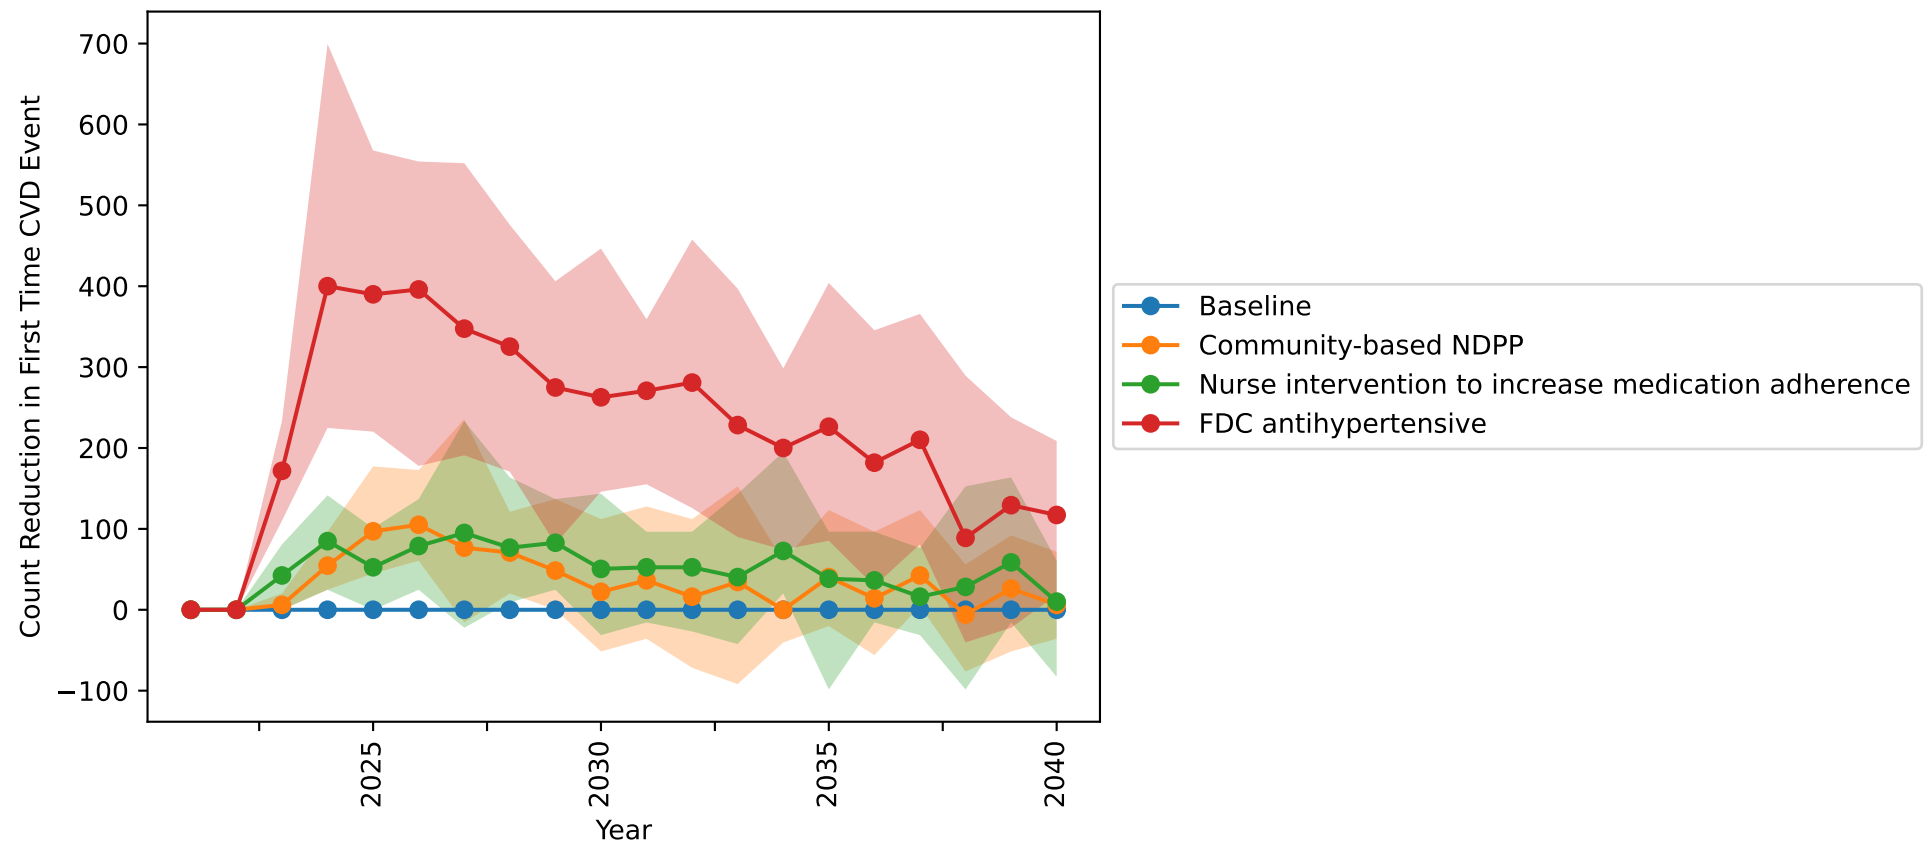

Count Reduction in First Time CVD Event for Arizona and Male

Count Reduction in First Time CVD Event for Arkansas and Female

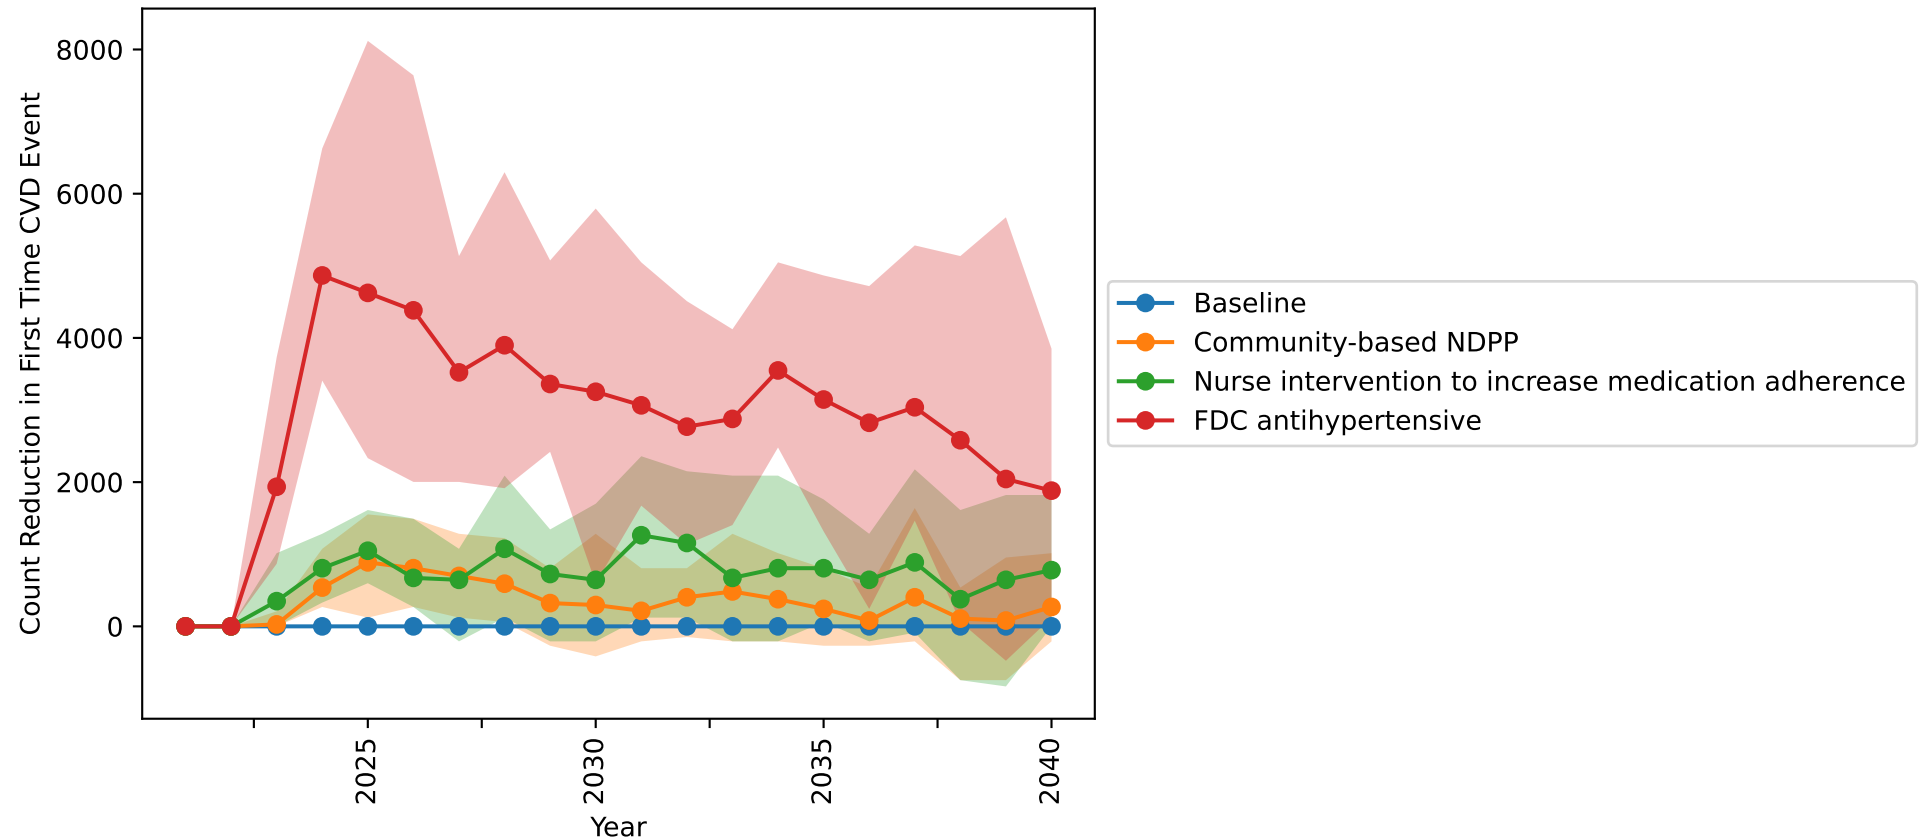

Count Reduction in First Time CVD Event for Arkansas and Male

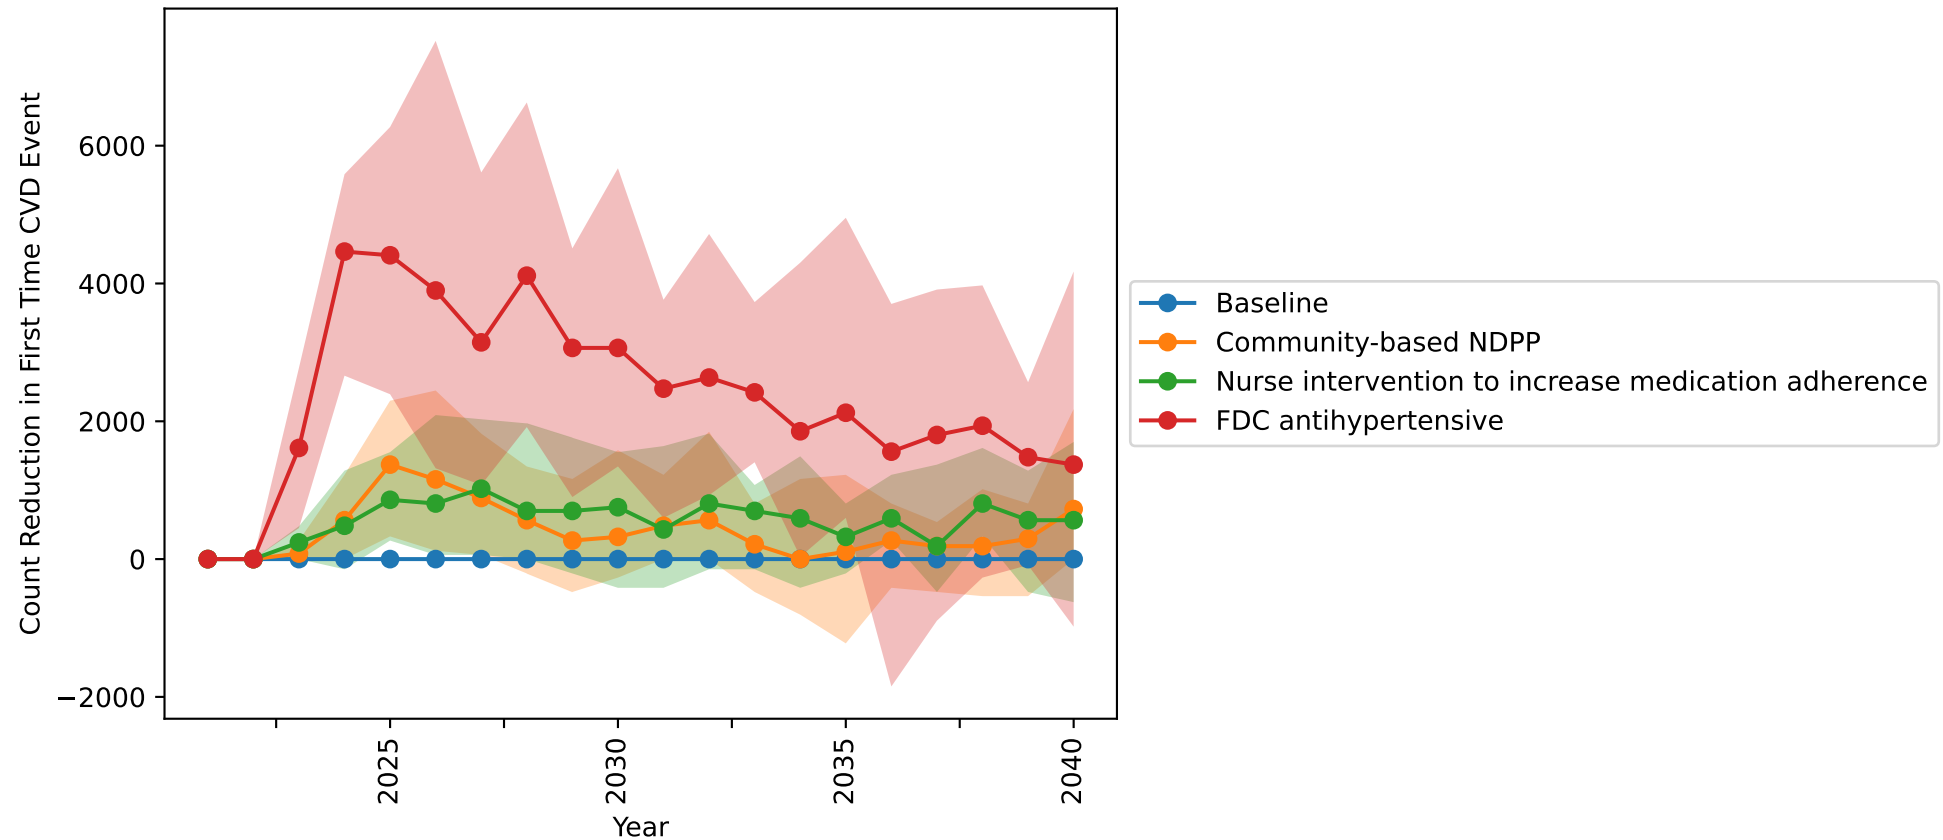

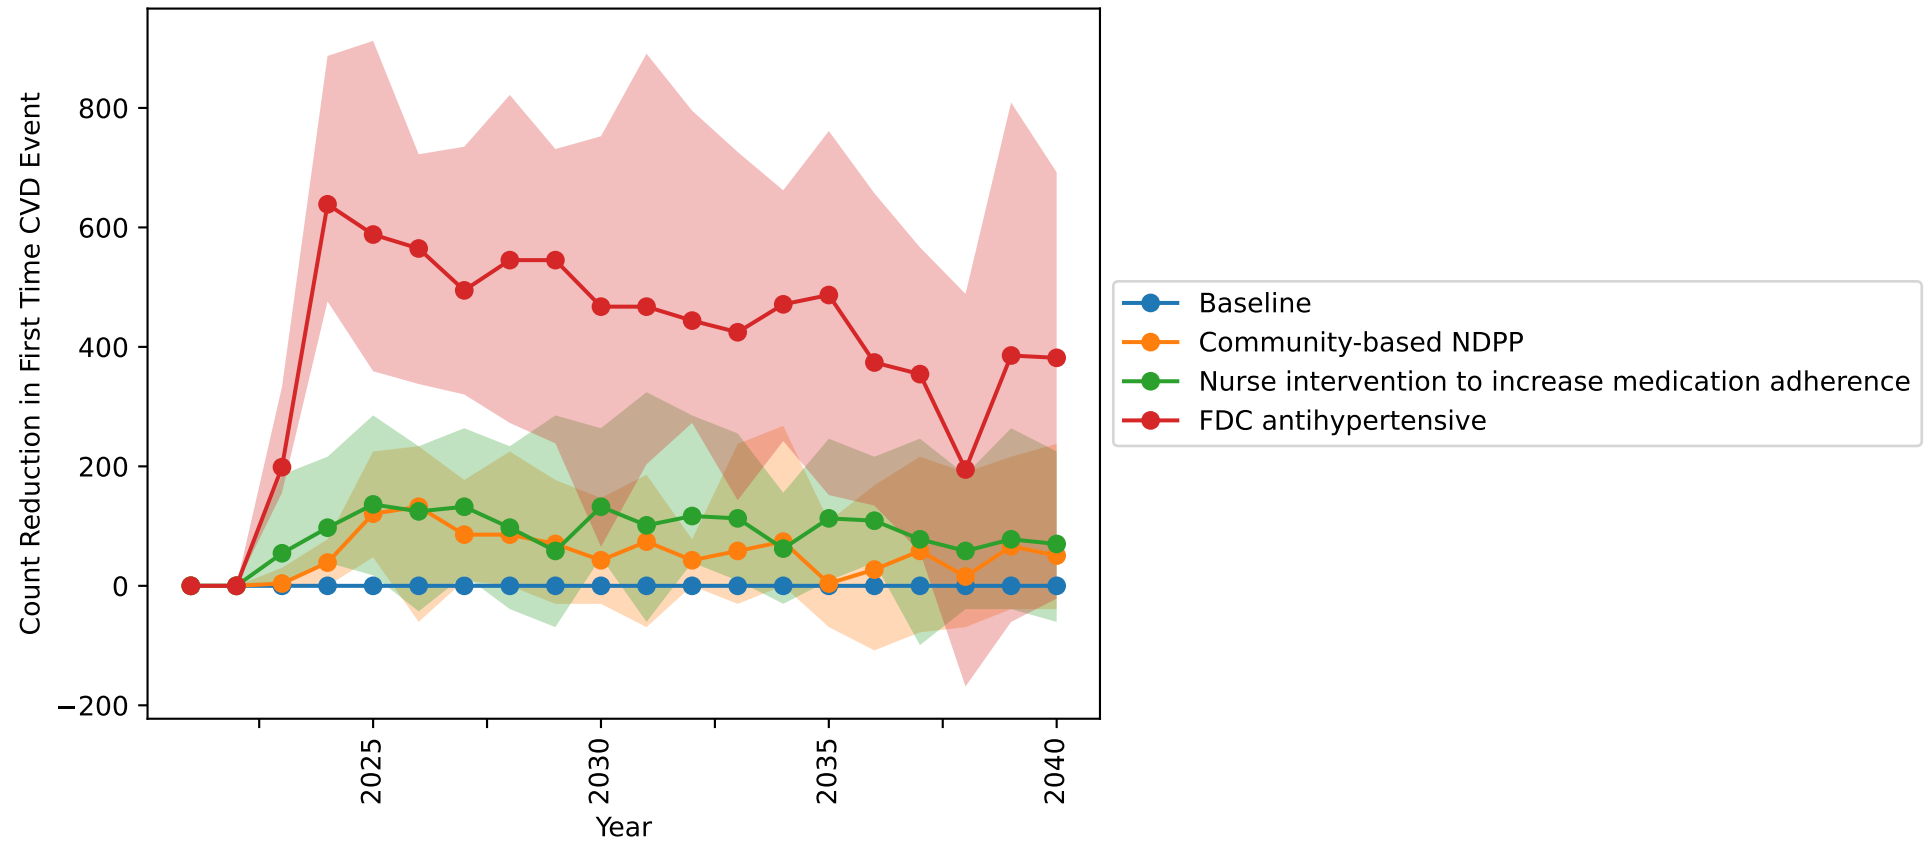

Count Reduction in First Time CVD Event for California and Female

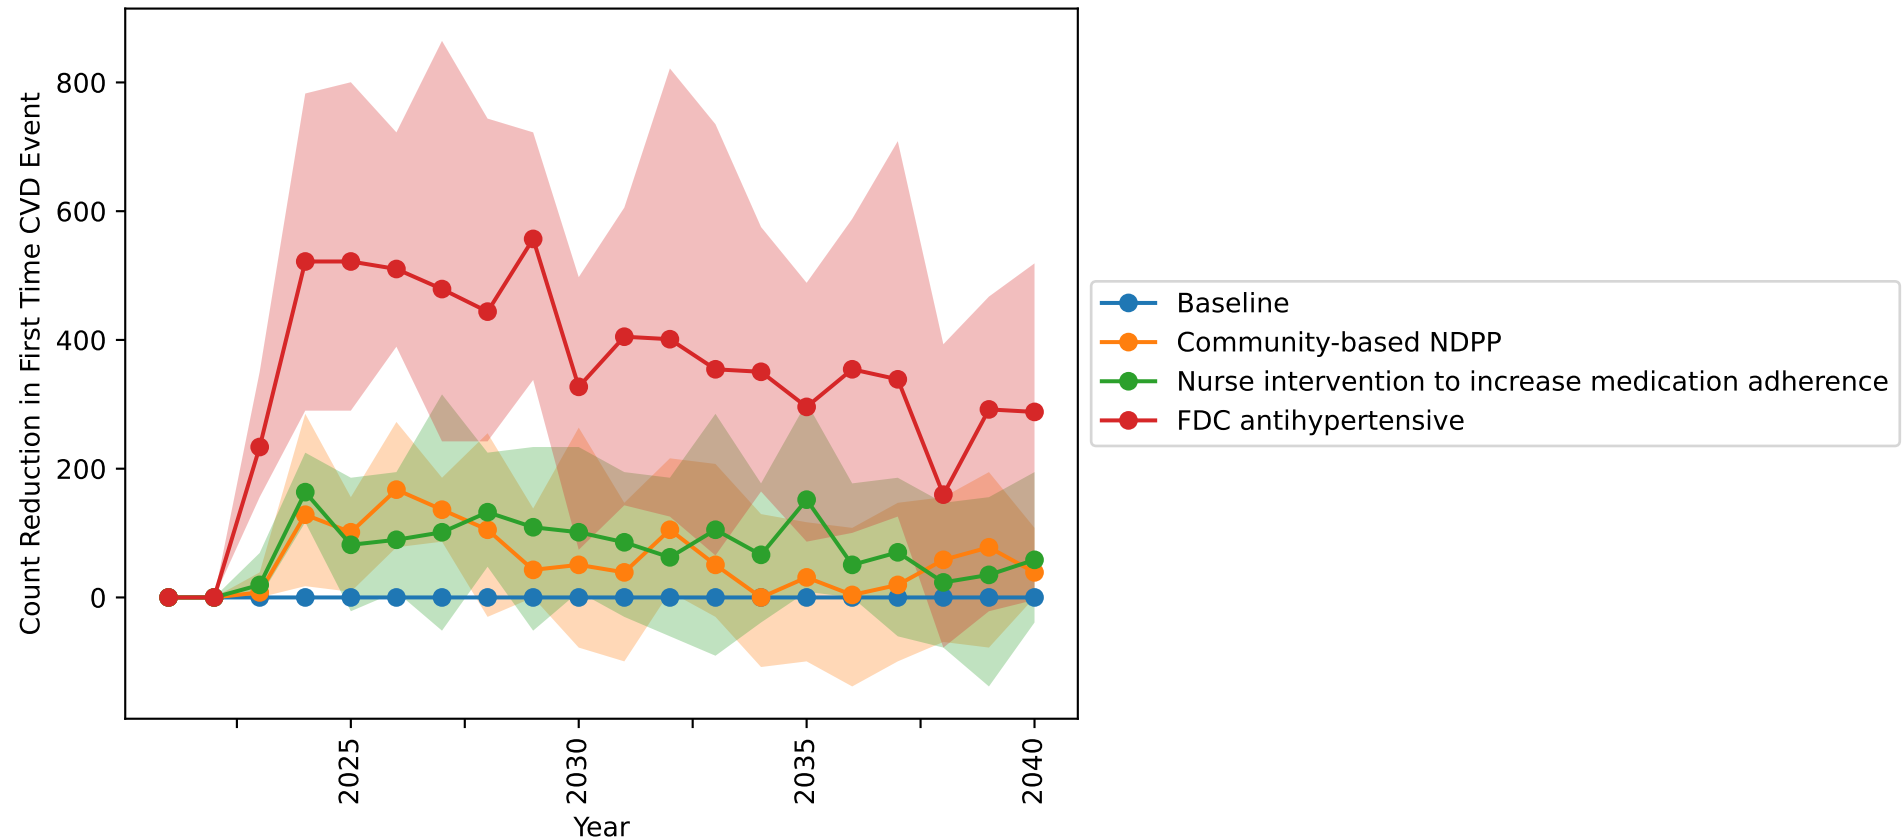

Count Reduction in First Time CVD Event for California and Male

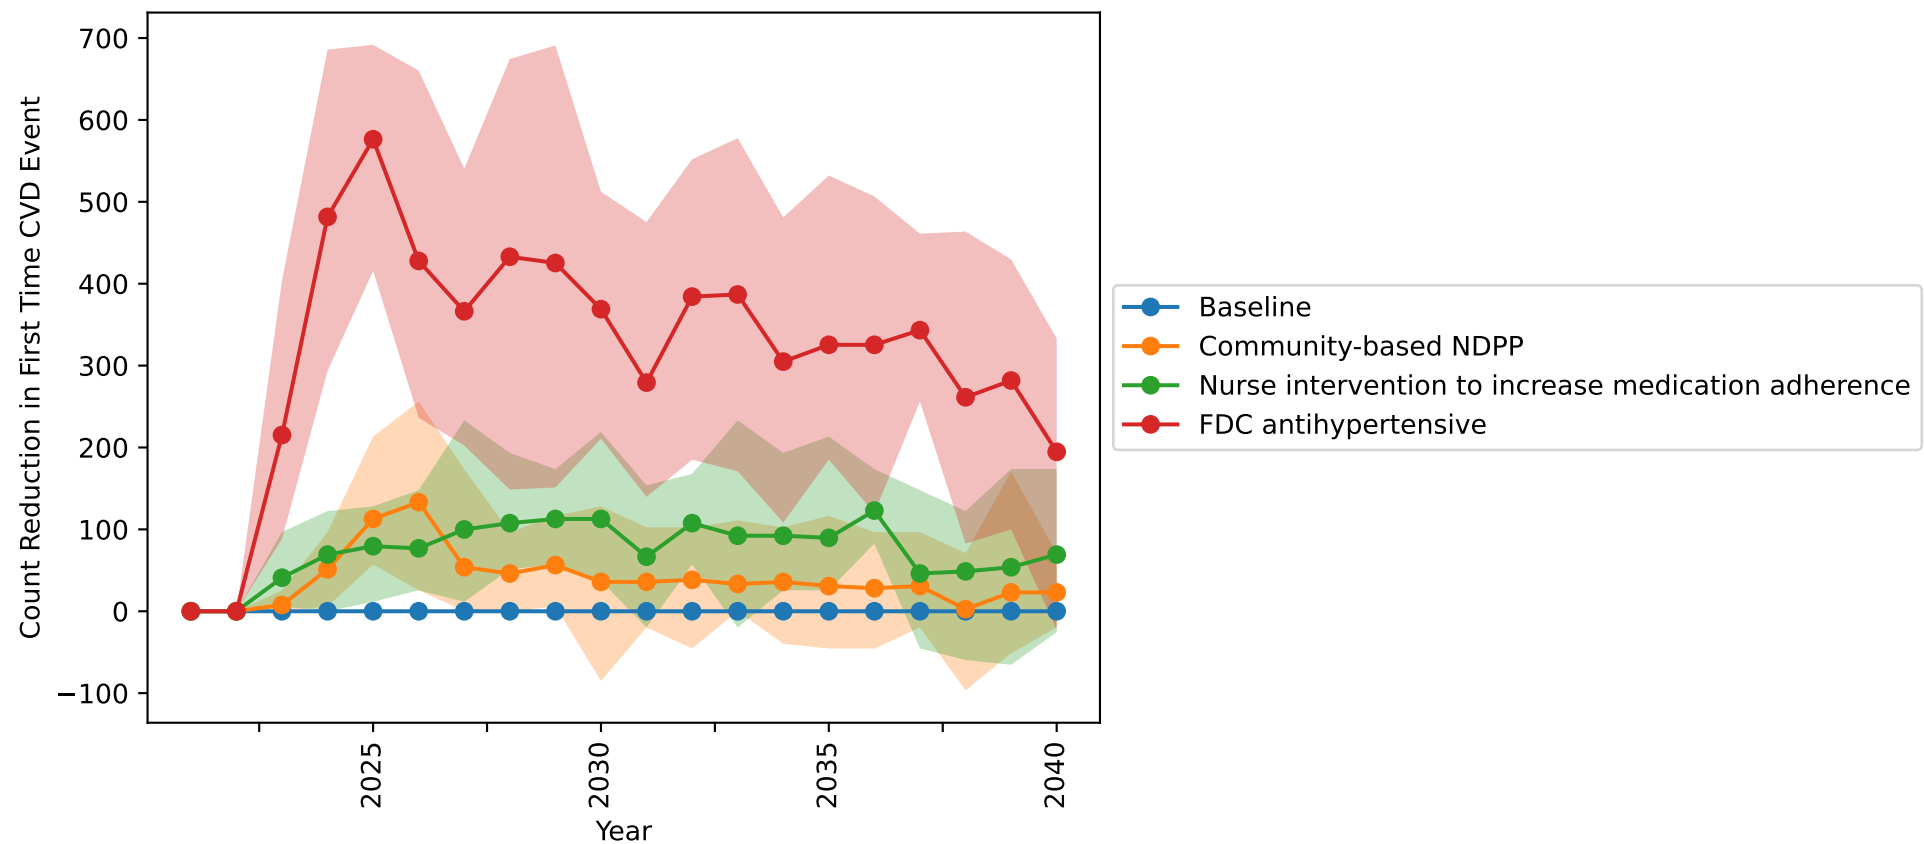

Count Reduction in First Time CVD Event for Colorado and Female

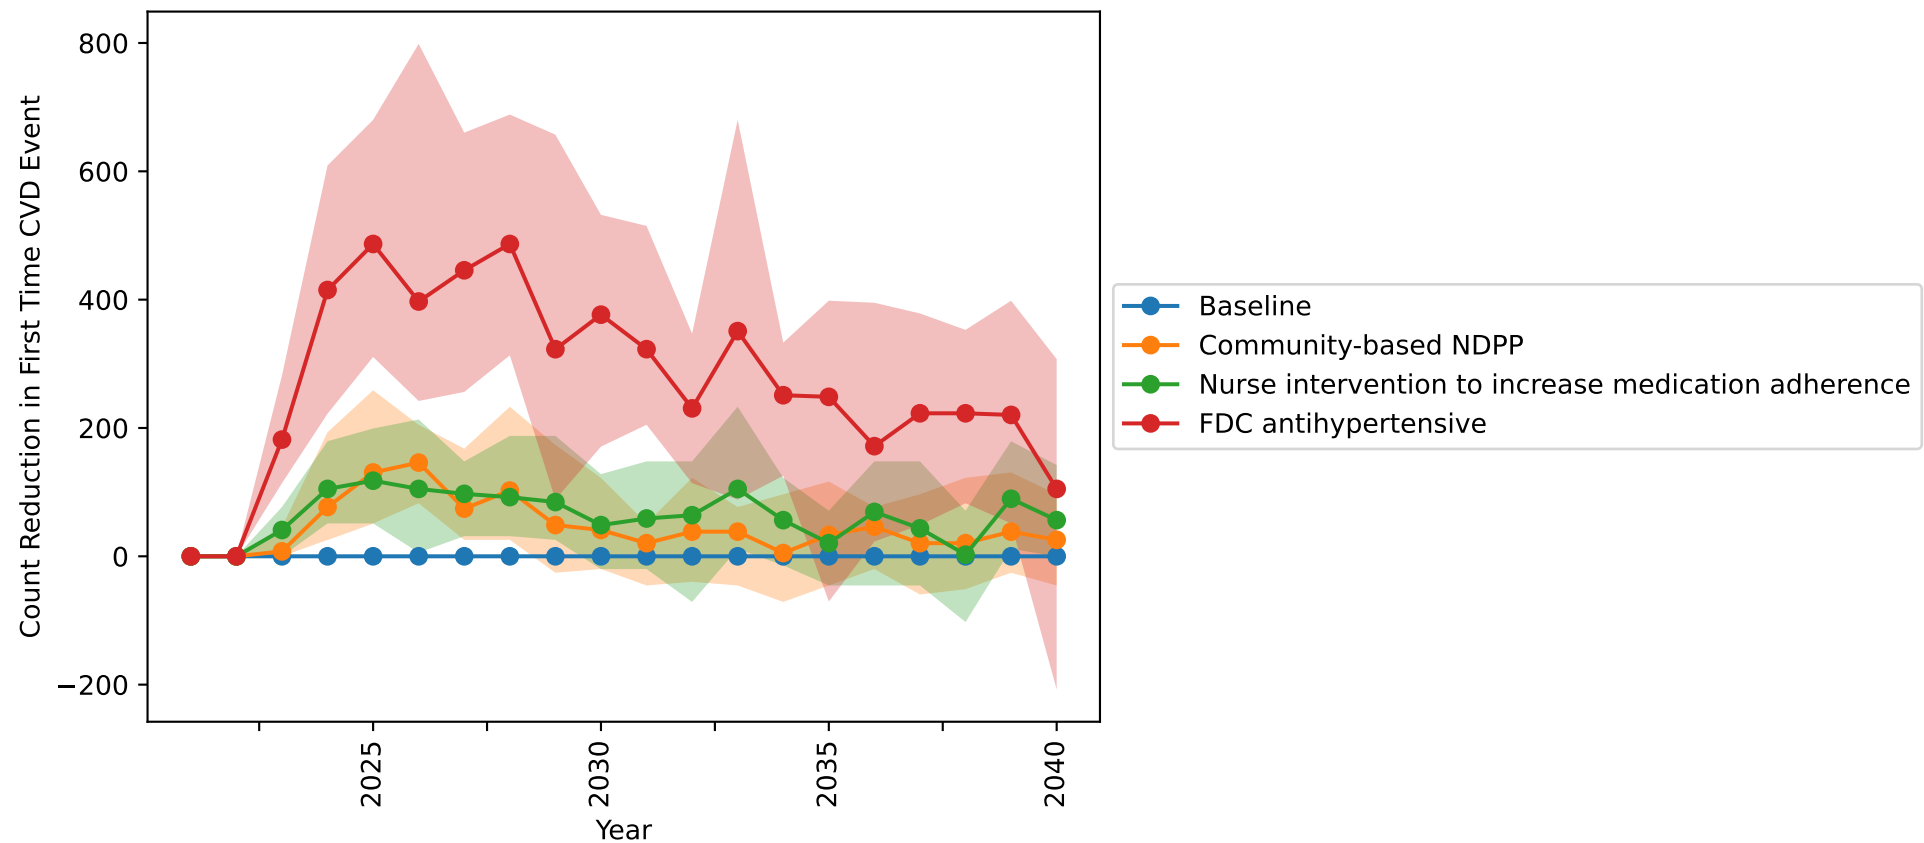

Count Reduction in First Time CVD Event for Colorado and Male

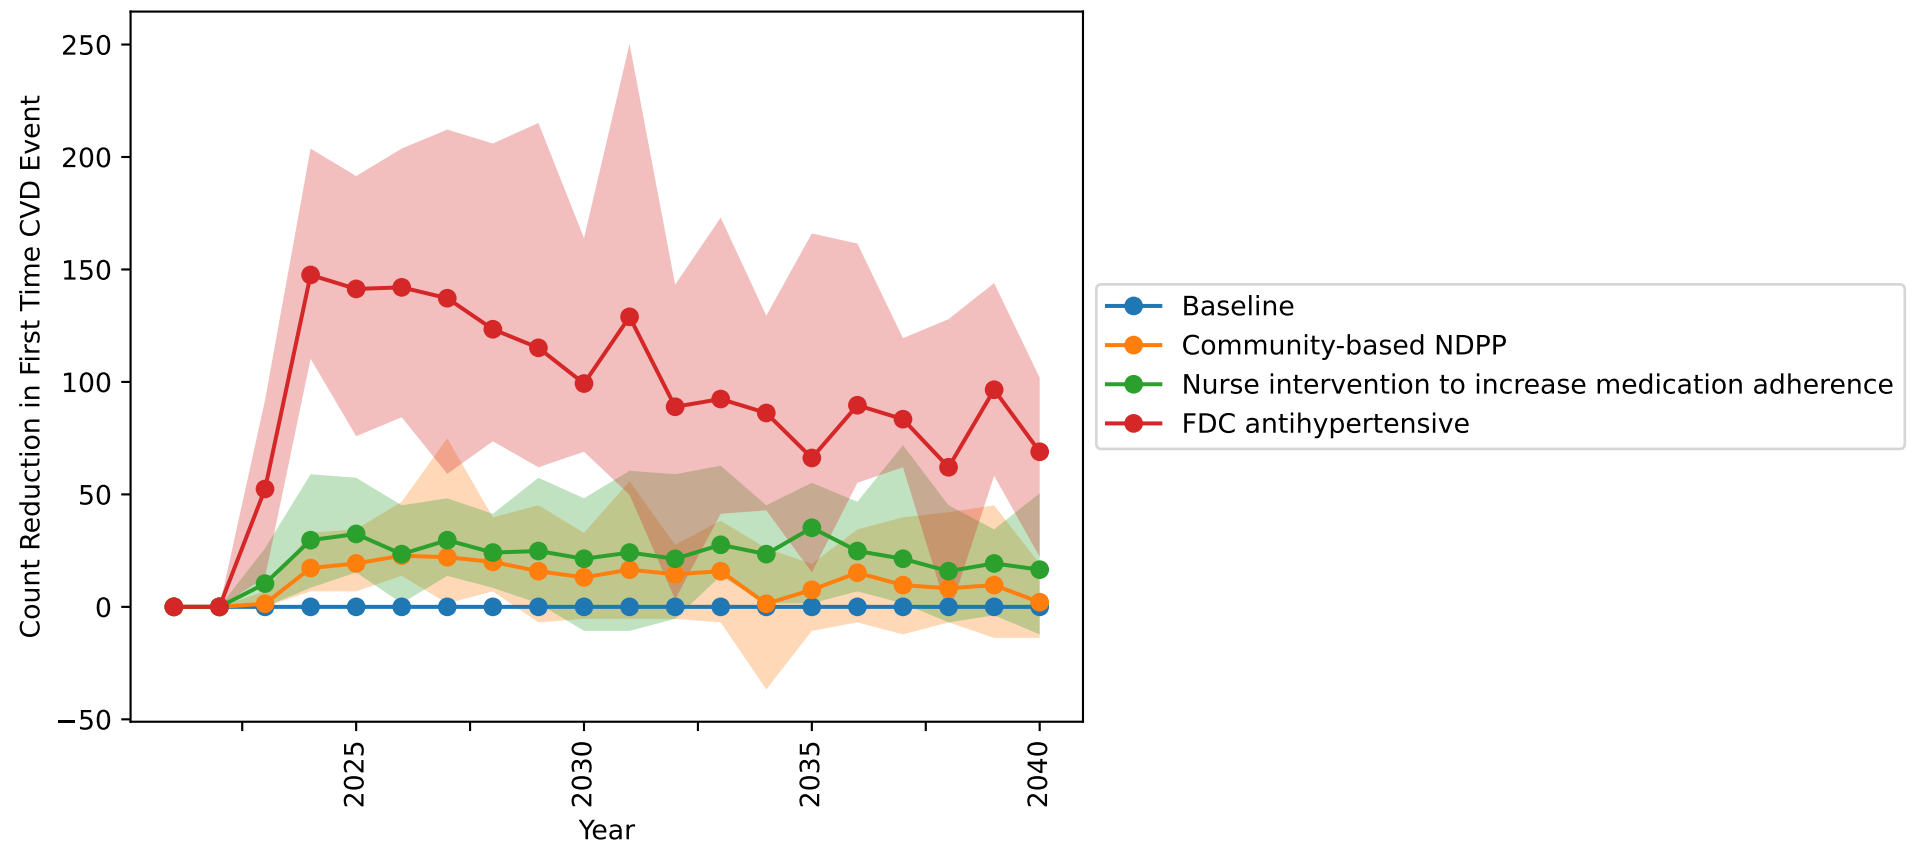

Count Reduction in First Time CVD Event for Connecticut and Female

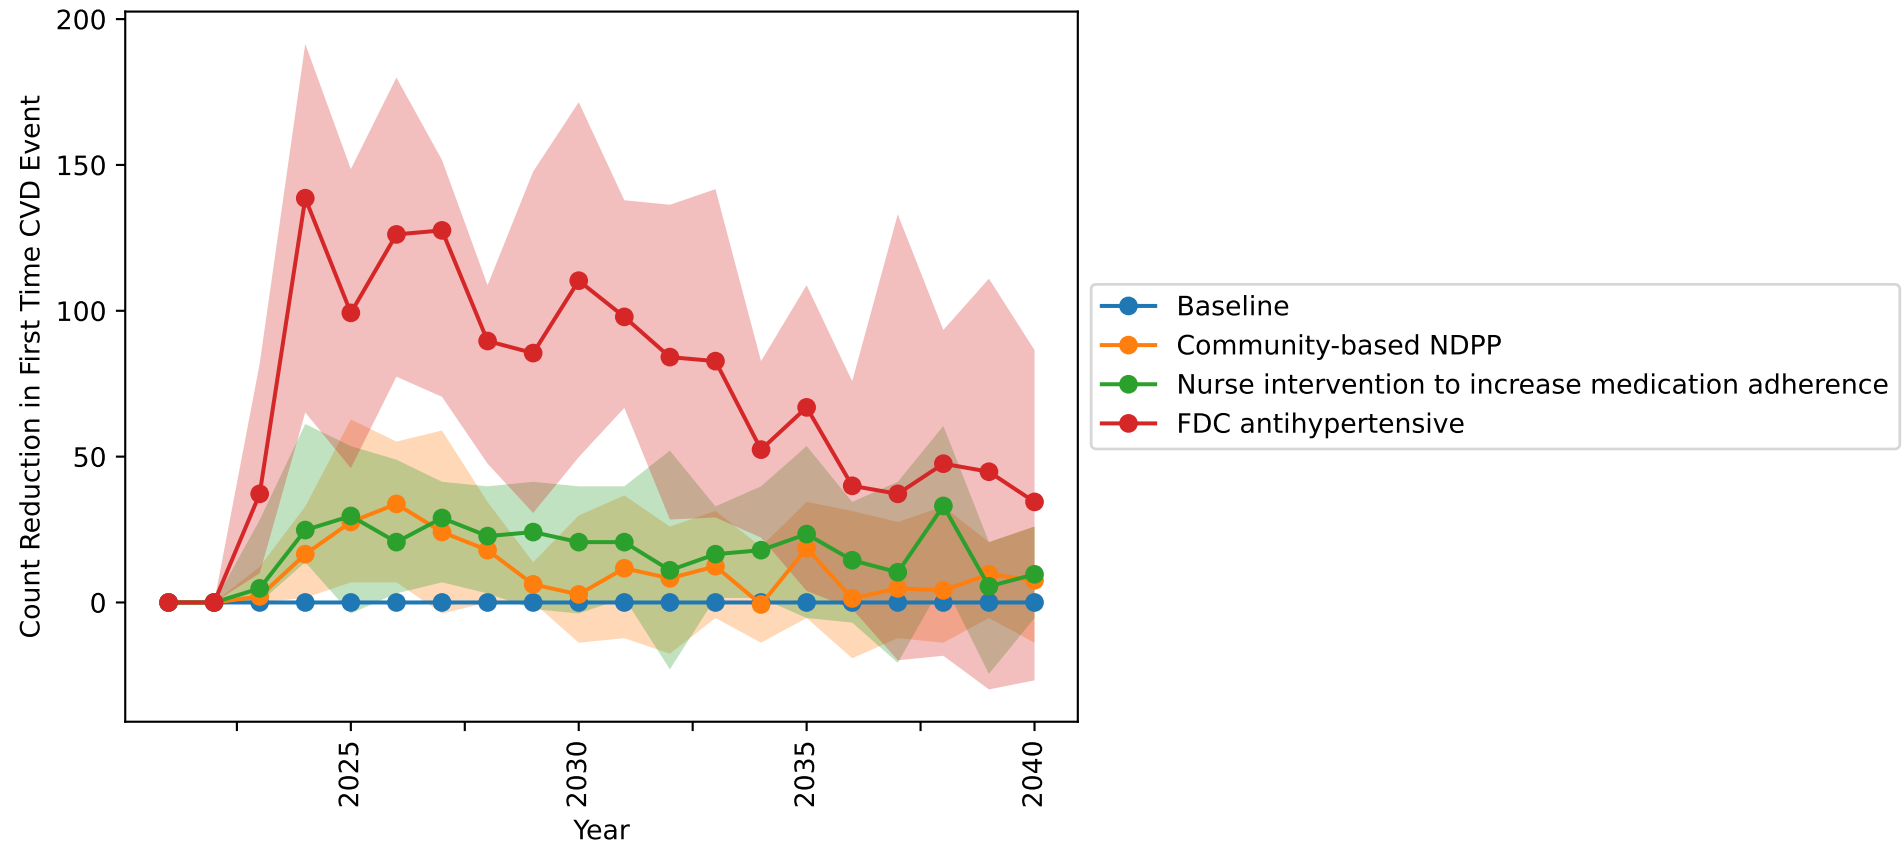

Count Reduction in First Time CVD Event for Connecticut and Male

