

Comparing Incidence Across Scenarios in Alabama

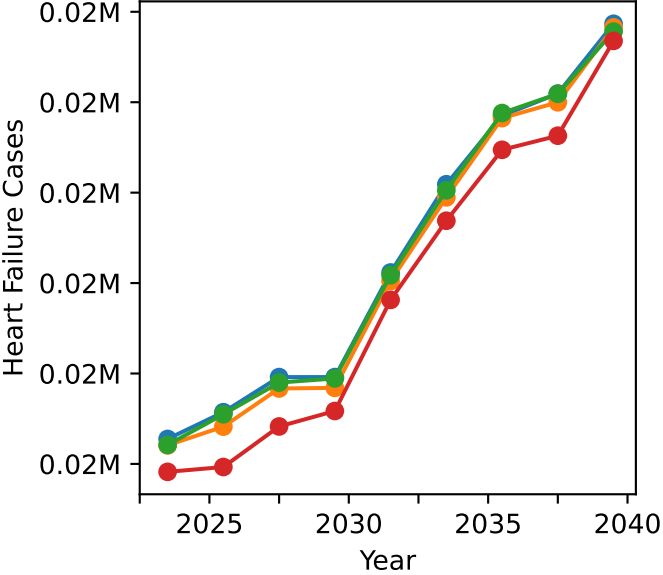

Count of Myocardial Infarctions in Females

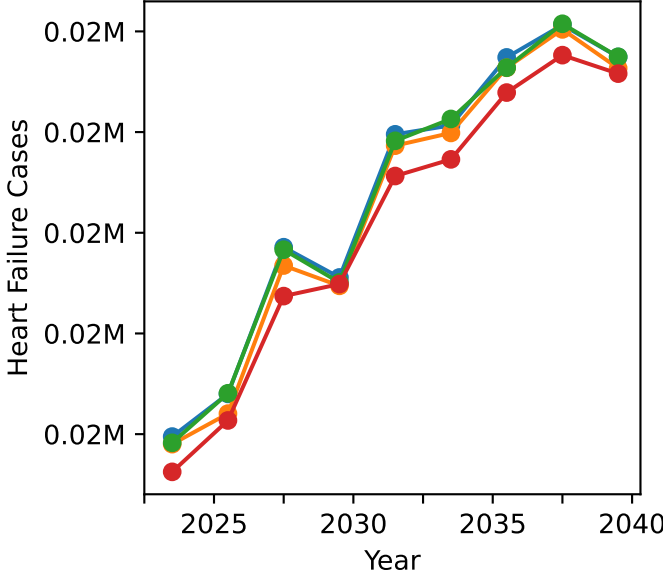

Count of Myocardial Infarctions in Males

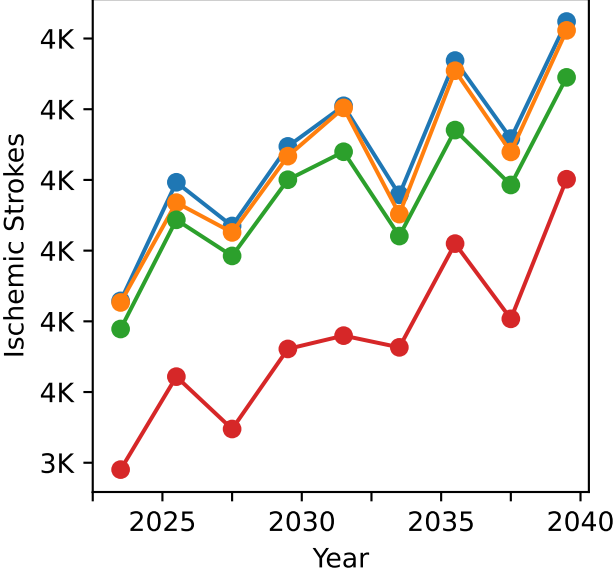

Count of Heart Failure in Females

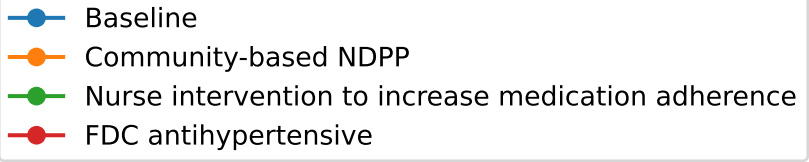

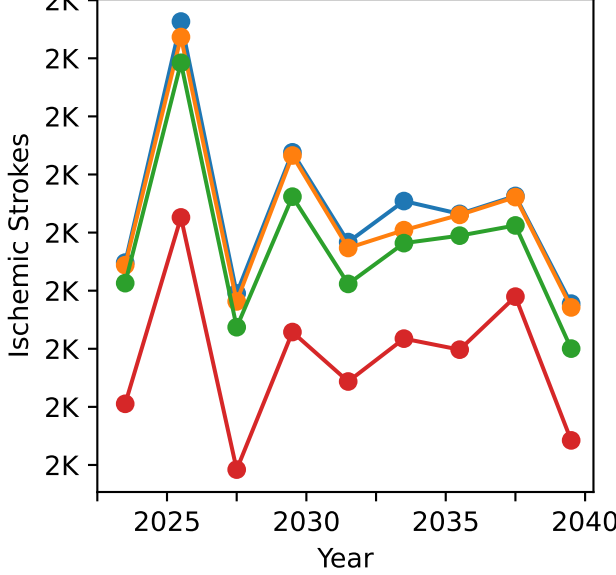

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

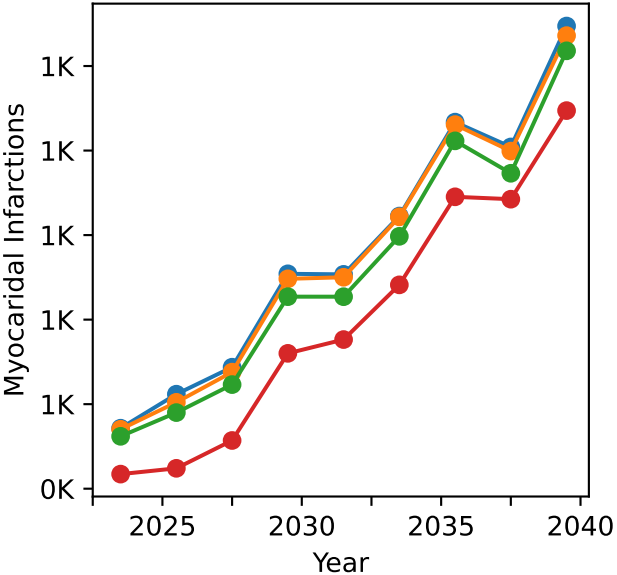

Count of Ischemic Strokes in Males

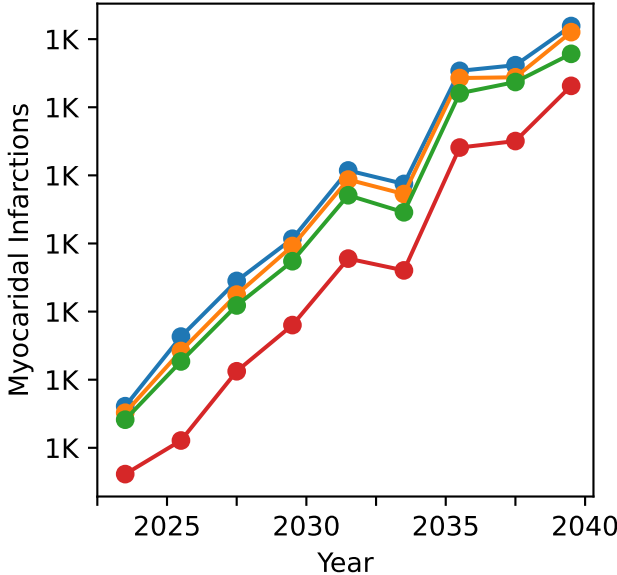

Comparing Incidence Across Scenarios in Alaska