Count Reduction in First Time CVD Event for Delaware and Female

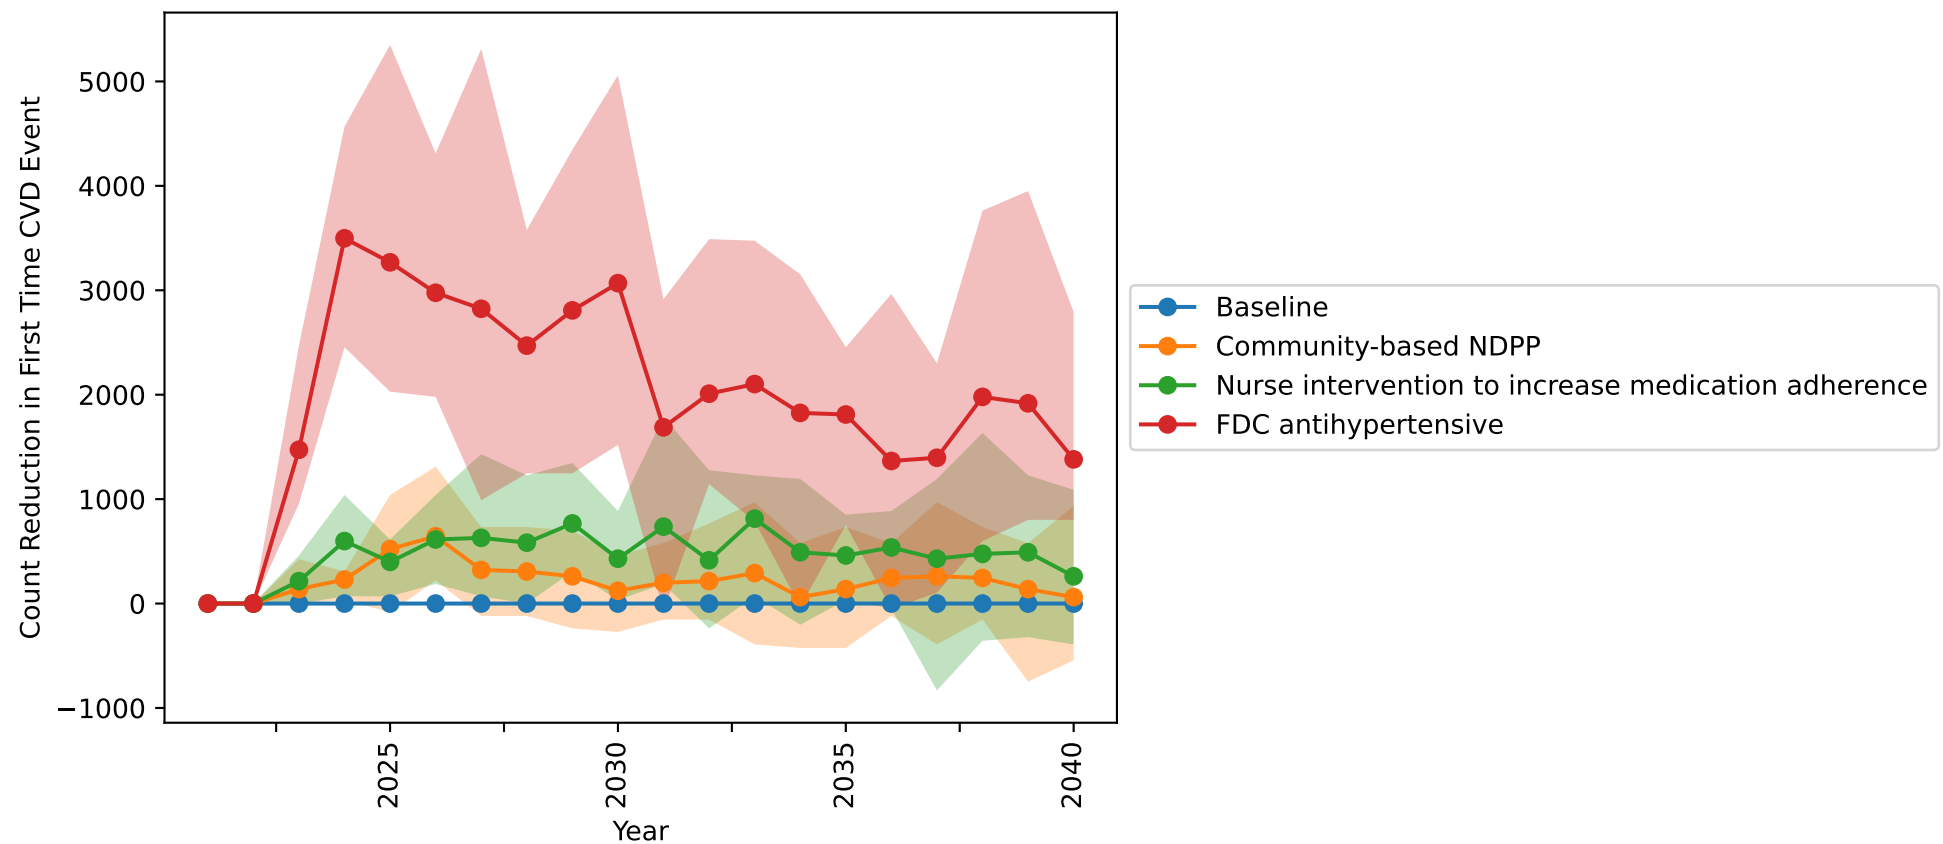

Count Reduction in First Time CVD Event for Delaware and Male

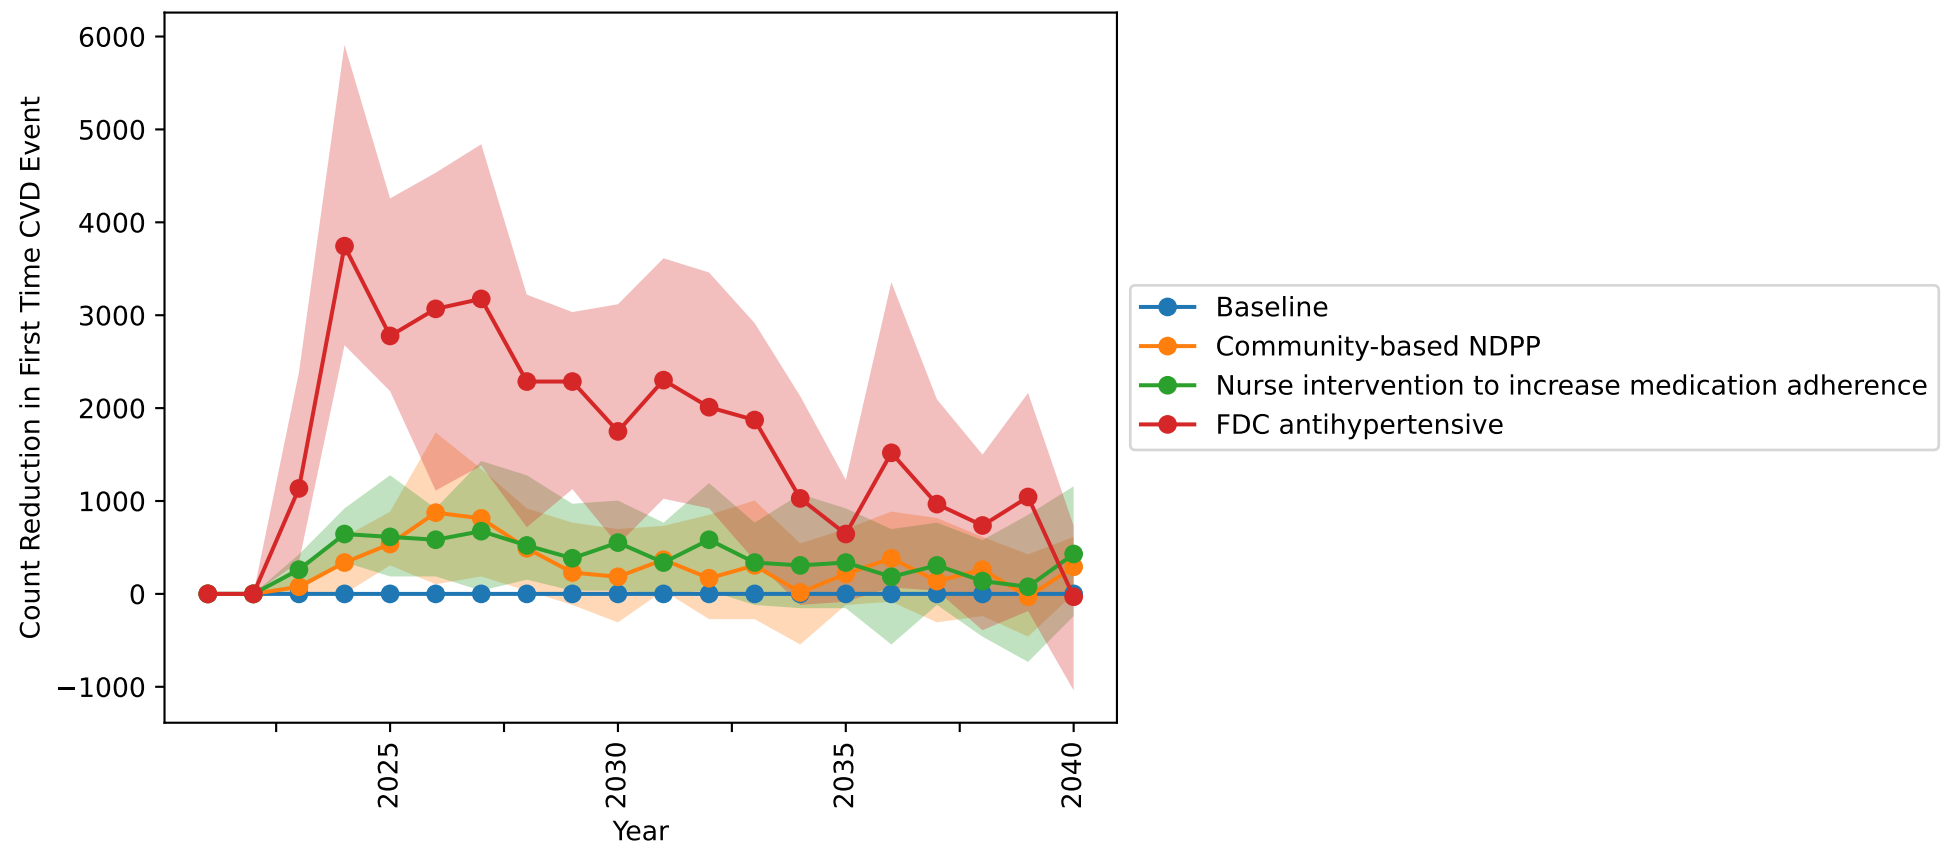

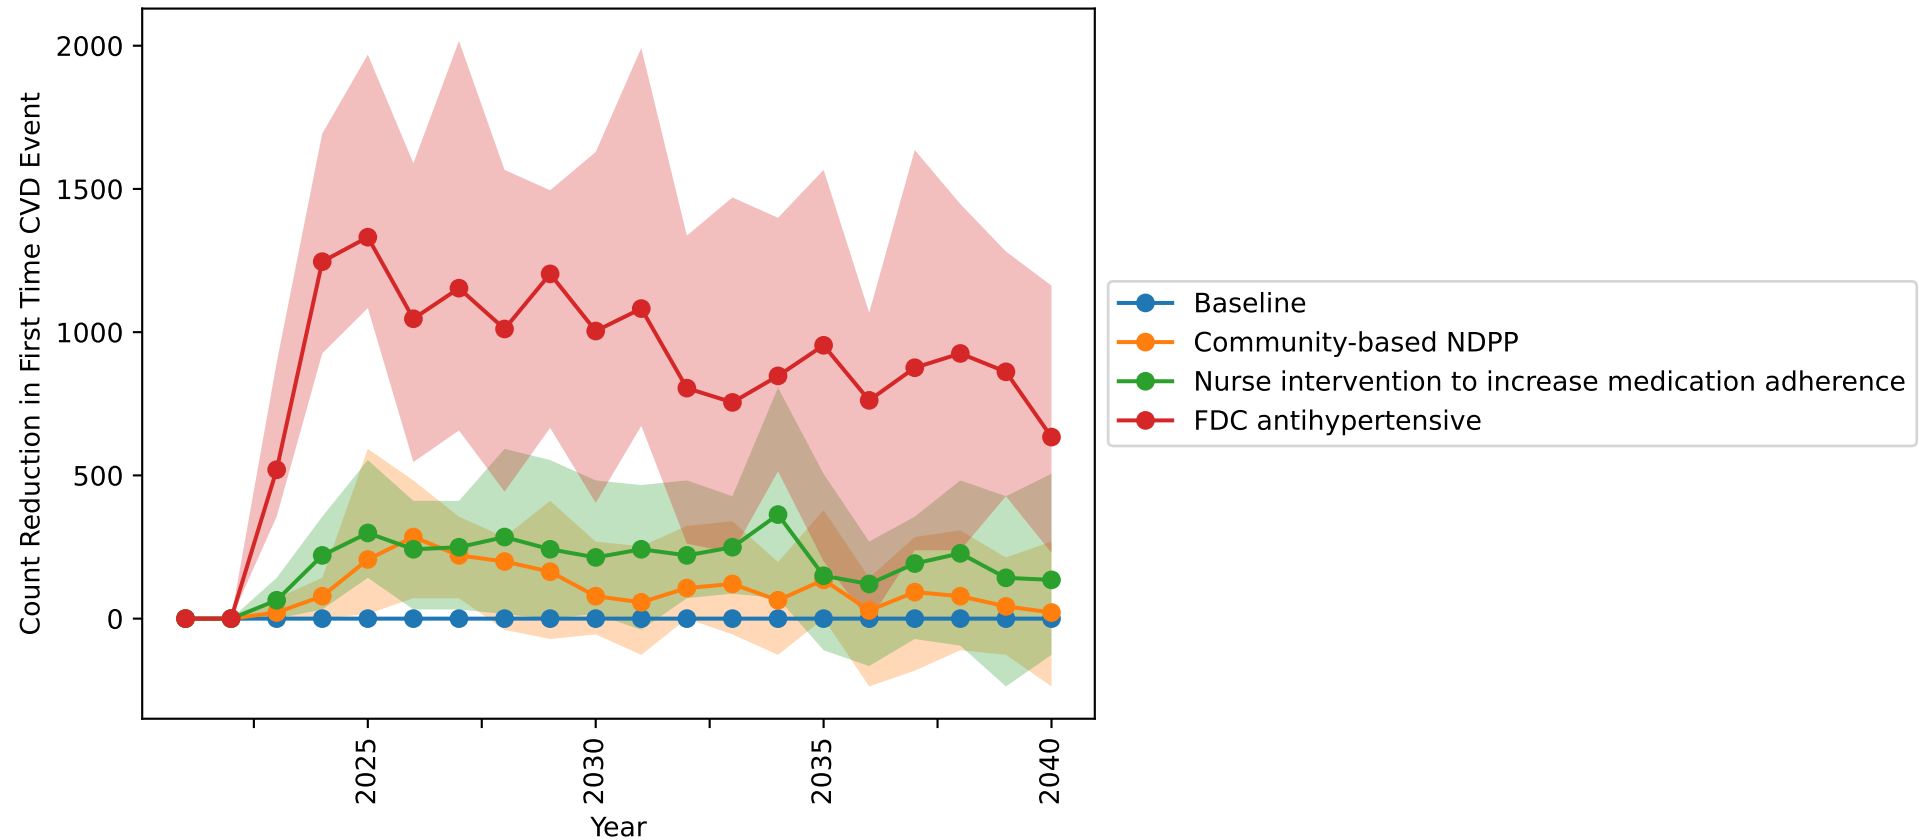

Count Reduction in First Time CVD Event for Florida and Female

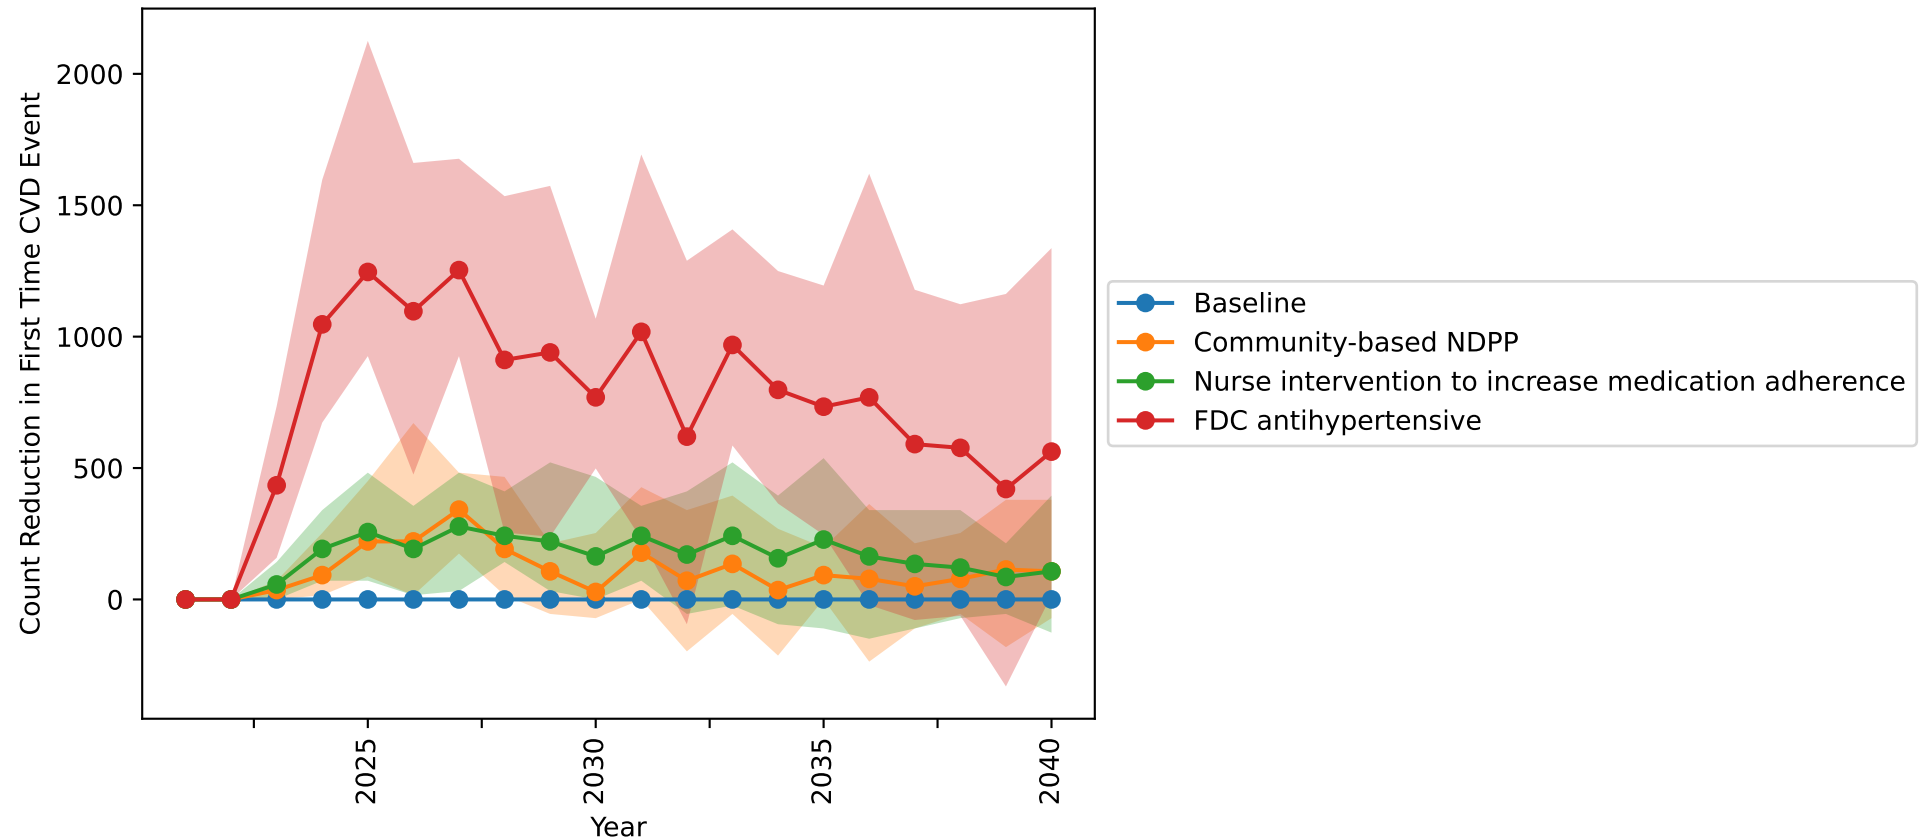

Count Reduction in First Time CVD Event for Florida and Male

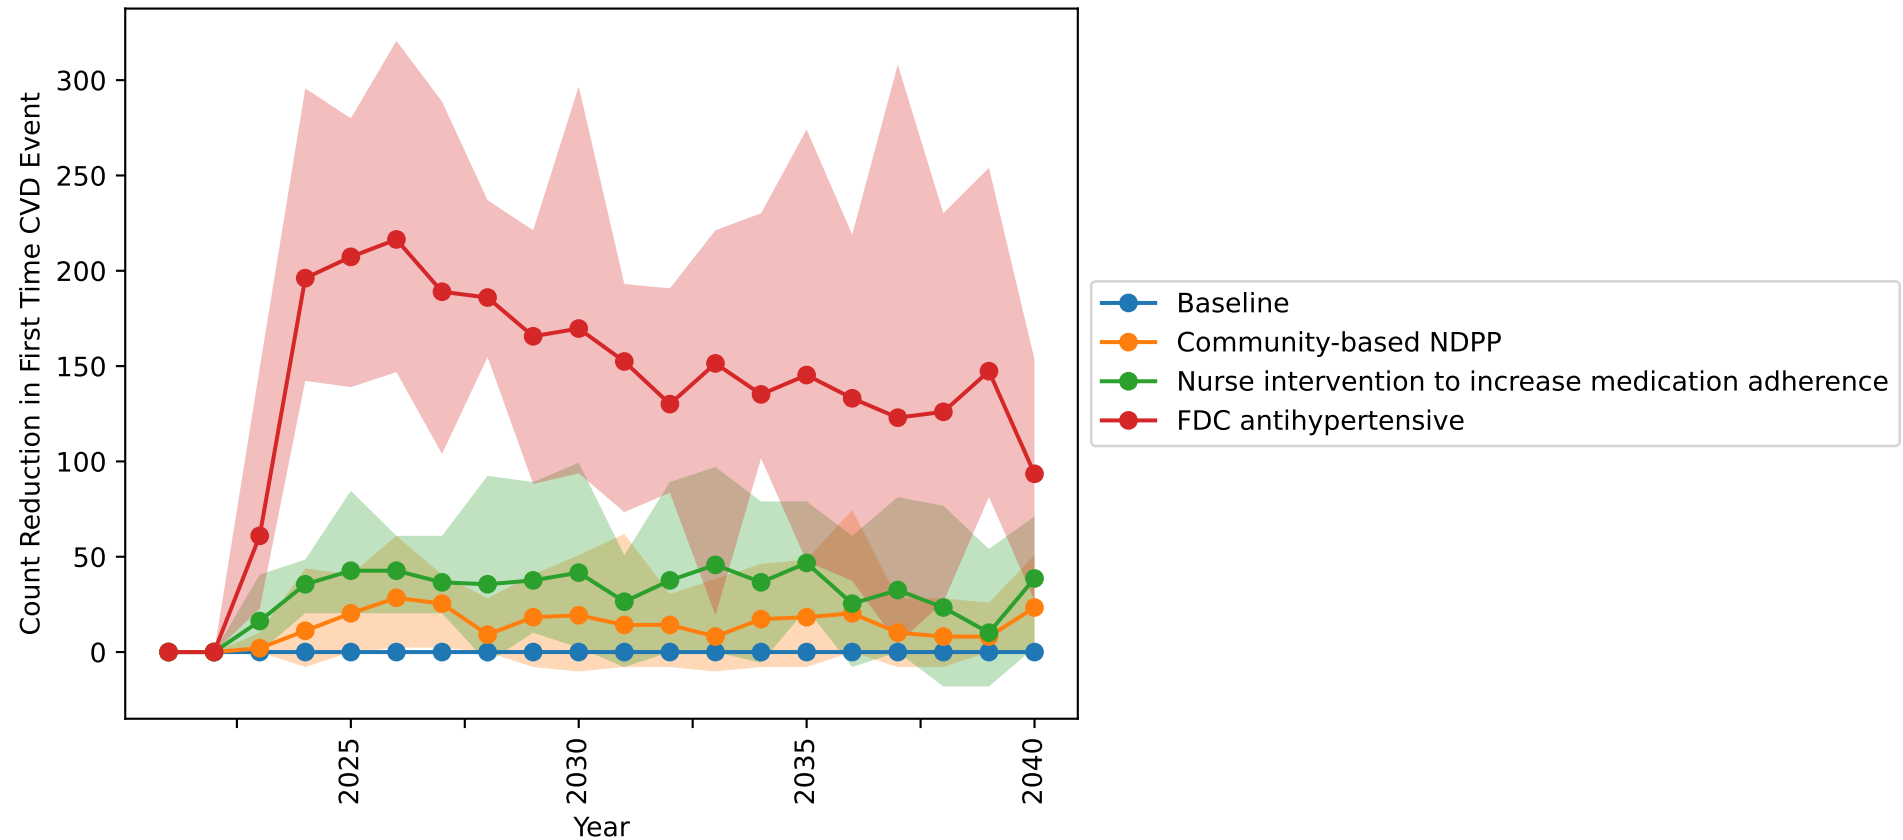

Count Reduction in First Time CVD Event for Georgia and Female

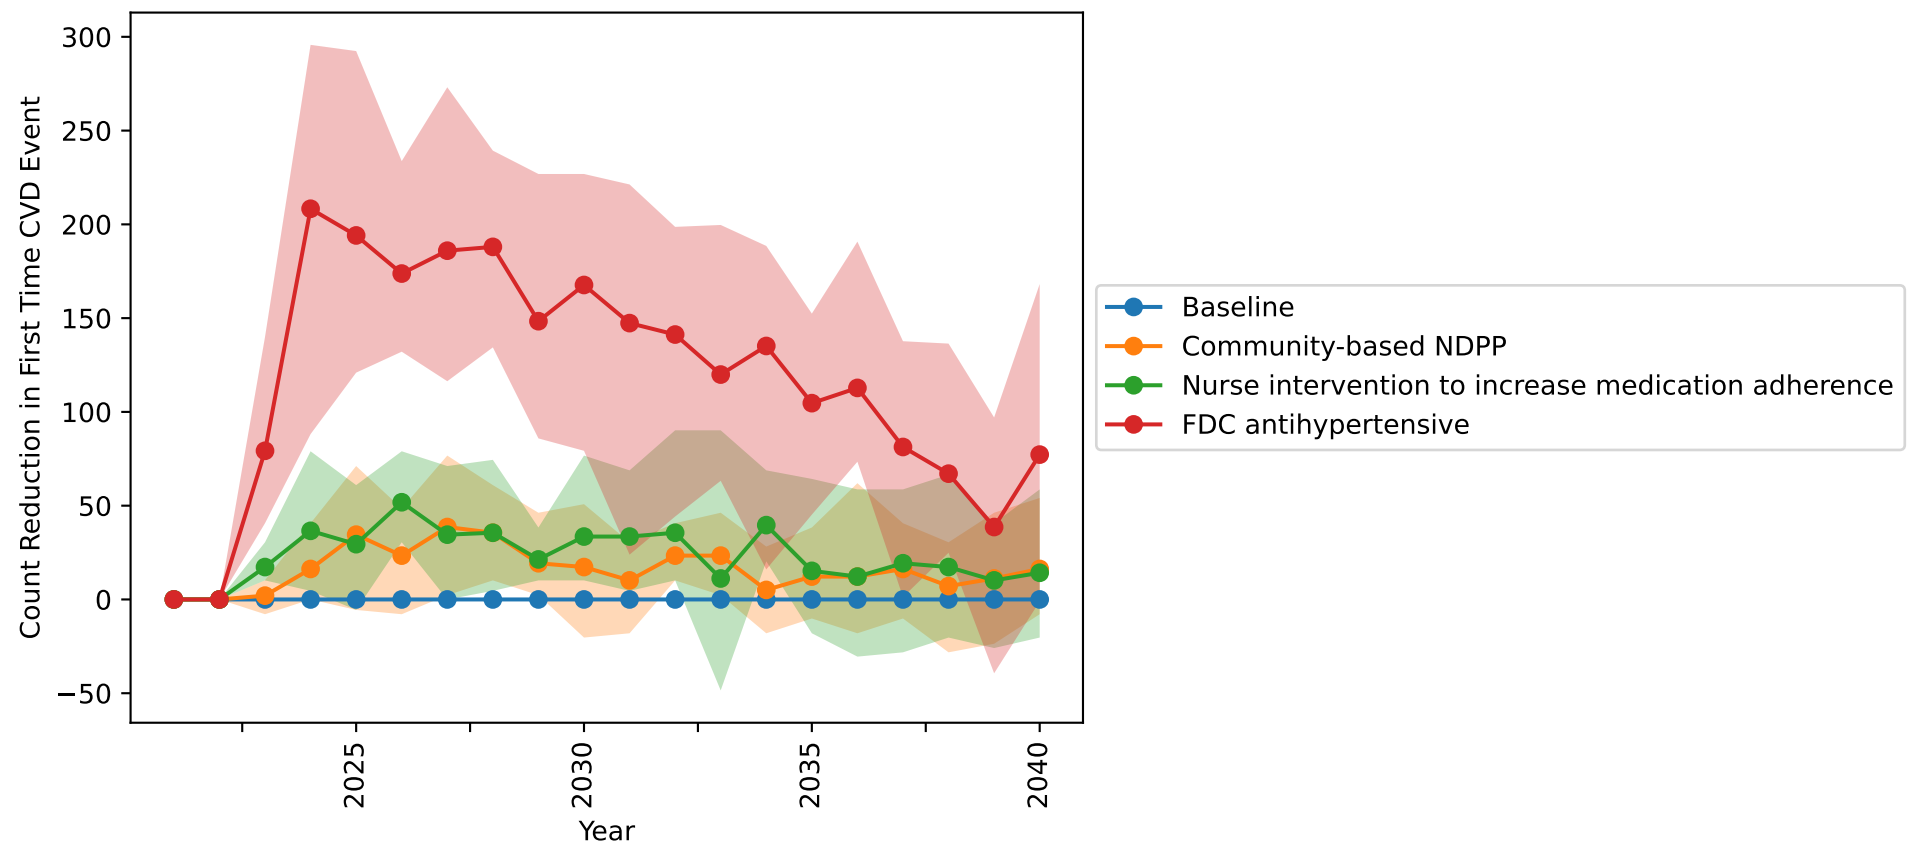

Count Reduction in First Time CVD Event for Georgia and Male

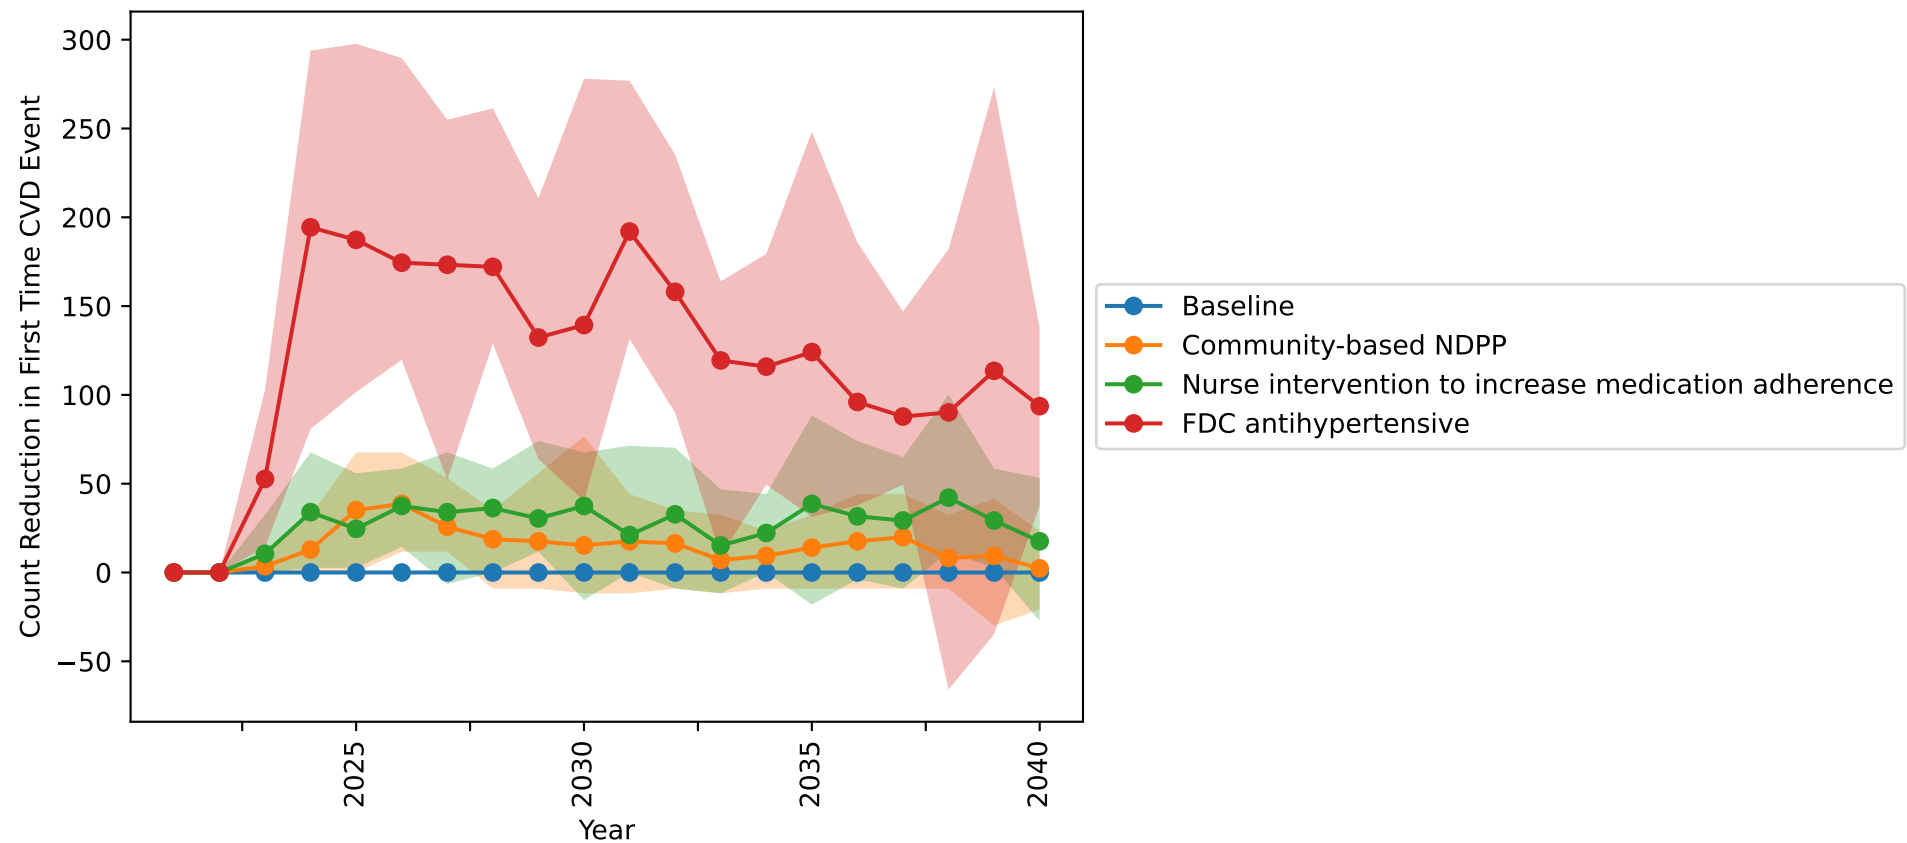

Count Reduction in First Time CVD Event for Hawaii and Female

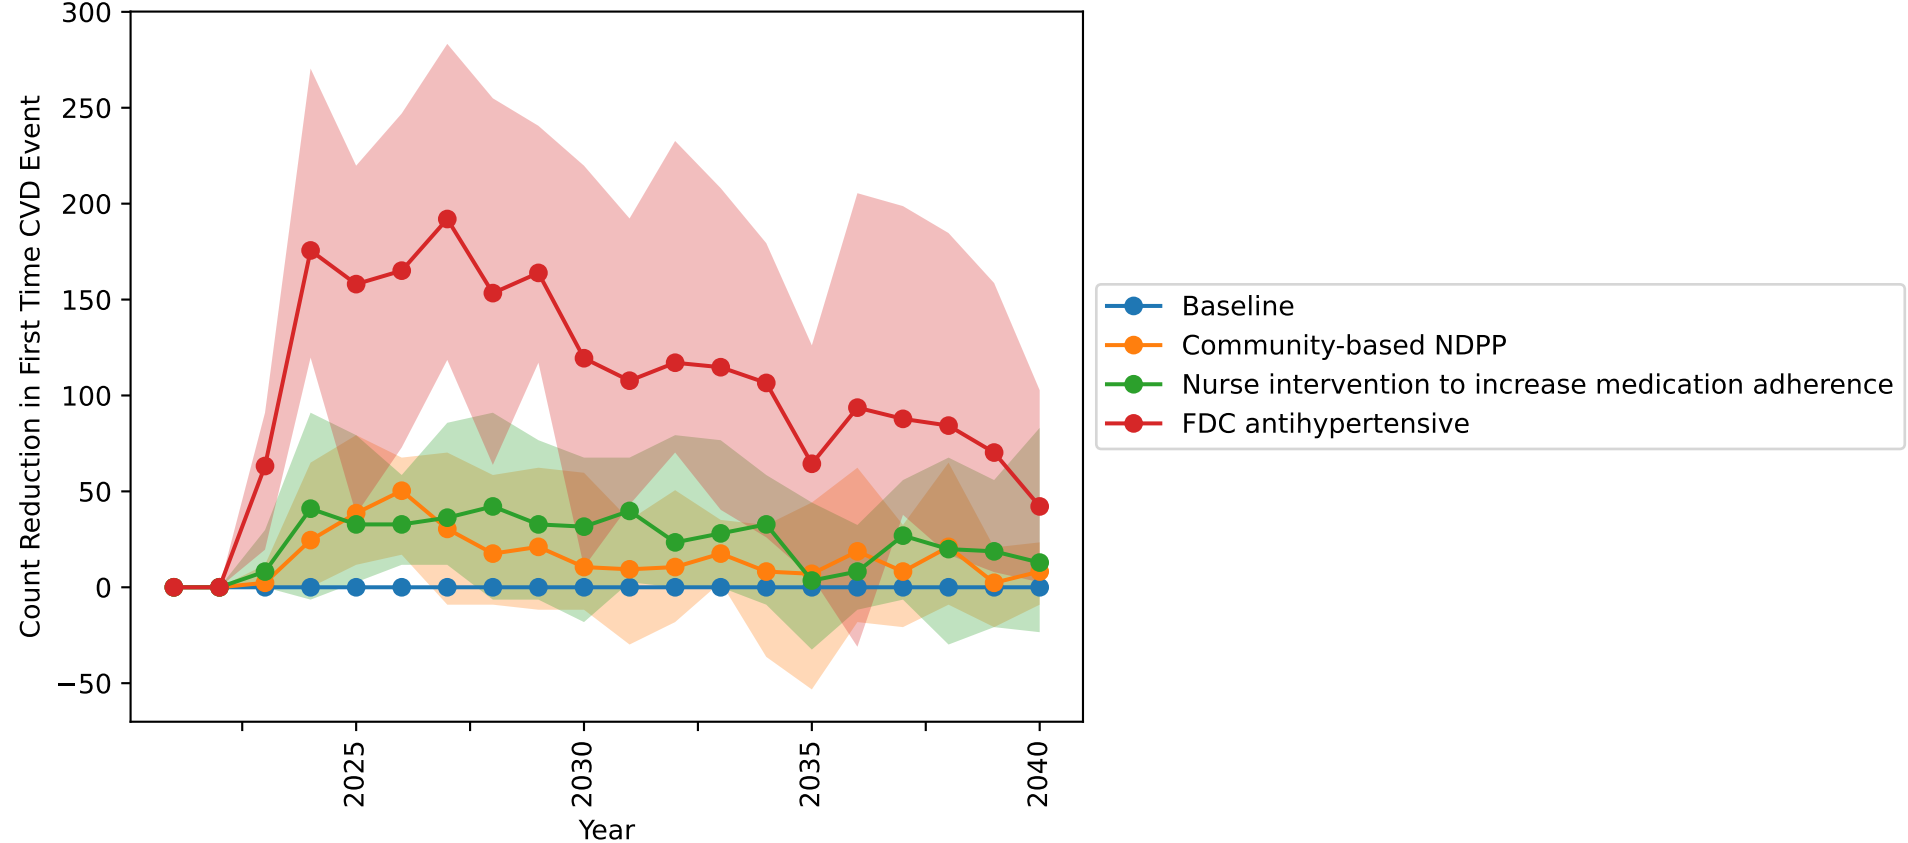

Count Reduction in First Time CVD Event for Hawaii and Male

Count Reduction in First Time CVD Event for Idaho and Female

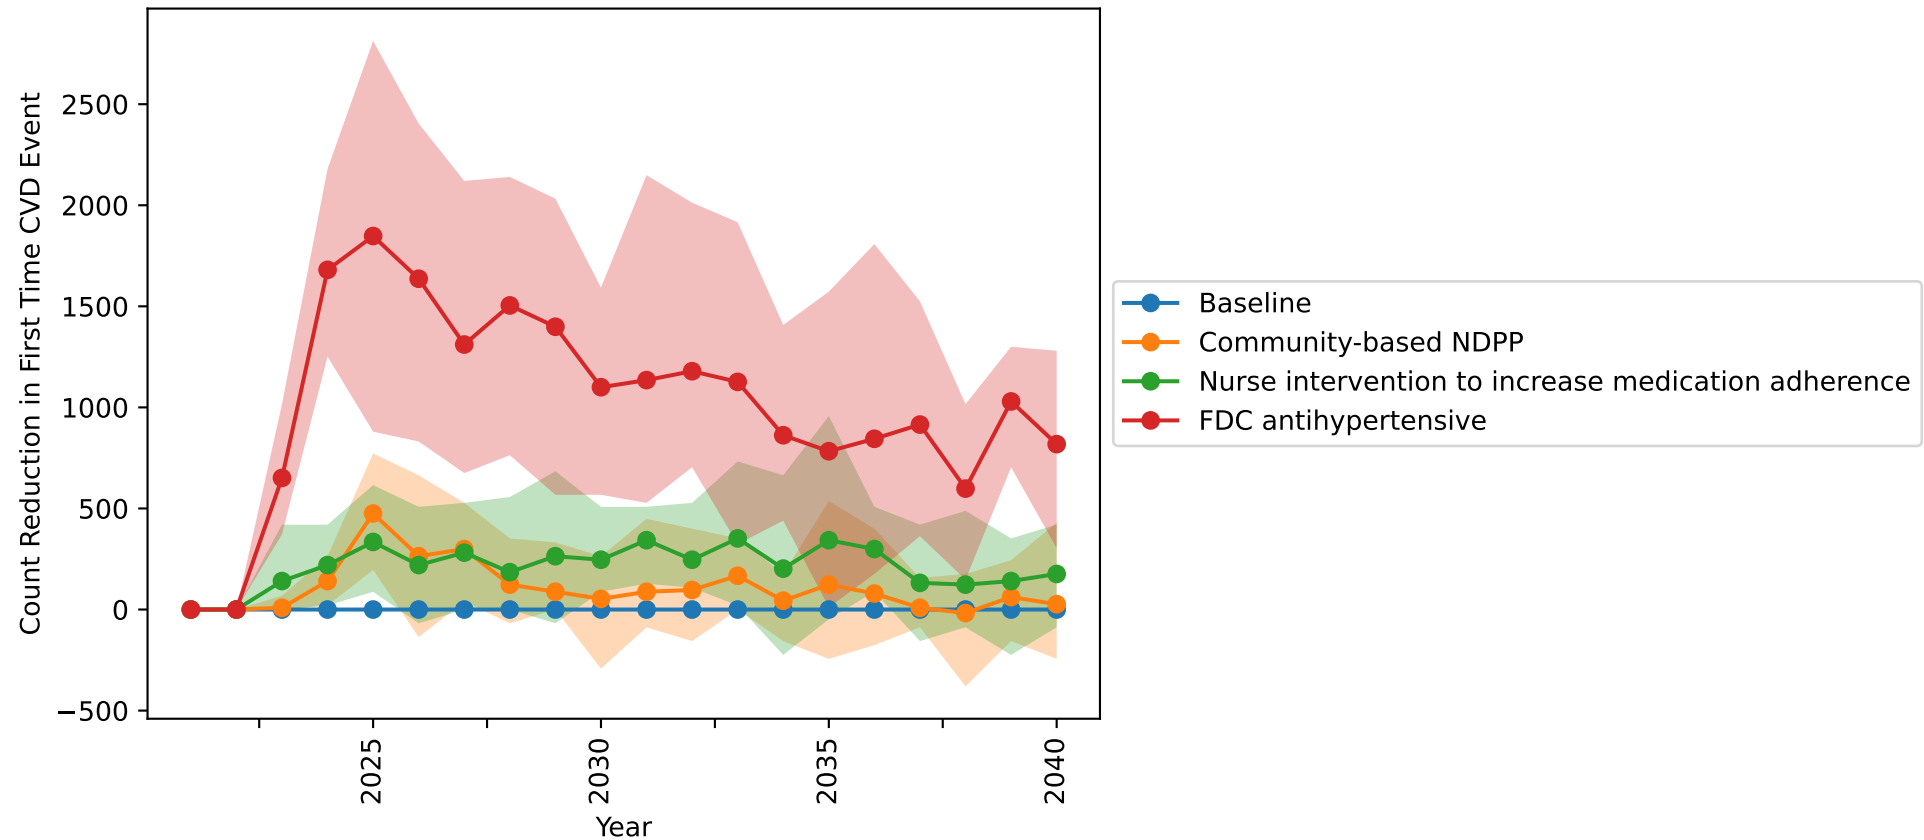

Count Reduction in First Time CVD Event for Idaho and Male

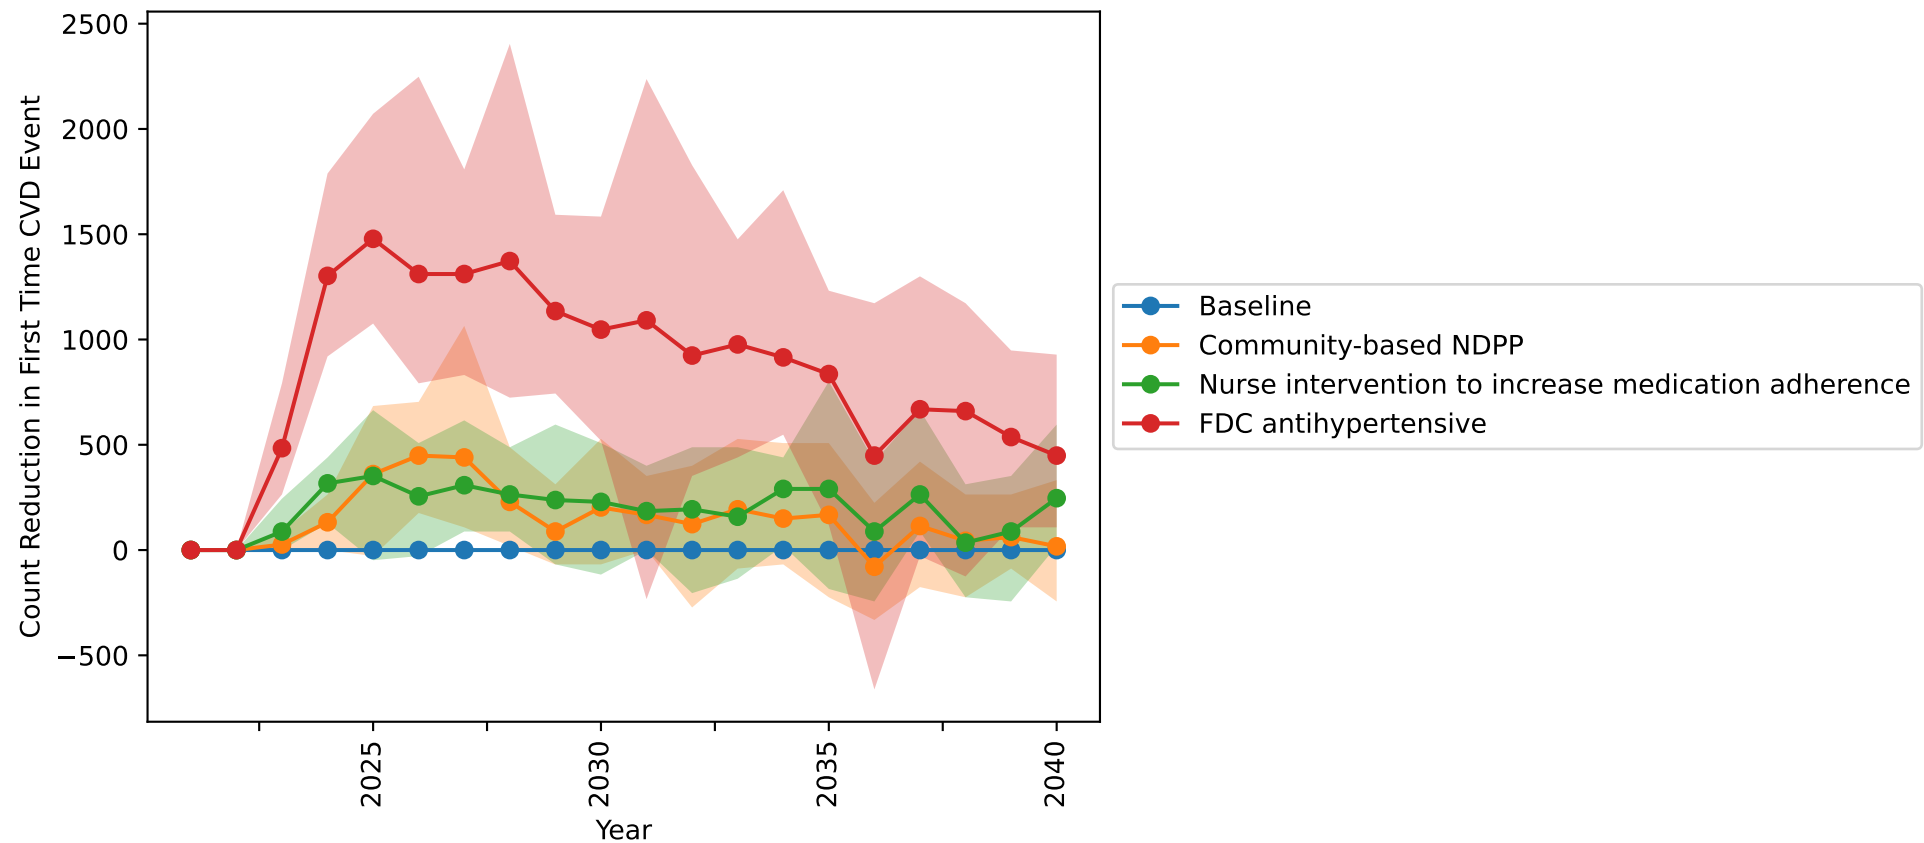

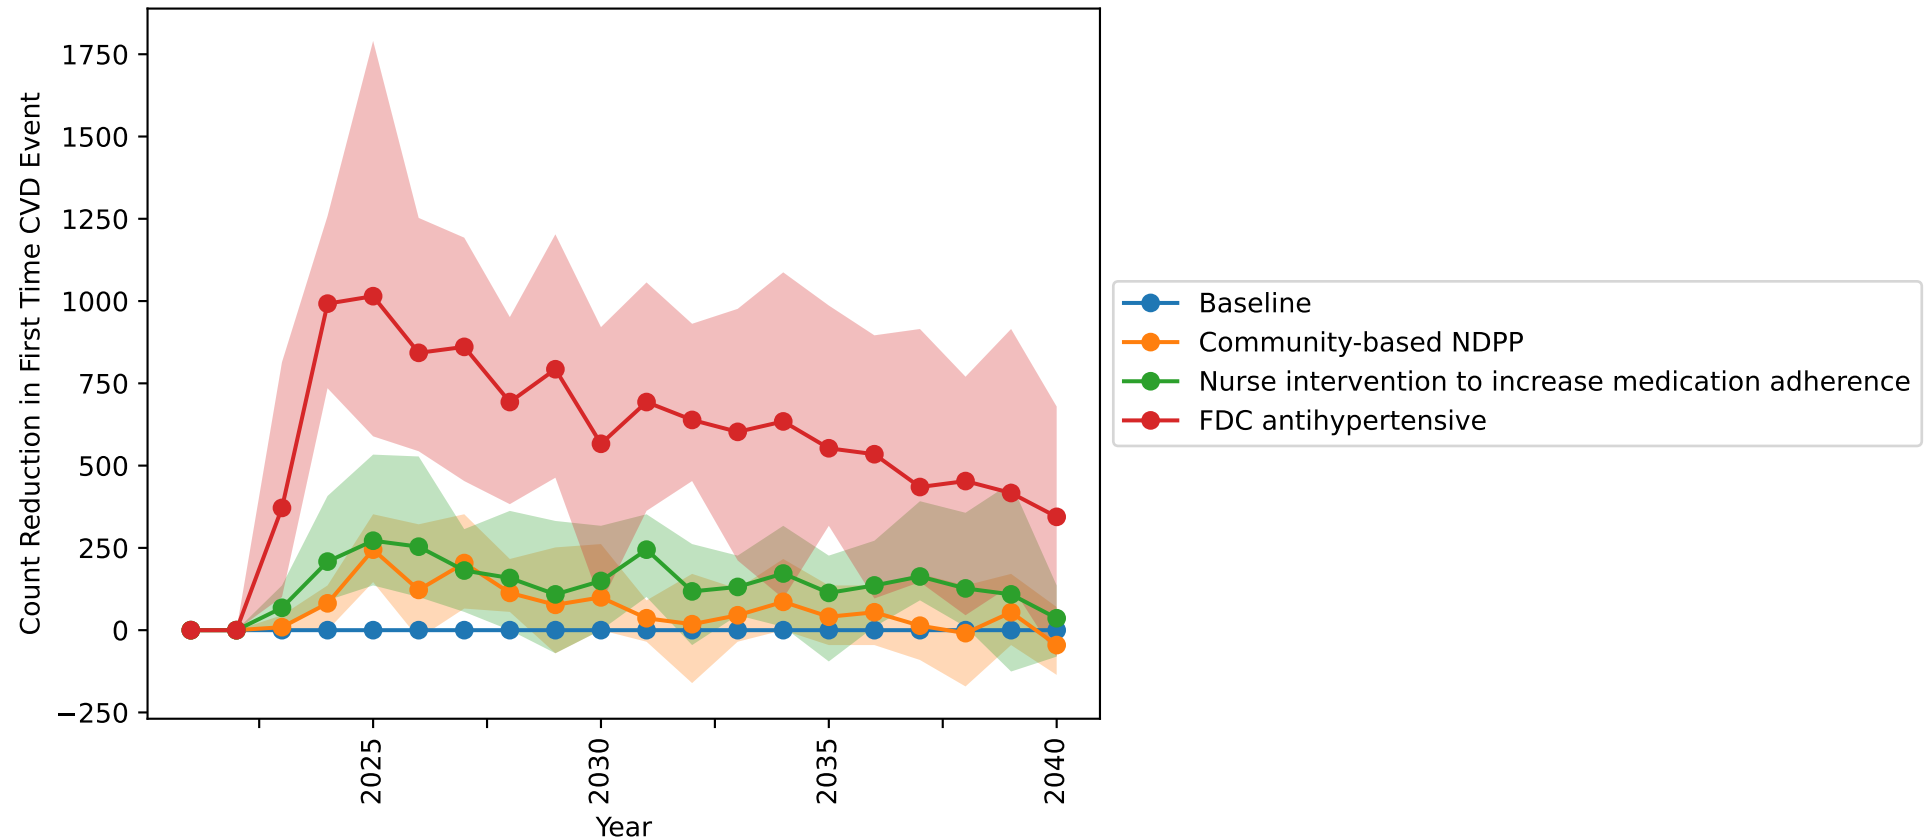

Count Reduction in First Time CVD Event for Illinois and Female

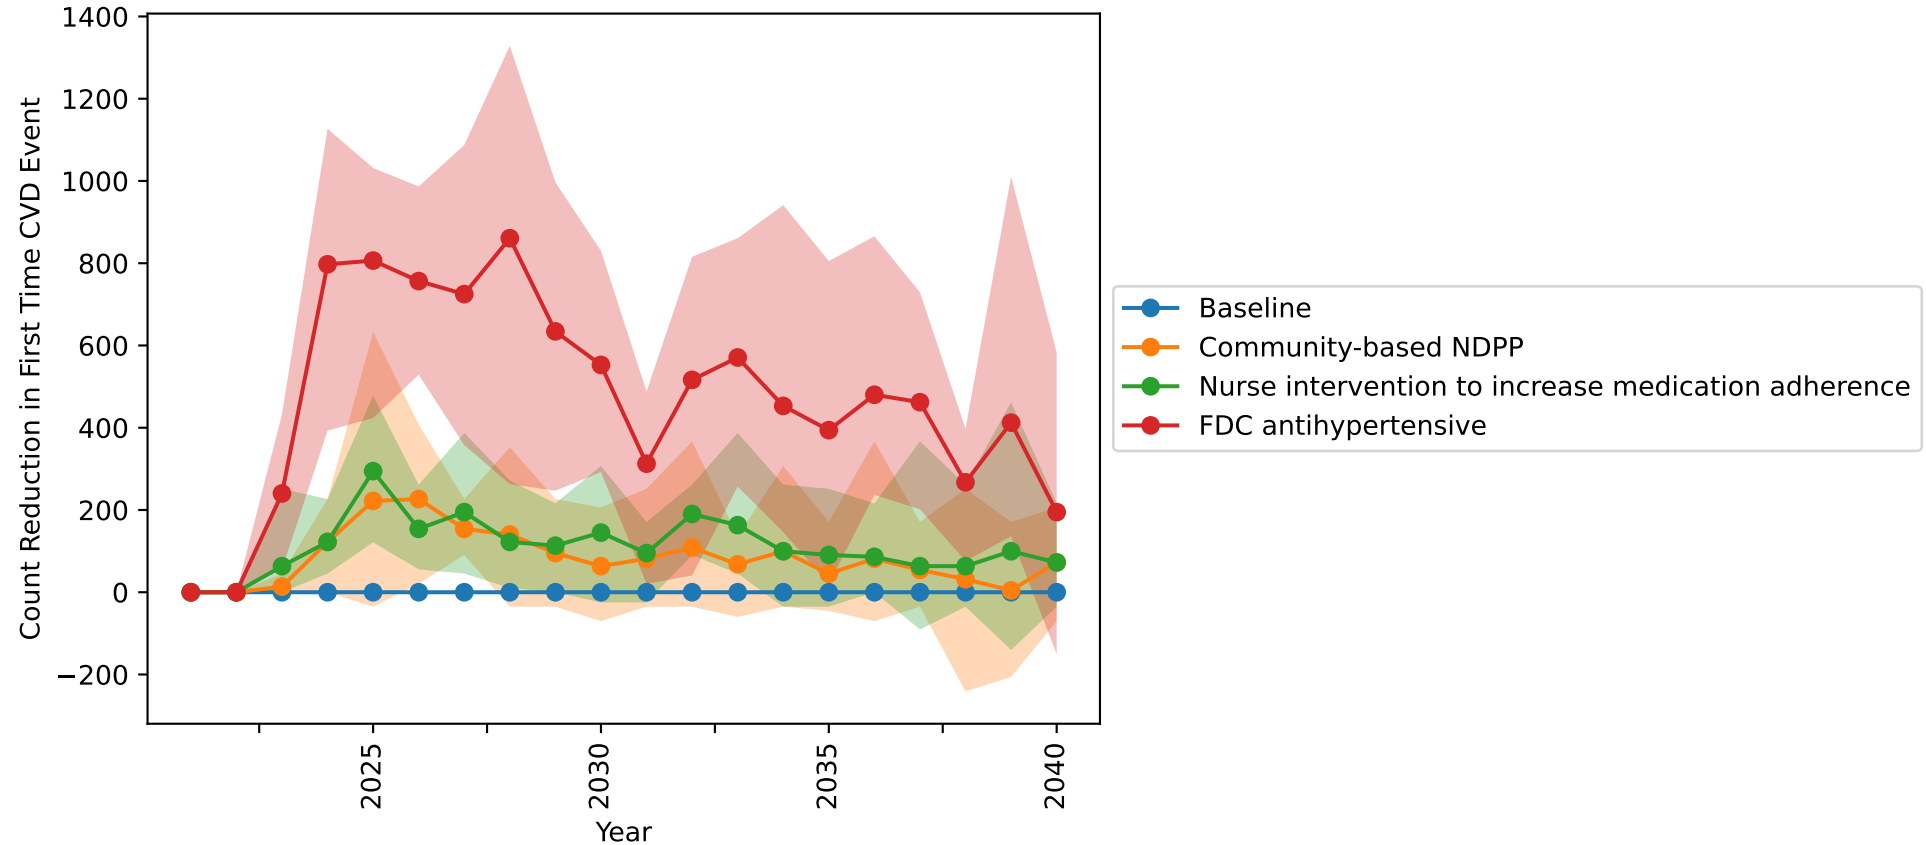

Count Reduction in First Time CVD Event for Illinois and Male

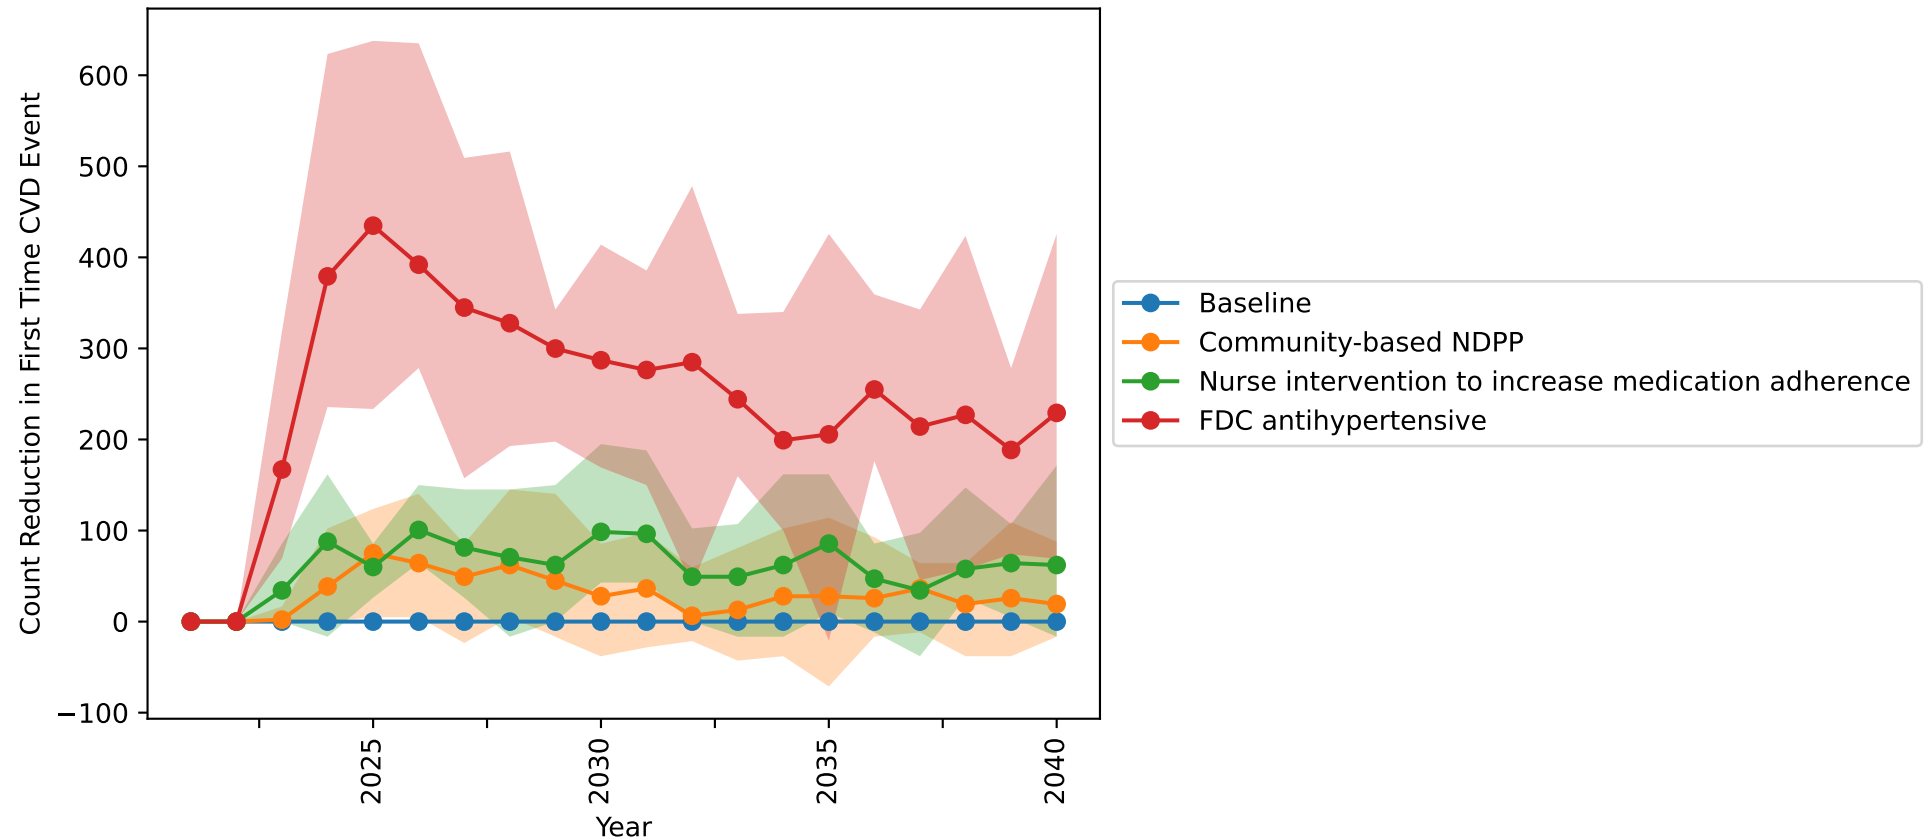

Count Reduction in First Time CVD Event for Indiana and Female

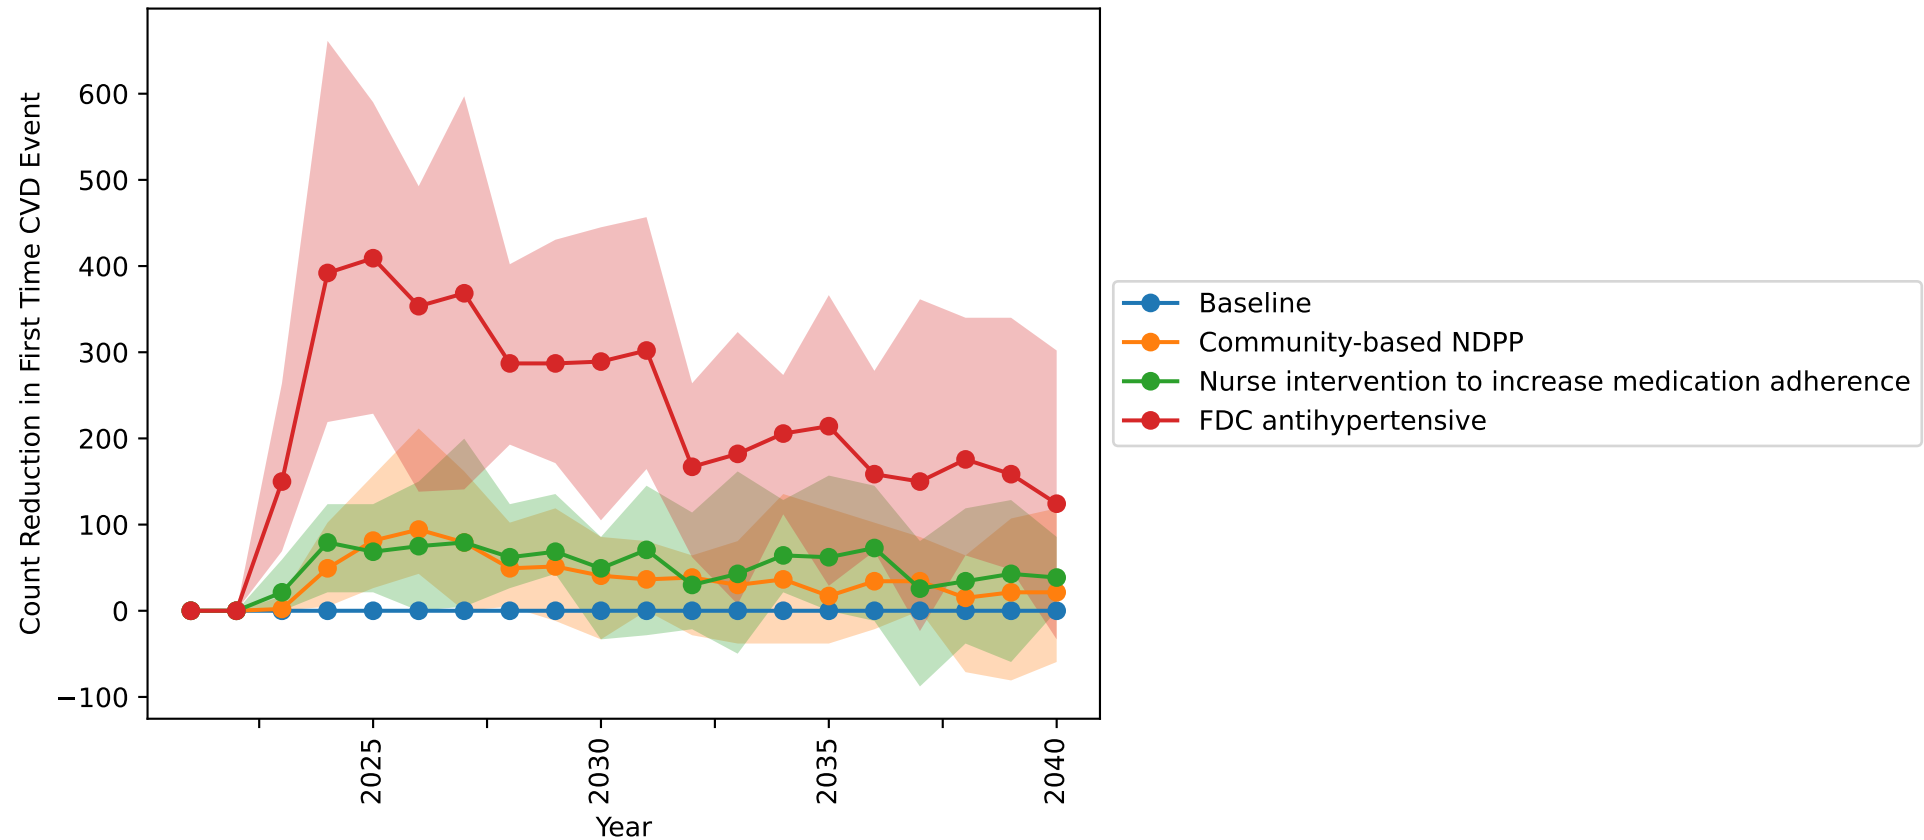

Count Reduction in First Time CVD Event for Indiana and Male

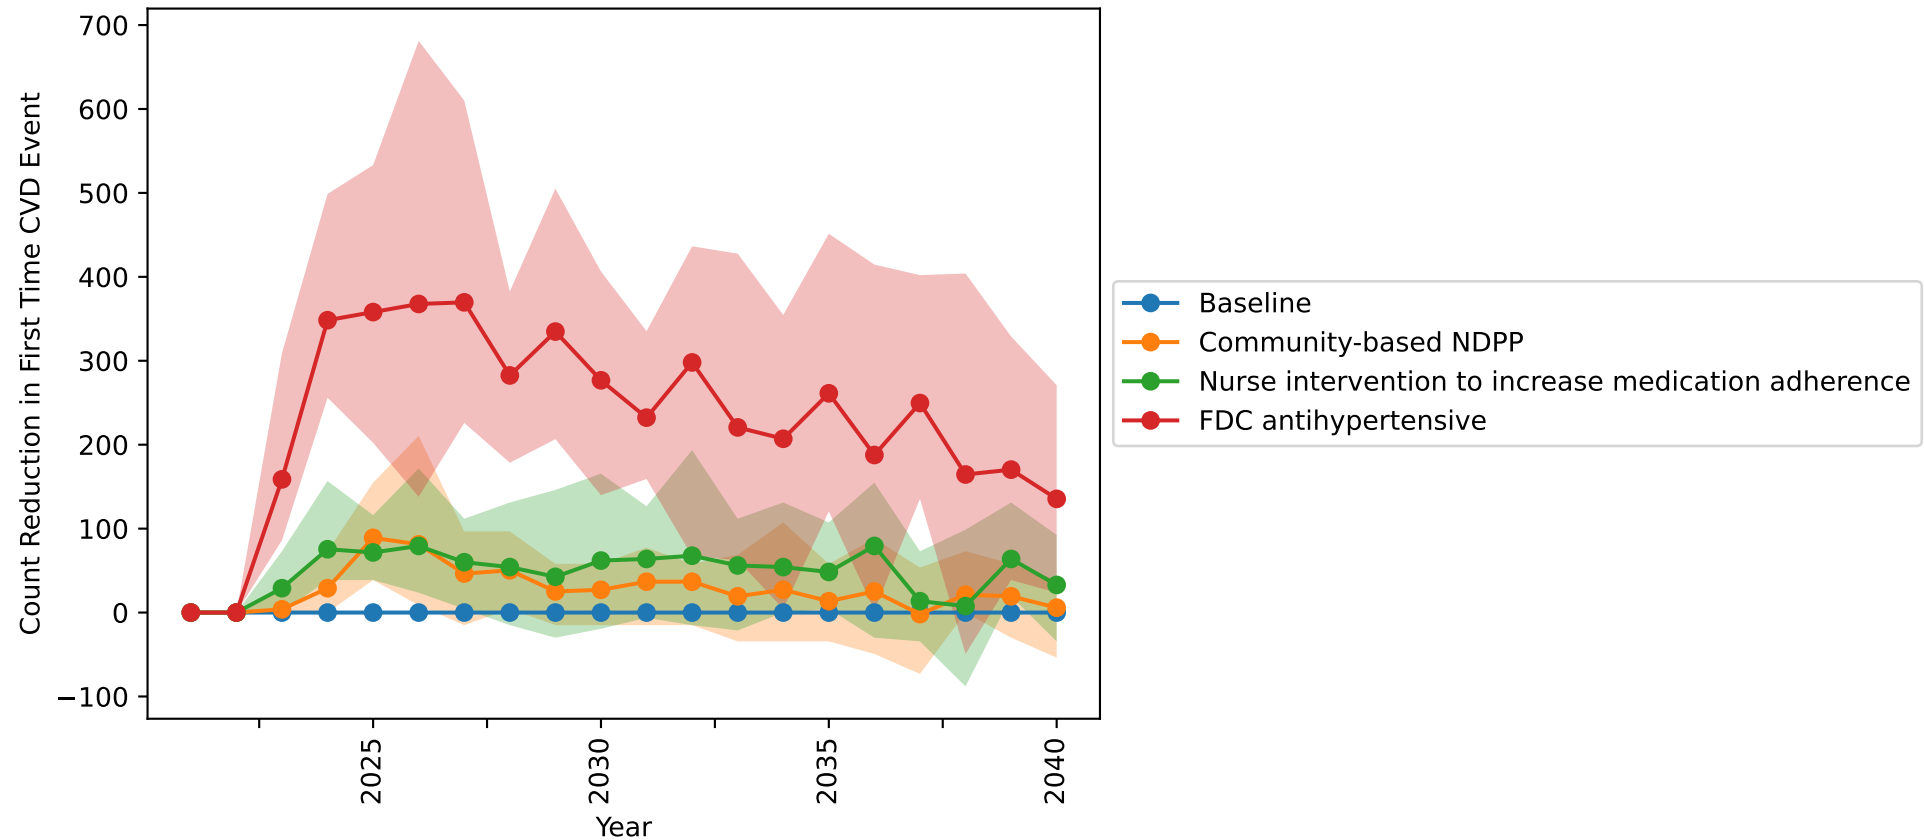

Count Reduction in First Time CVD Event for Iowa and Female

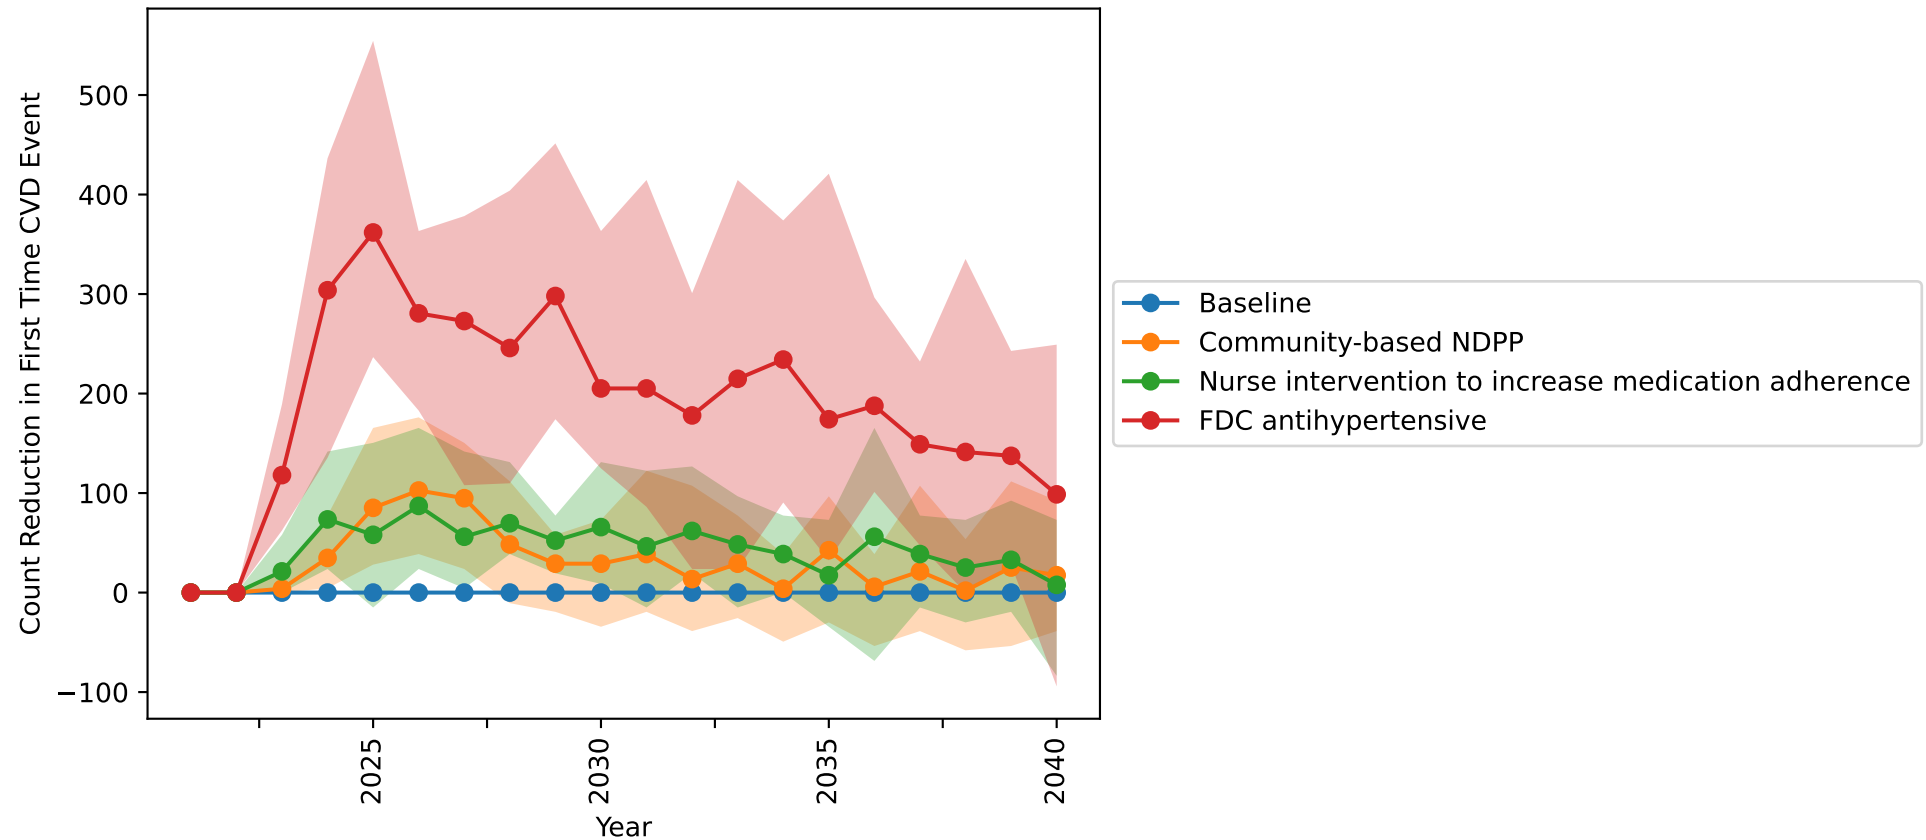

Count Reduction in First Time CVD Event for Iowa and Male

Count Reduction in First Time CVD Event for Kansas and Female

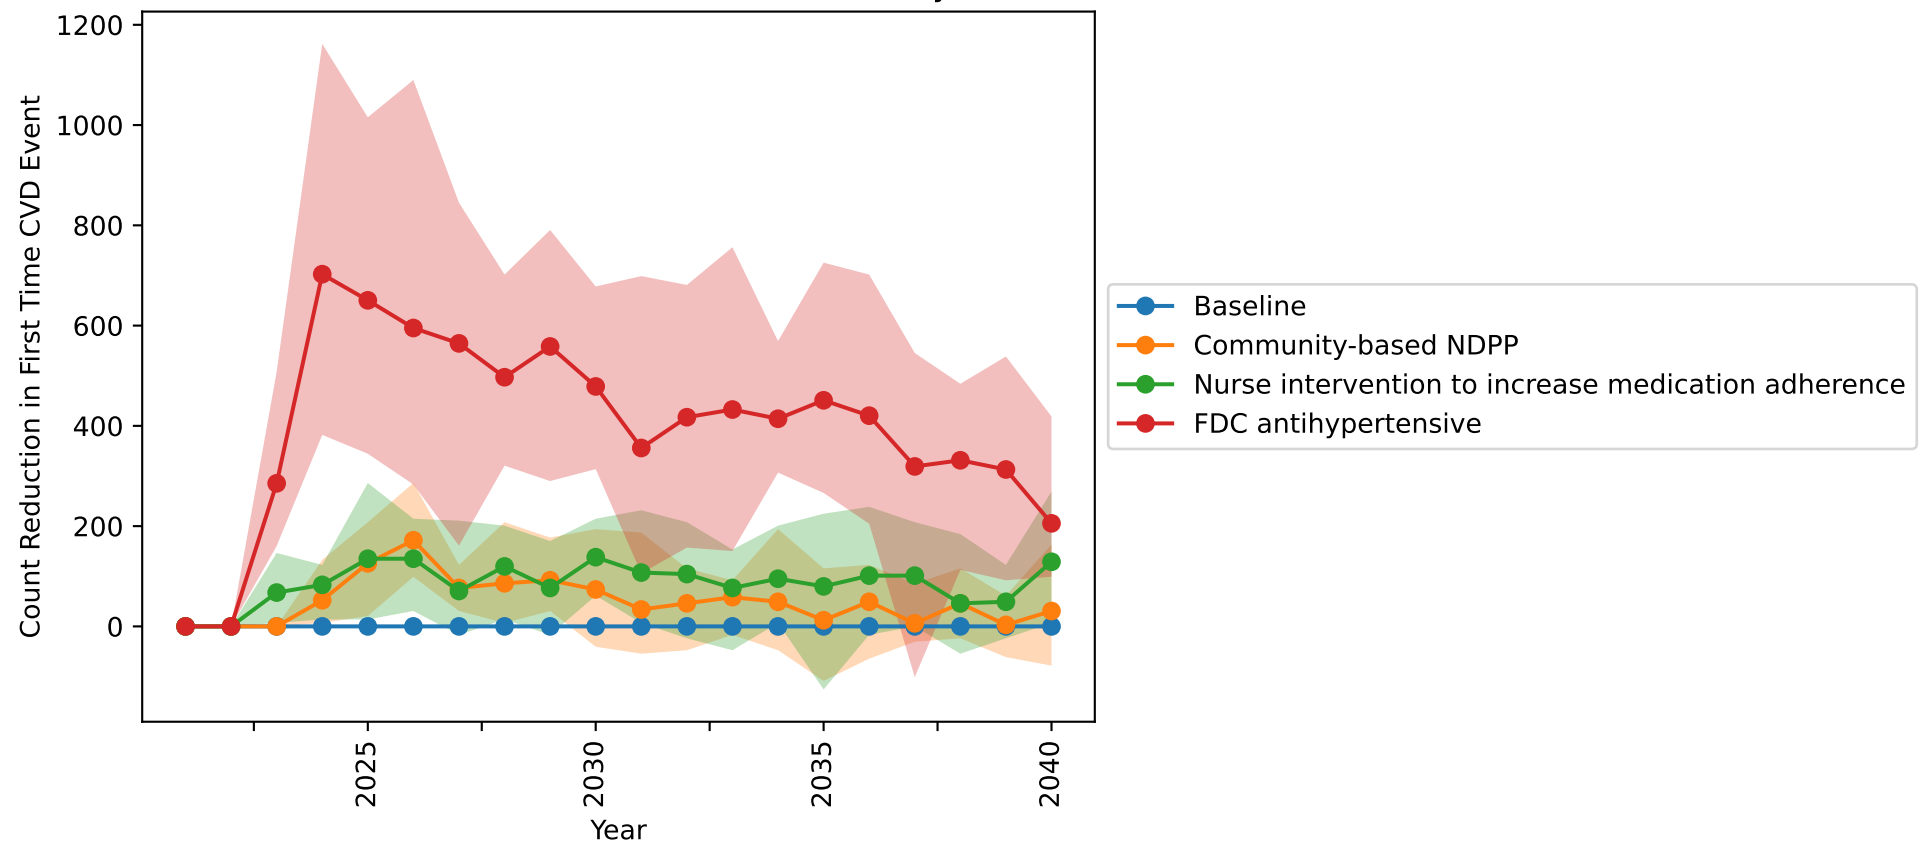

Count Reduction in First Time CVD Event for Kansas and Male

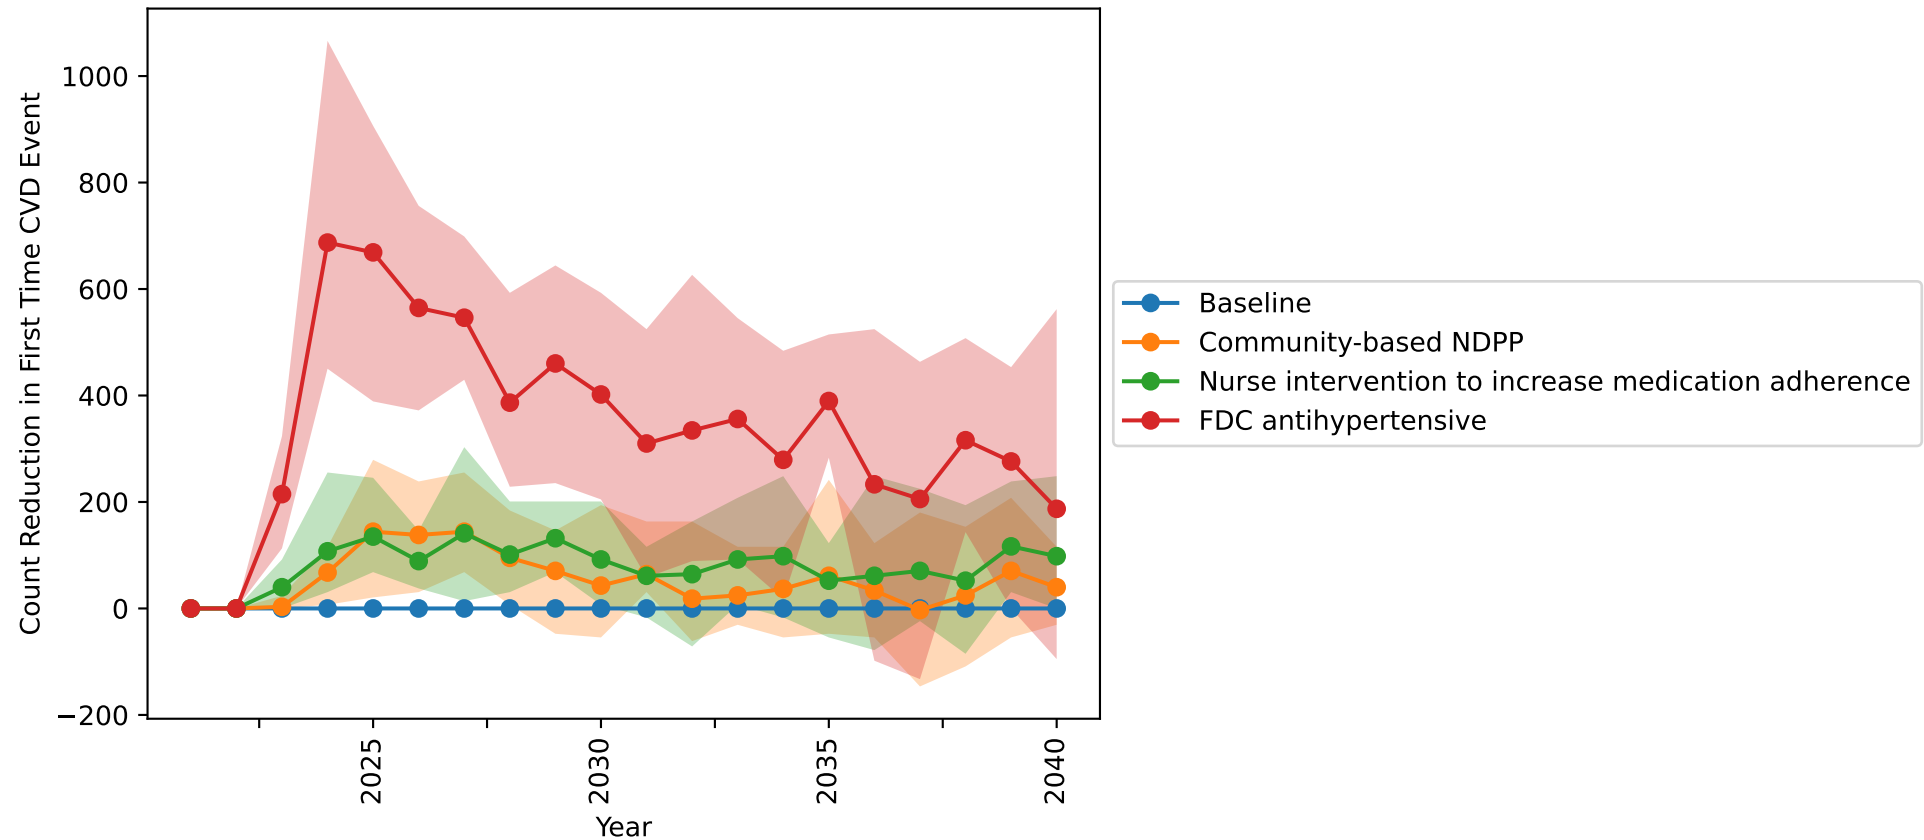

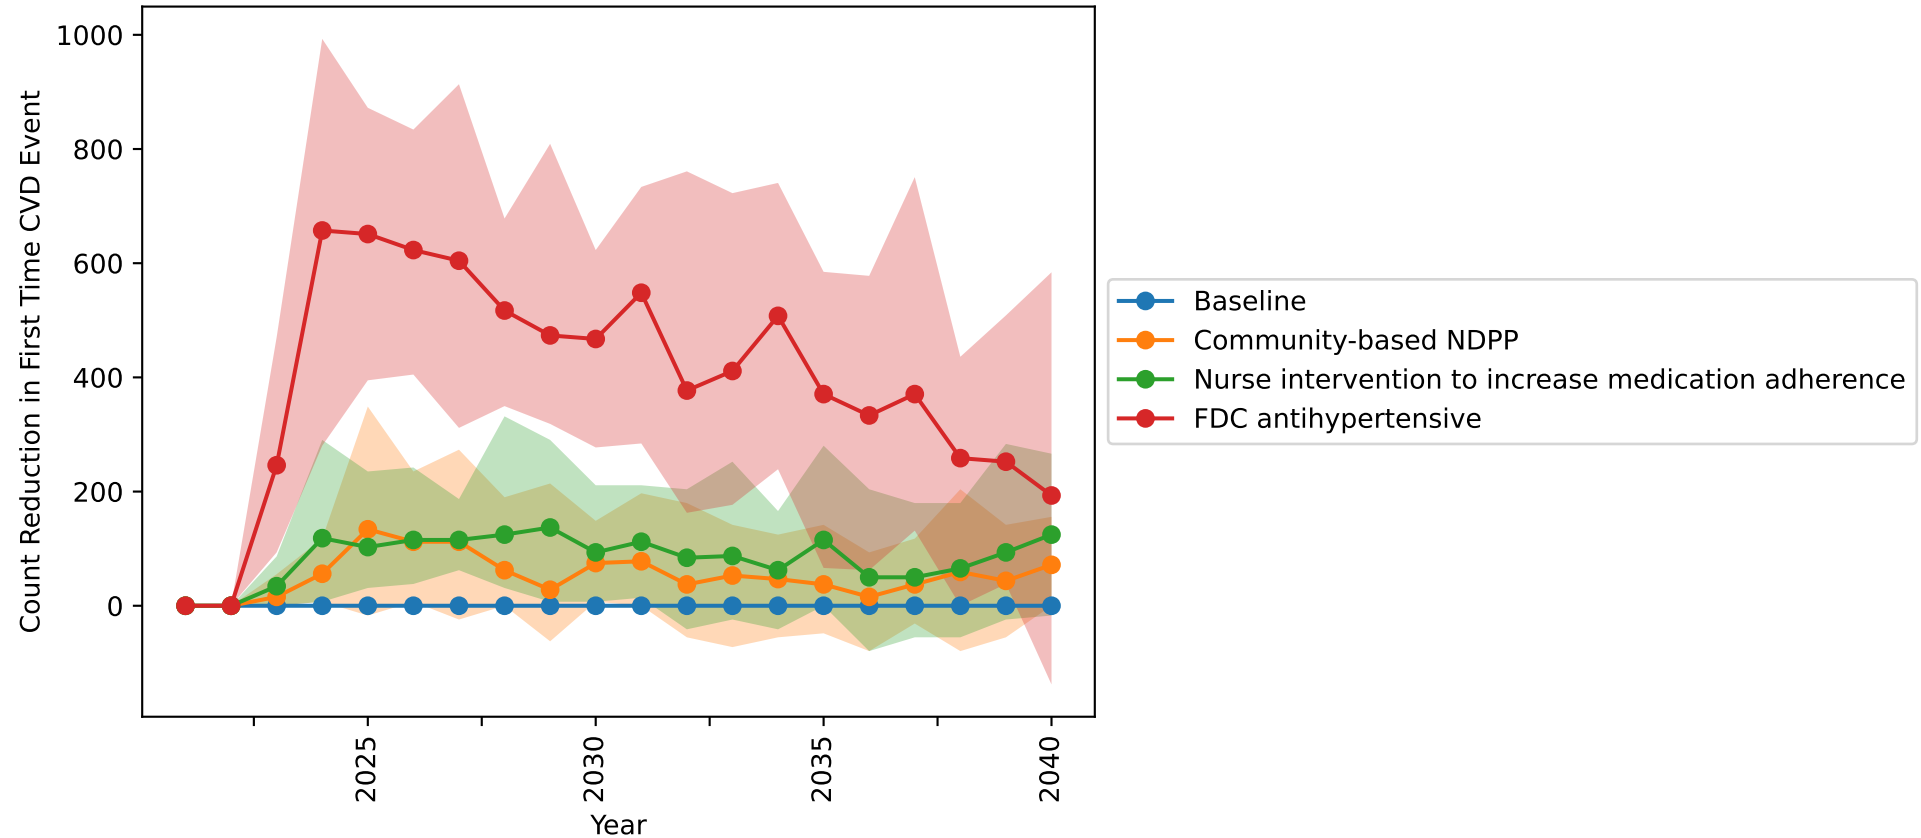

Count Reduction in First Time CVD Event for Kentucky and Female