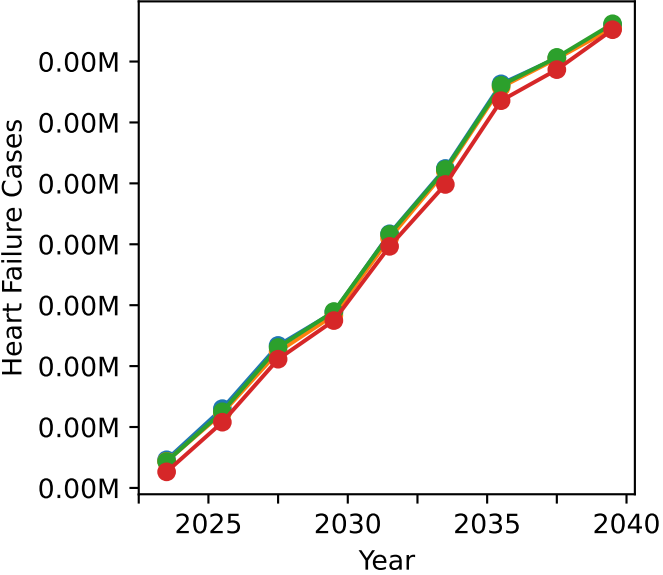

Count of Myocardial Infarctions in Females

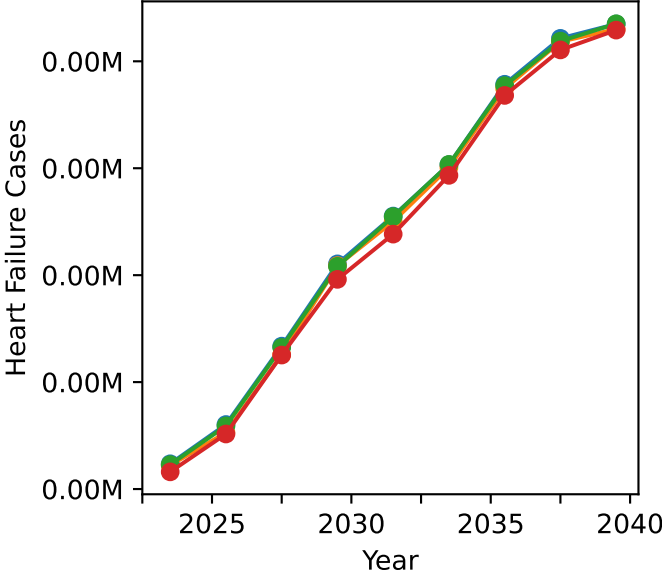

Count of Myocardial Infarctions in Males

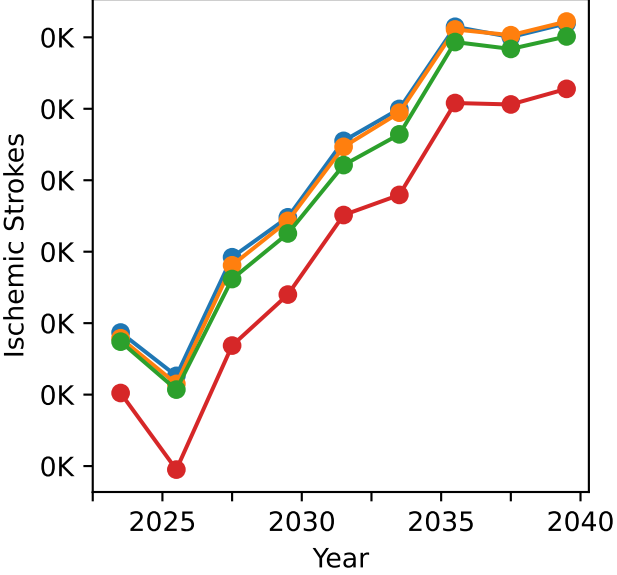

Count of Heart Failure in Females

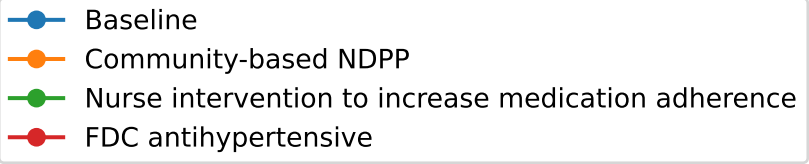

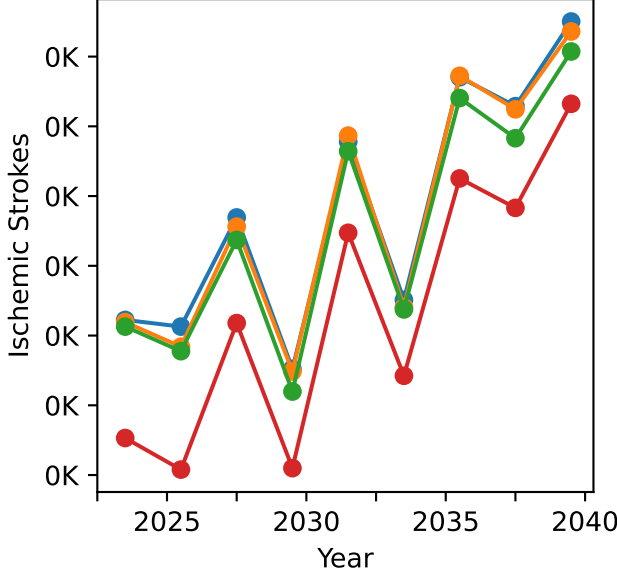

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

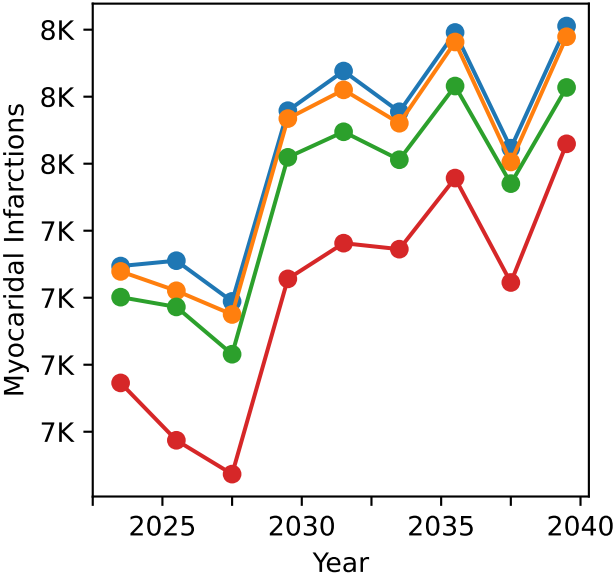

Count of Ischemic Strokes in Males

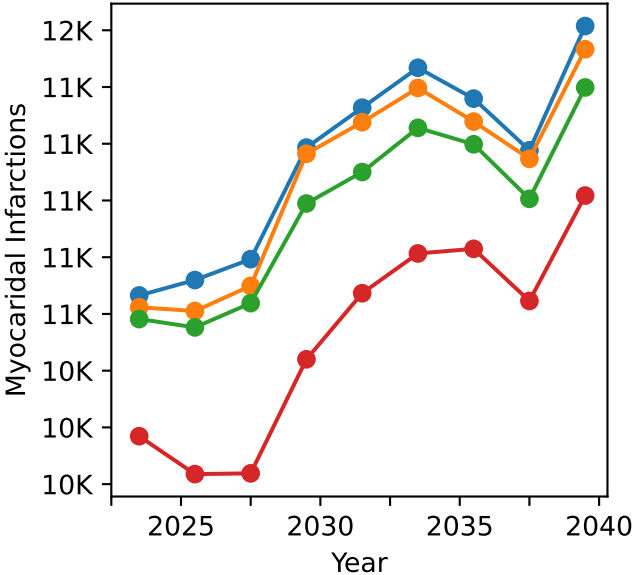

Comparing Incidence Across Scenarios in Arizona

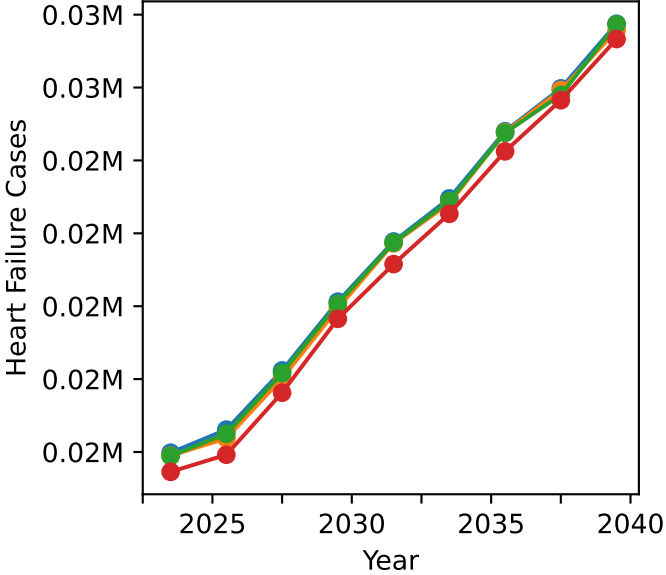

Count of Myocardial Infarctions in Females

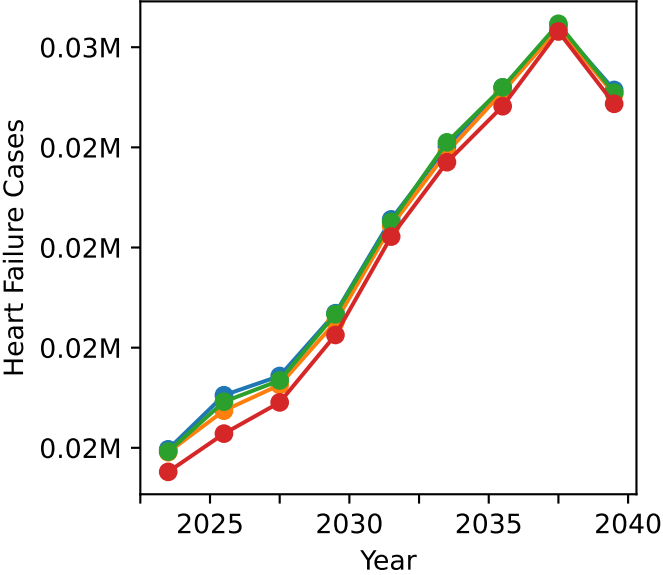

Count of Myocardial Infarctions in Males

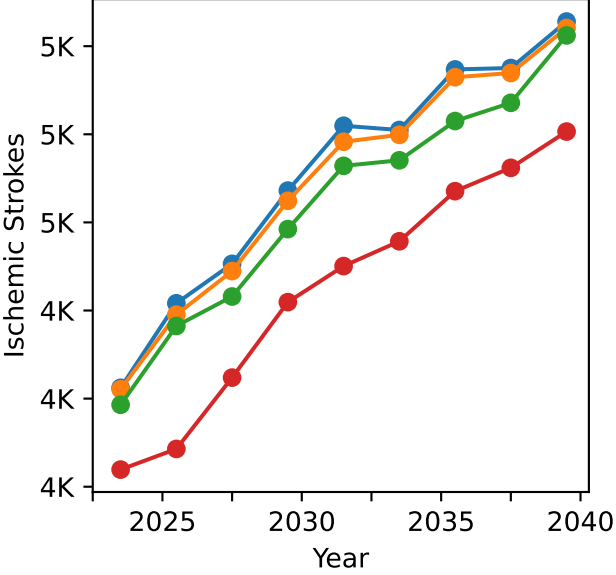

Count of Heart Failure in Females

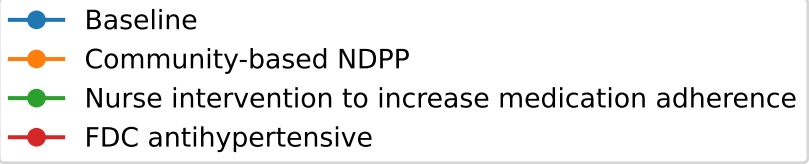

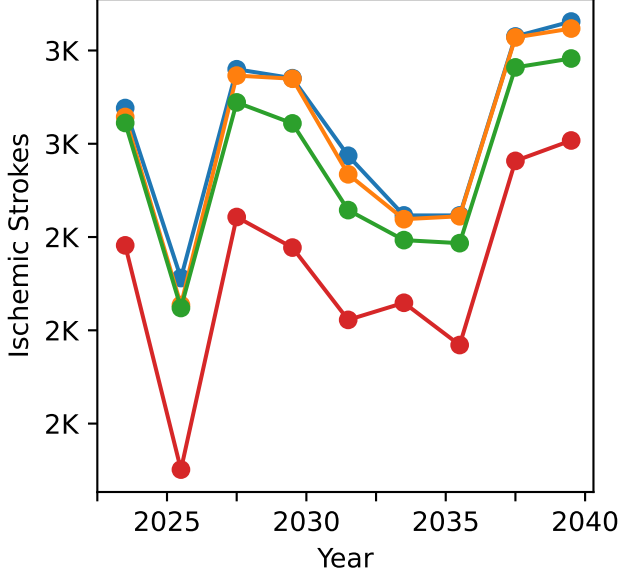

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

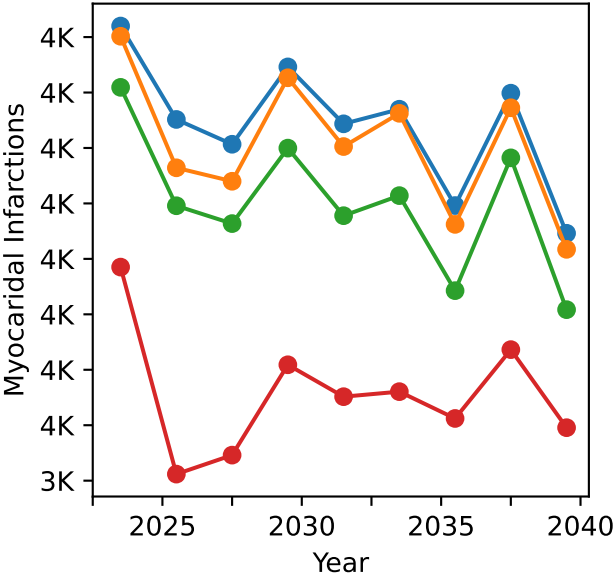

Count of Ischemic Strokes in Males

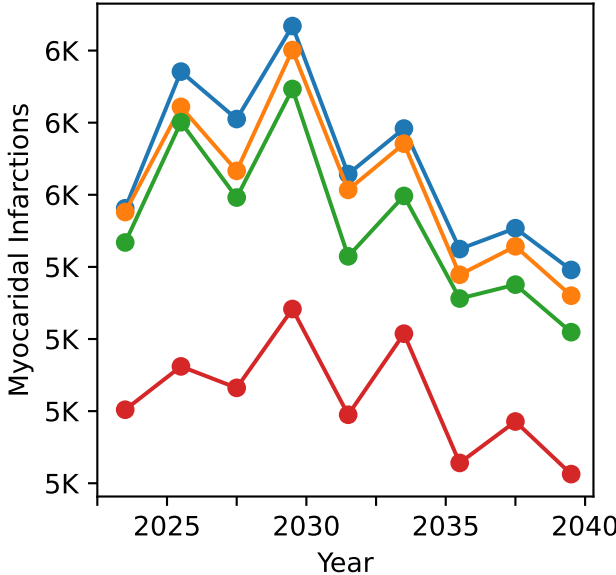

Comparing Incidence Across Scenarios in Arkansas

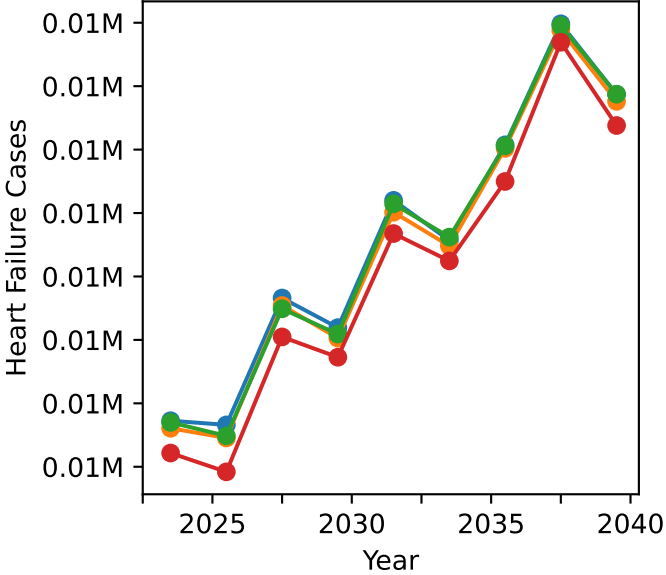

Count of Myocardial Infarctions in Females