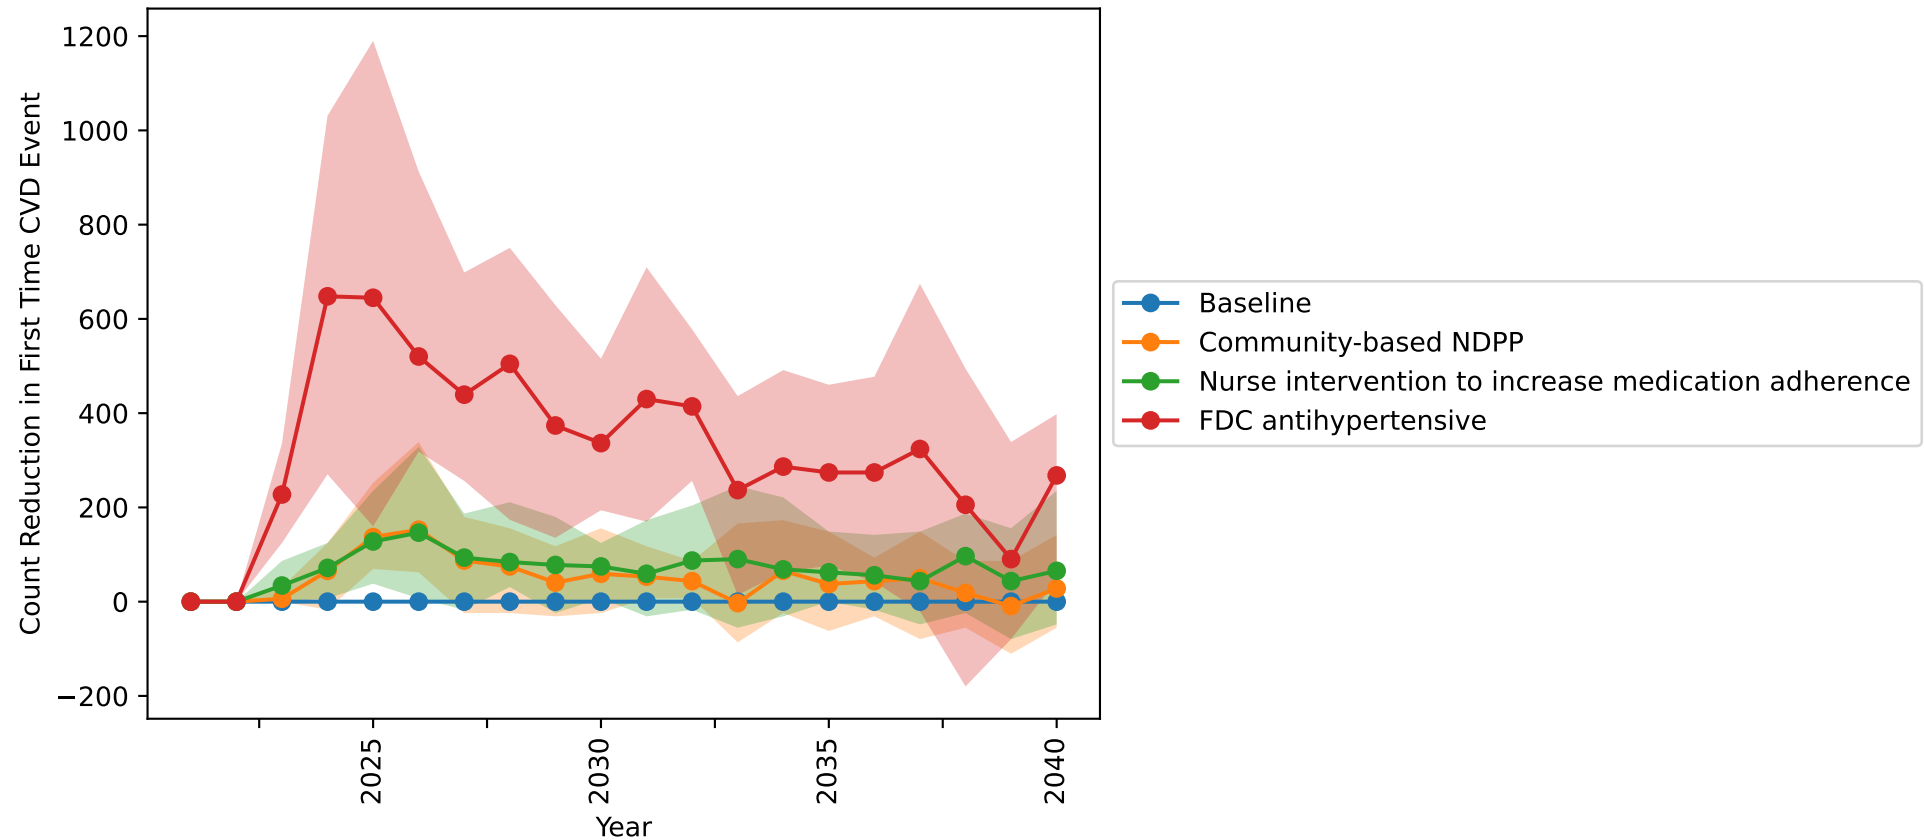

Count Reduction in First Time CVD Event for Kentucky and Male

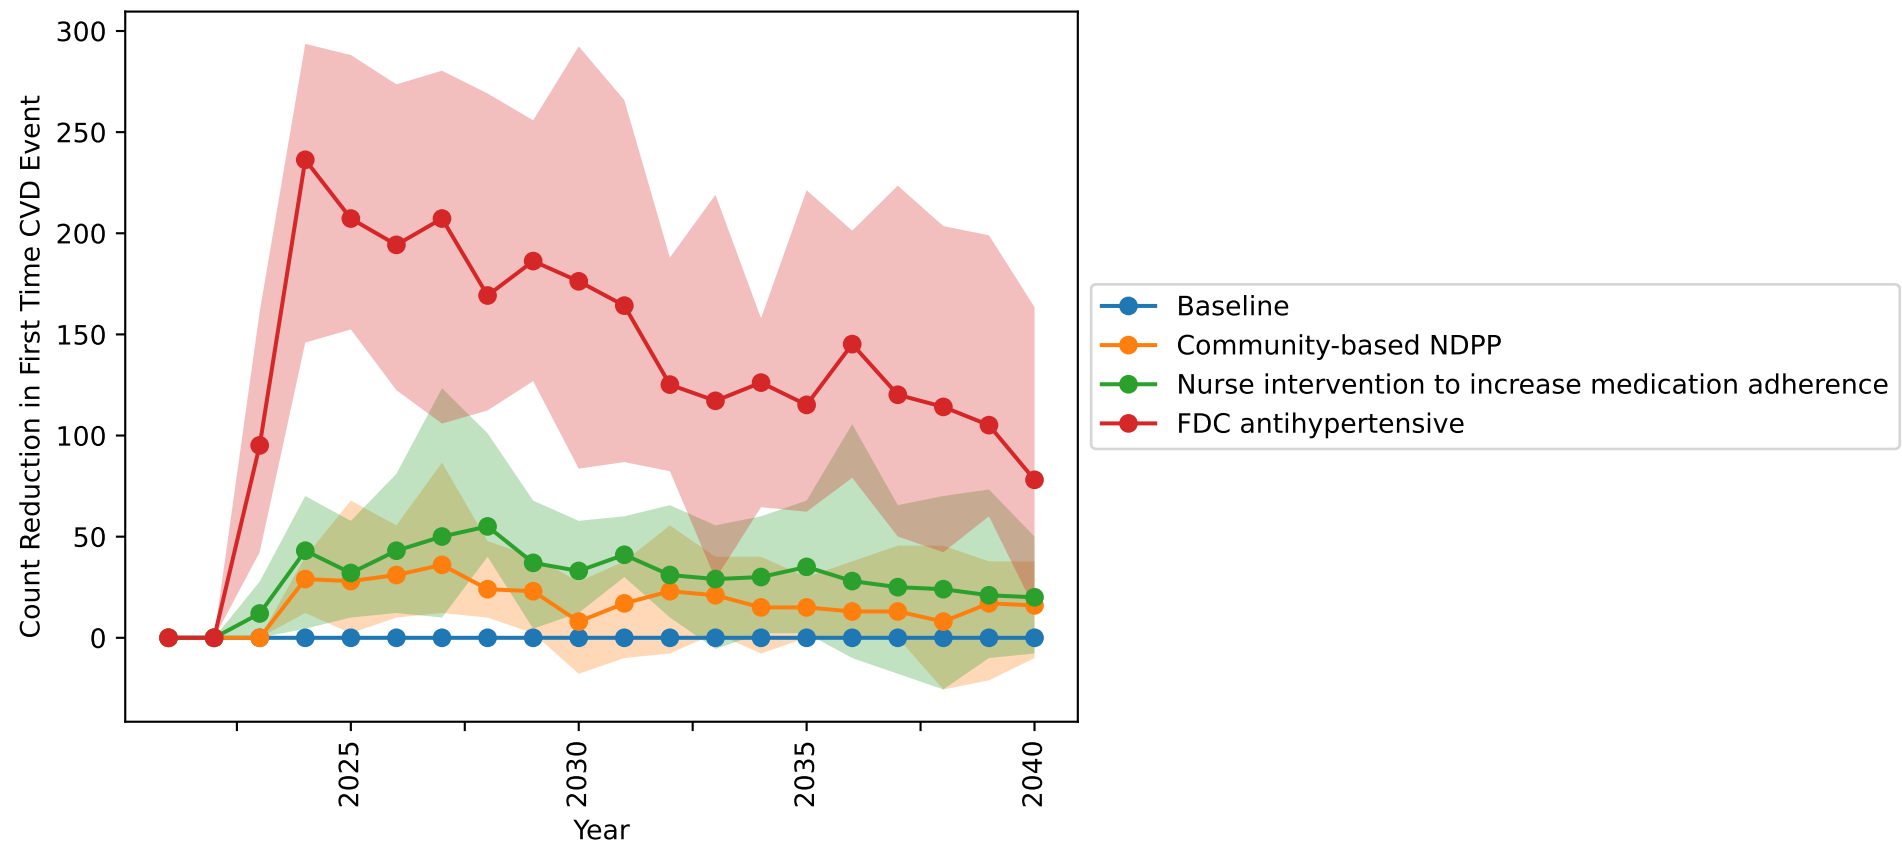

Count Reduction in First Time CVD Event for Louisiana and Female

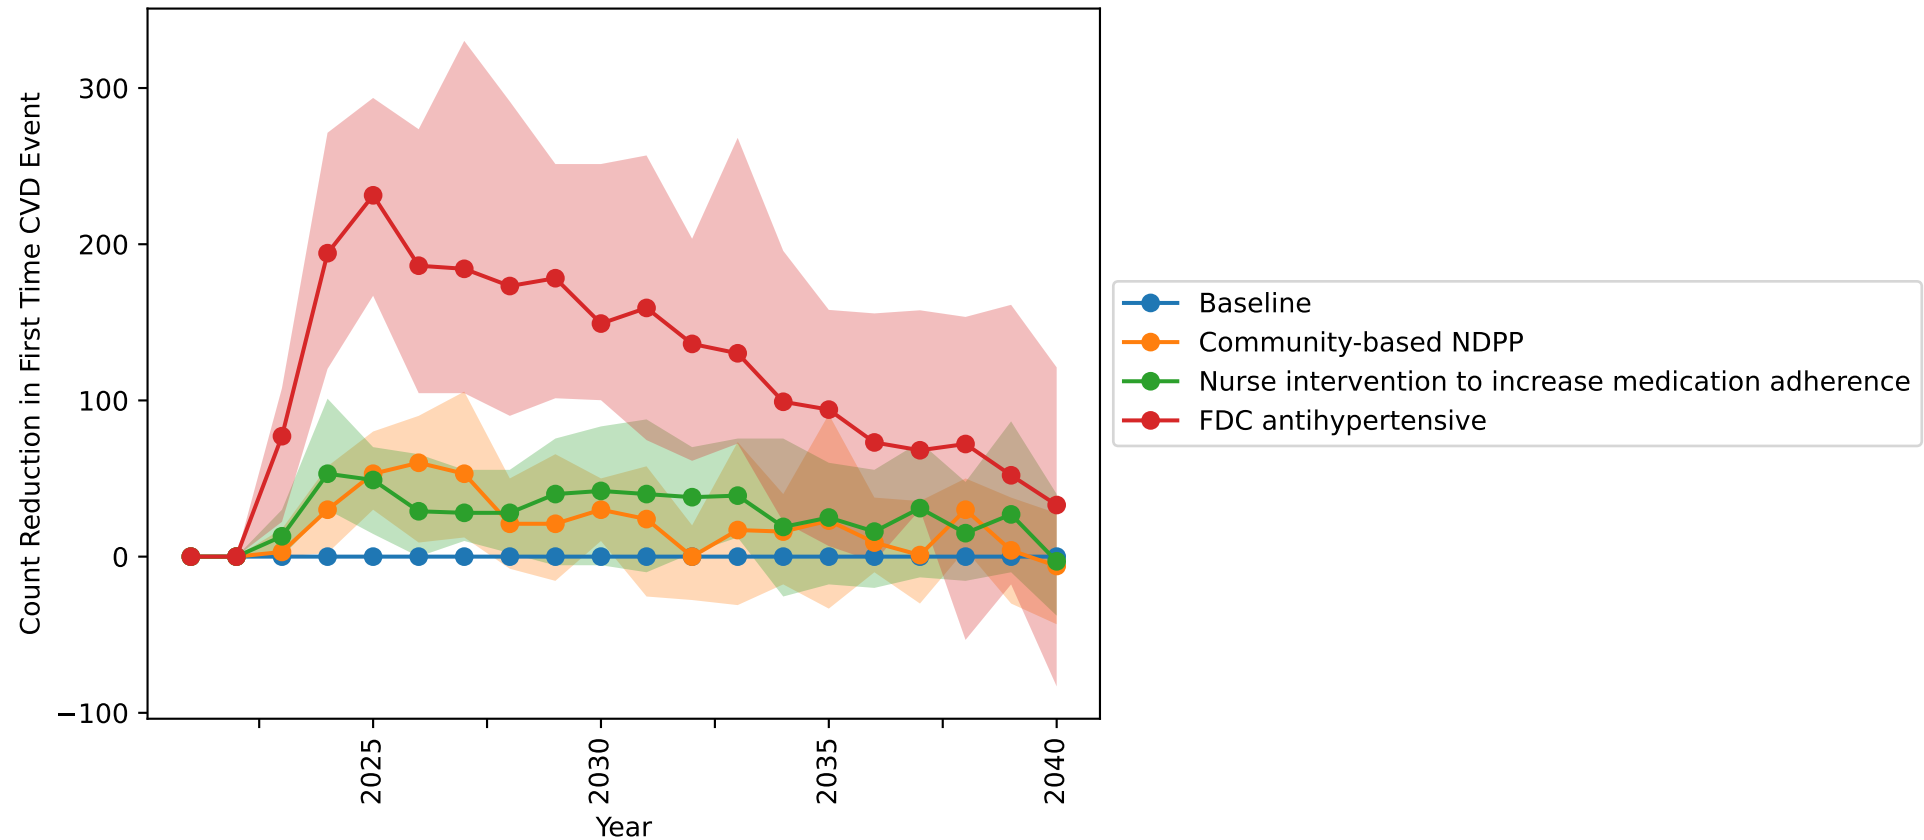

Count Reduction in First Time CVD Event for Louisiana and Male

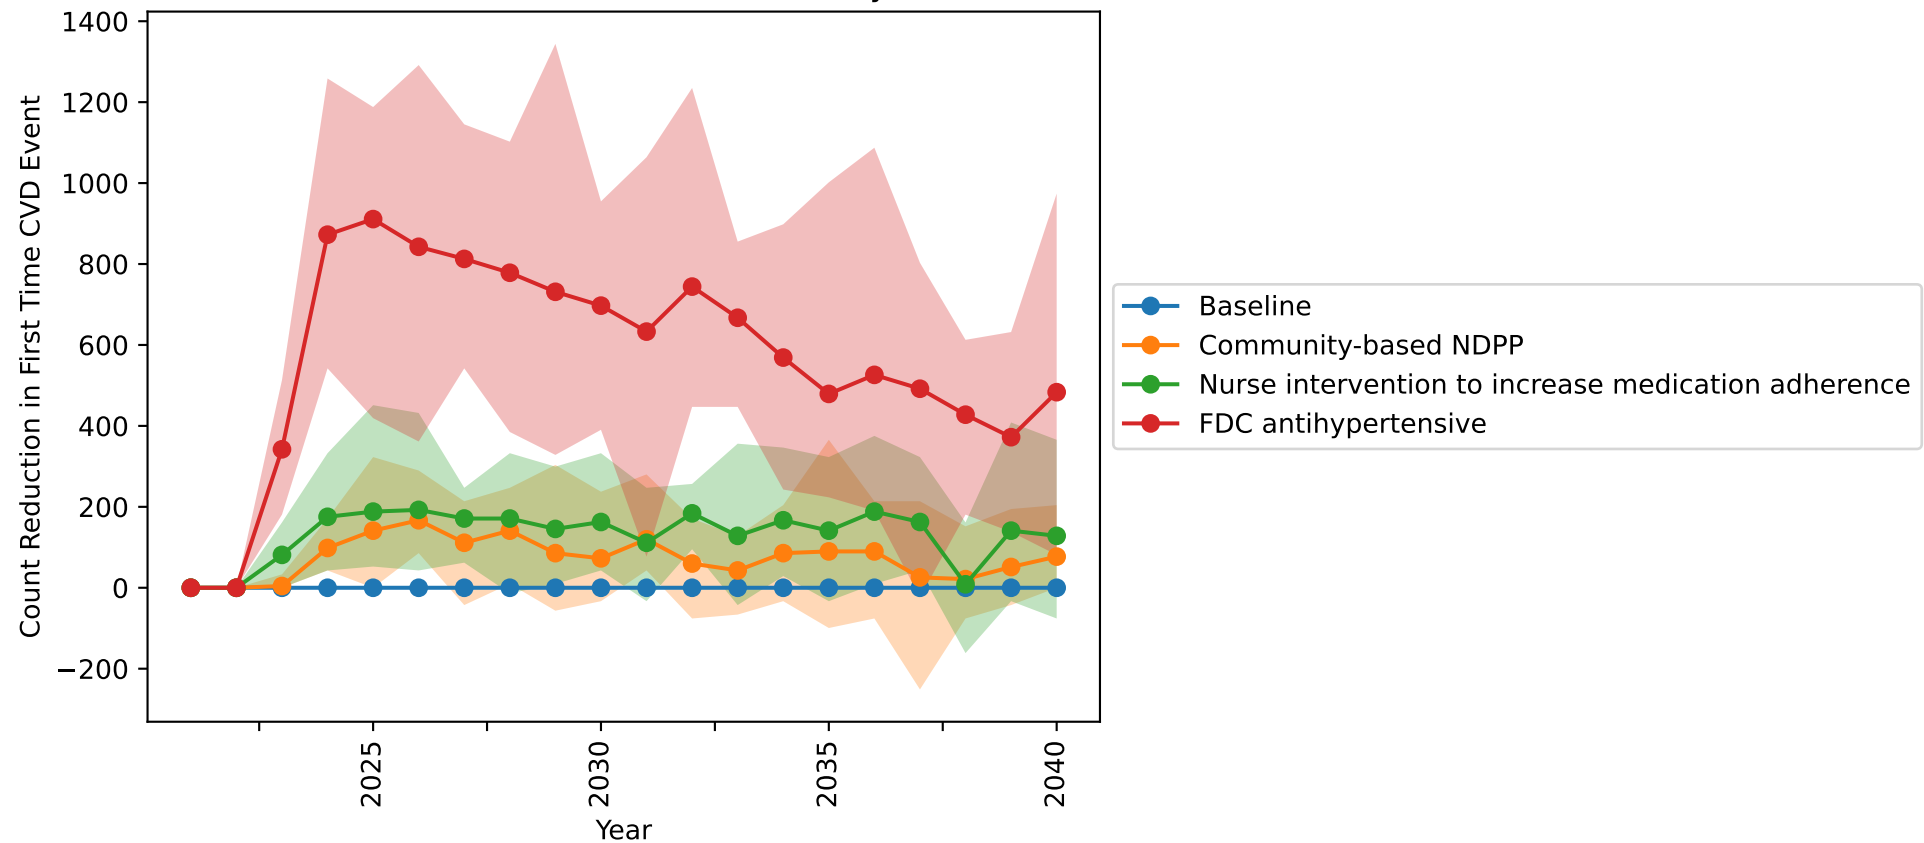

Count Reduction in First Time CVD Event for Maine and Female

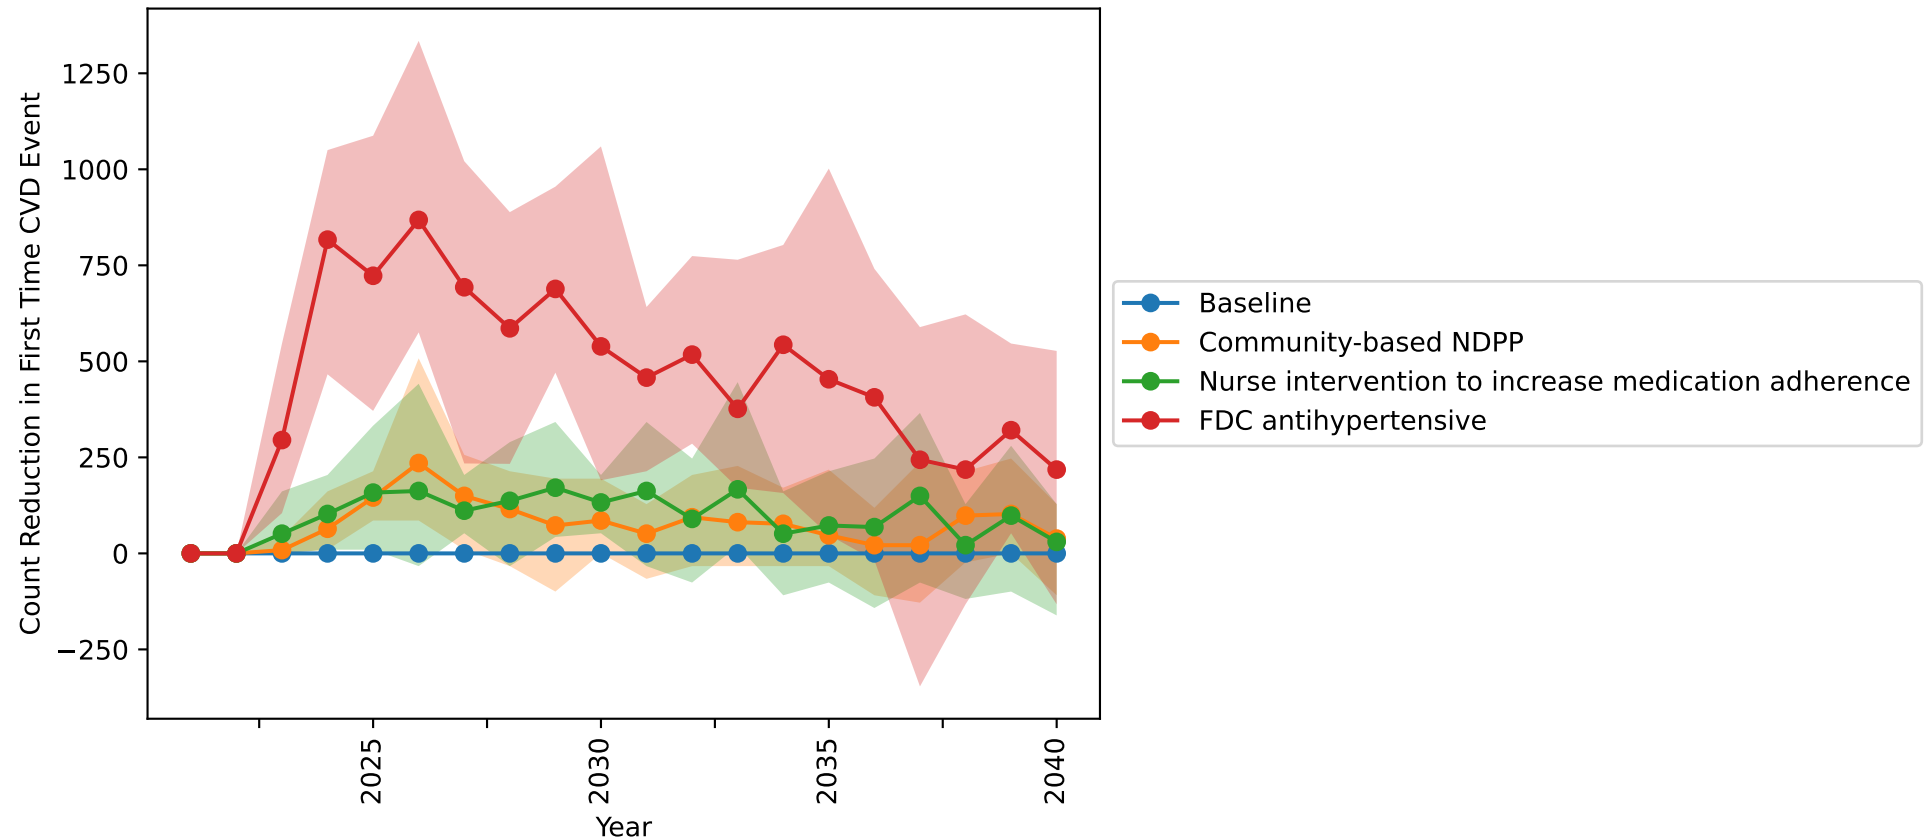

Count Reduction in First Time CVD Event for Maine and Male

Count Reduction in First Time CVD Event for Maryland and Female

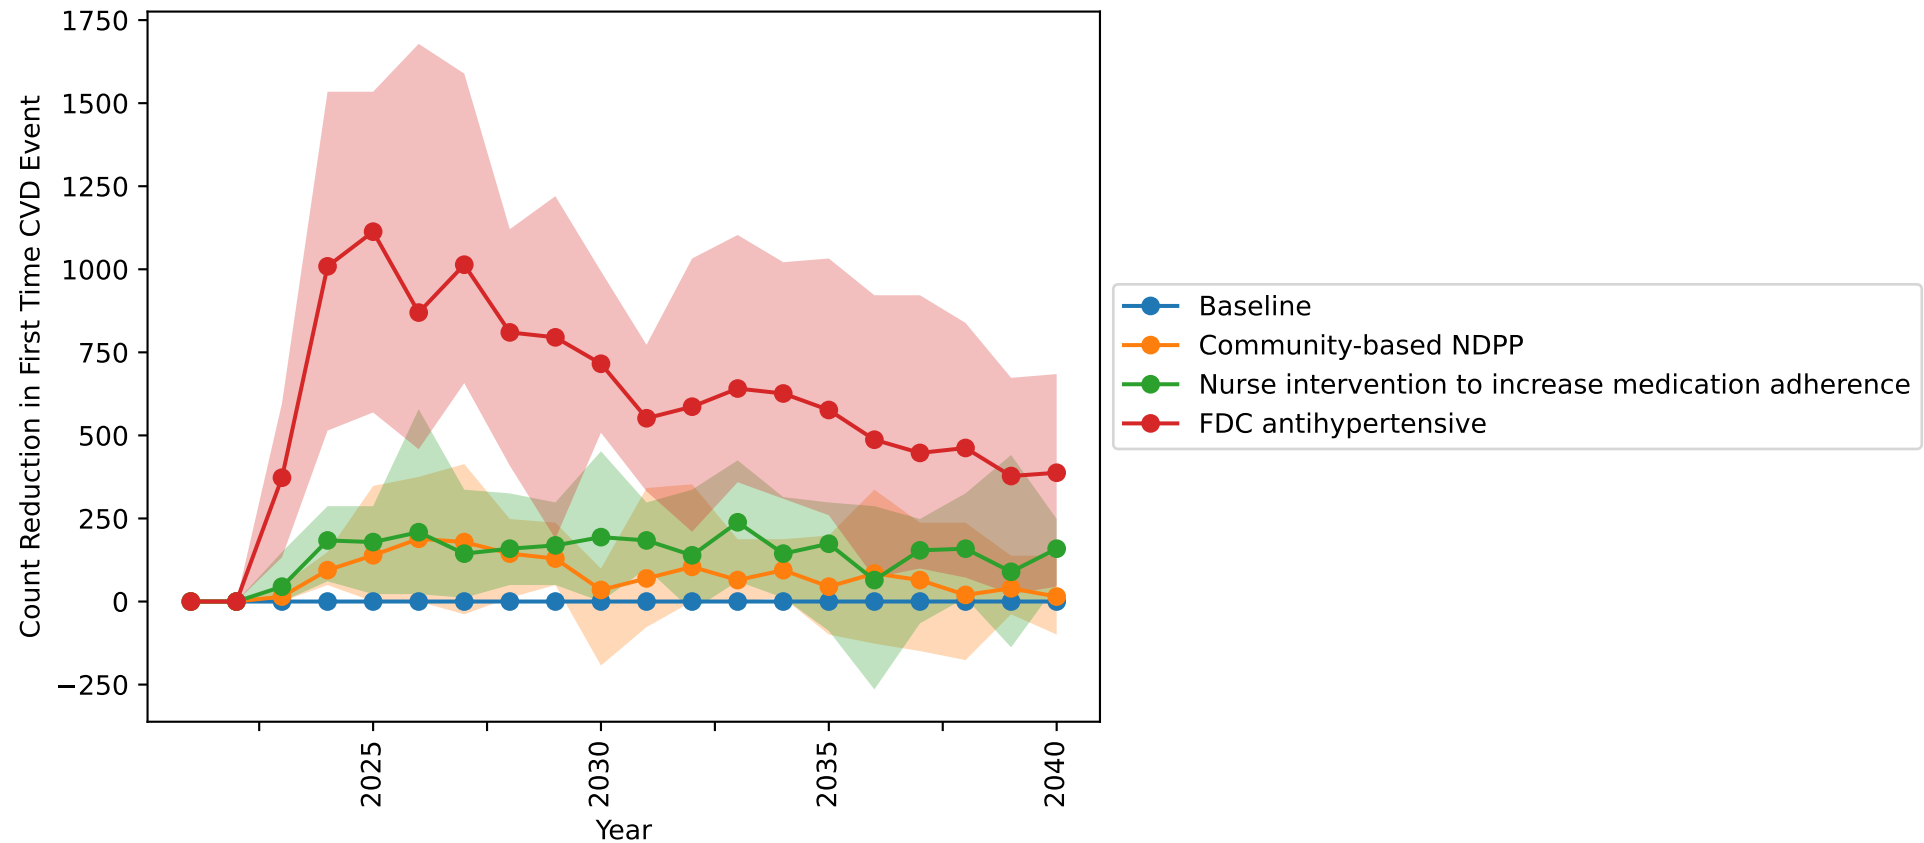

Count Reduction in First Time CVD Event for Maryland and Male

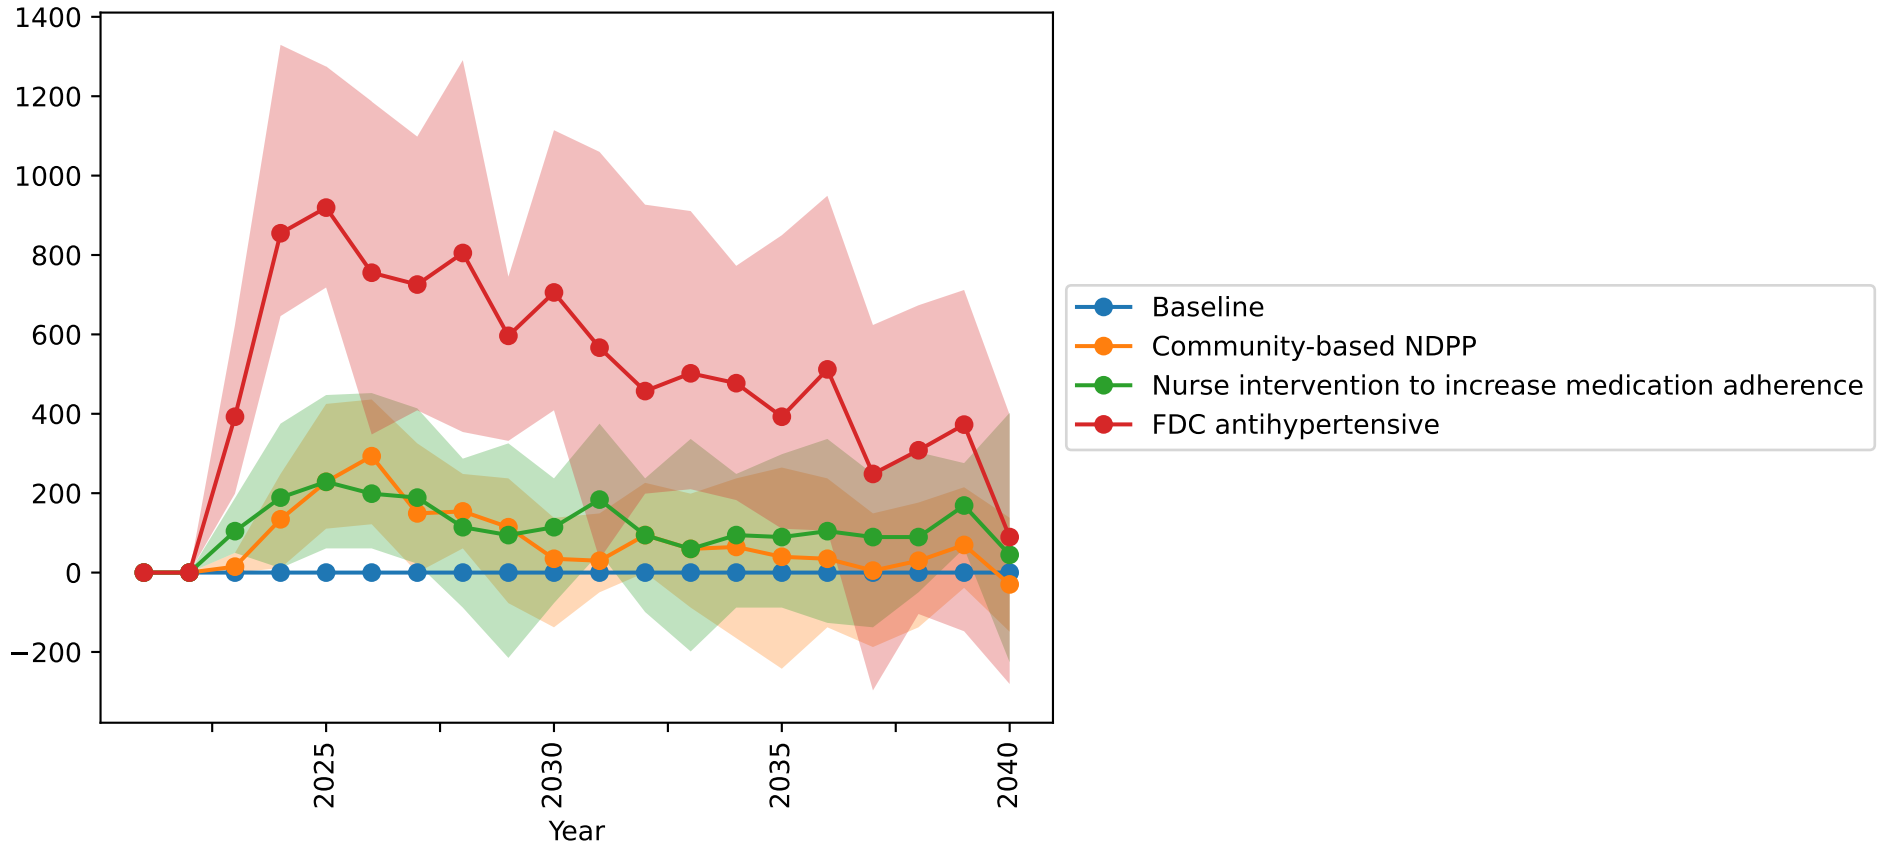

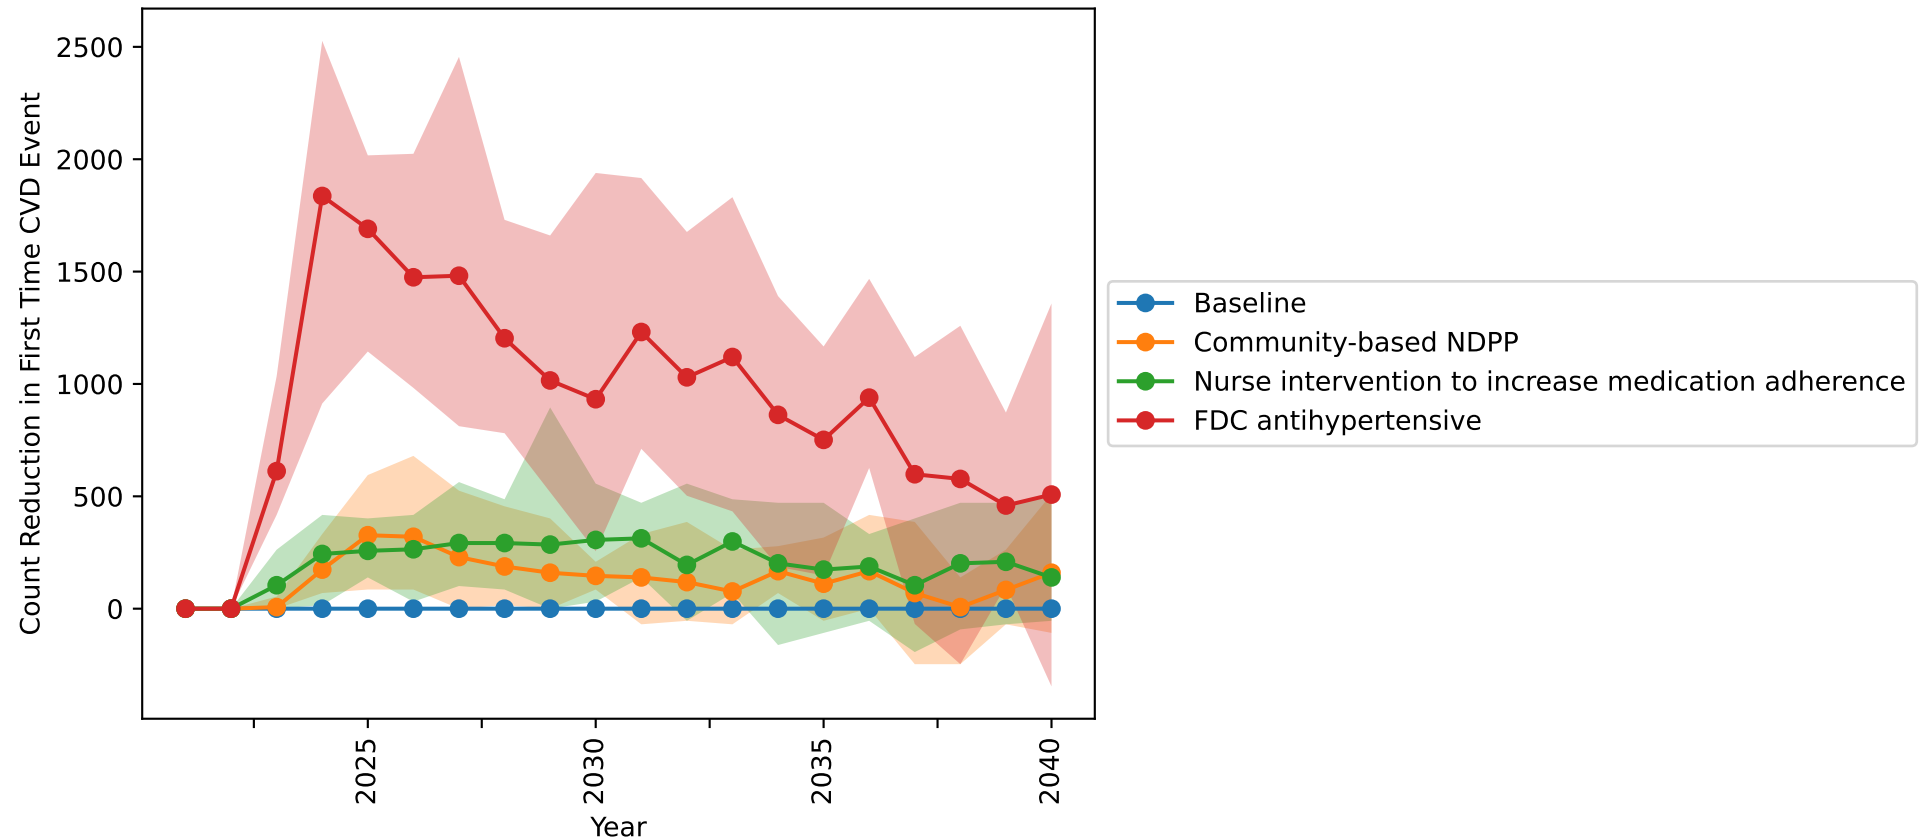

Count Reduction in First Time CVD Event for Massachusetts and Female

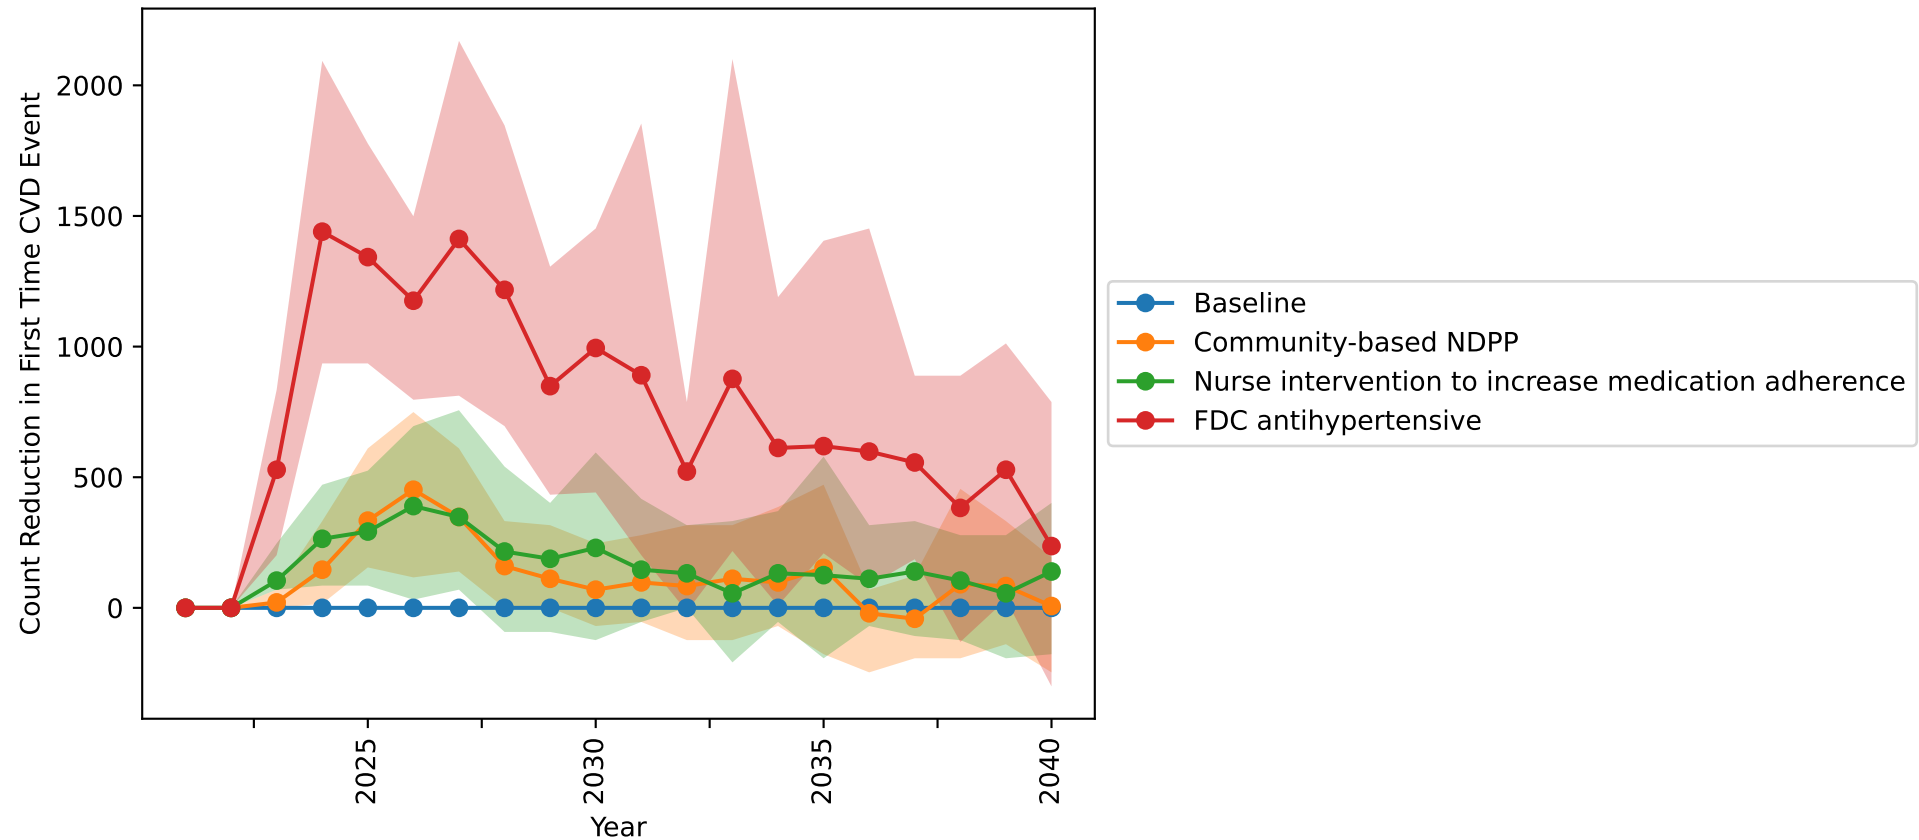

Count Reduction in First Time CVD Event for Massachusetts and Male