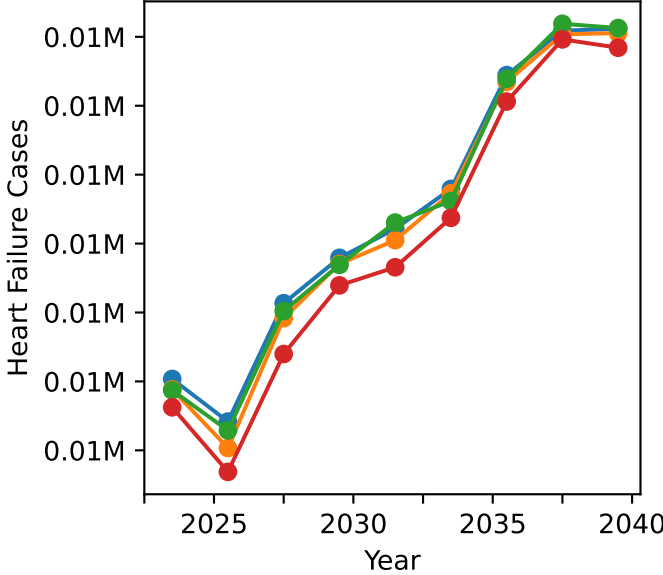

Count of Myocardial Infarctions in Males

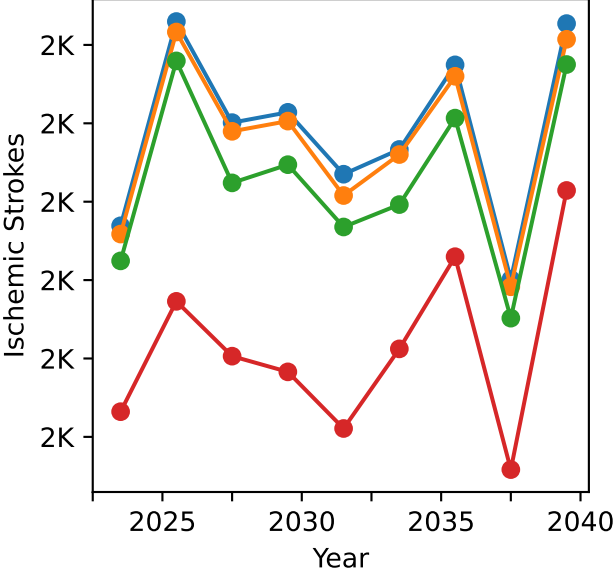

Count of Heart Failure in Females

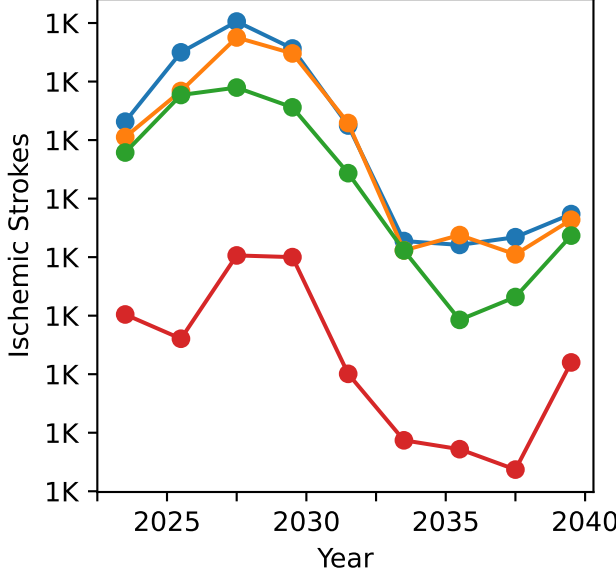

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

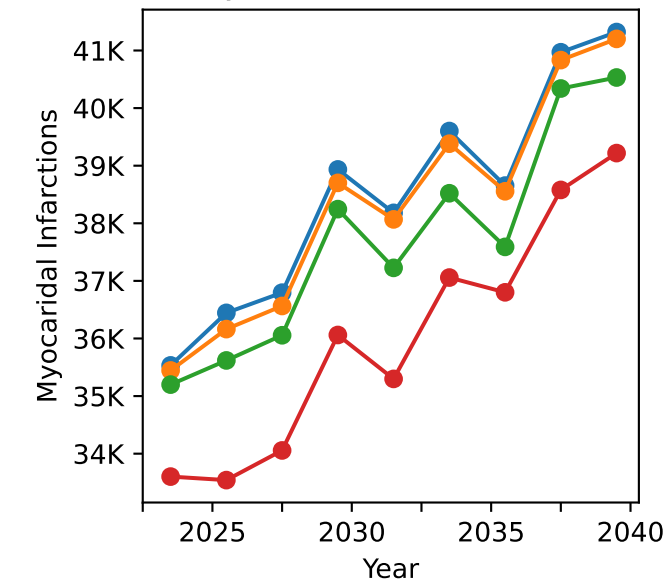

Count of Ischemic Strokes in Males

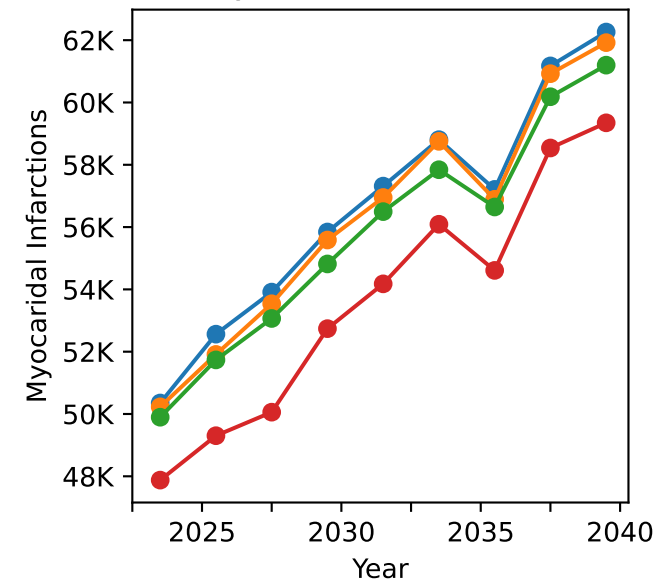

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in California

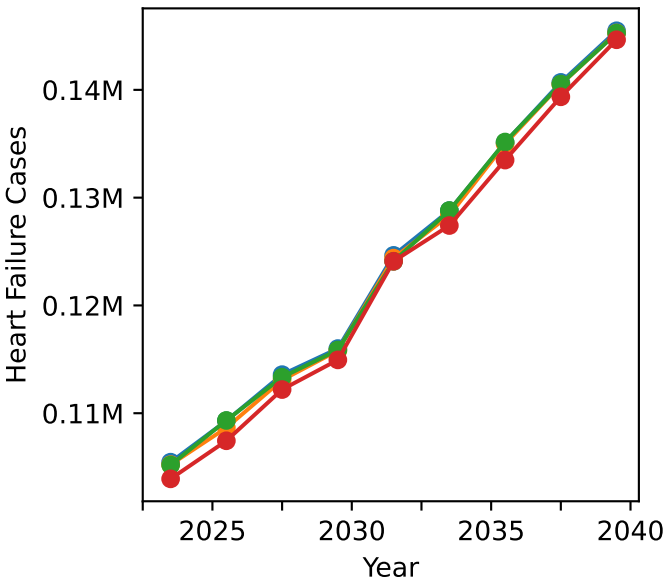

Count of Myocardial Infarctions in Females

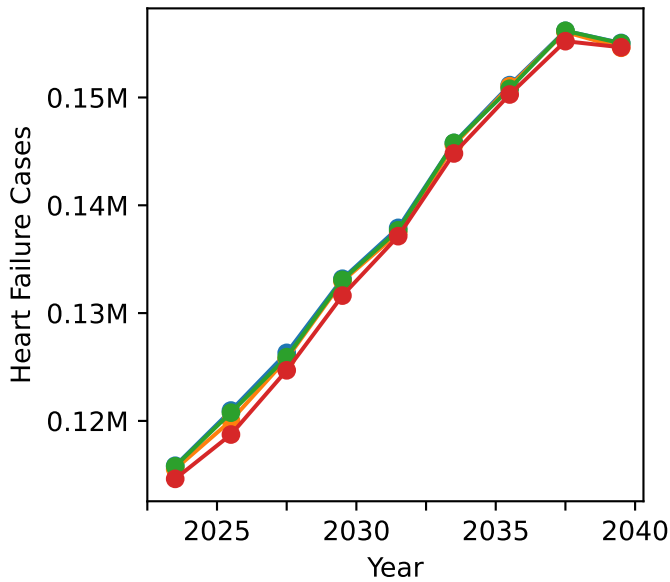