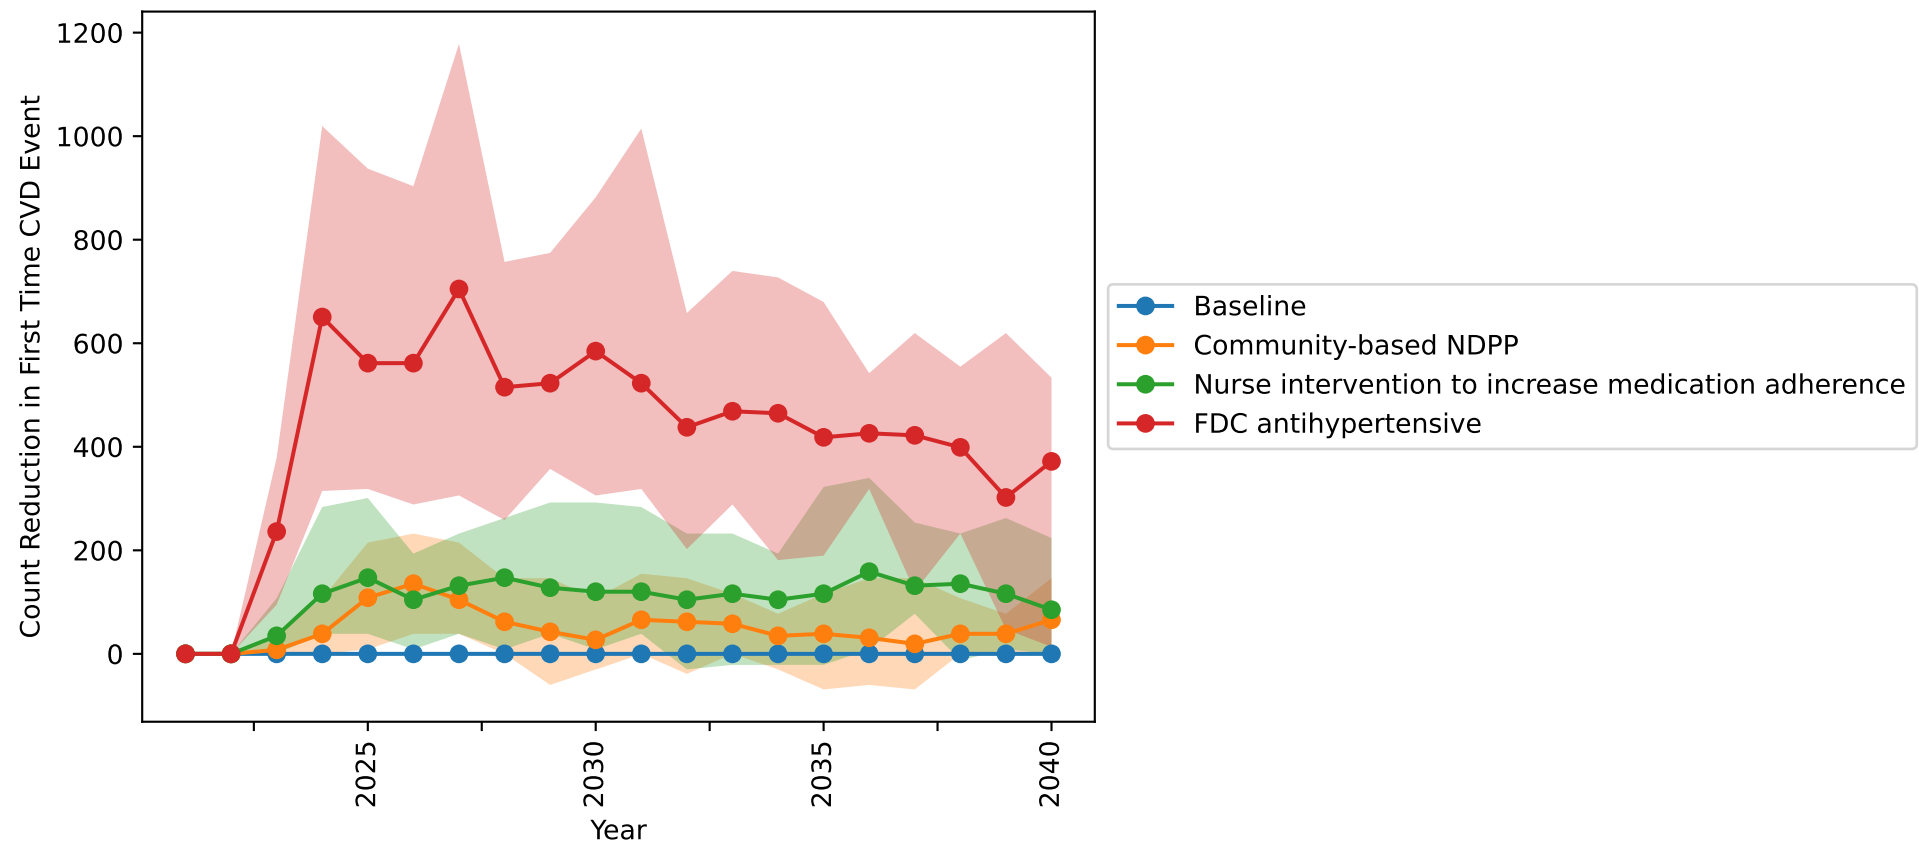

Count Reduction in First Time CVD Event for Michigan and Female

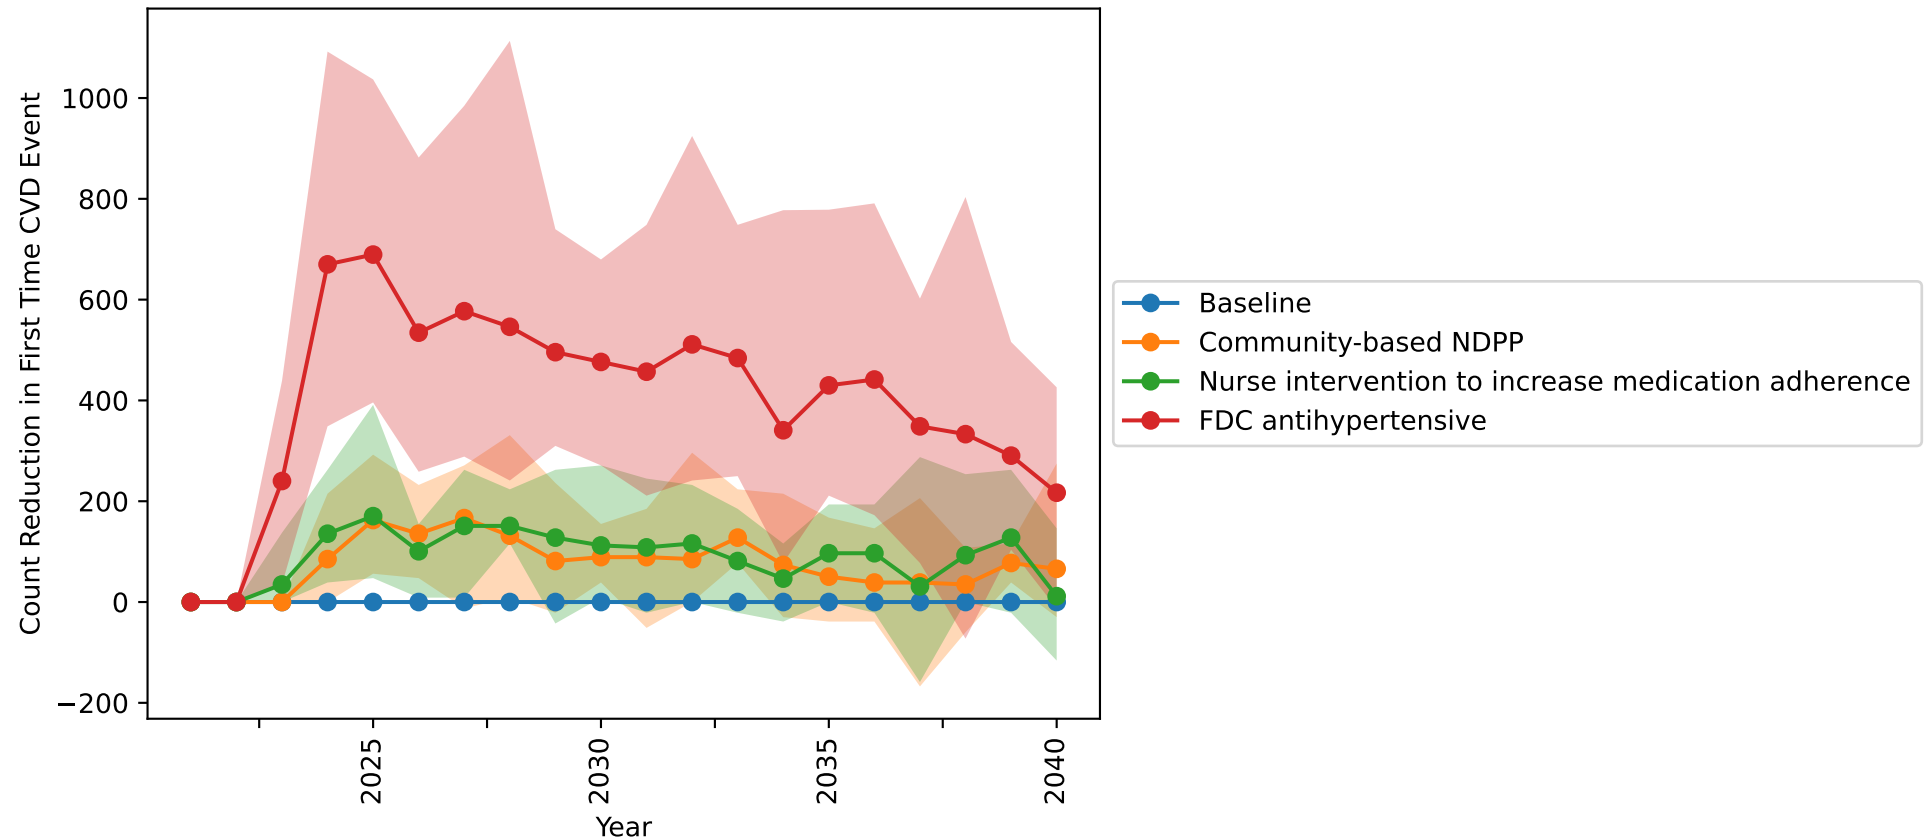

Count Reduction in First Time CVD Event for Michigan and Male

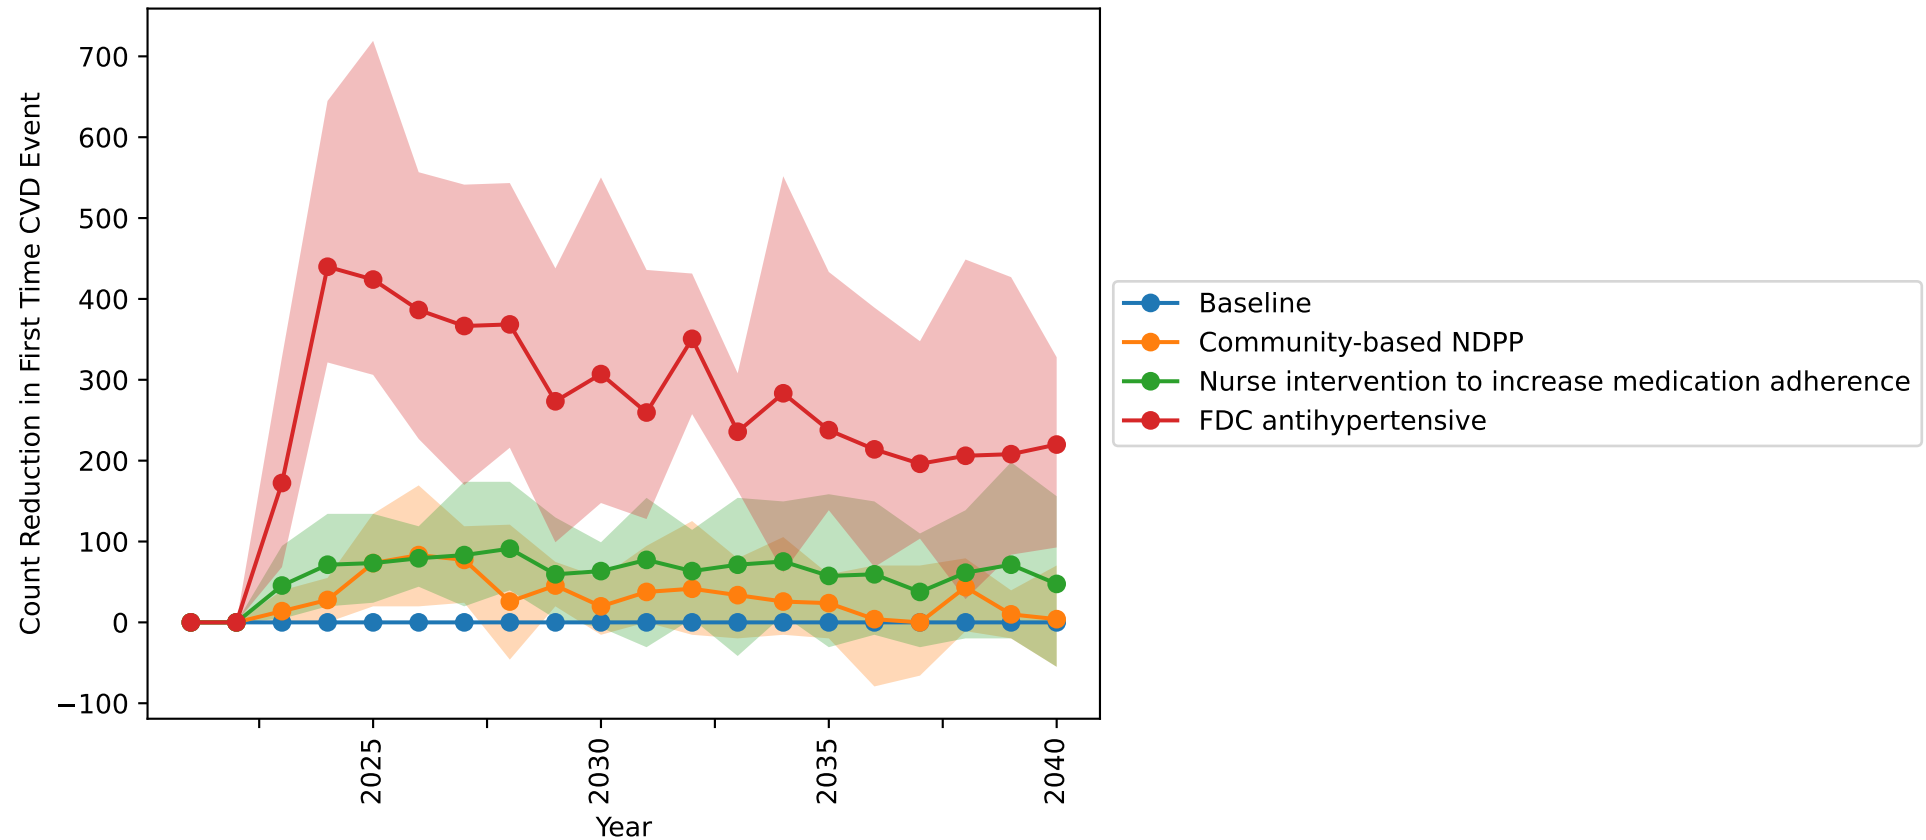

Count Reduction in First Time CVD Event for Minnesota and Female

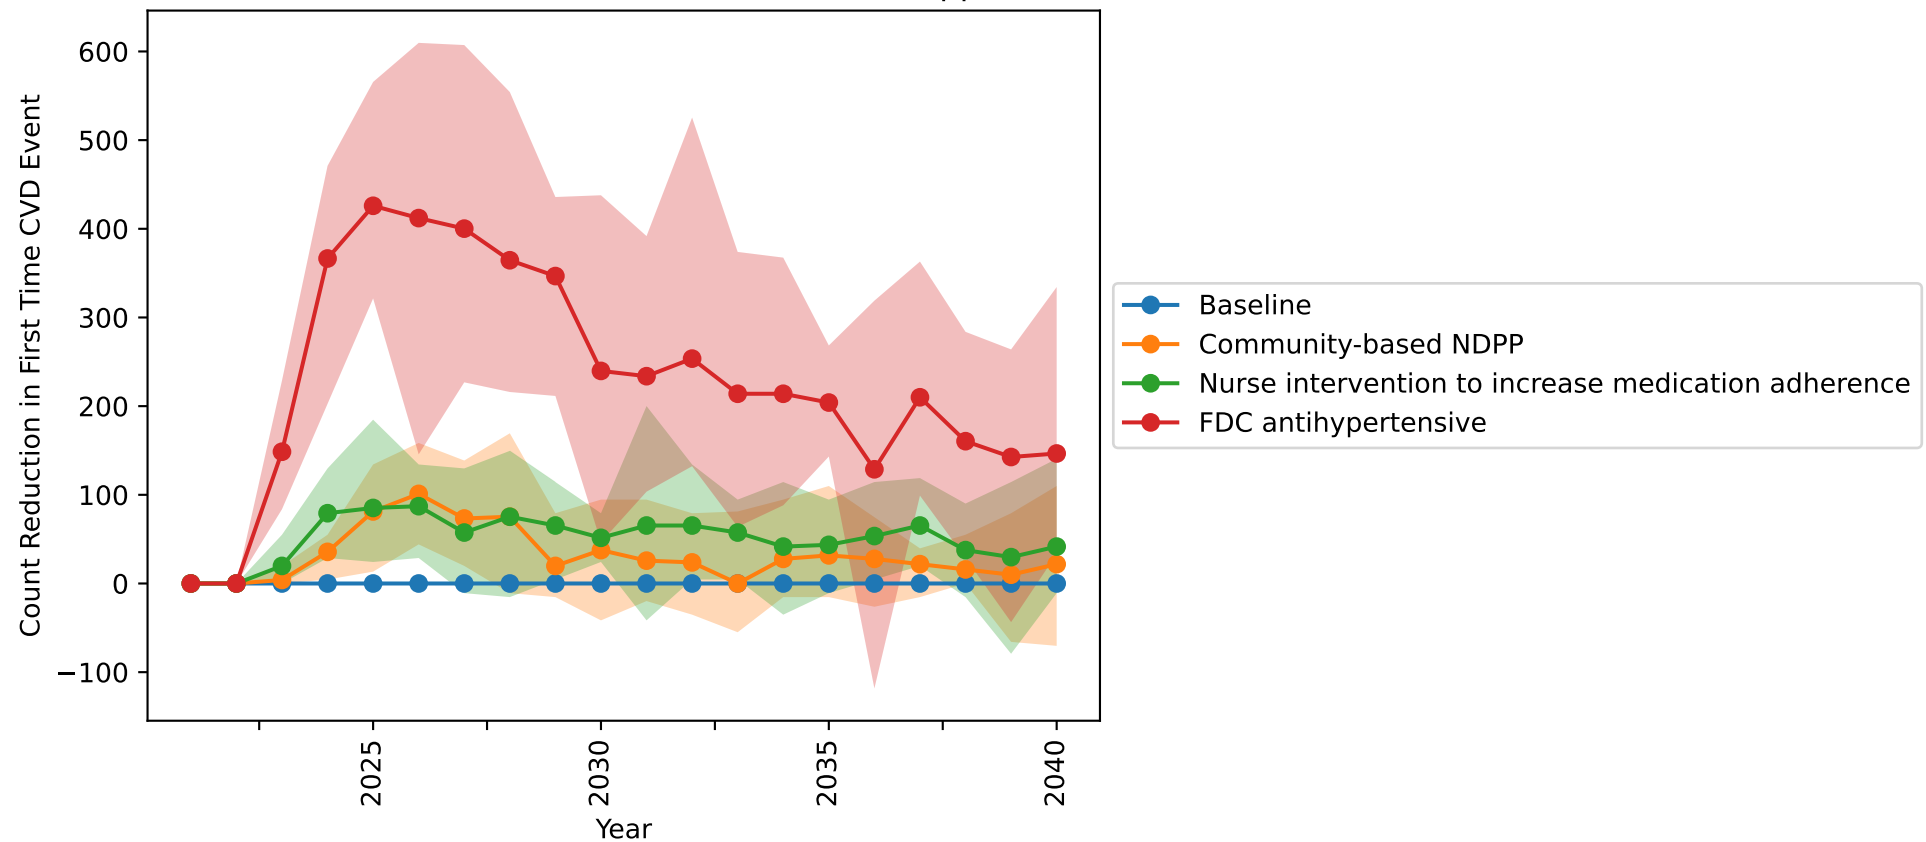

Count Reduction in First Time CVD Event for Minnesota and Male

Count Reduction in First Time CVD Event for Mississippi and Female

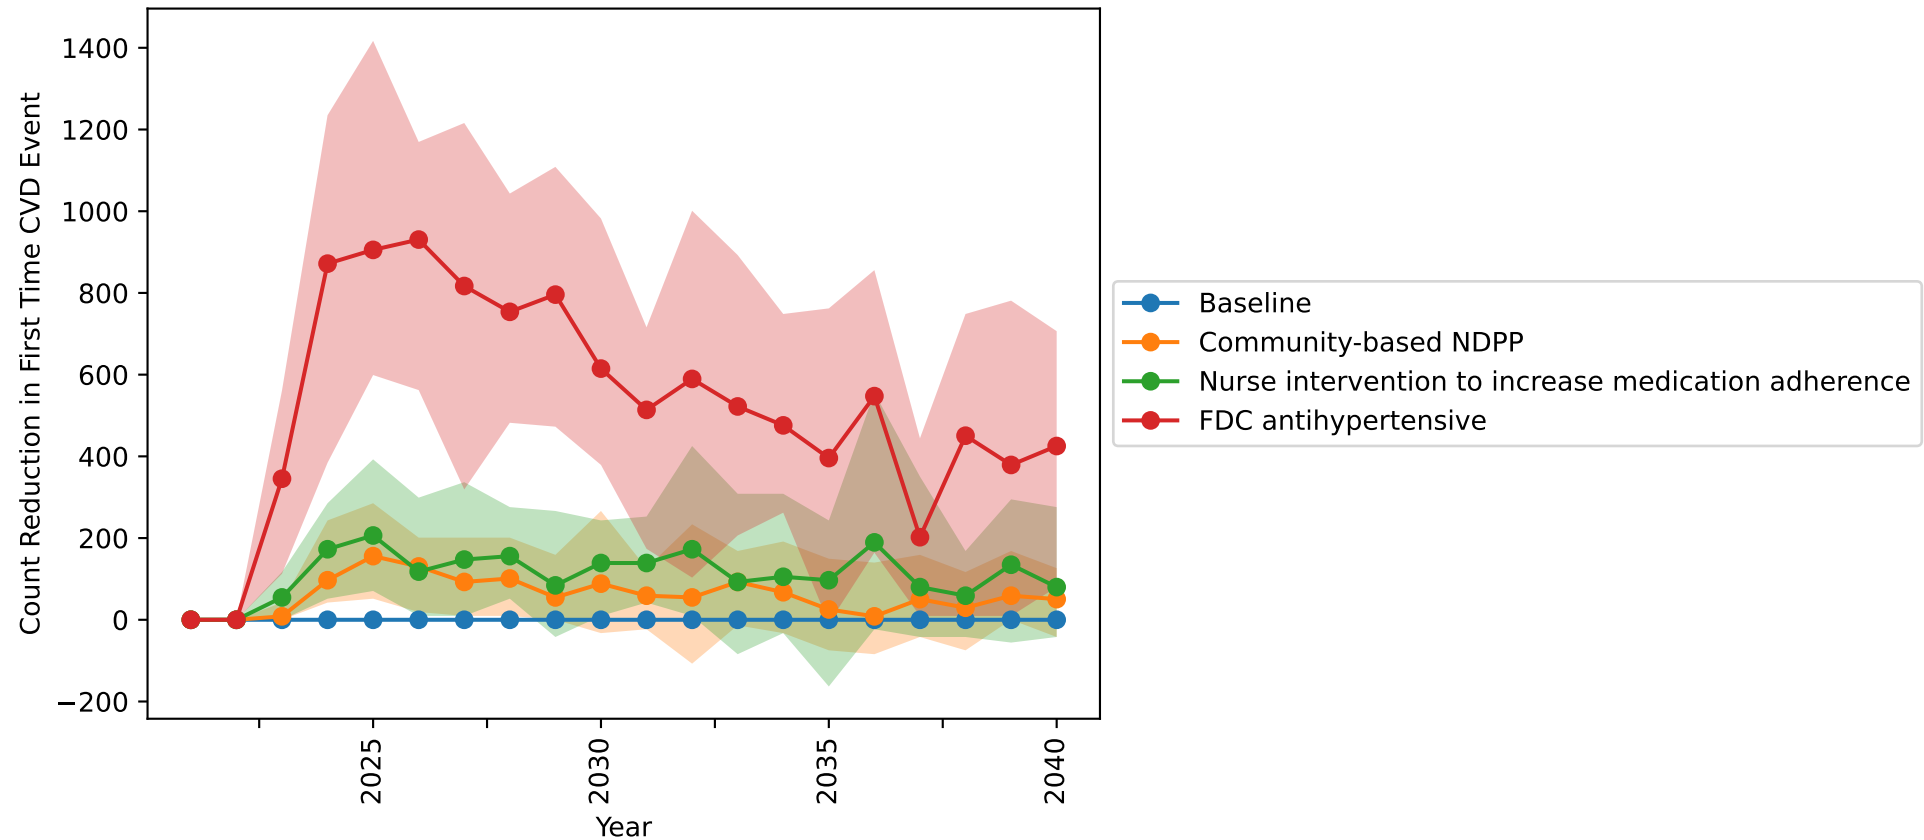

Count Reduction in First Time CVD Event for Mississippi and Male

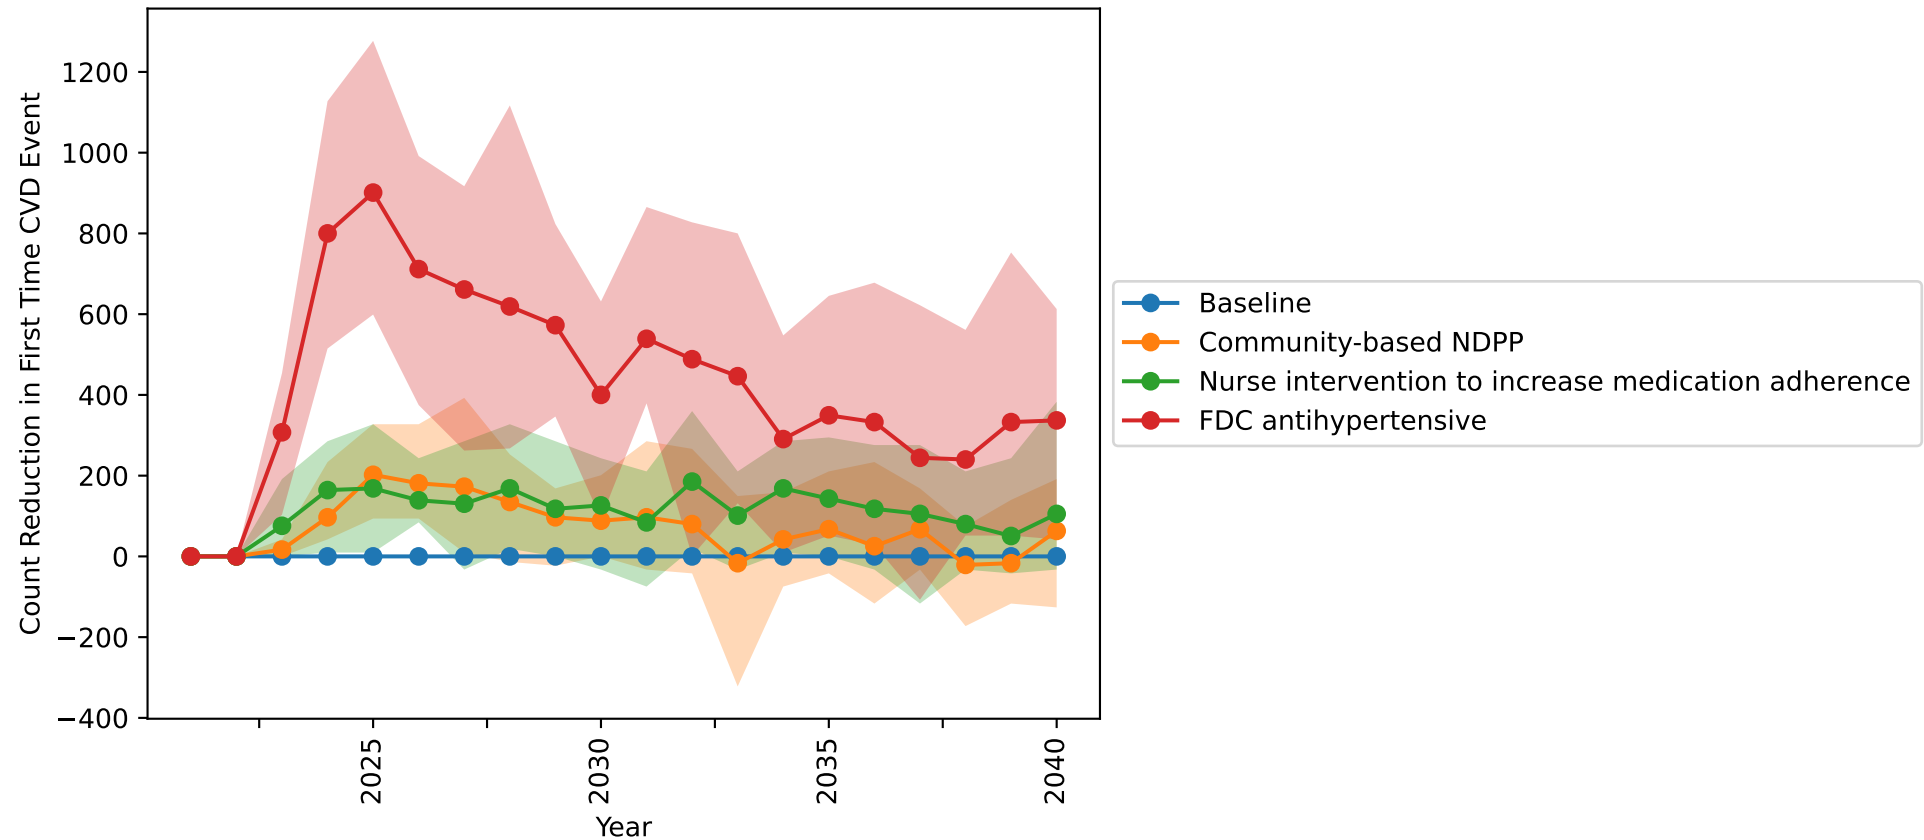

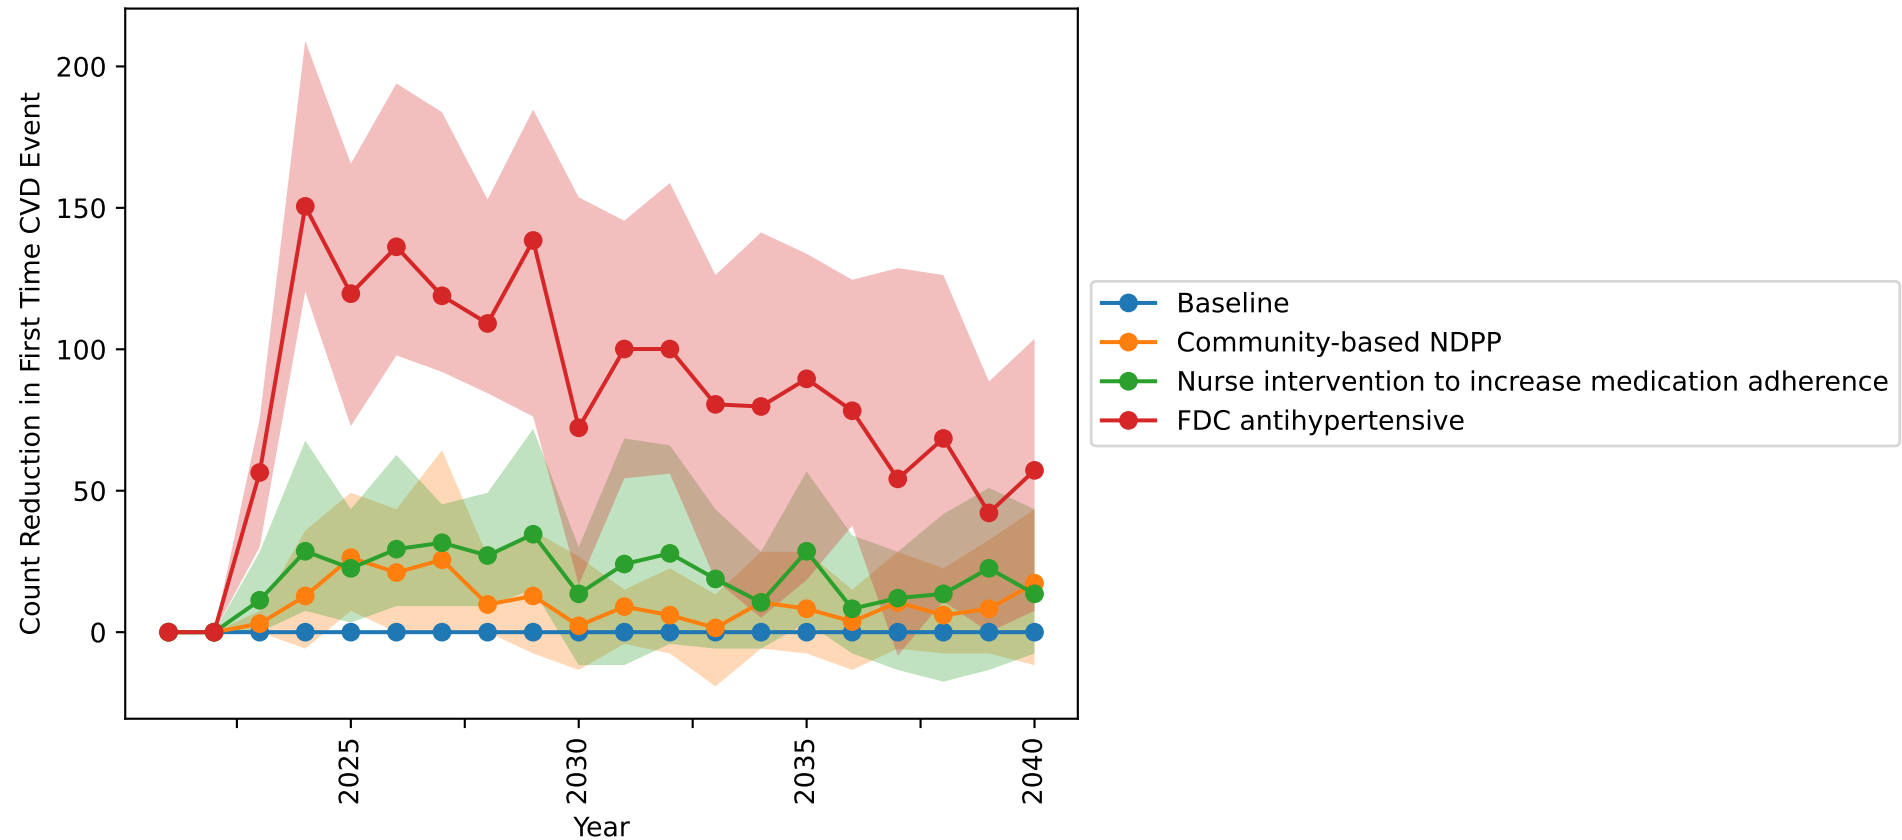

Count Reduction in First Time CVD Event for Missouri and Female

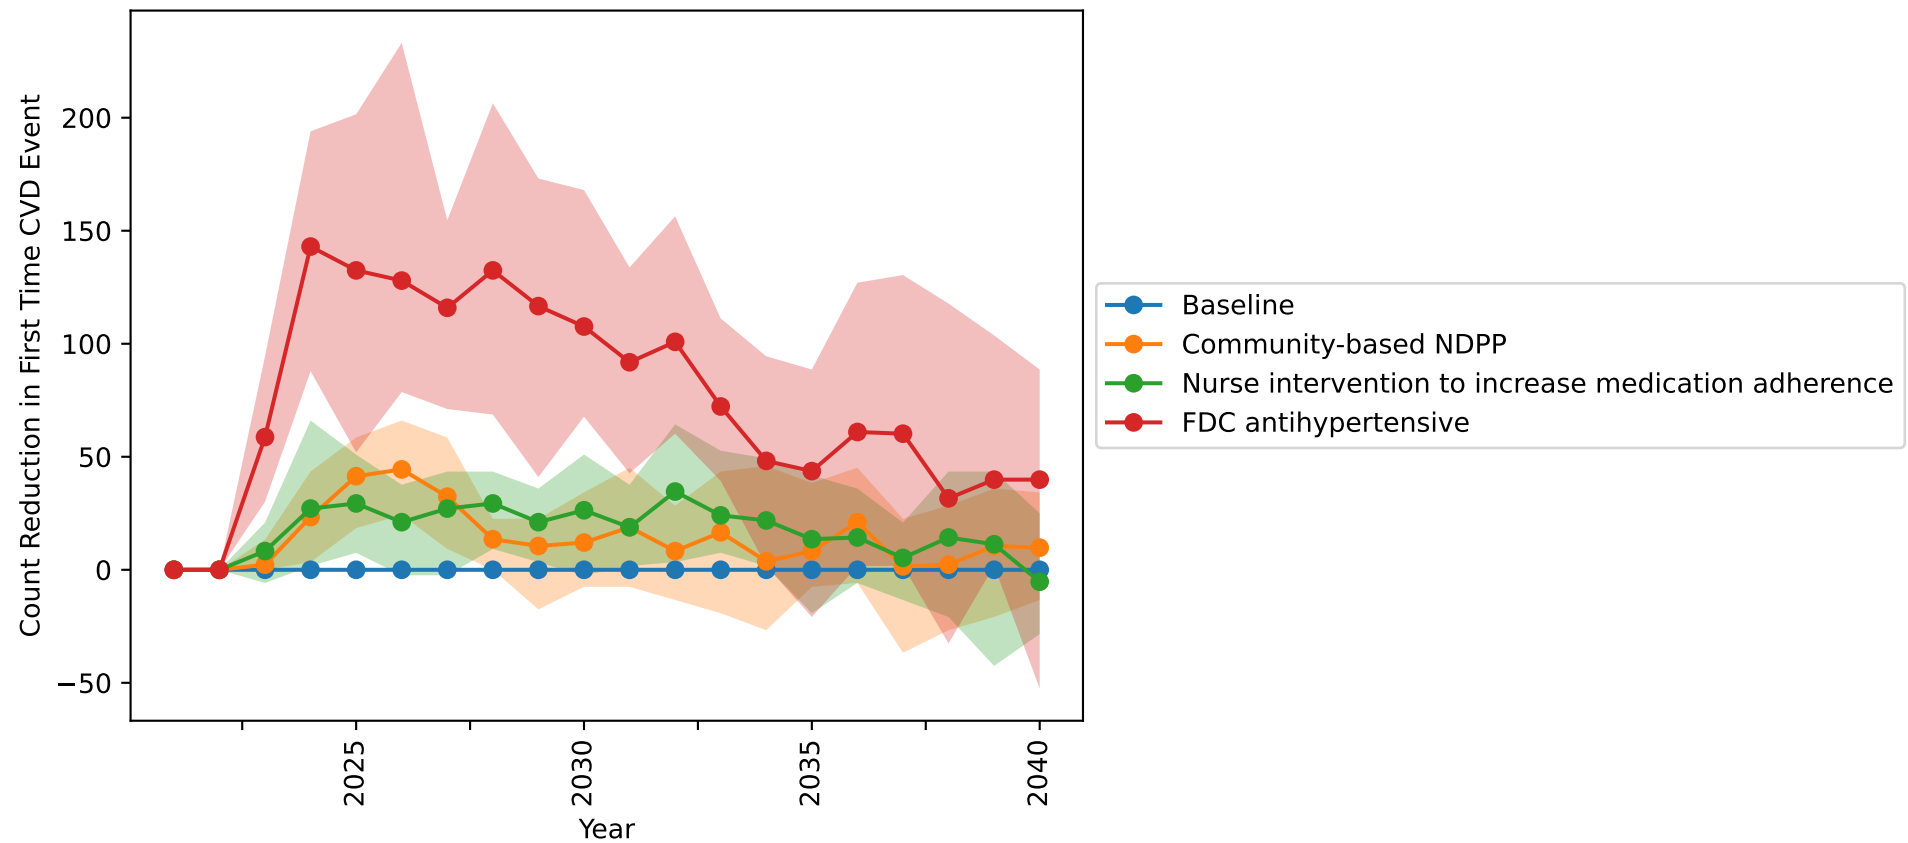

Count Reduction in First Time CVD Event for Missouri and Male

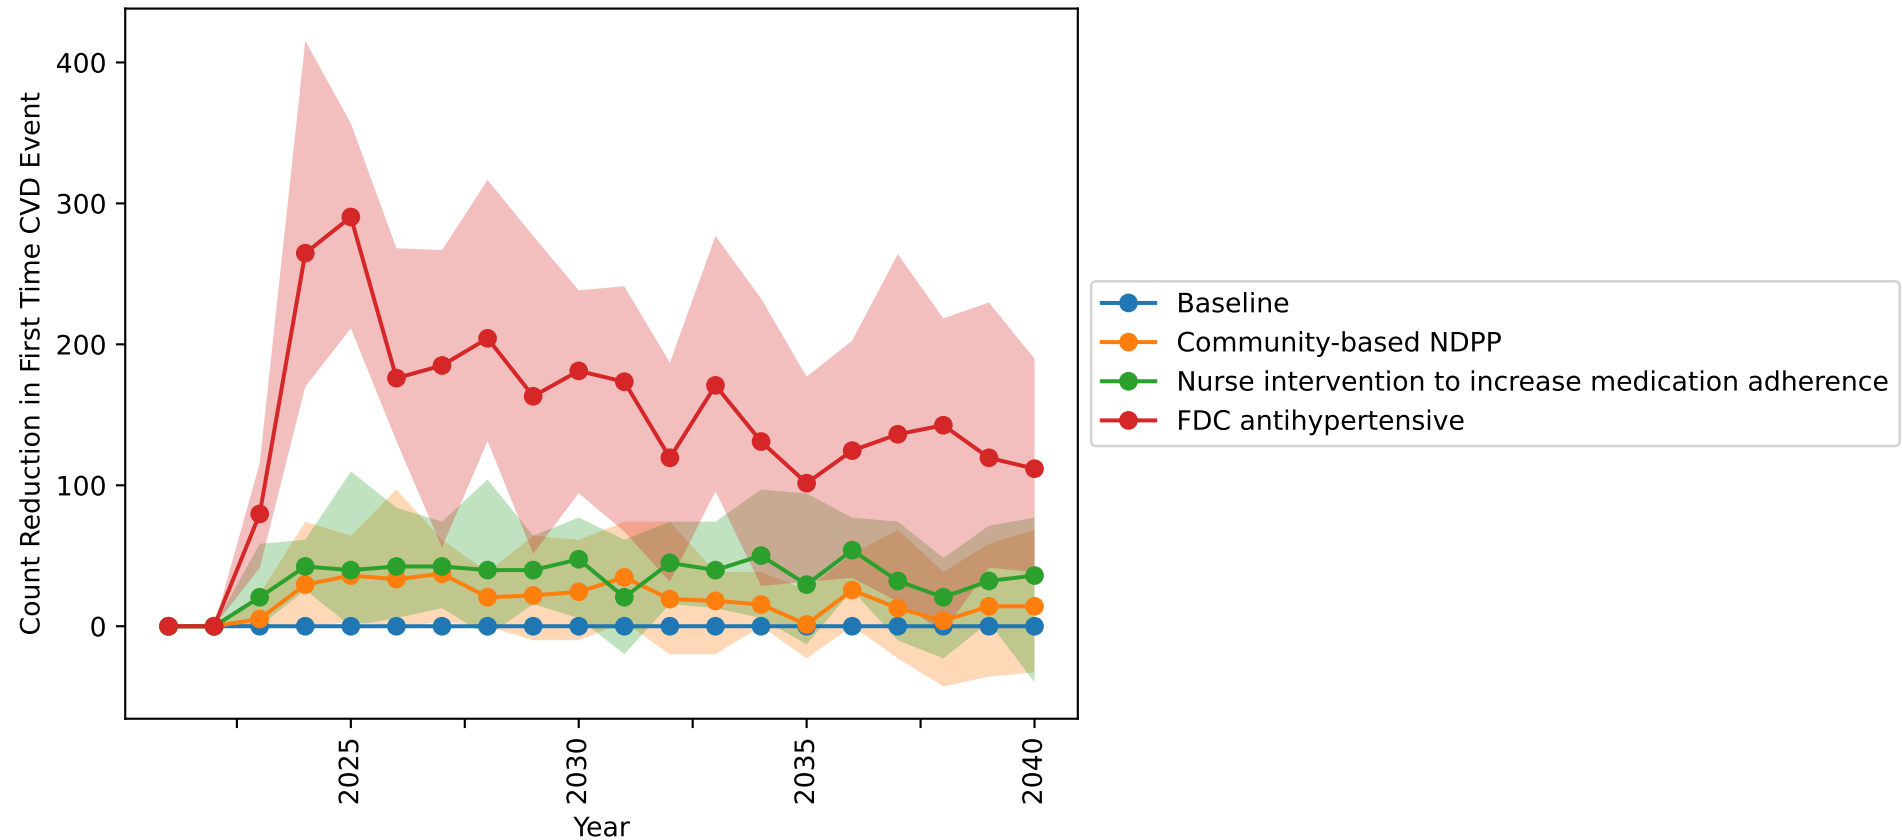

Count Reduction in First Time CVD Event for Montana and Female

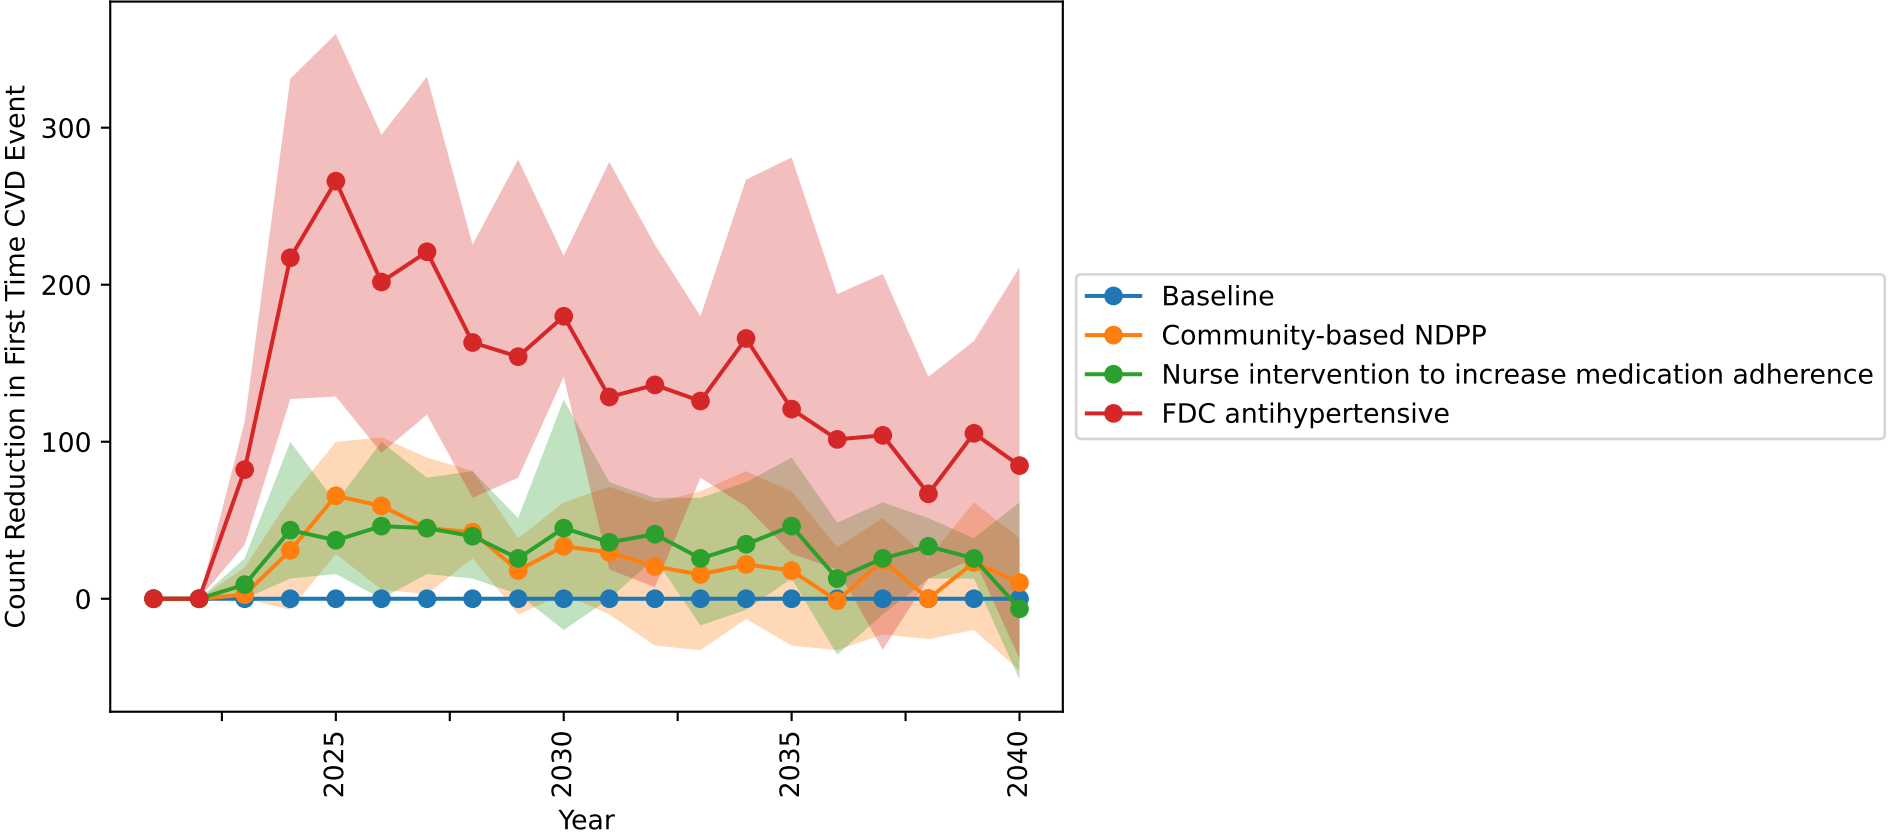

Count Reduction in First Time CVD Event for Montana and Male

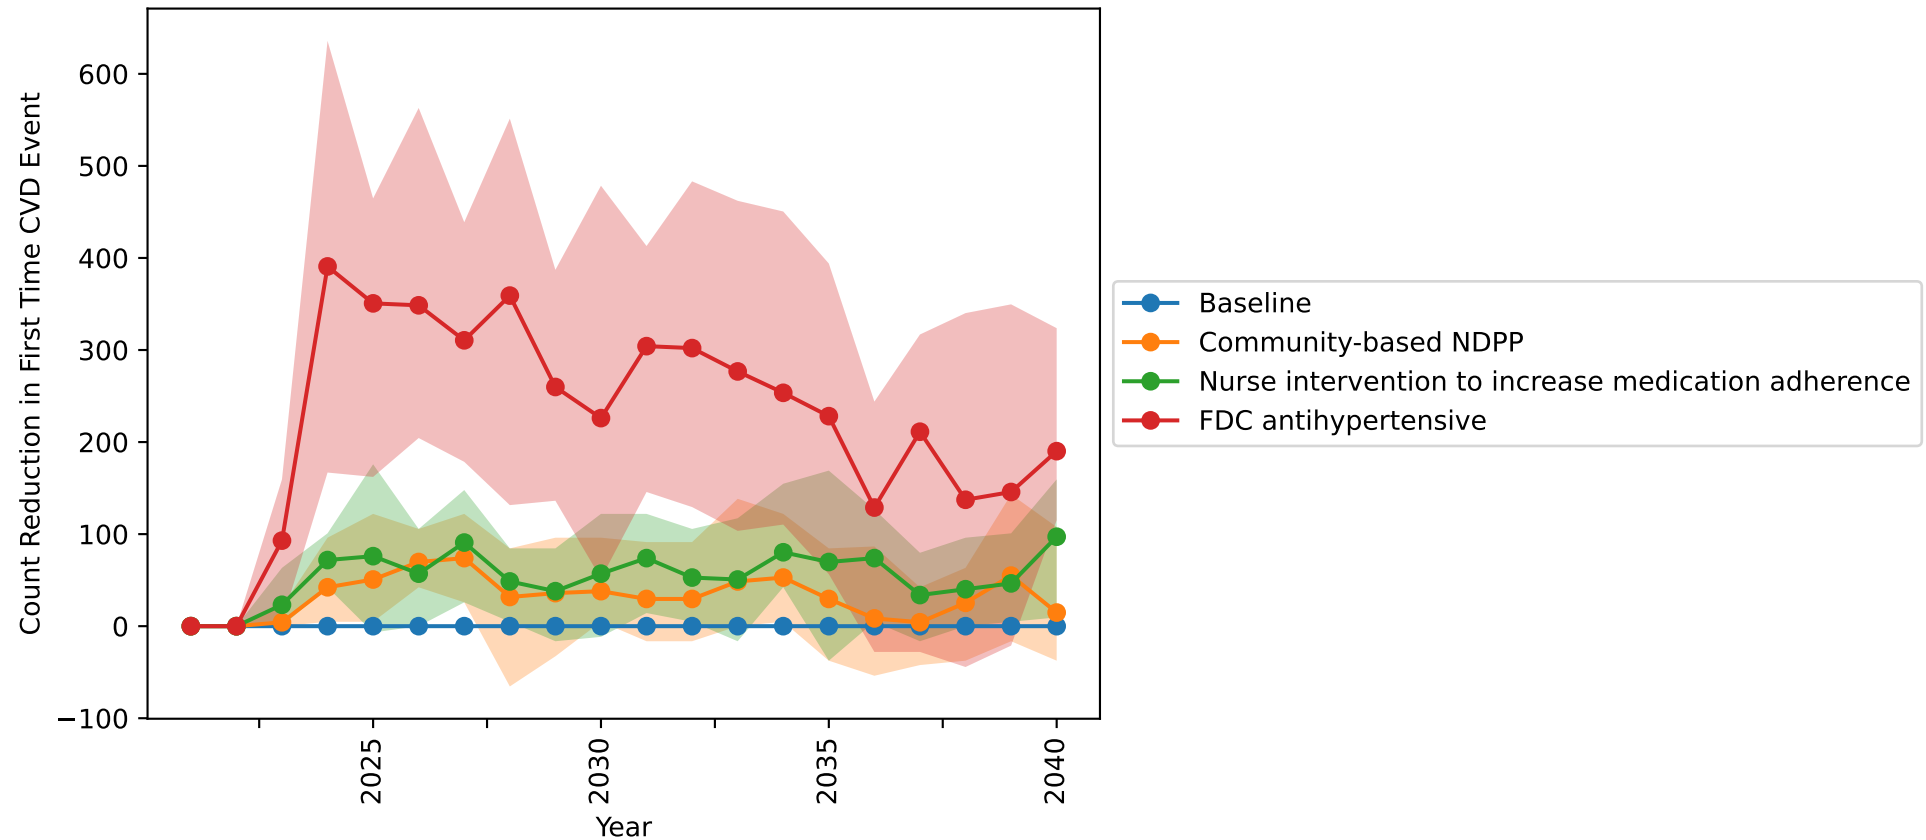

Count Reduction in First Time CVD Event for Nebraska and Female

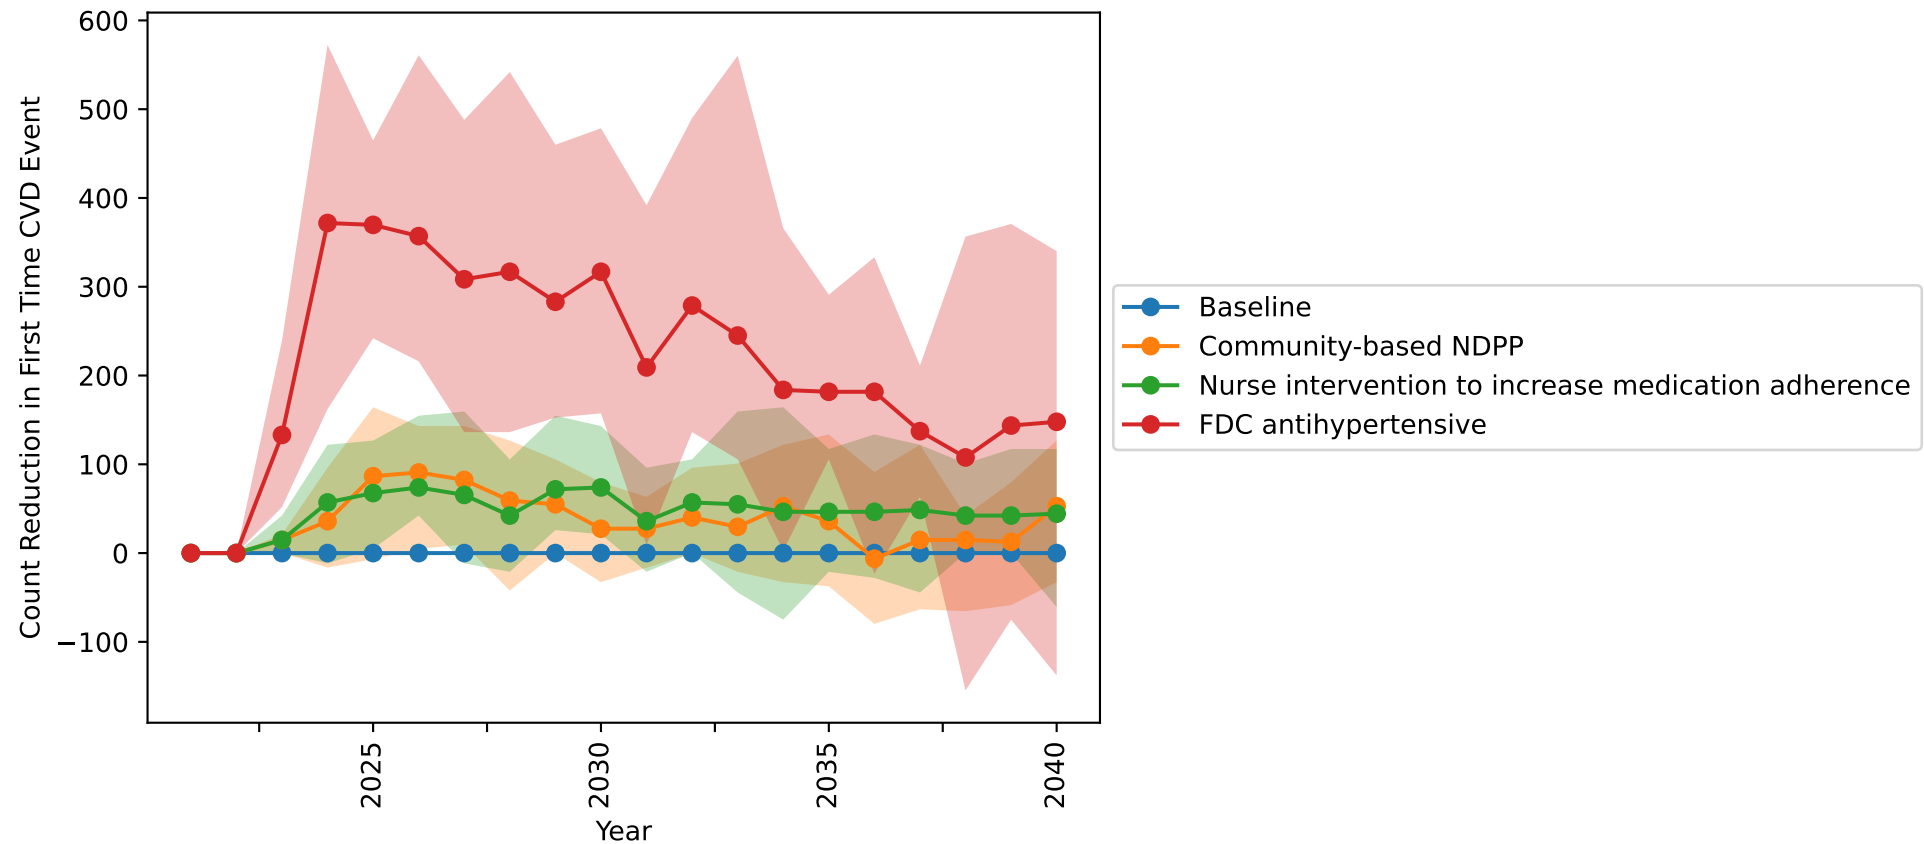

Count Reduction in First Time CVD Event for Nebraska and Male

Count Reduction in First Time CVD Event for Nevada and Female

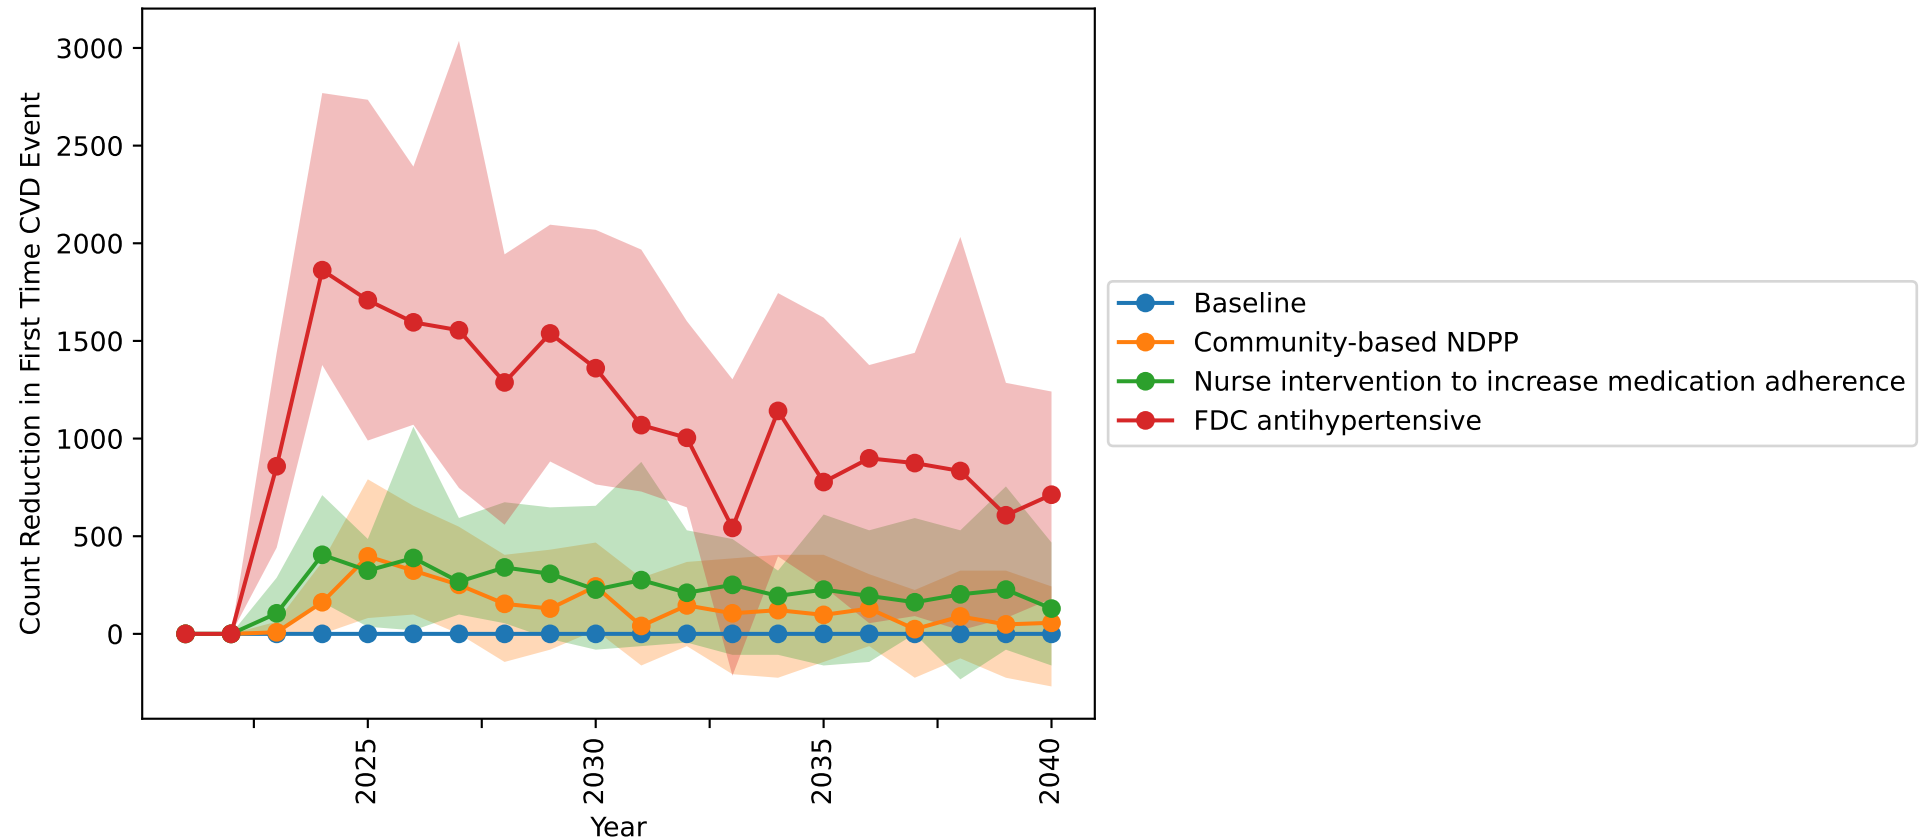

Count Reduction in First Time CVD Event for Nevada and Male

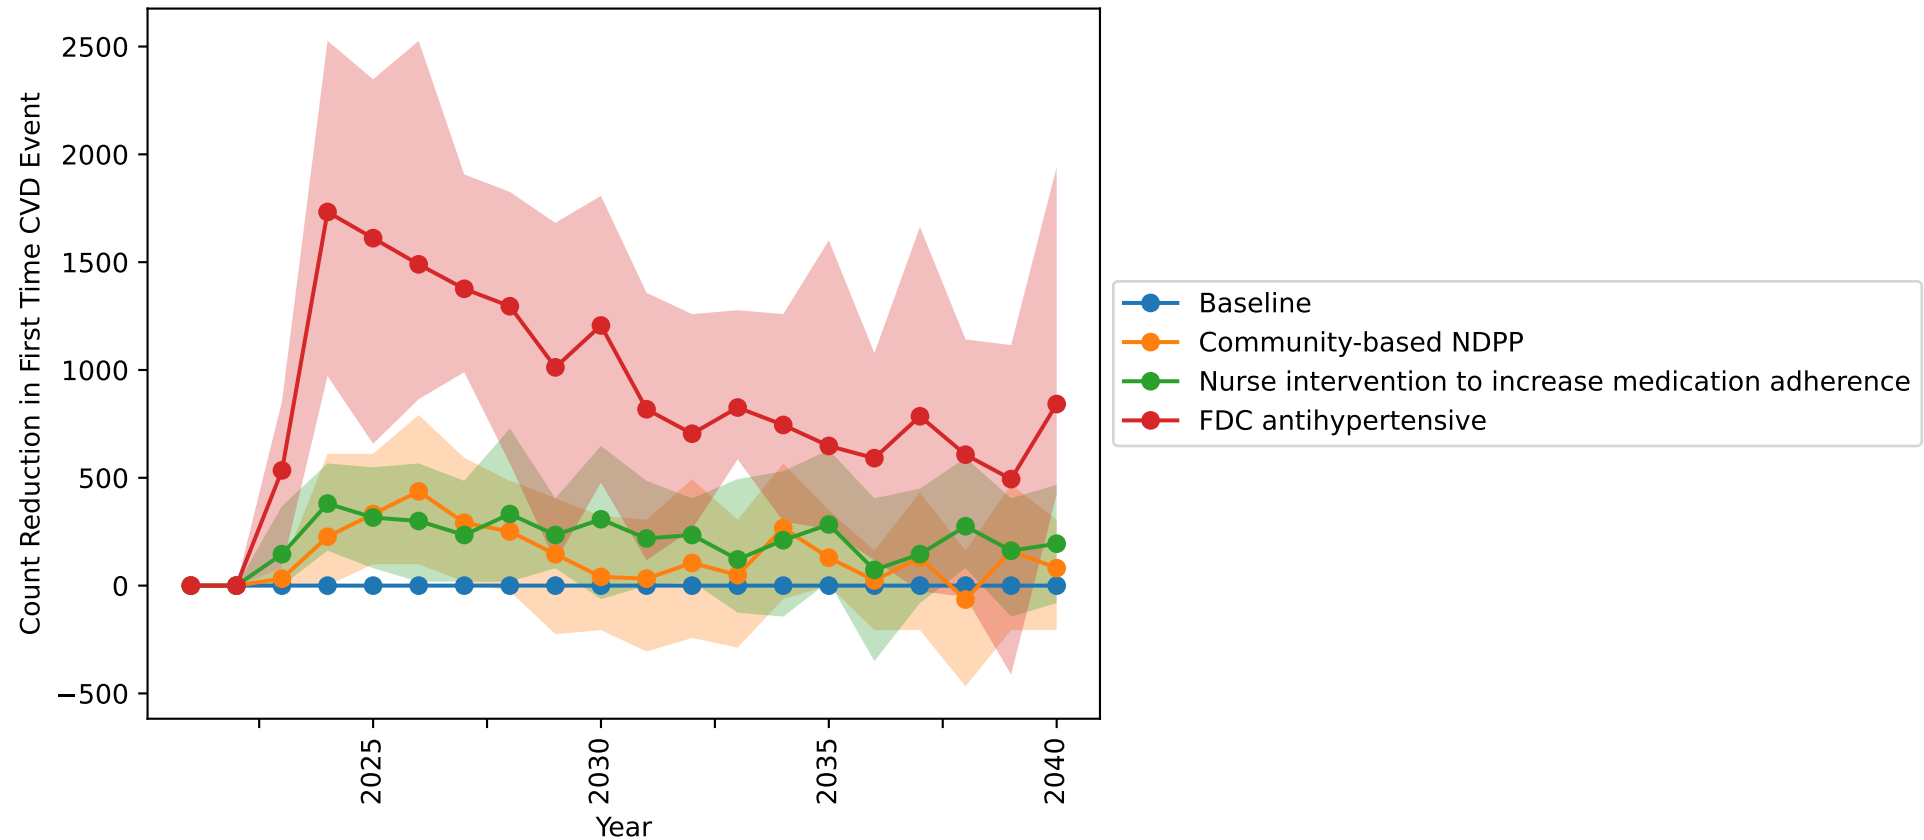

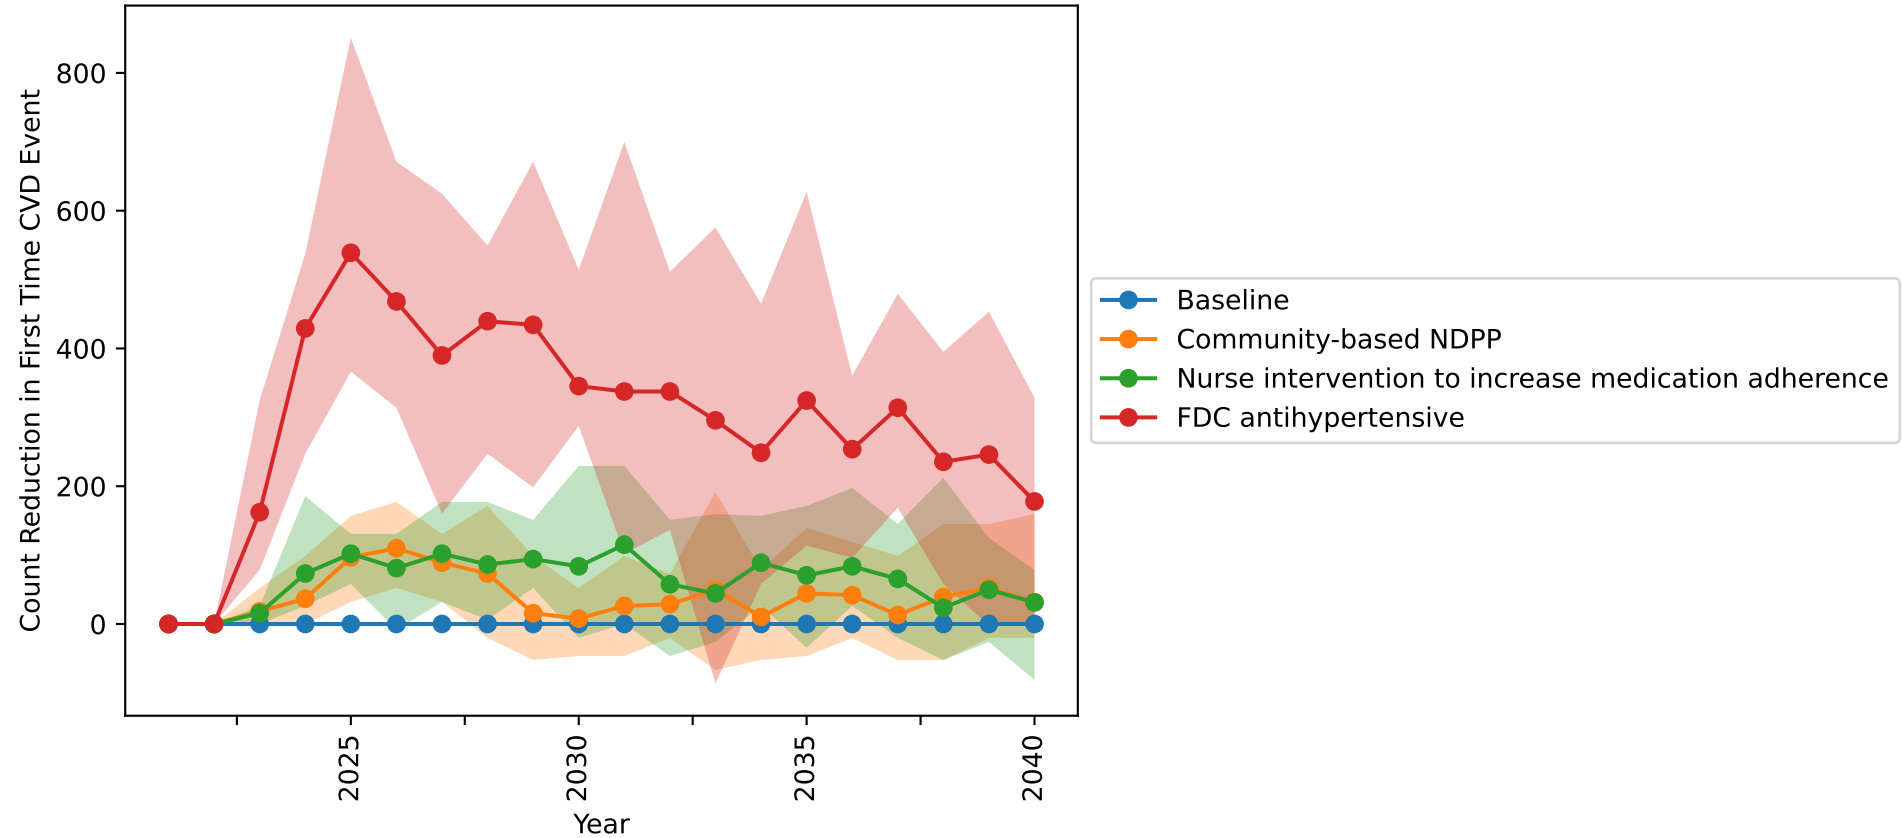

Count Reduction in First Time CVD Event for Ohio and Female

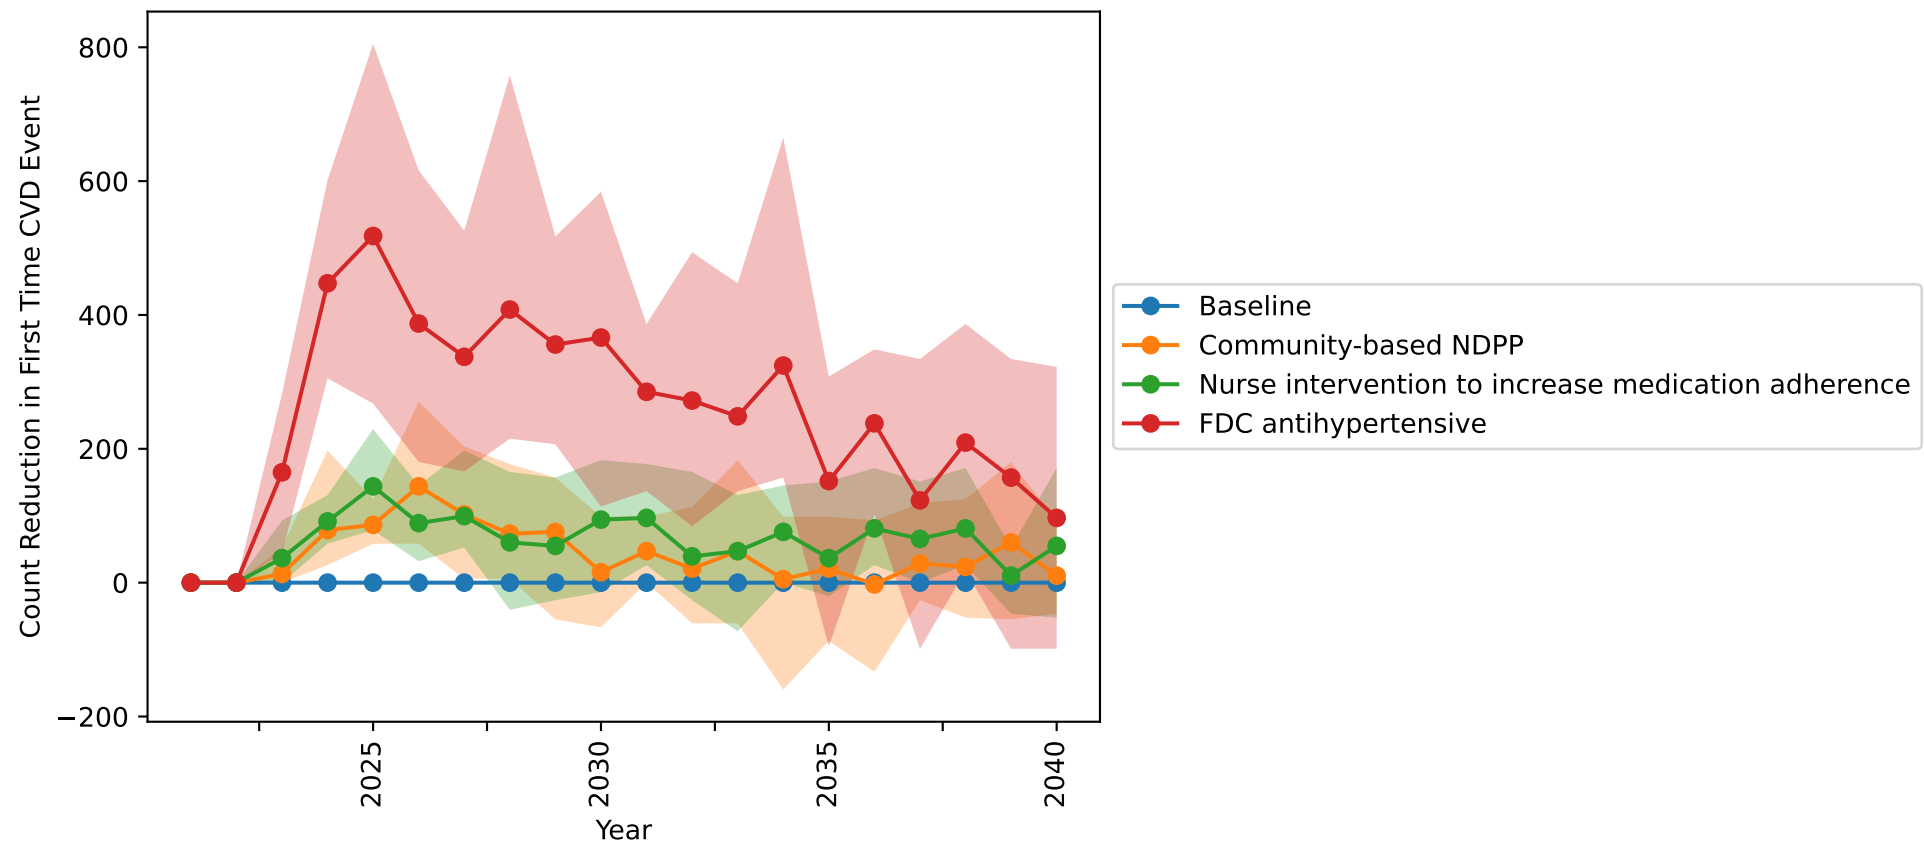

Count Reduction in First Time CVD Event for Ohio and Male

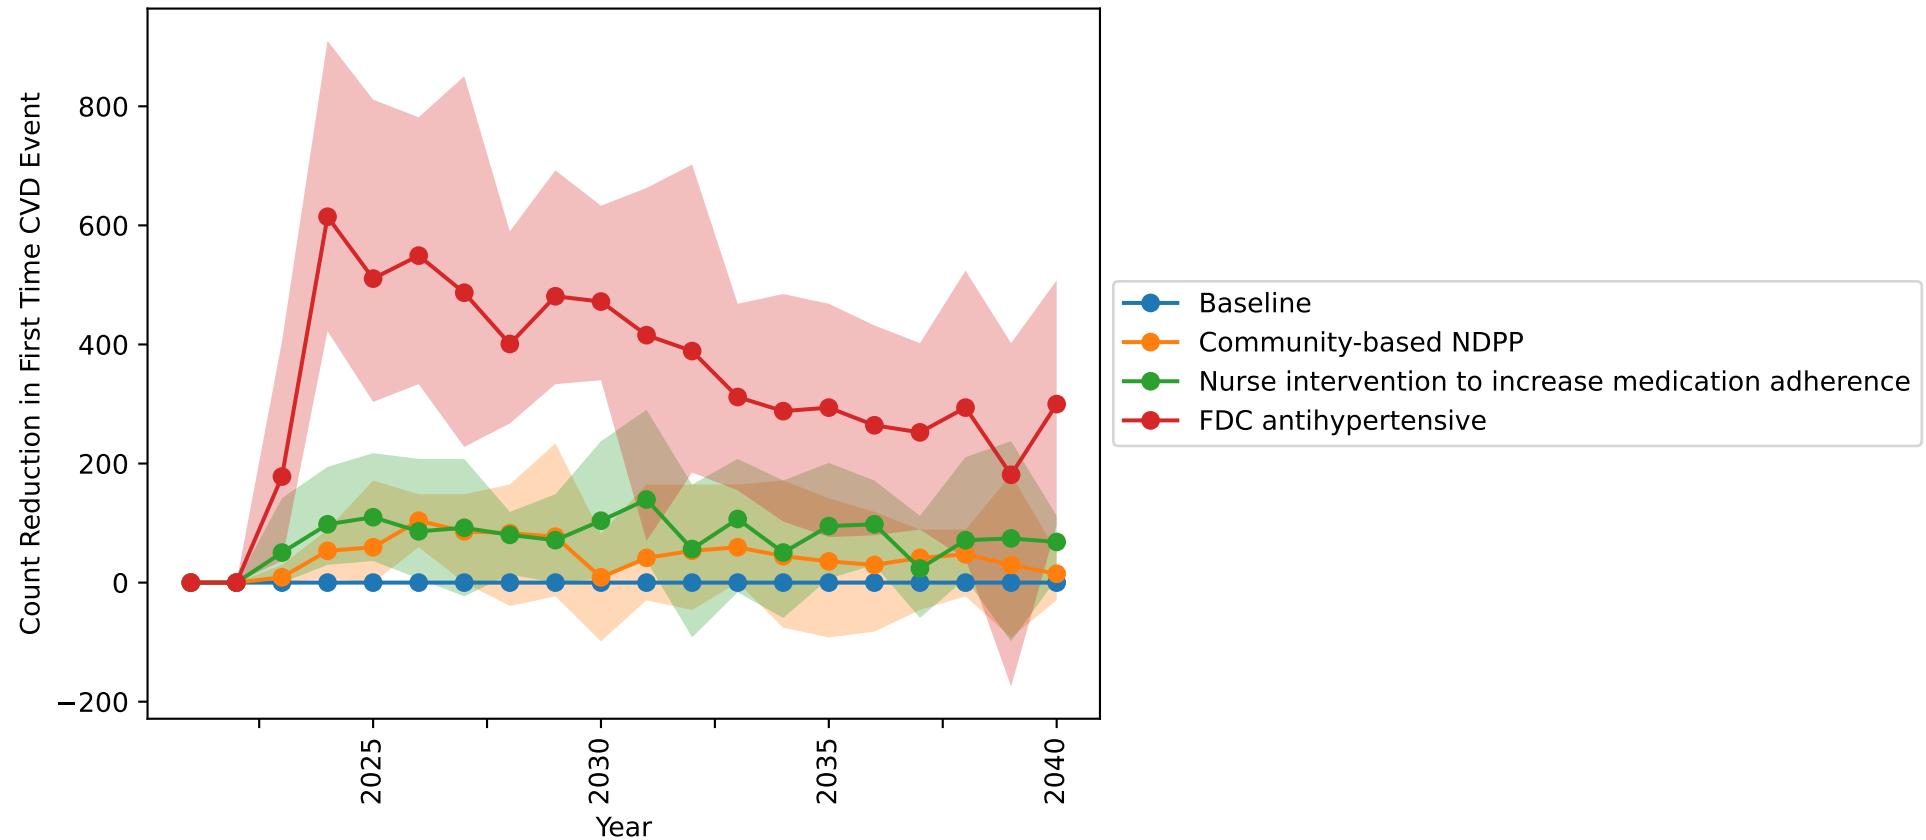

Count Reduction in First Time CVD Event for Oklahoma and Female

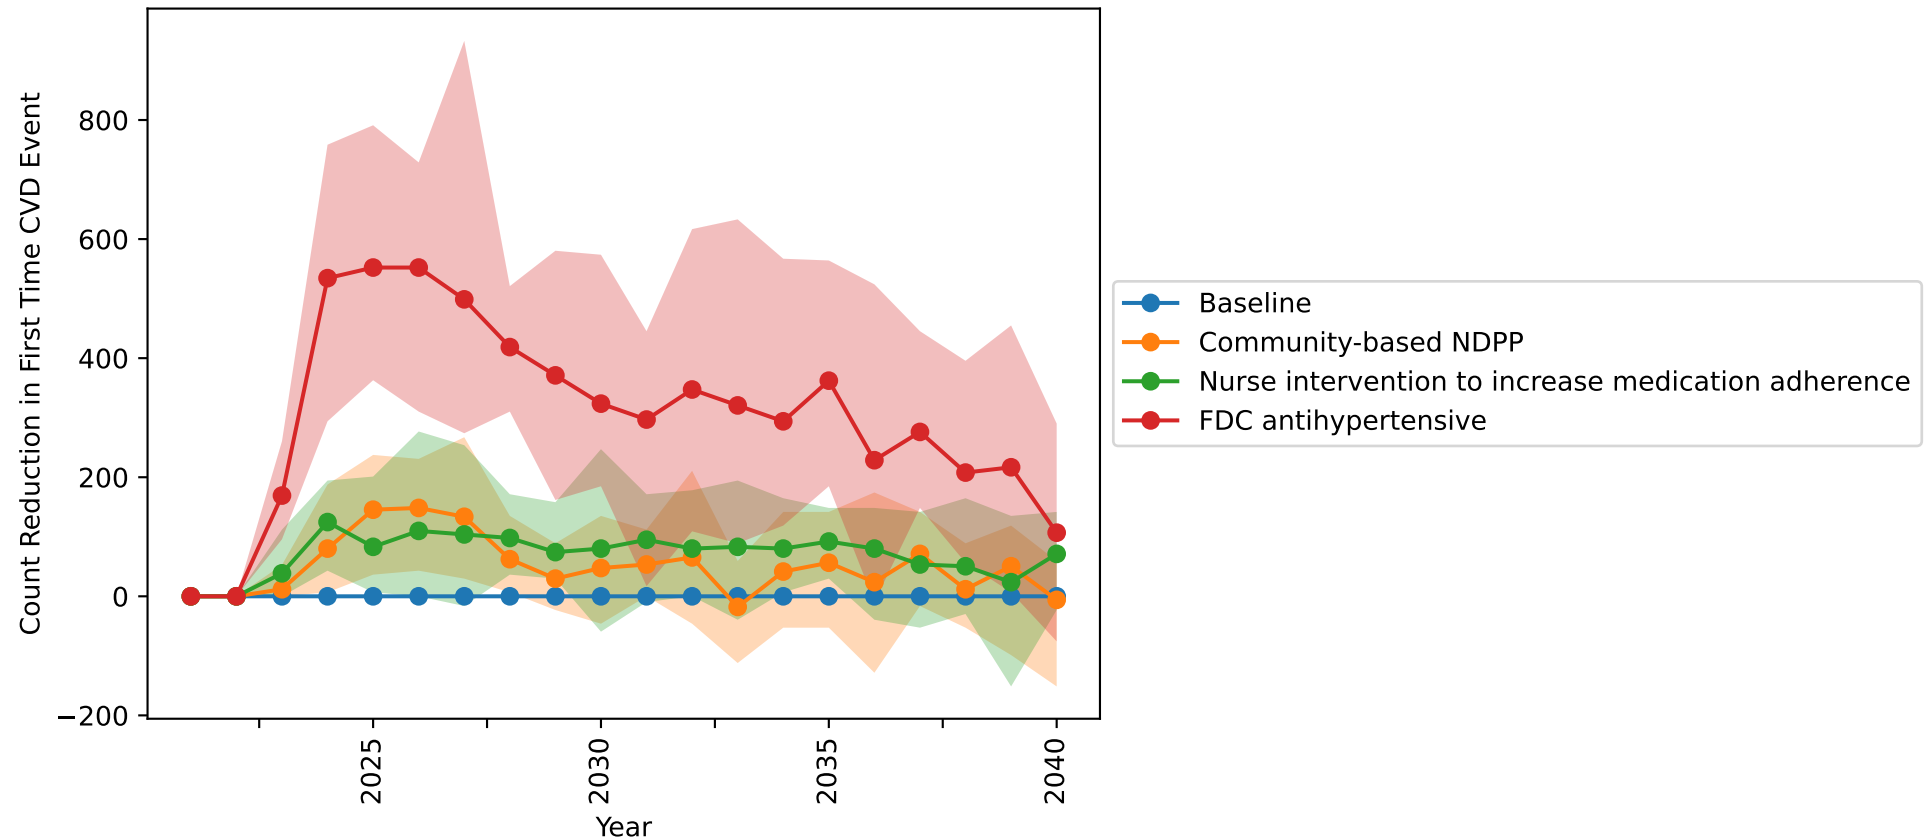

Count Reduction in First Time CVD Event for Oklahoma and Male

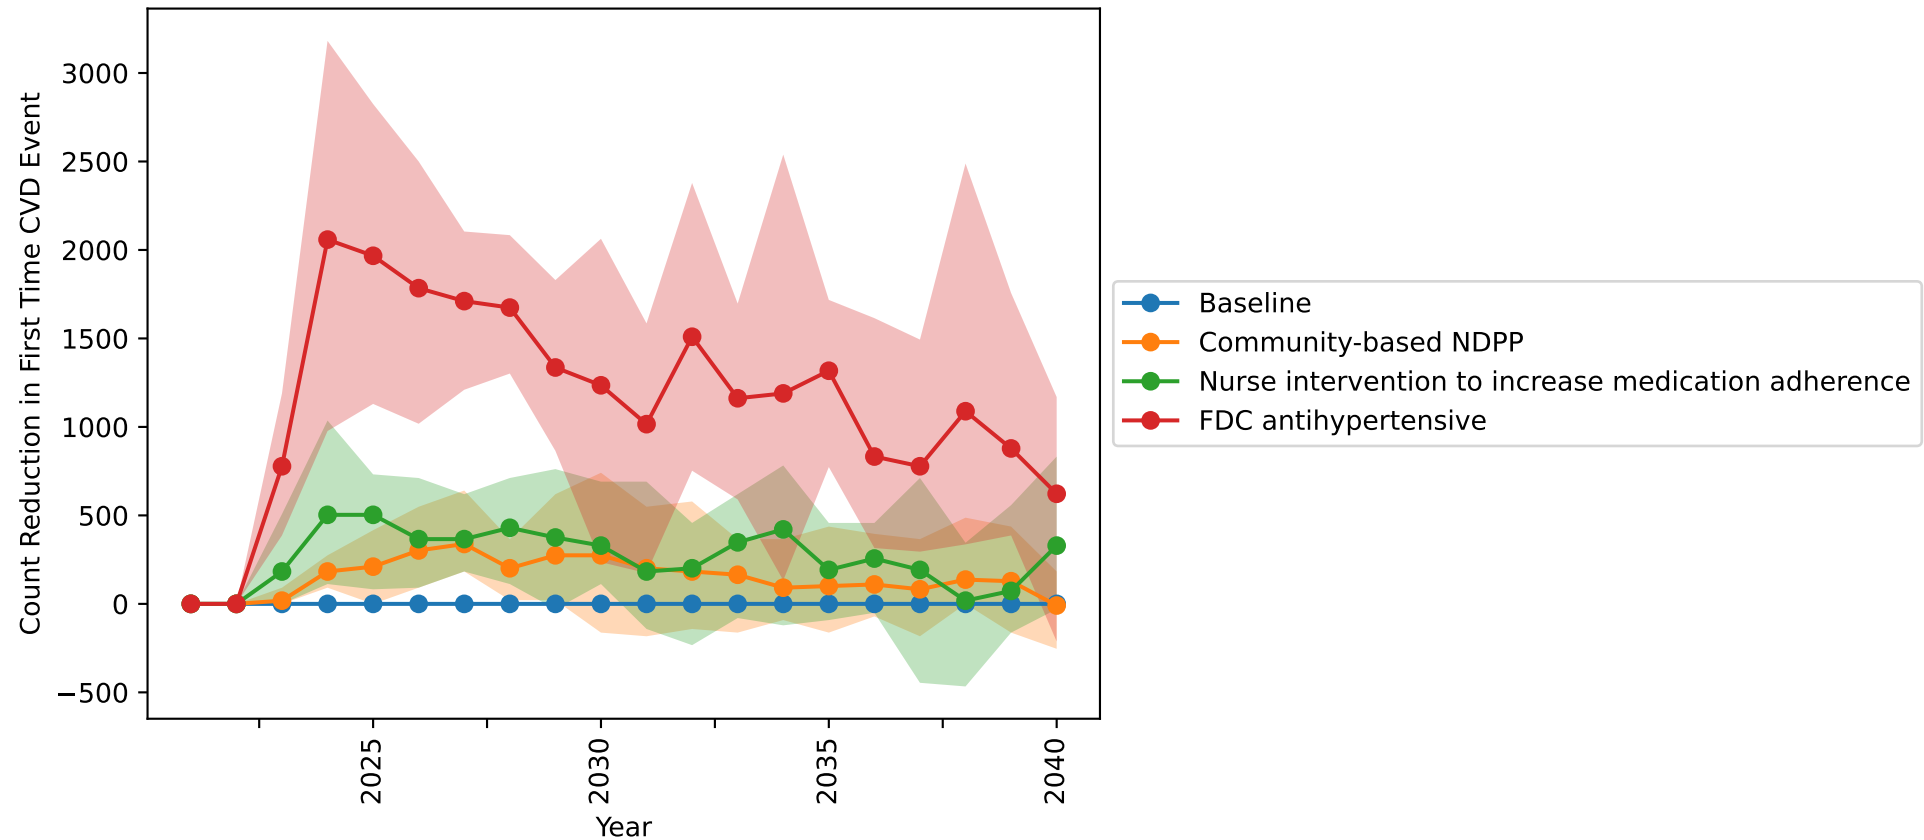