Count of Myocardial Infarctions in Males

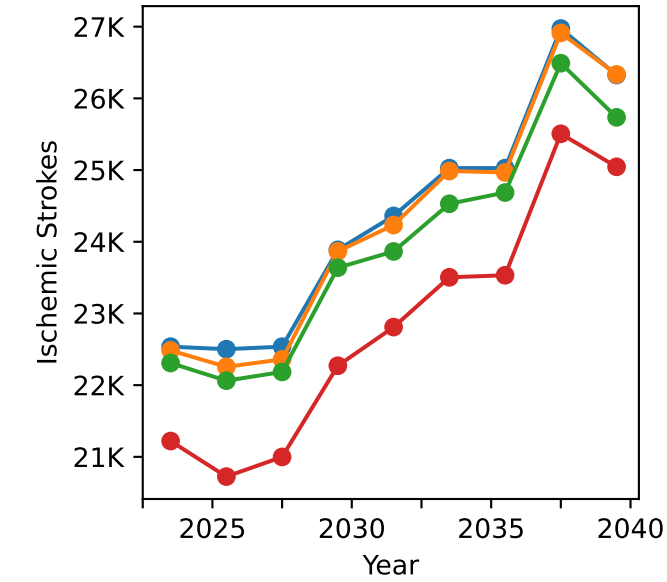

Count of Heart Failure in Females

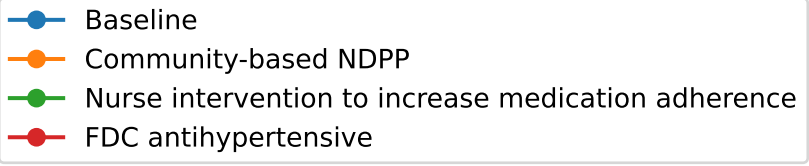

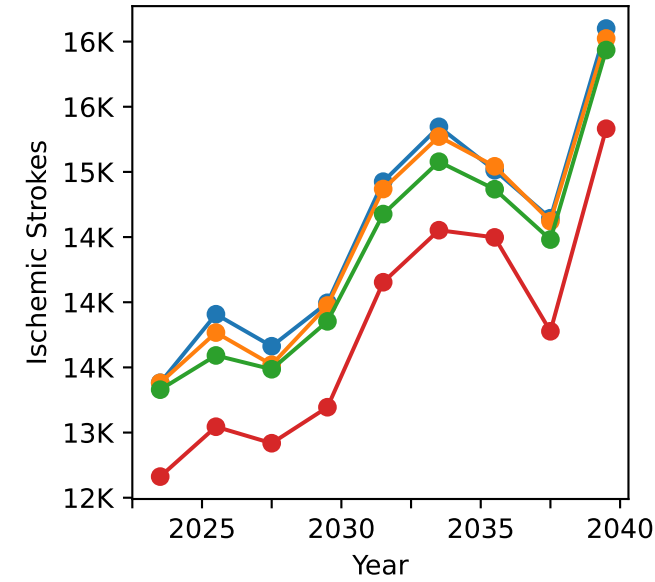

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

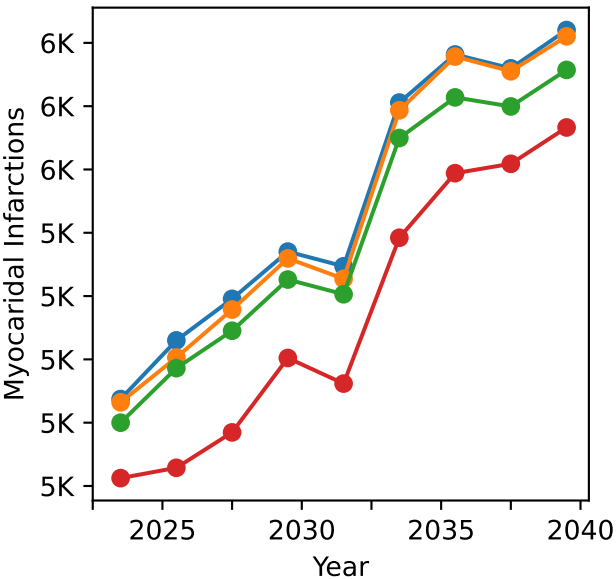

Count of Ischemic Strokes in Males

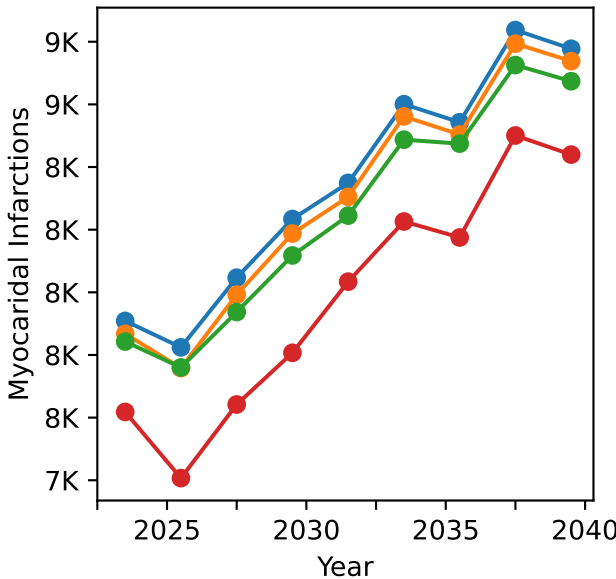

Comparing Incidence Across Scenarios in Colorado

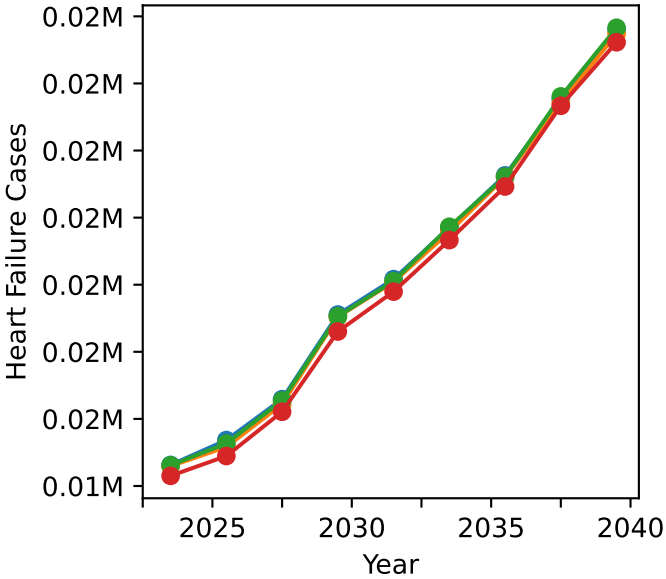

Count of Myocardial Infarctions in Females

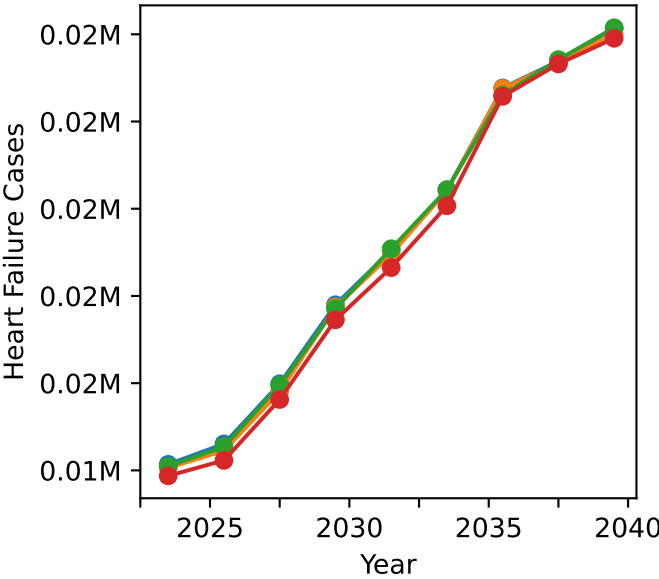

Count of Myocardial Infarctions in Males

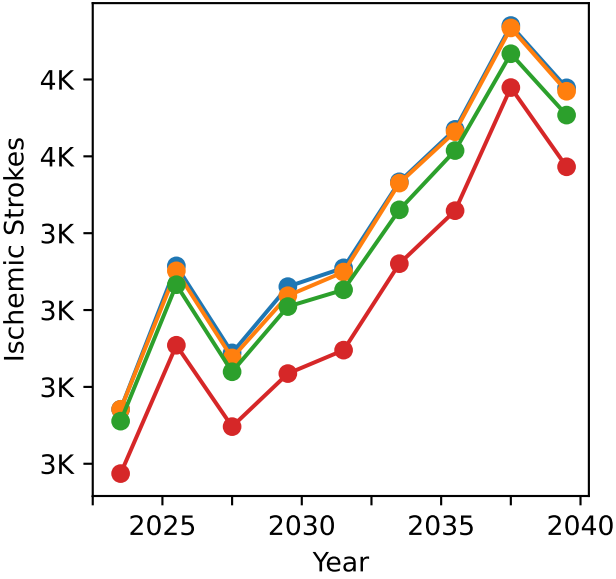

Count of Heart Failure in Females

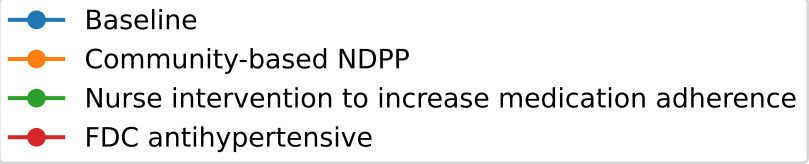

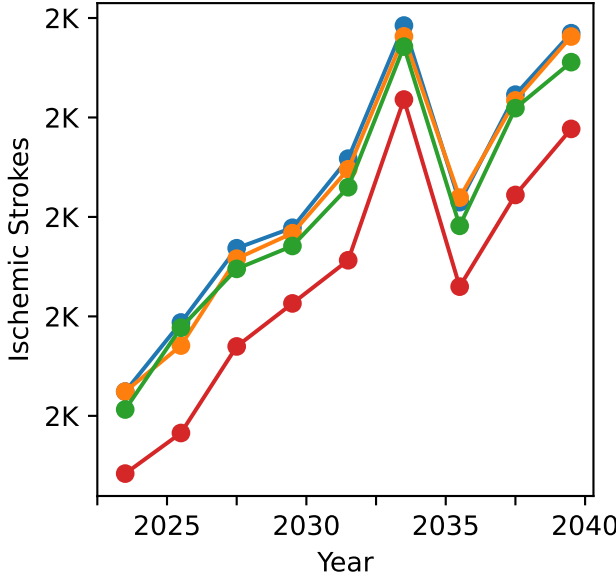

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

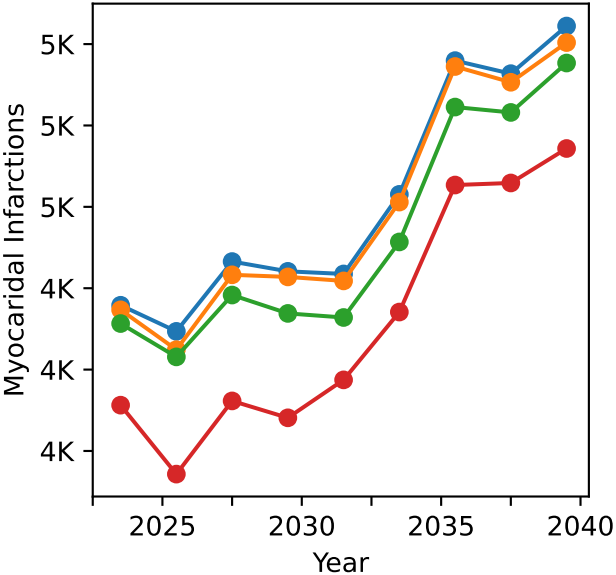

Count of Ischemic Strokes in Males

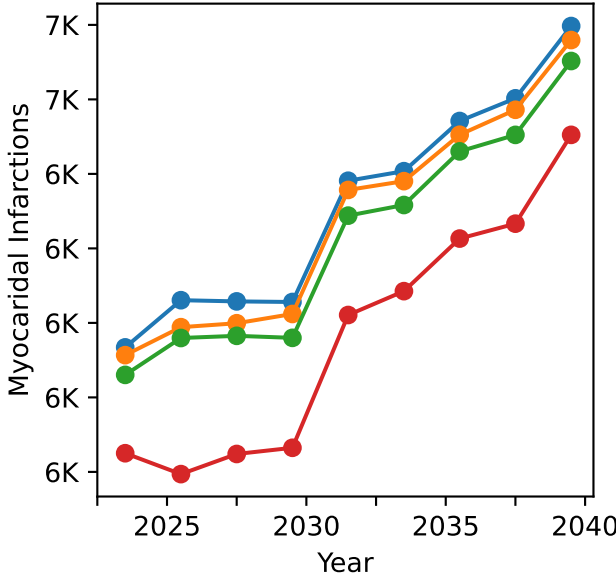

Comparing Incidence Across Scenarios in Connecticut

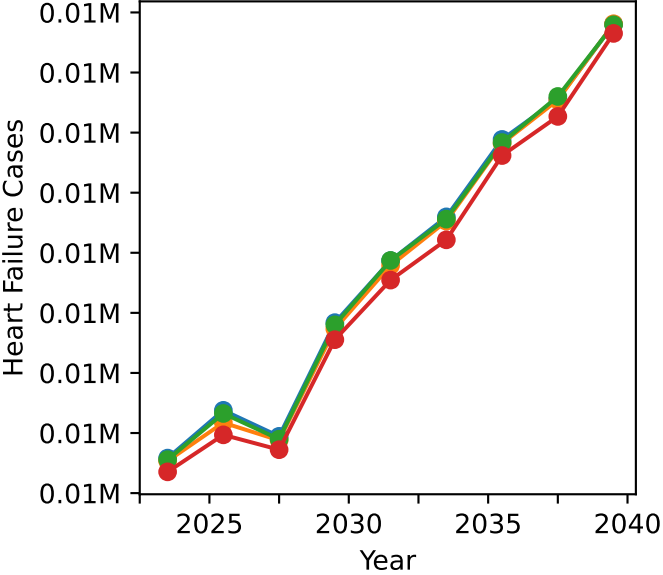

Count of Myocardial Infarctions in Females

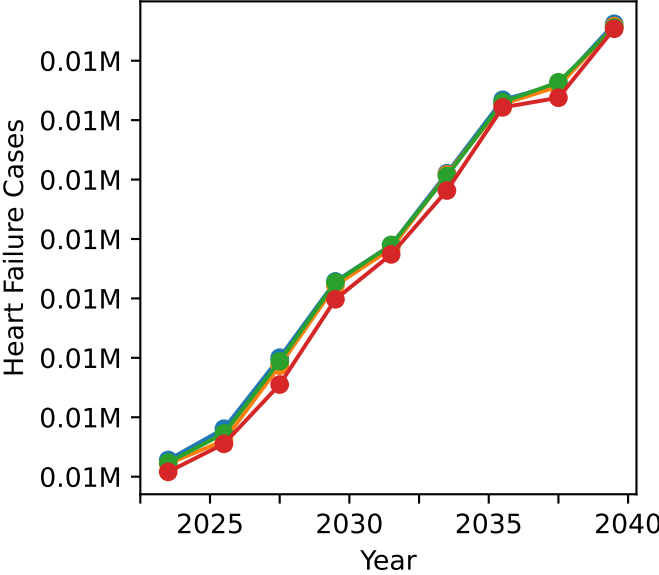

Count of Myocardial Infarctions in Males

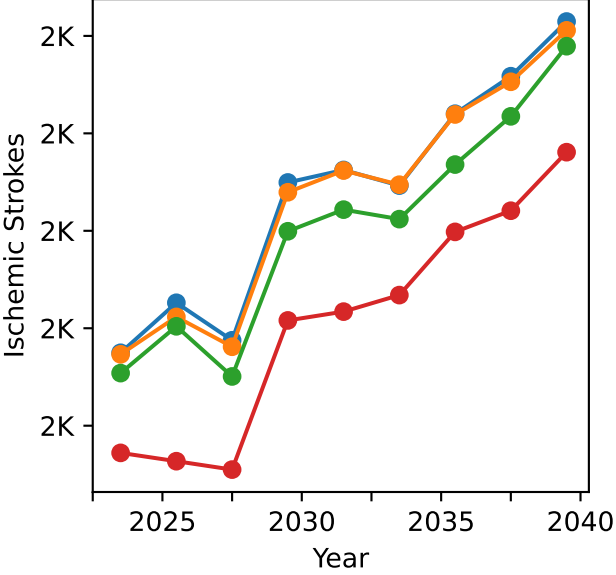