Count Reduction in First Time CVD Event for Oregon and Female

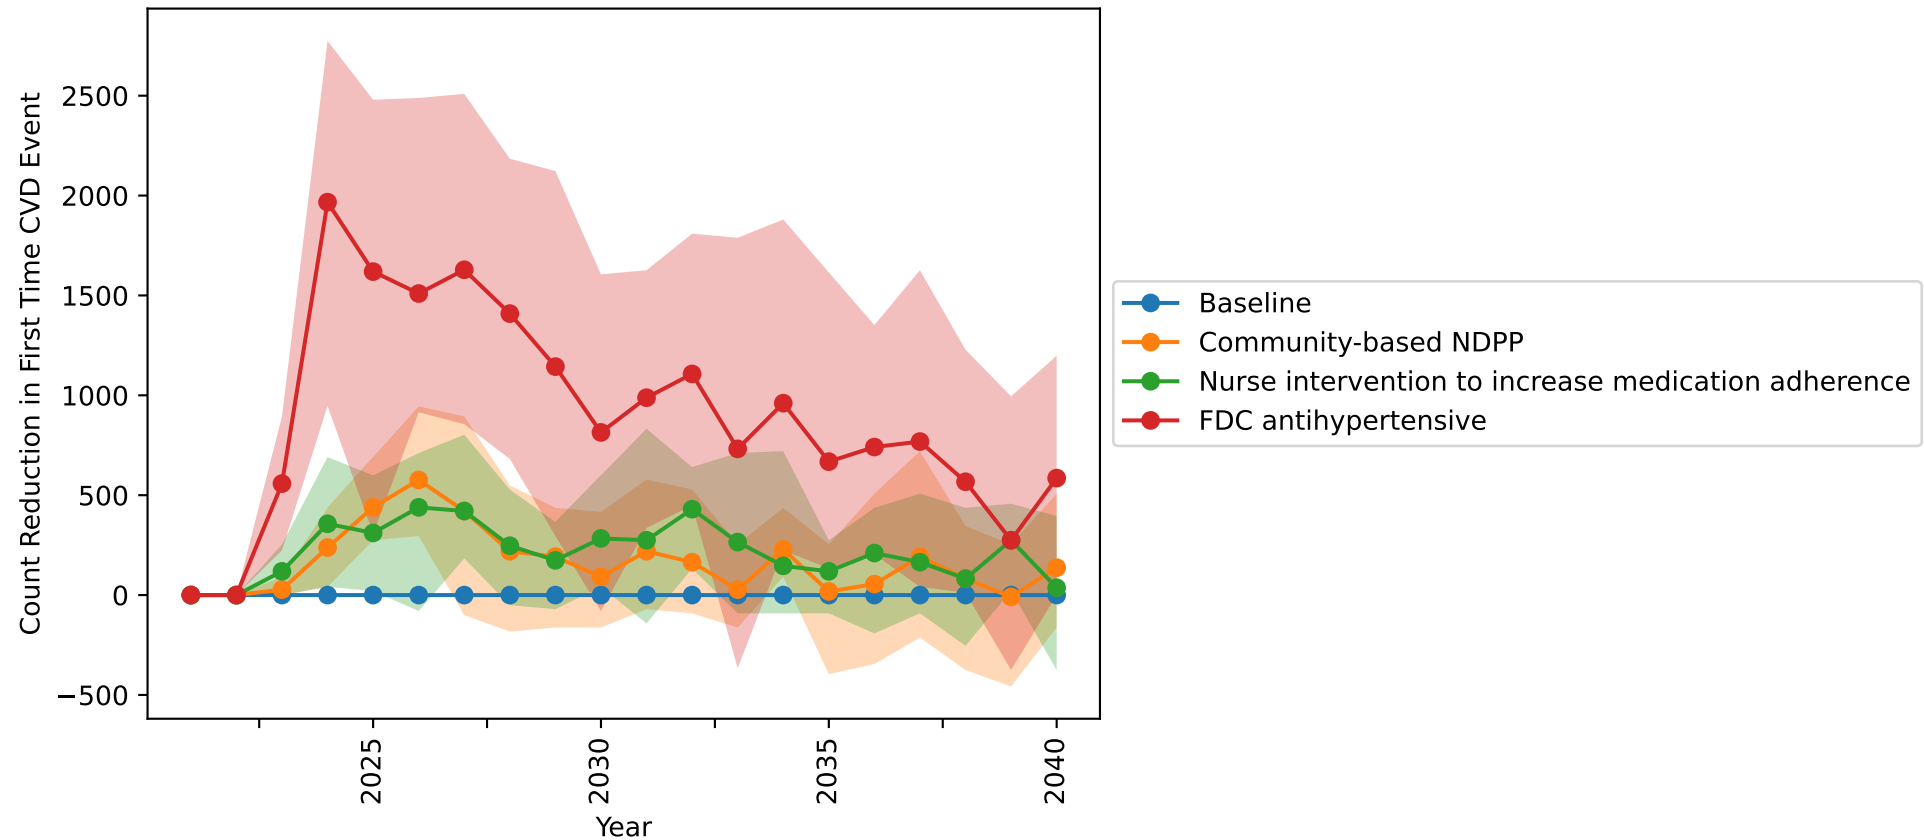

Count Reduction in First Time CVD Event for Oregon and Male

Count Reduction in First Time CVD Event for Pennsylvania and Female

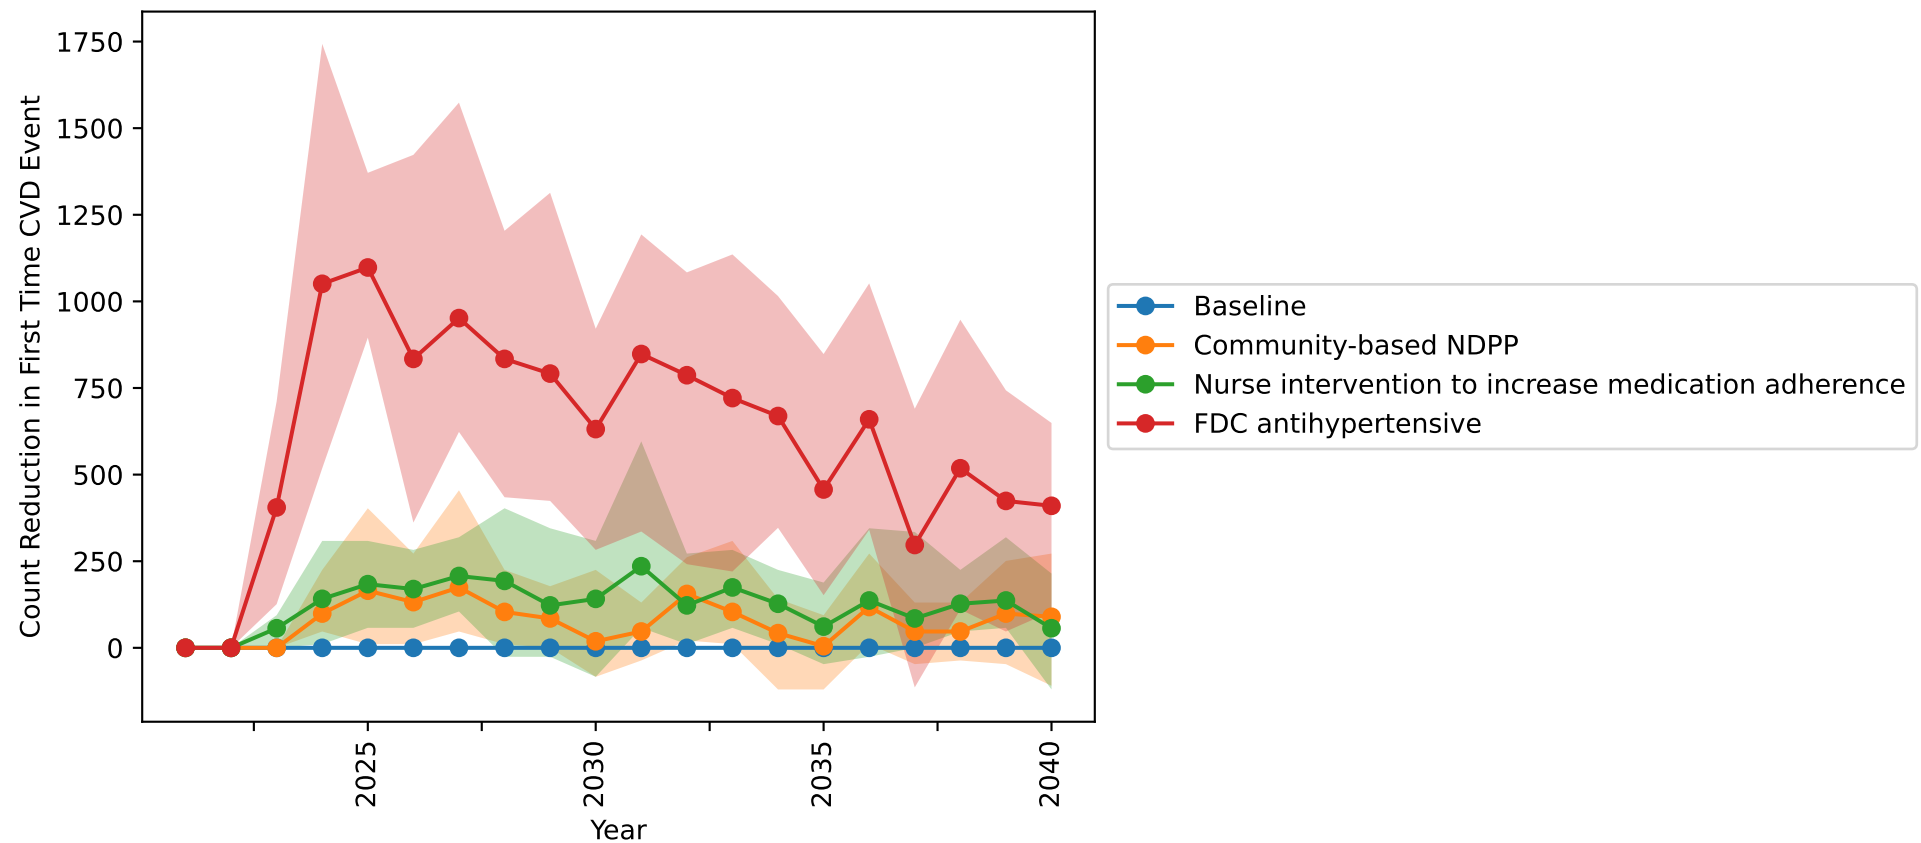

Count Reduction in First Time CVD Event for Pennsylvania and Male

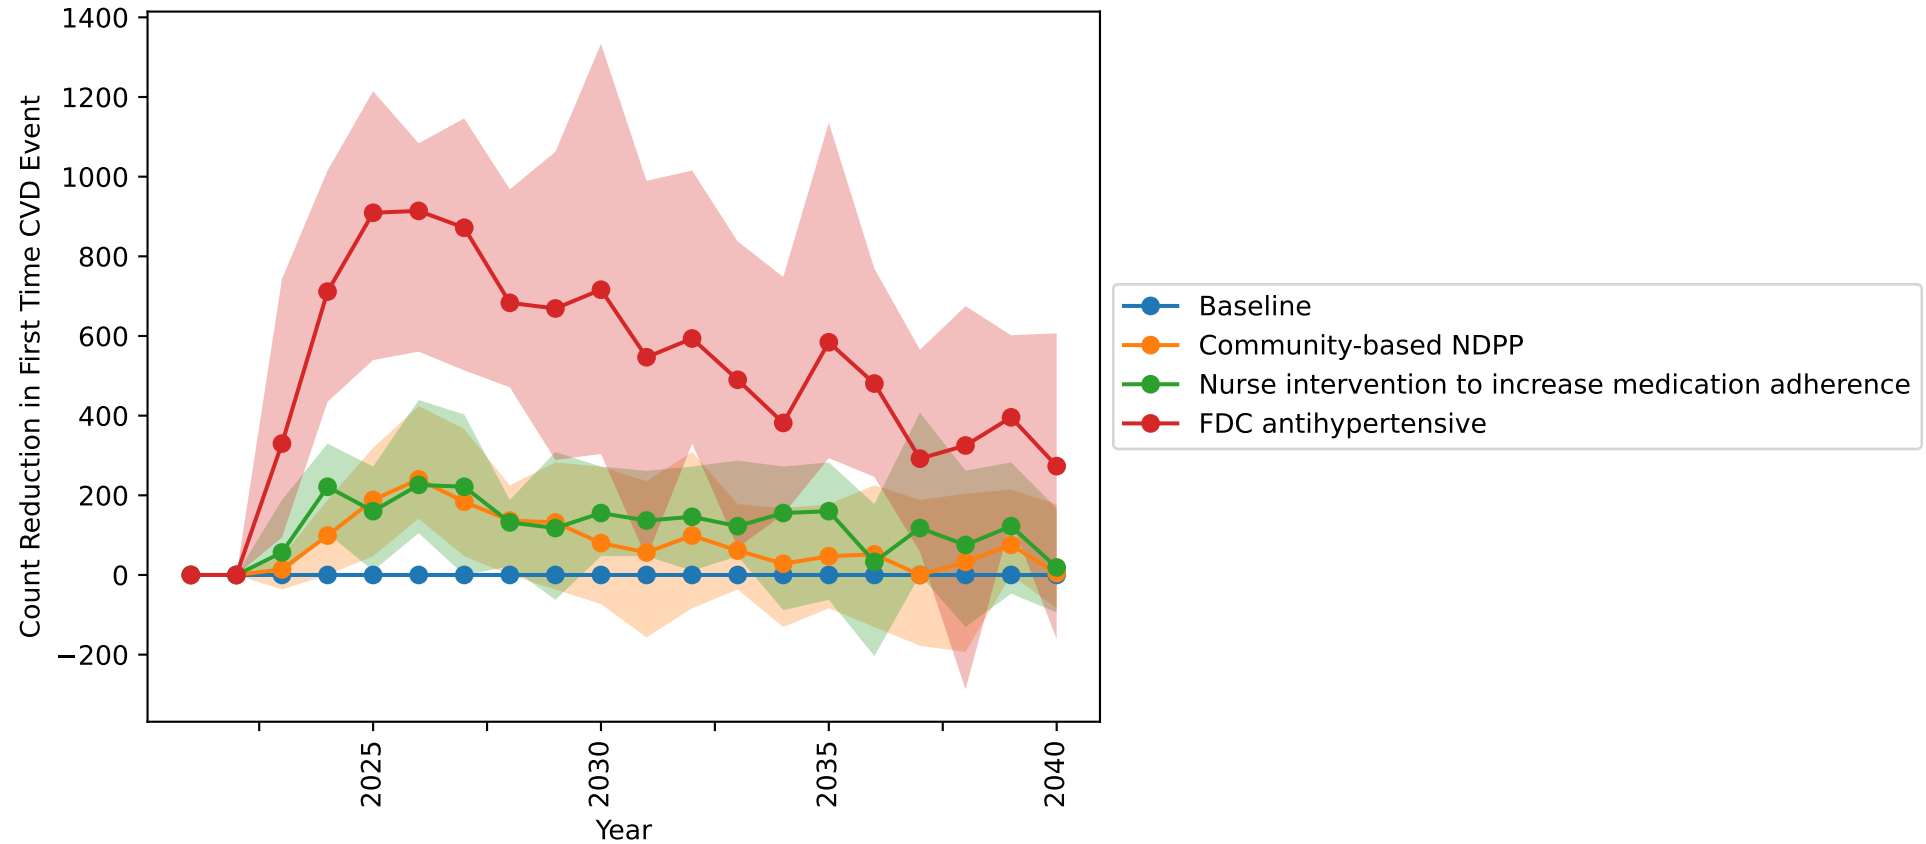

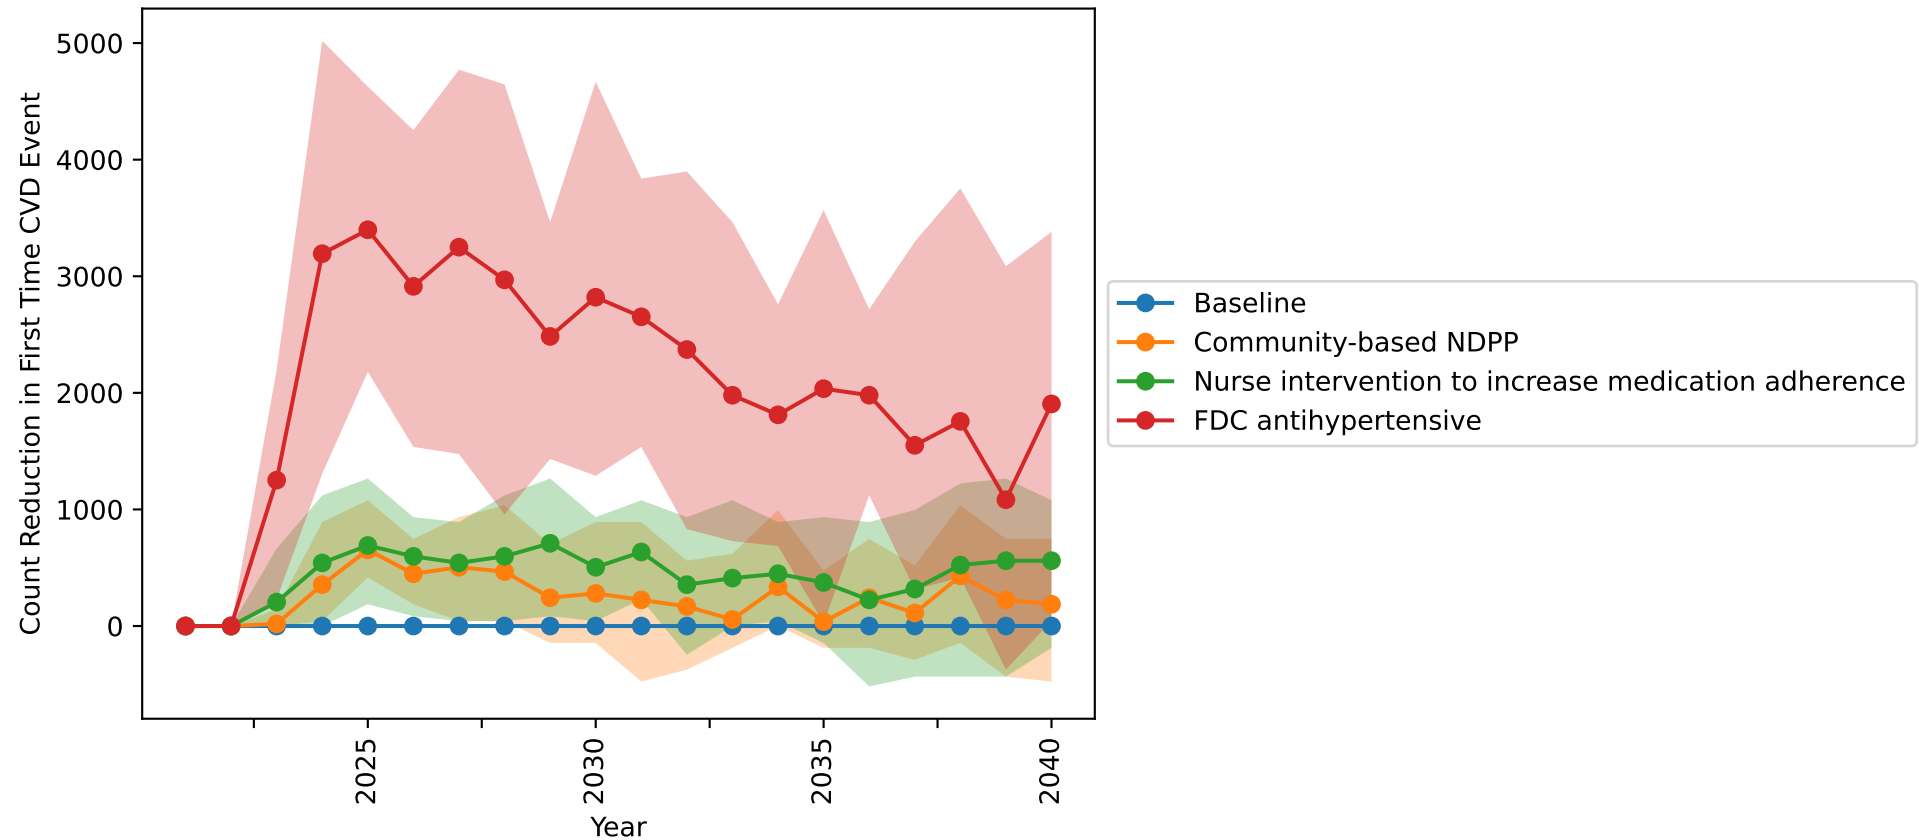

Count Reduction in First Time CVD Event for Tennessee and Female

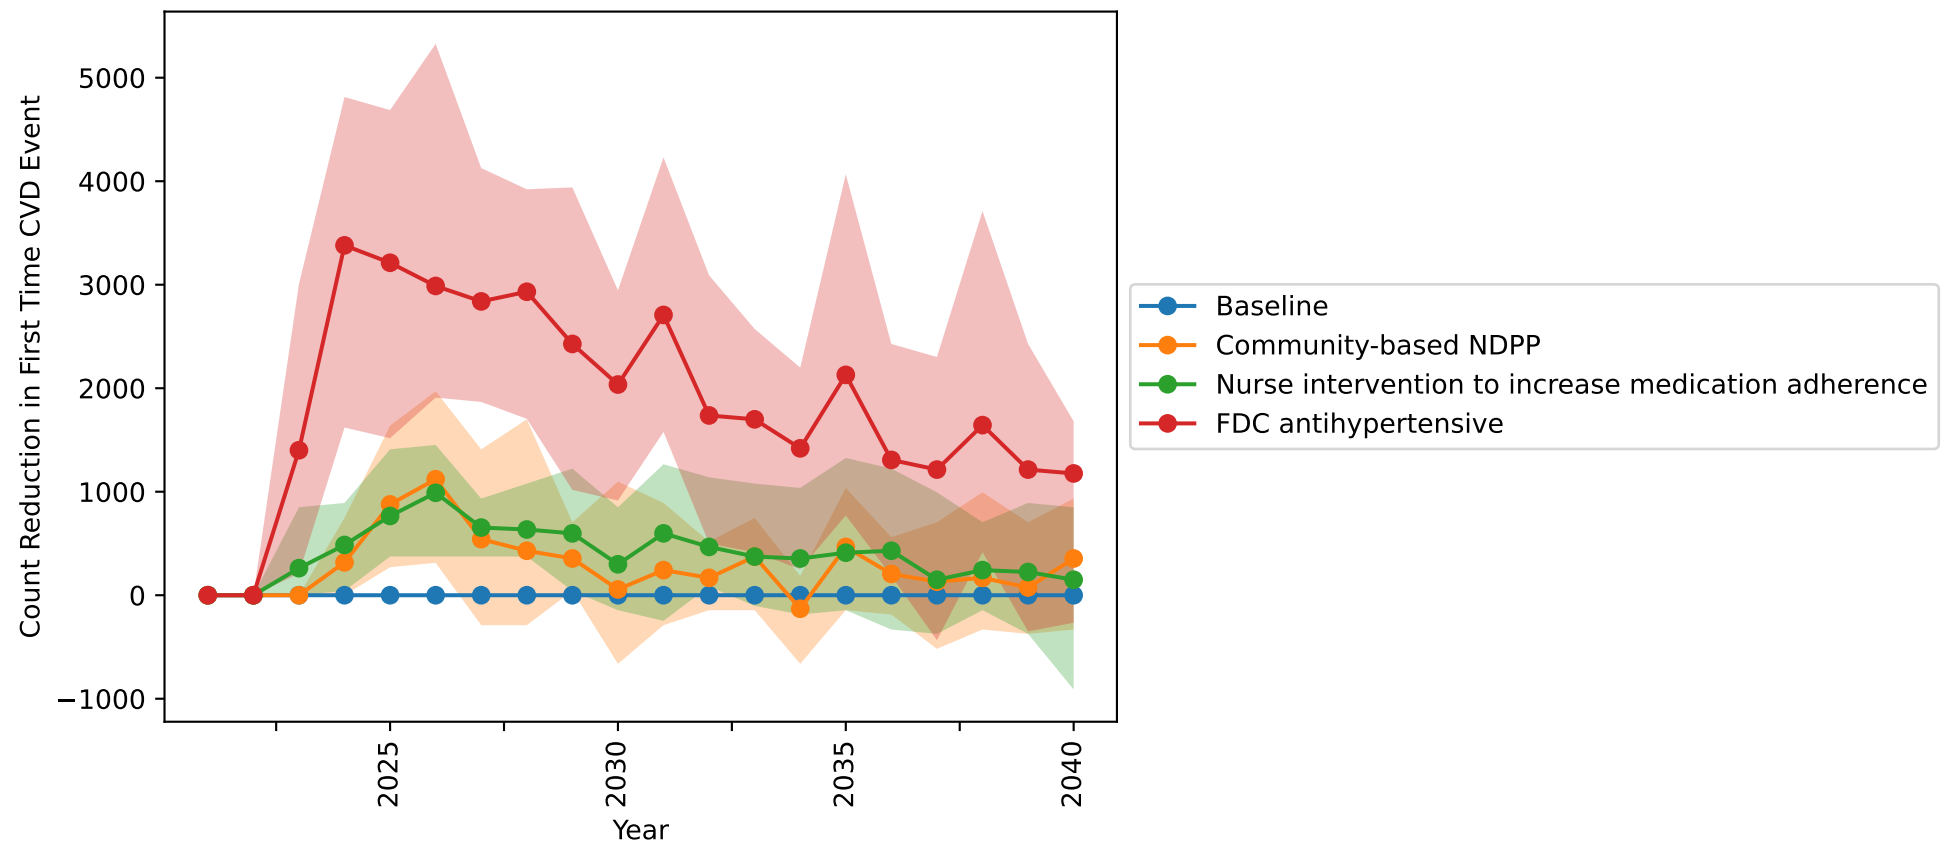

Count Reduction in First Time CVD Event for Tennessee and Male

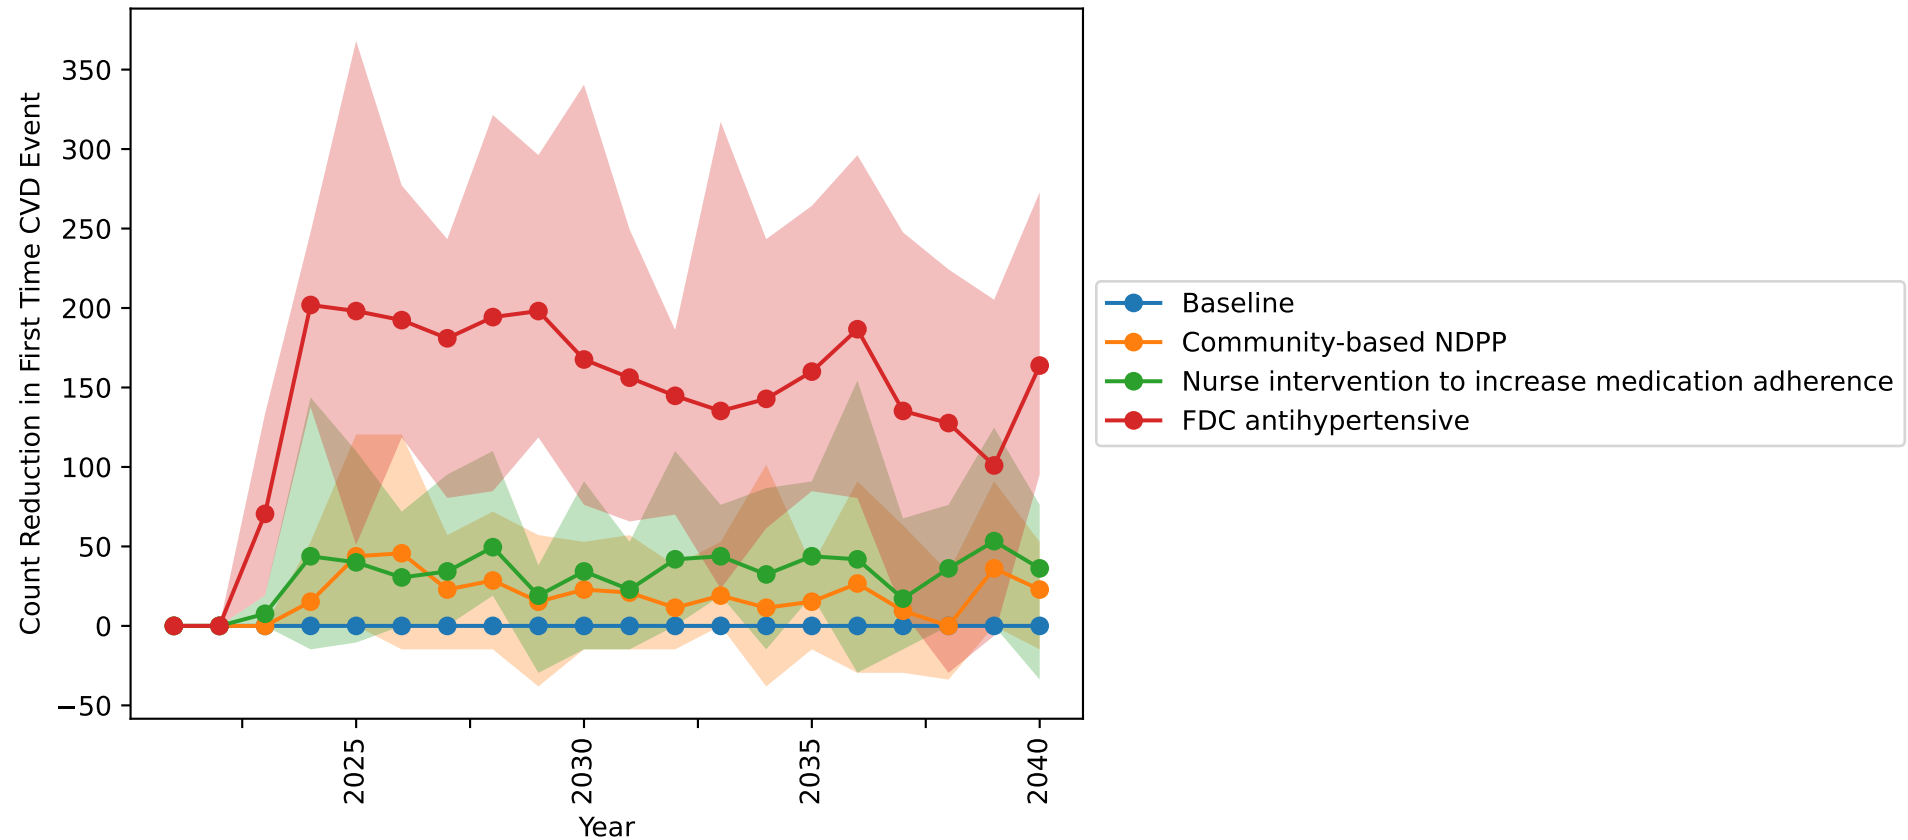

Count Reduction in First Time CVD Event for Texas and Female

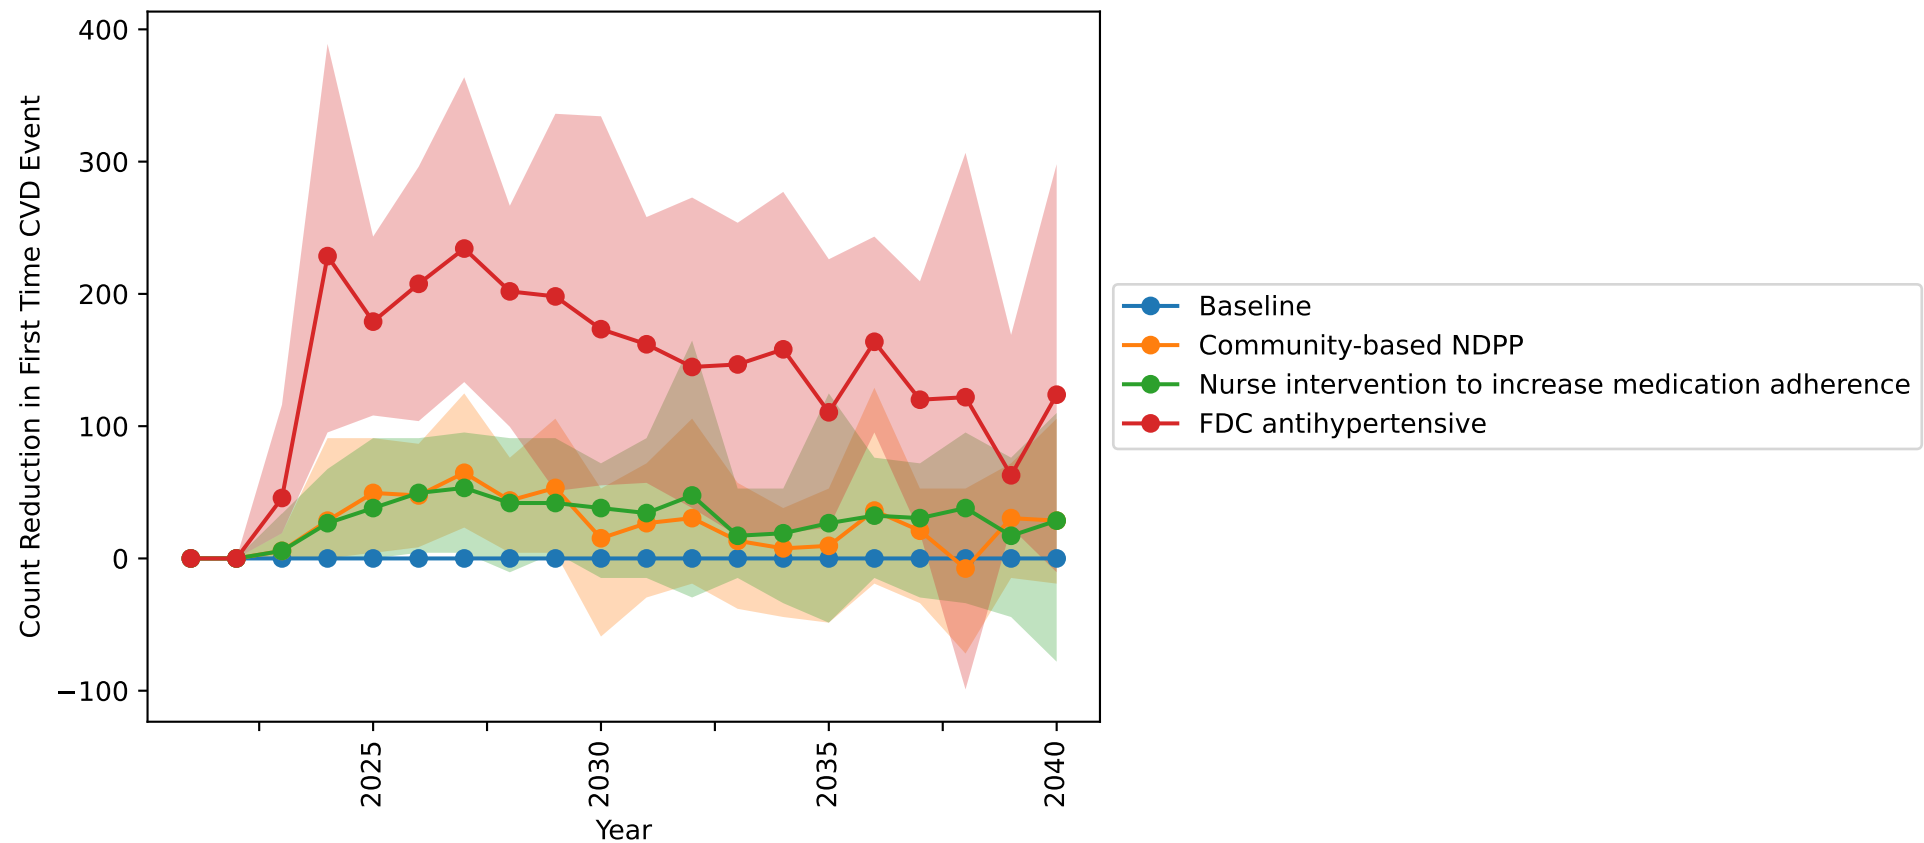

Count Reduction in First Time CVD Event for Texas and Male

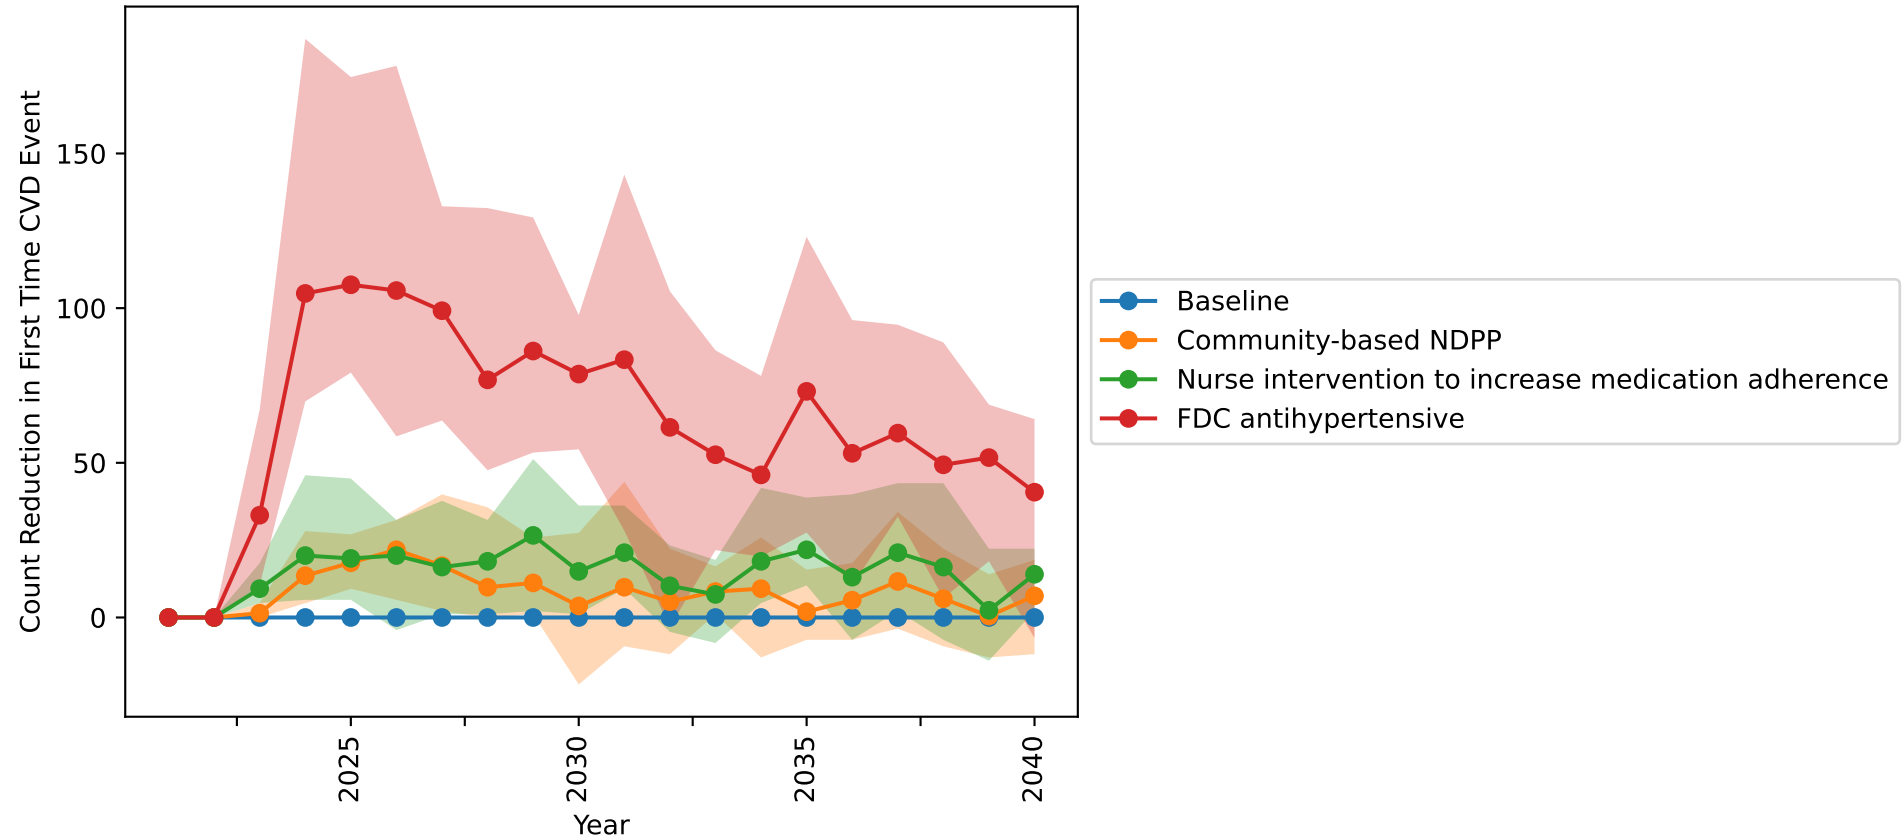

Count Reduction in First Time CVD Event for Utah and Female

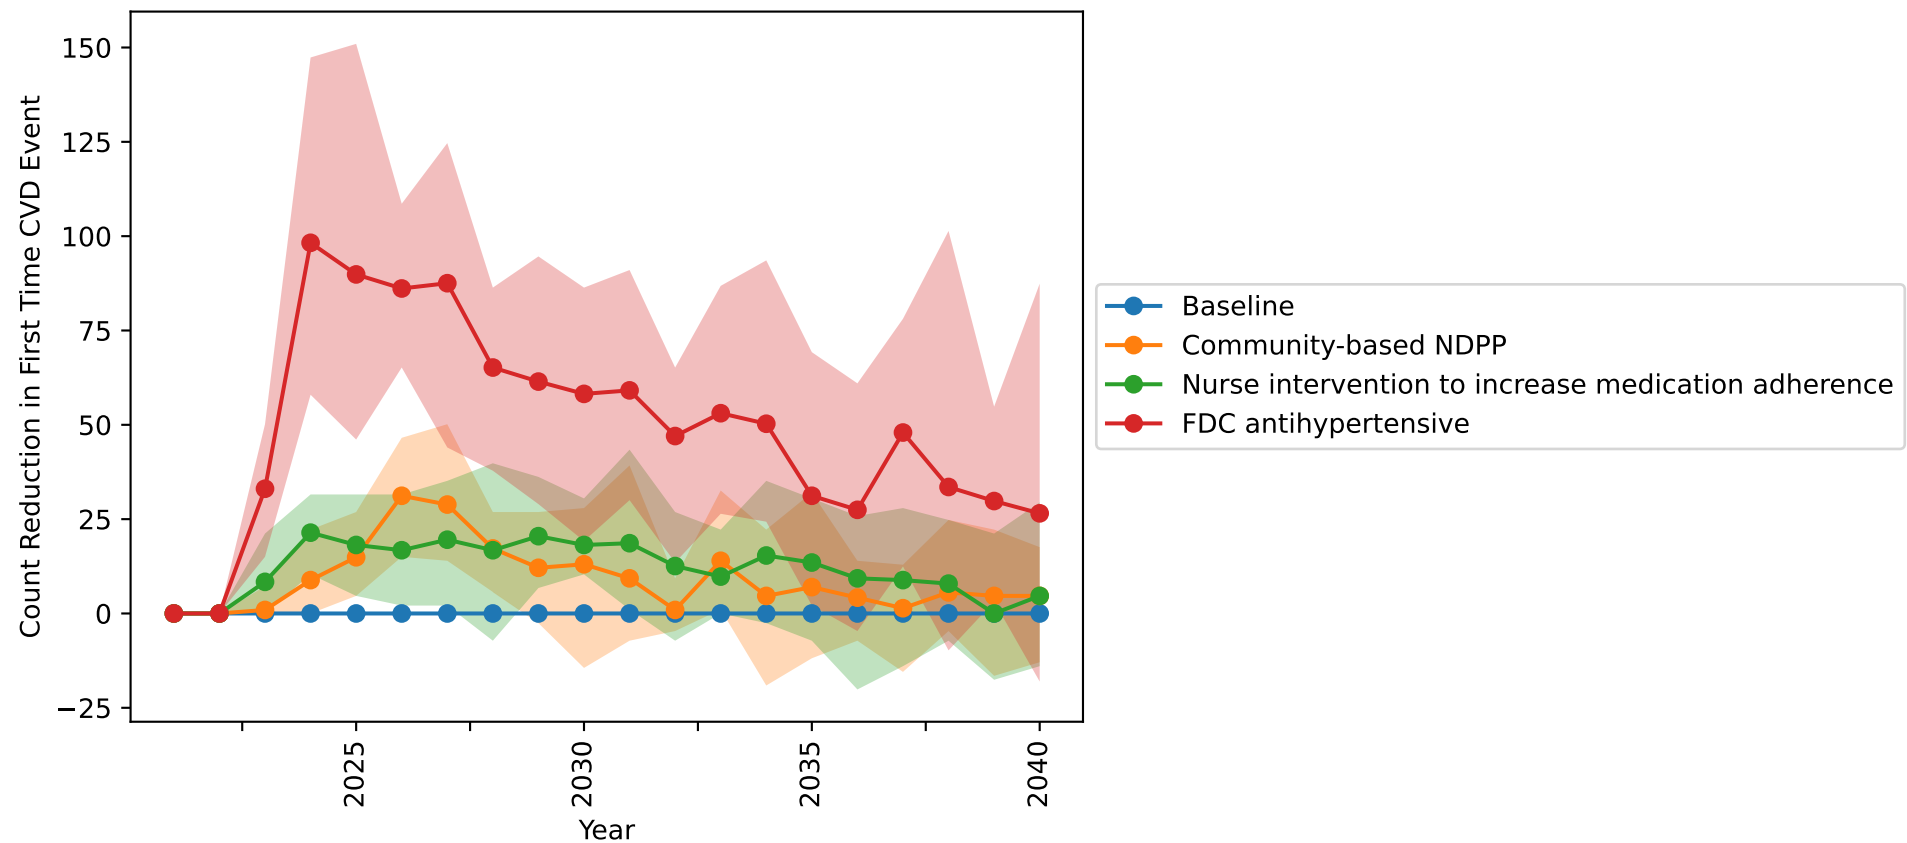