Count of Heart Failure in Females

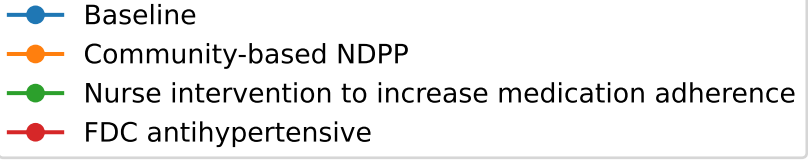

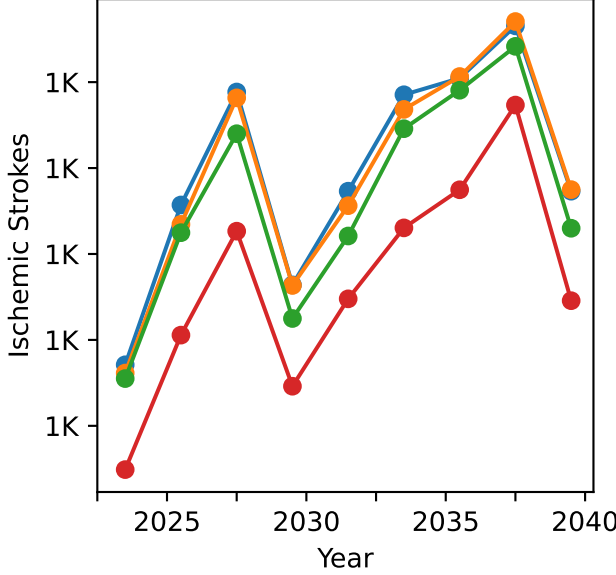

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

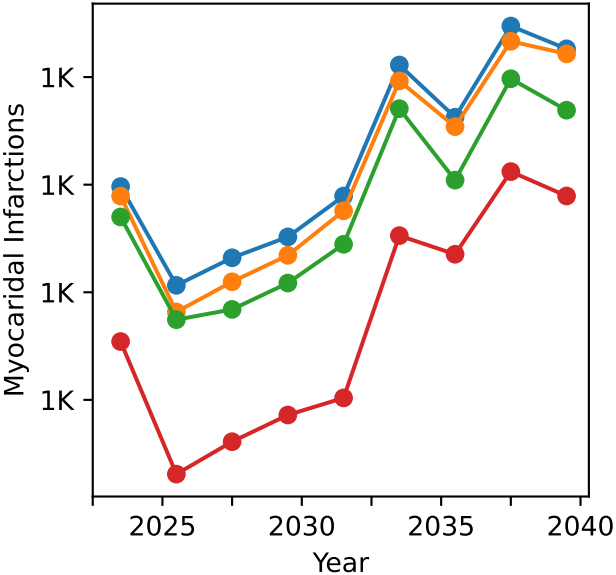

Count of Ischemic Strokes in Males

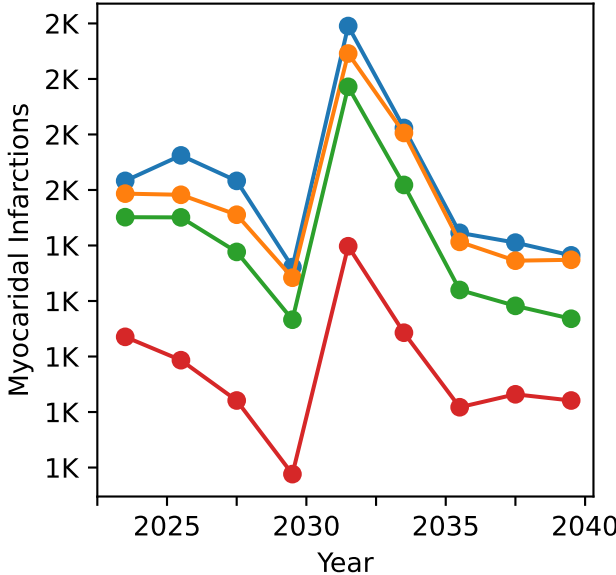

Comparing Incidence Across Scenarios in Delaware

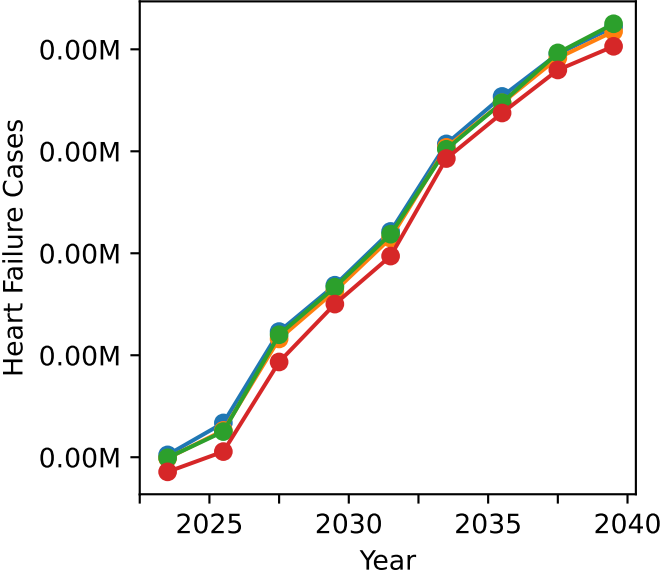

Count of Myocardial Infarctions in Females

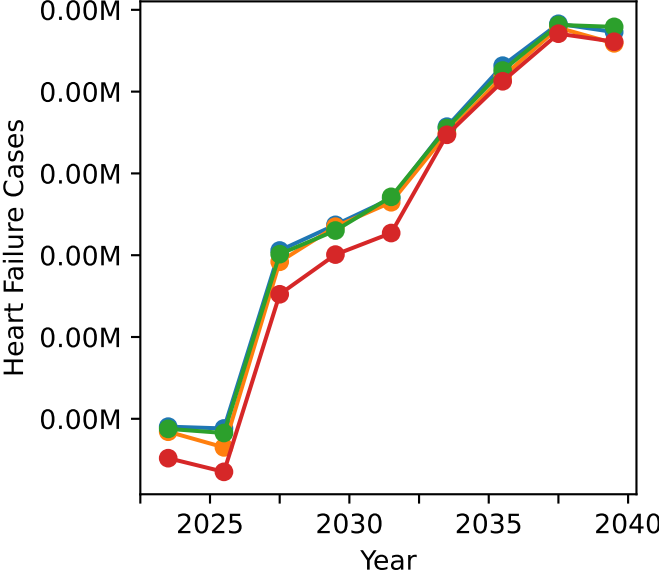

Count of Myocardial Infarctions in Males

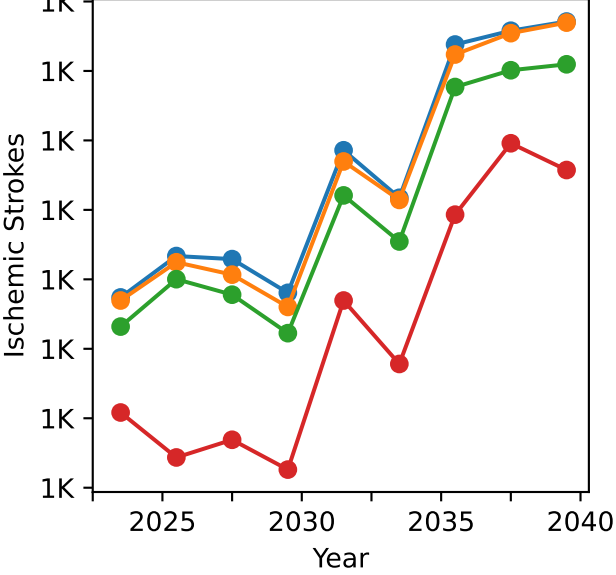

Count of Heart Failure in Females