Count Reduction in First Time CVD Event for Utah and Male

Count Reduction in First Time CVD Event for Vermont and Female

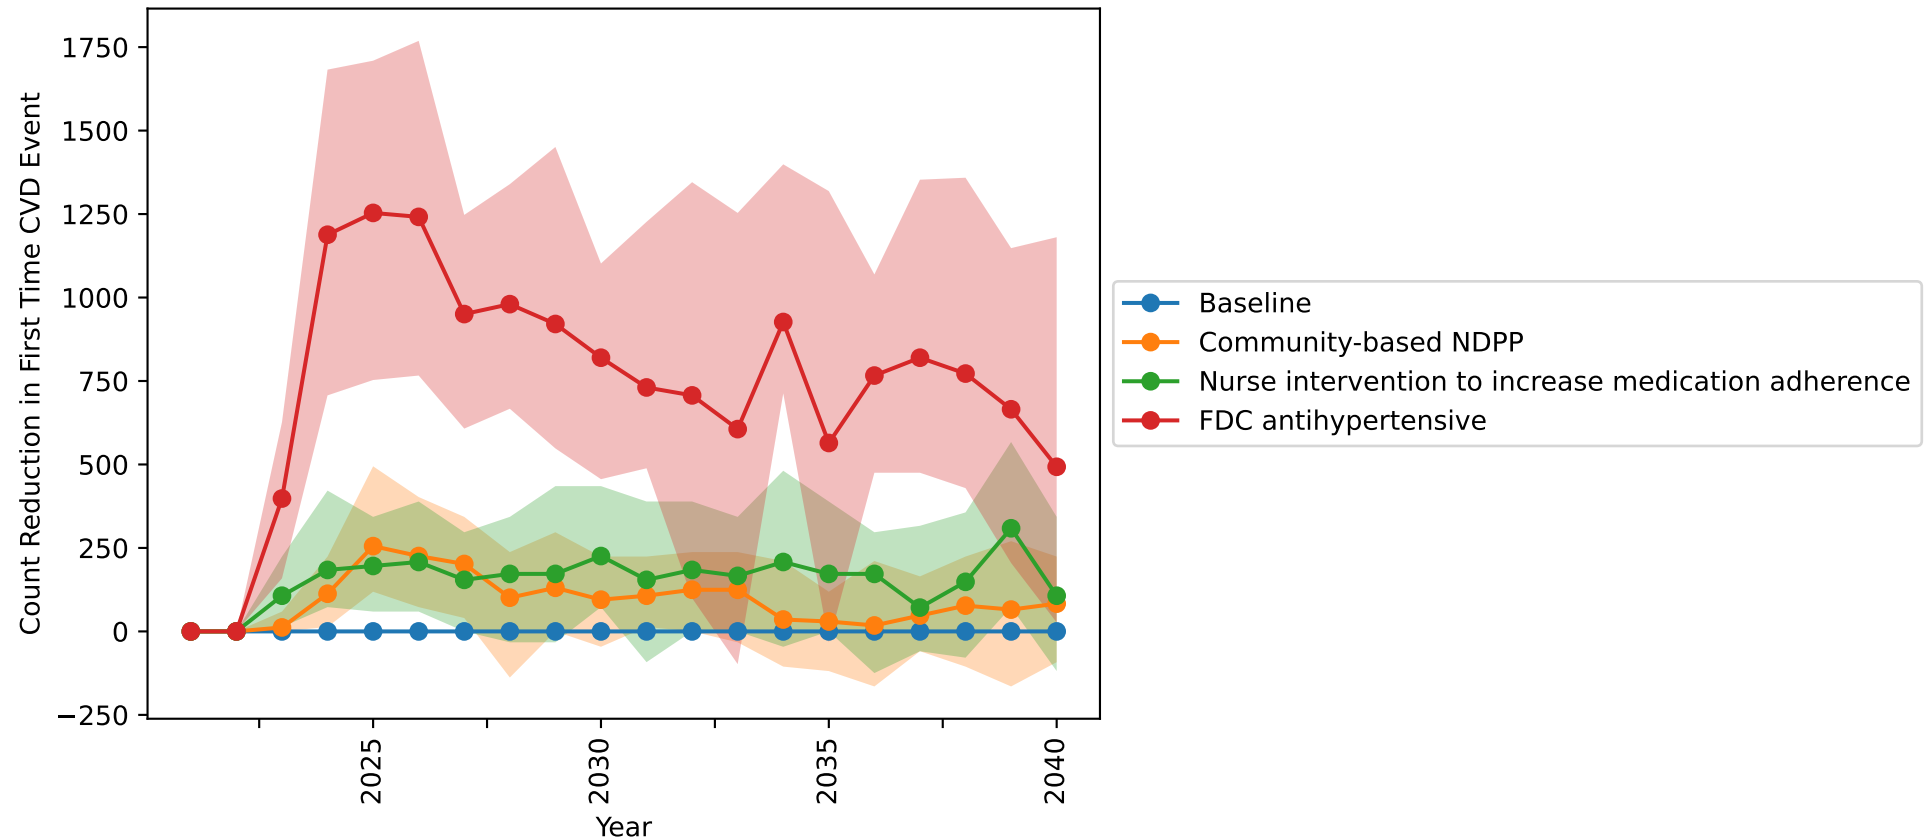

Count Reduction in First Time CVD Event for Vermont and Male

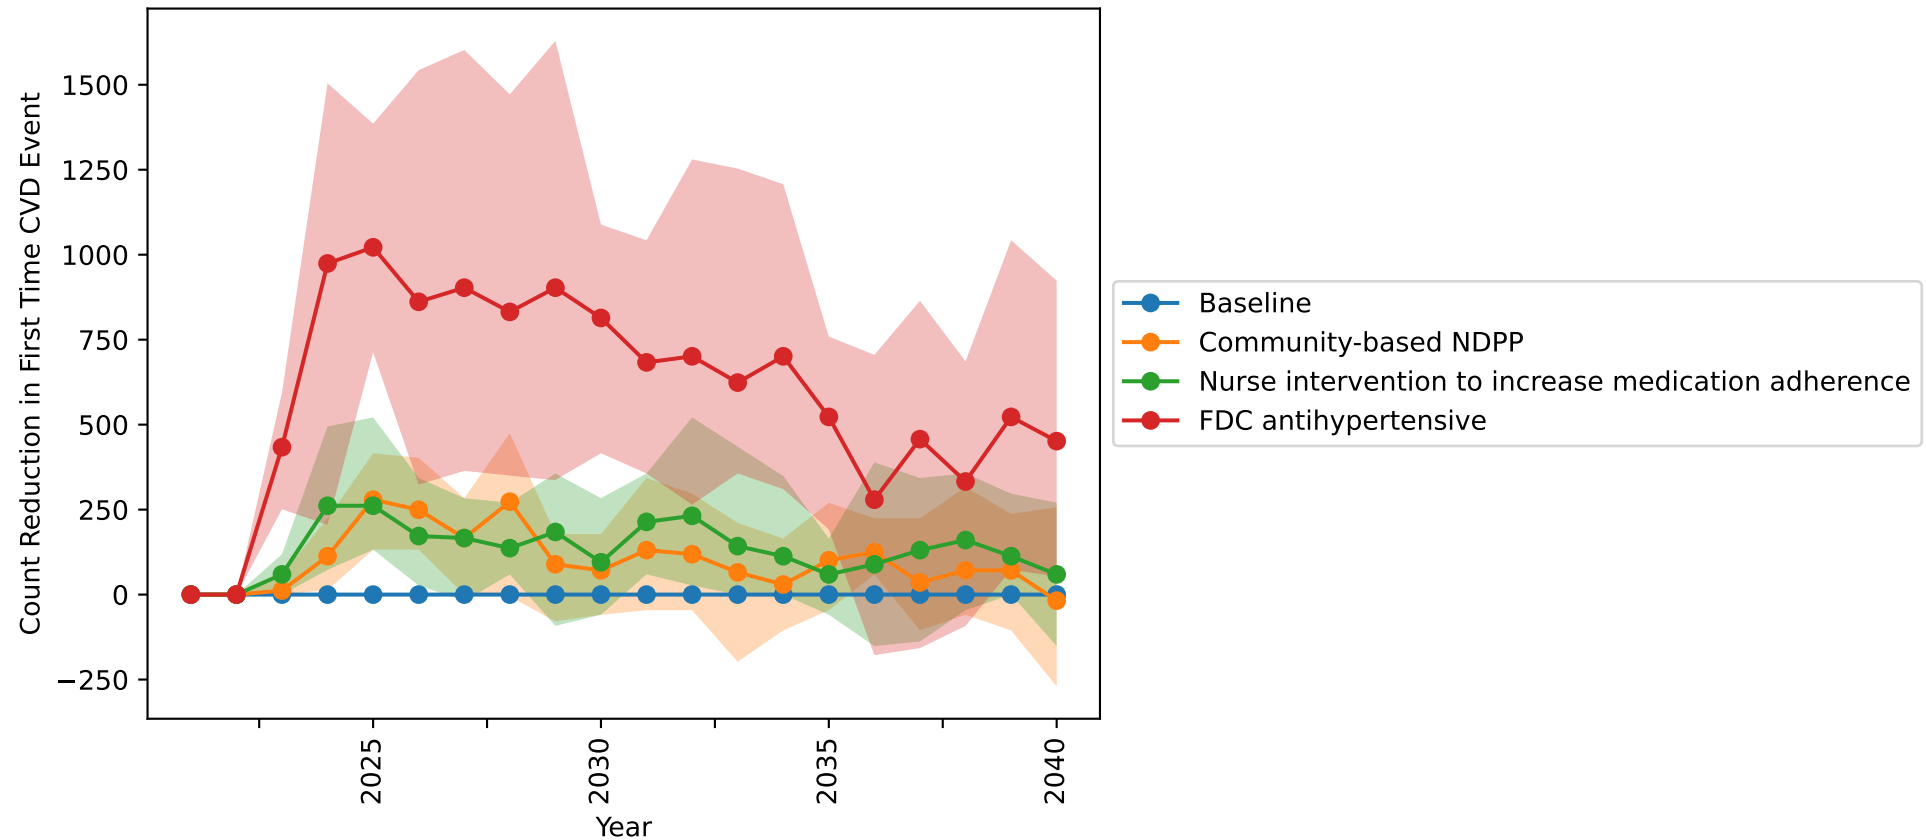

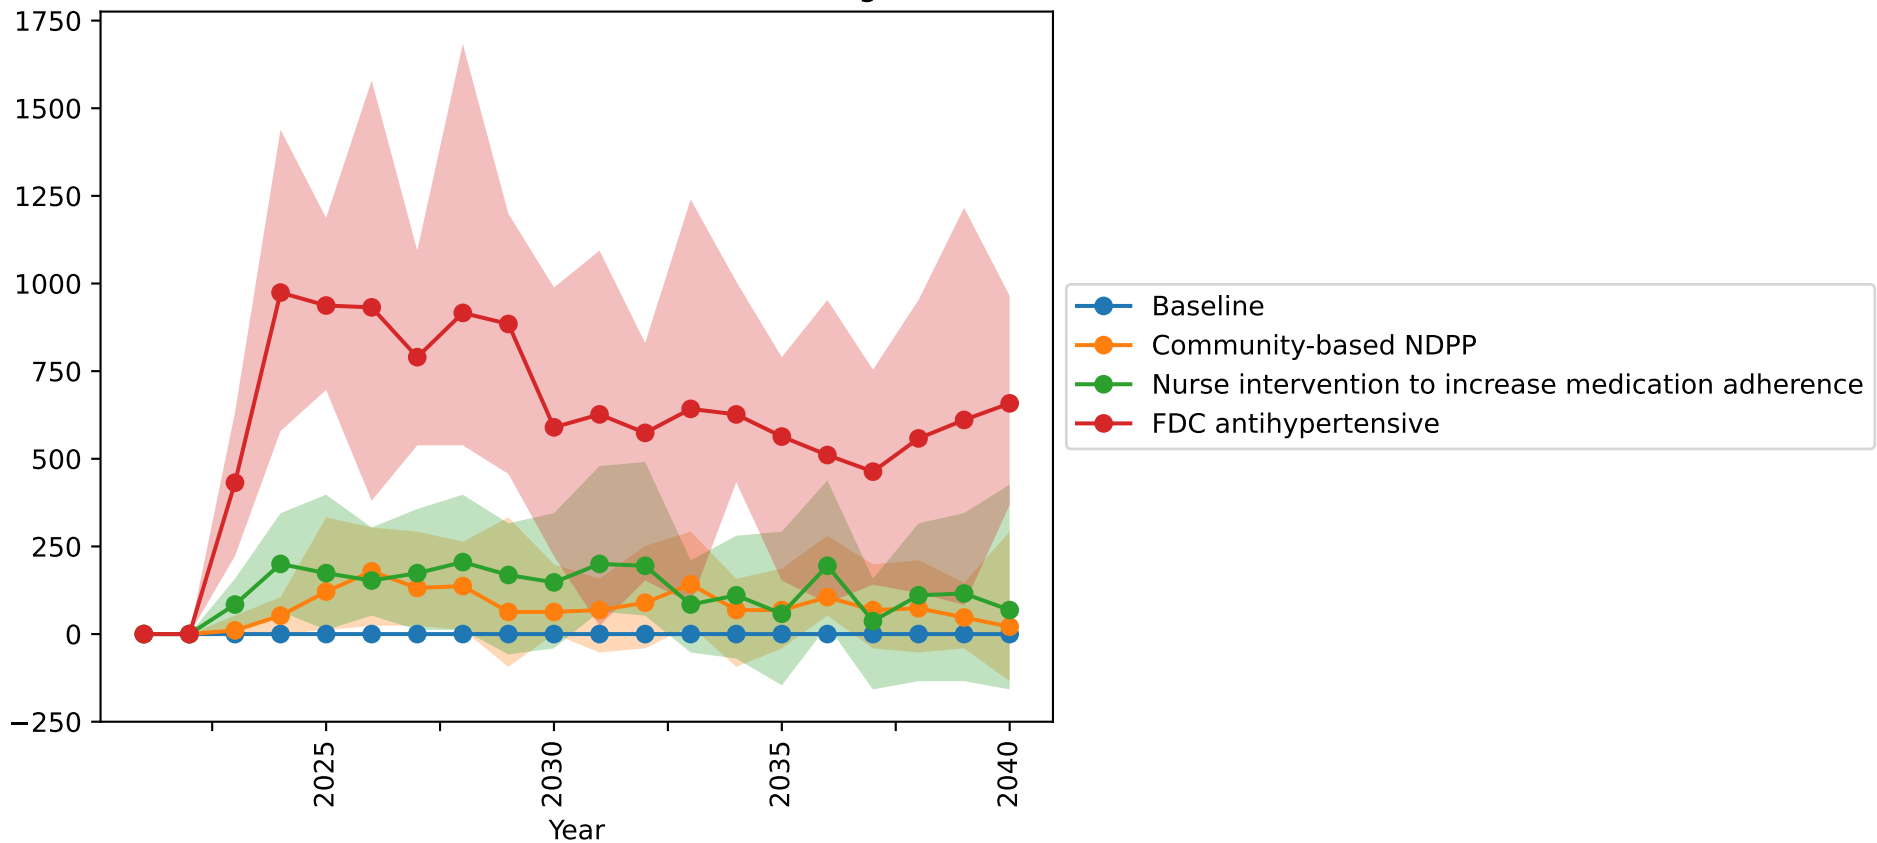

Count Reduction in First Time CVD Event for Virginia and Female

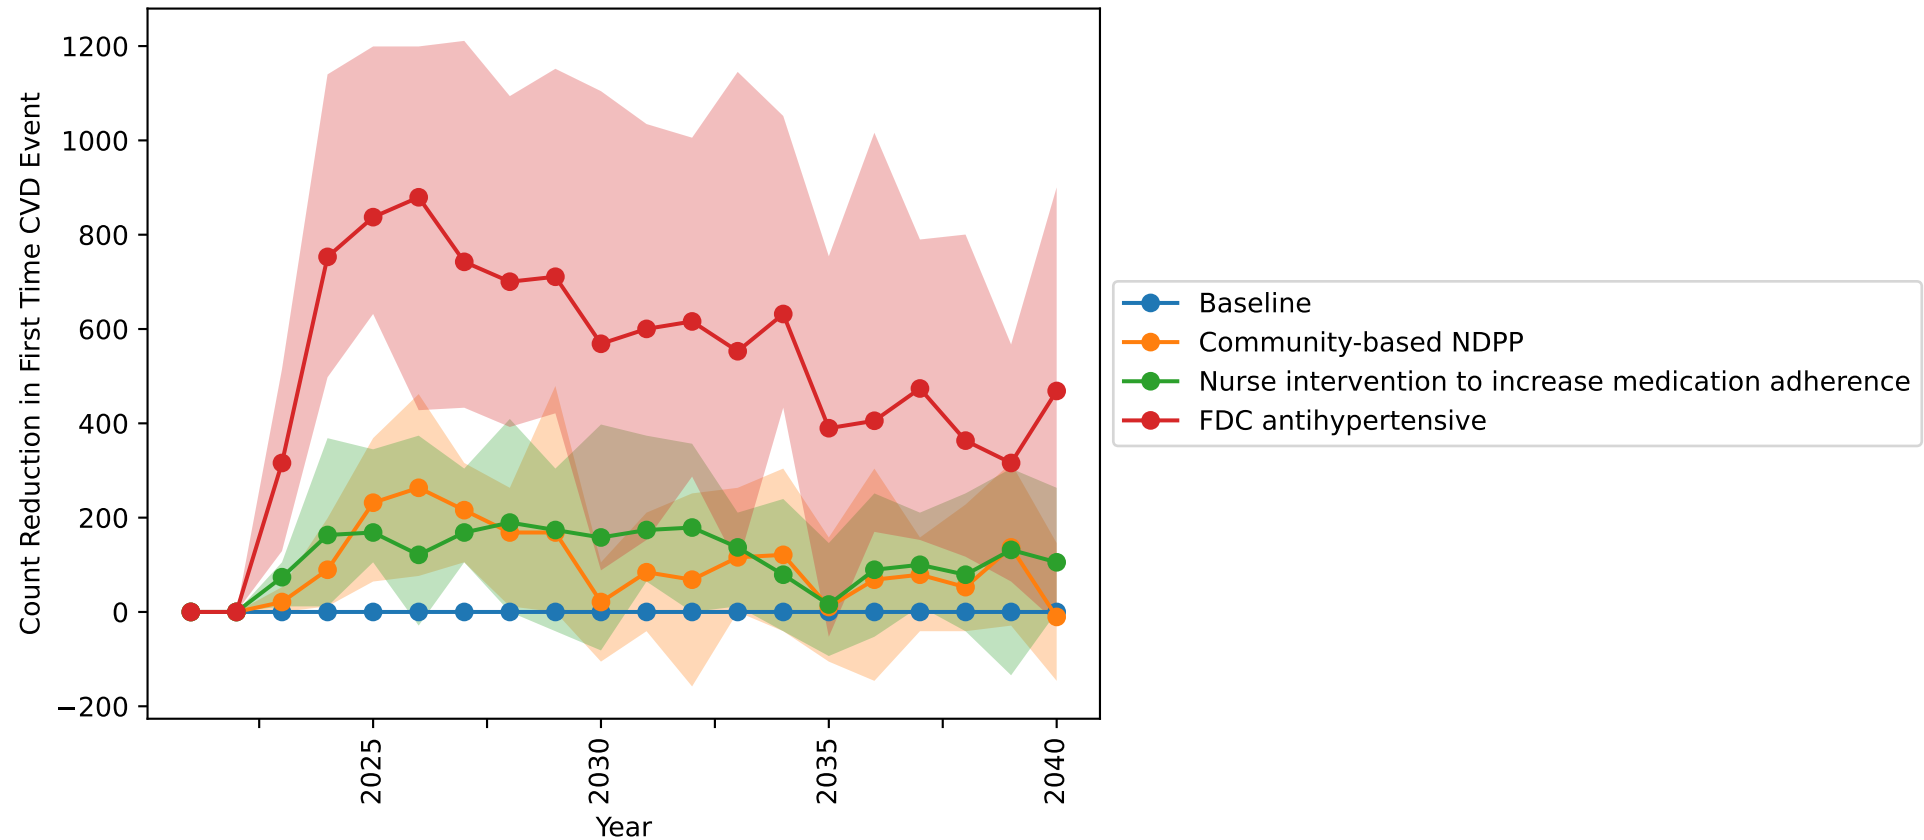

Count Reduction in First Time CVD Event for Virginia and Male

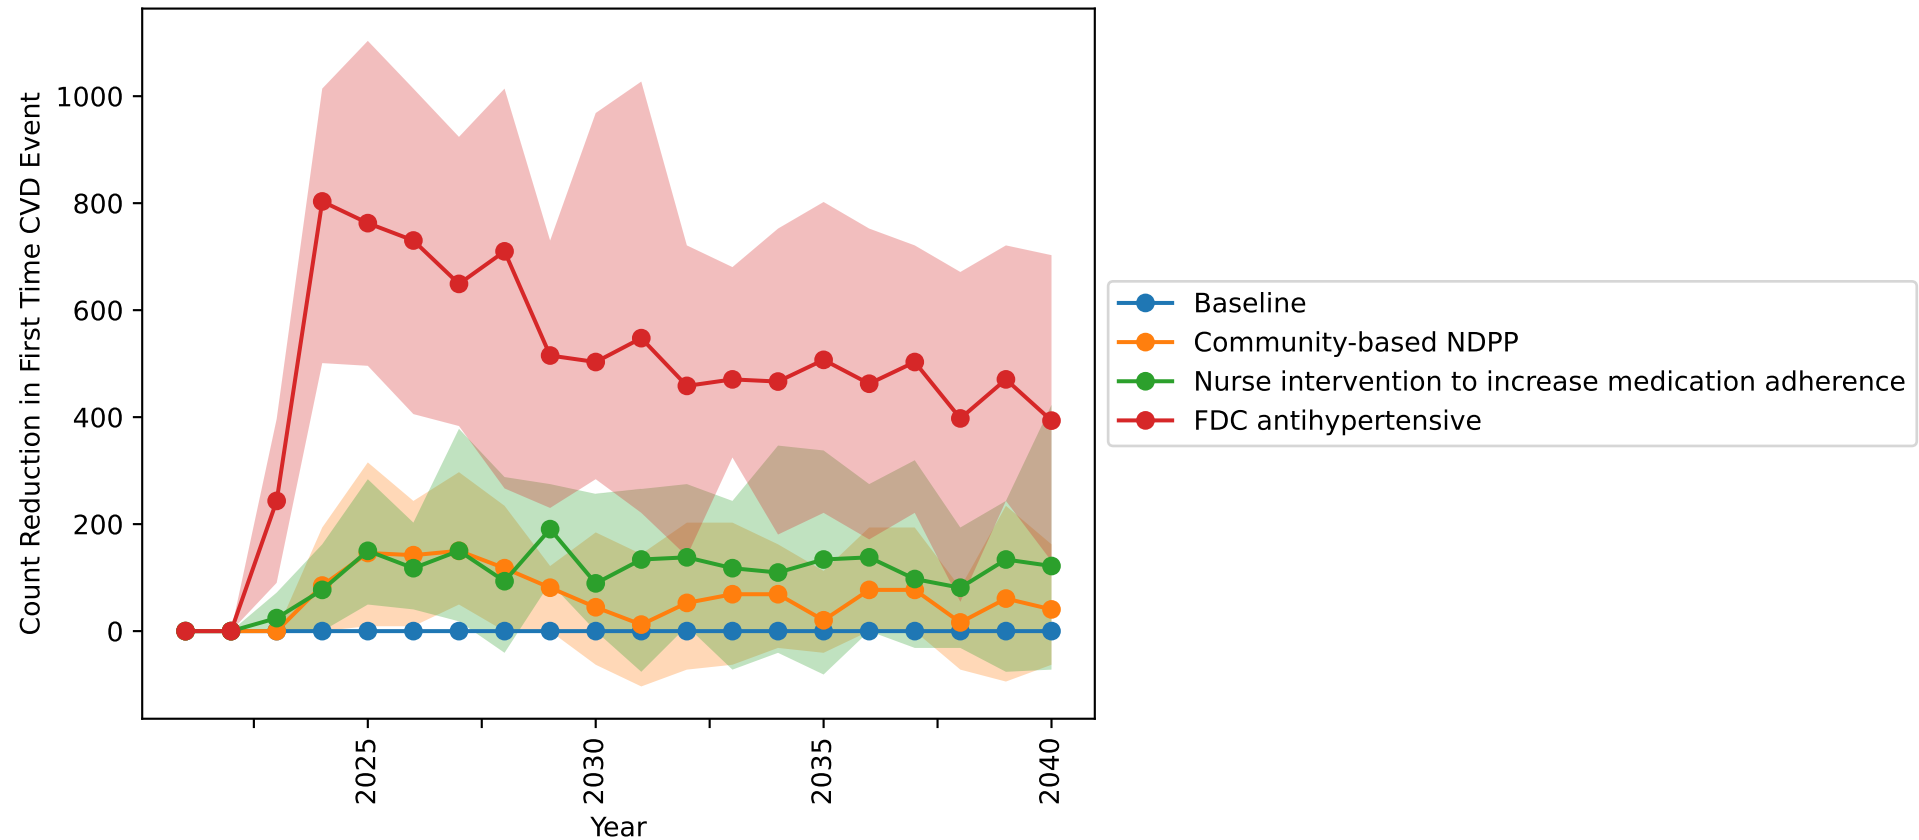

Count Reduction in First Time CVD Event for Washington and Female

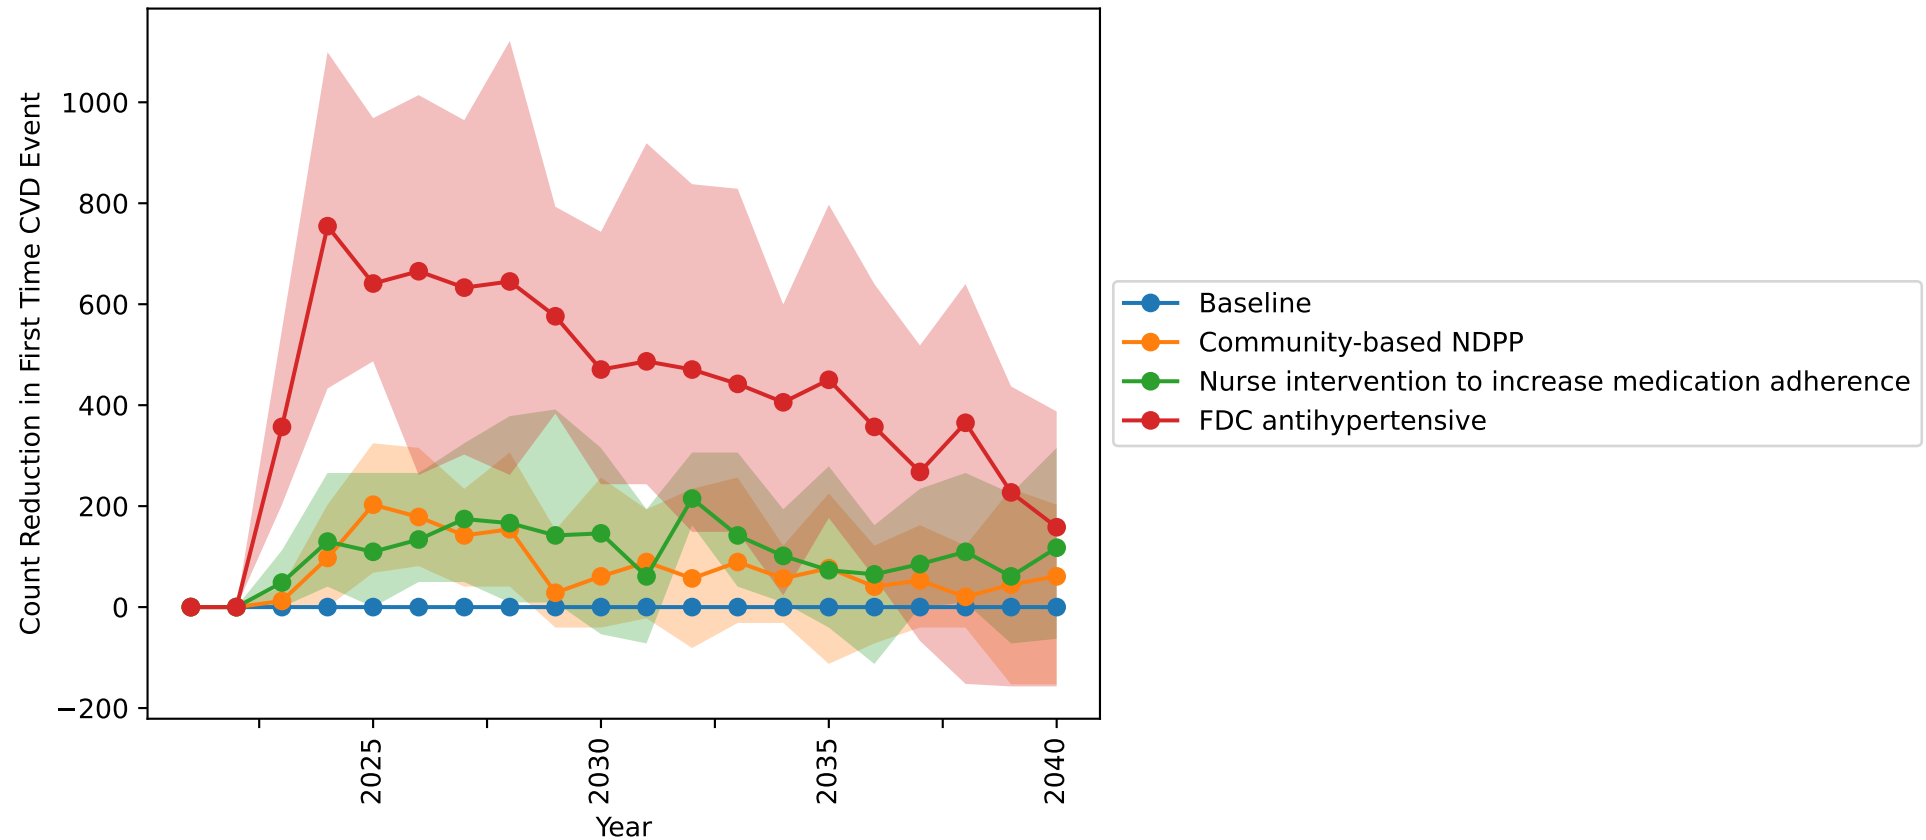

Count Reduction in First Time CVD Event for Washington and Male

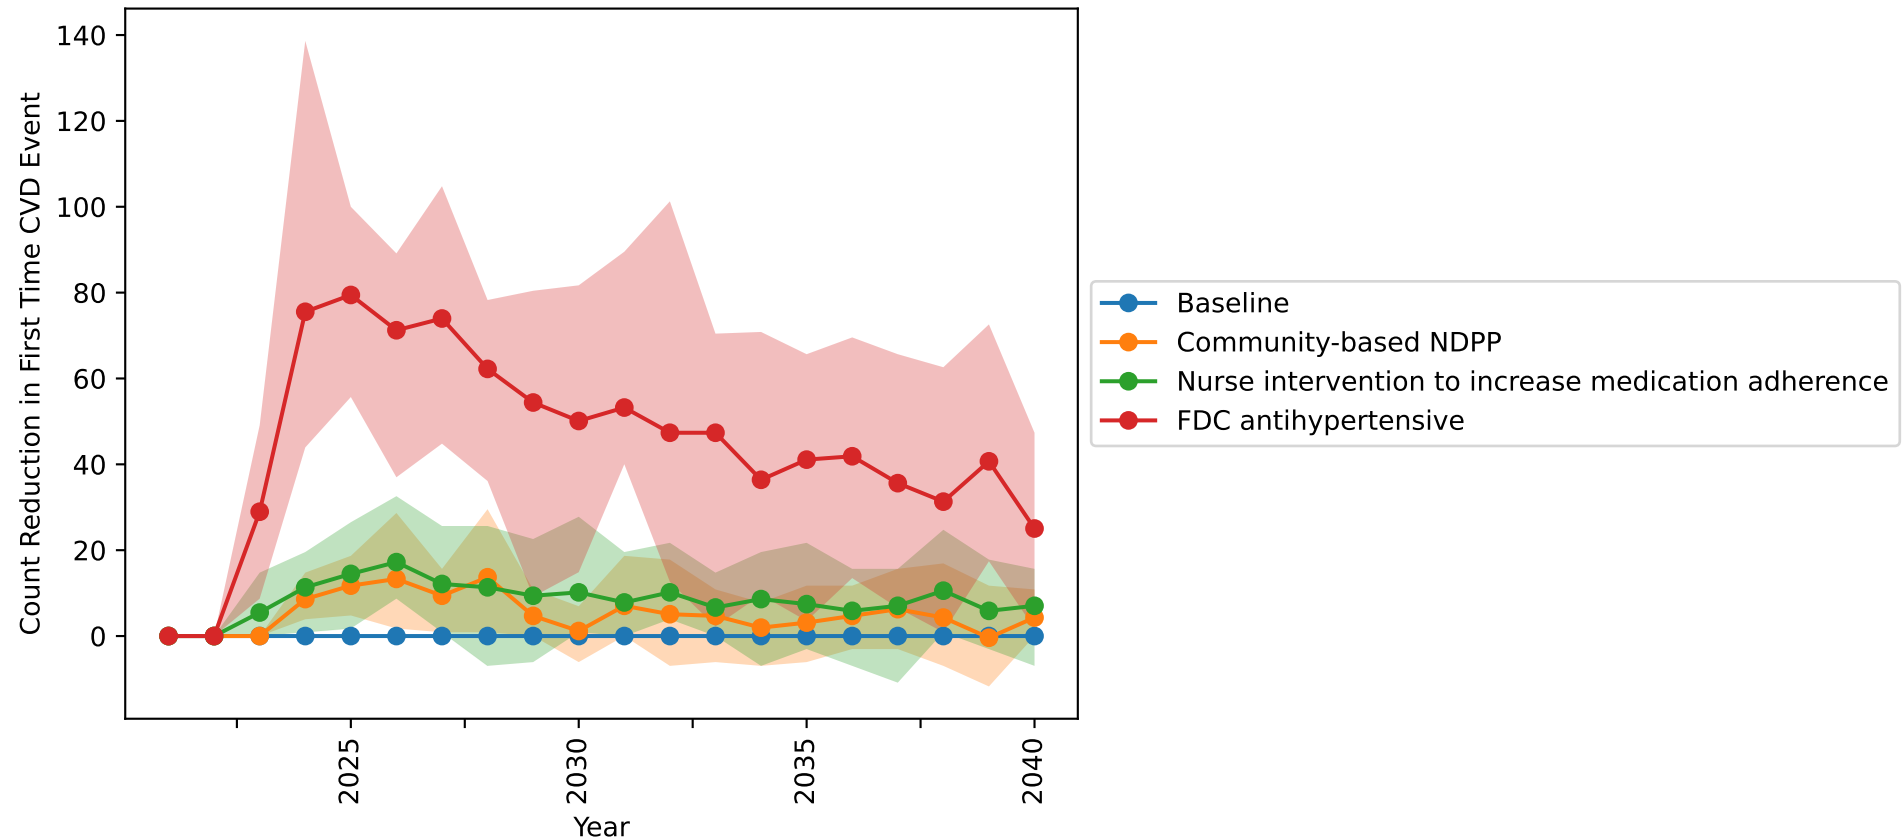

Count Reduction in First Time CVD Event for Wisconsin and Female

Count Reduction in First Time CVD Event for Wisconsin and Male

Count Reduction in First Time CVD Event for Wyoming and Female

Count Reduction in First Time CVD Event for Wyoming and Male