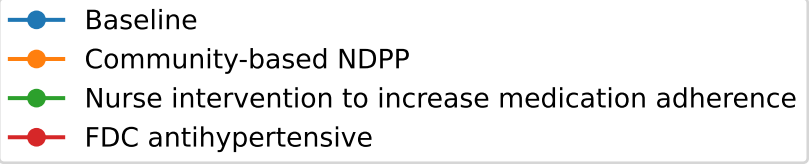

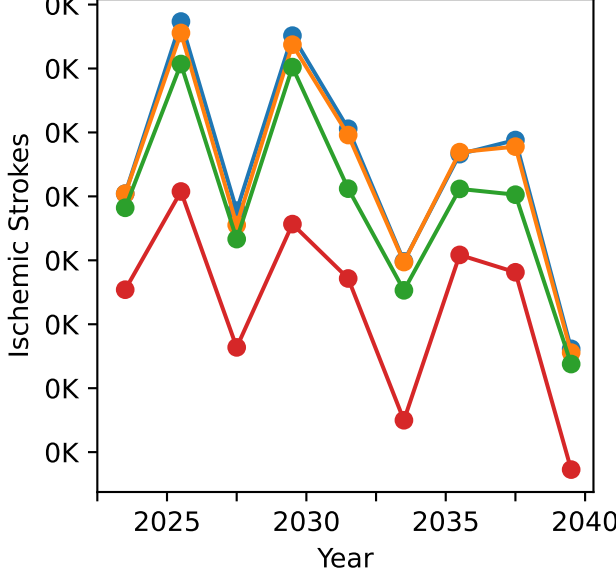

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

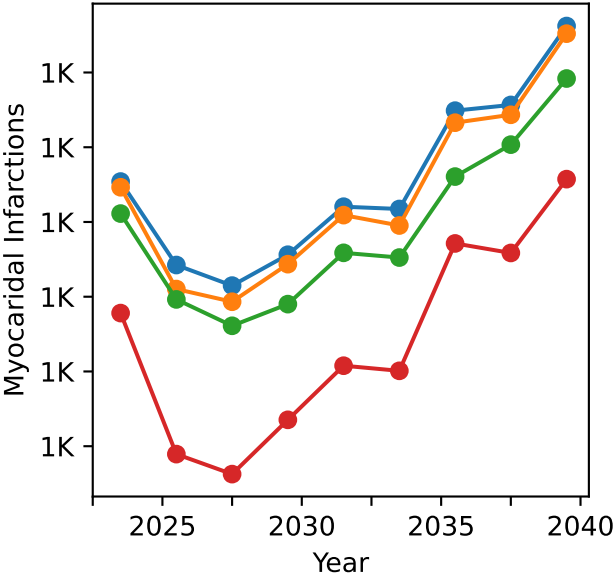

Count of Ischemic Strokes in Males

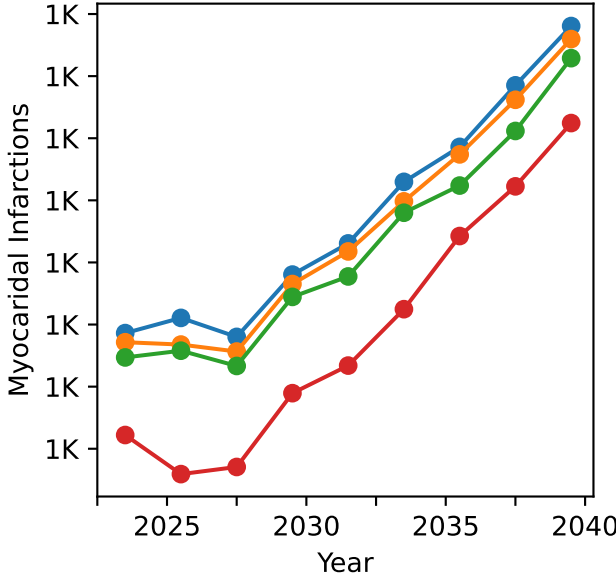

Comparing Incidence Across Scenarios in District Of Columbia

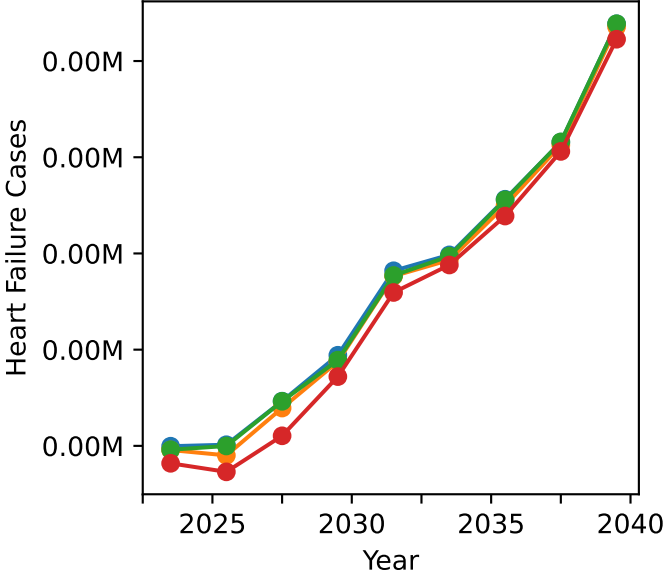

Count of Myocardial Infarctions in Females

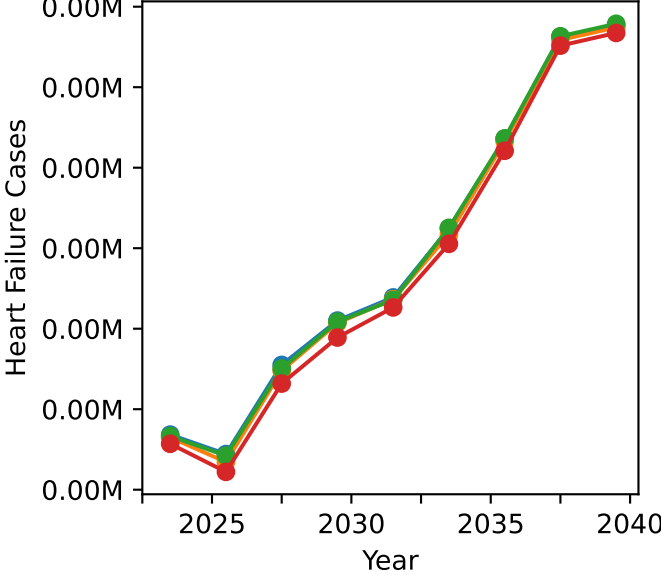

Count of Myocardial Infarctions in Males

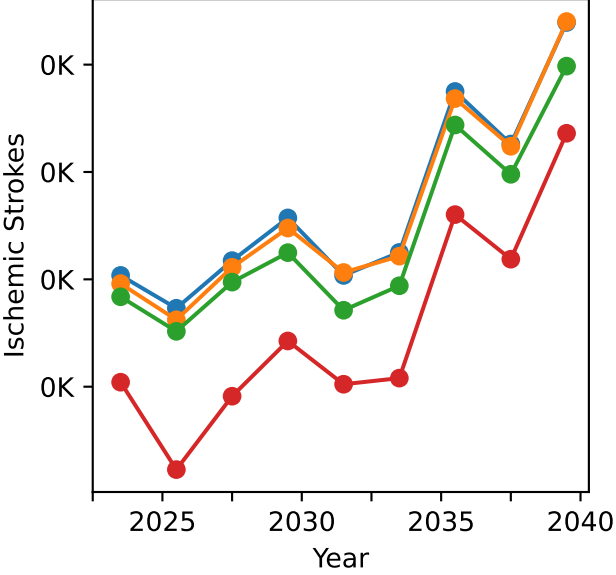

Count of Heart Failure in Females

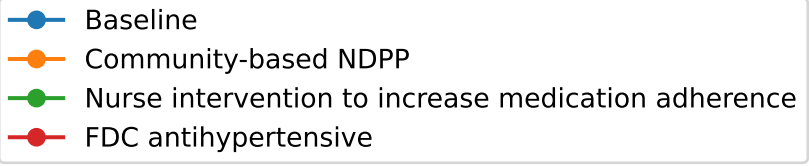

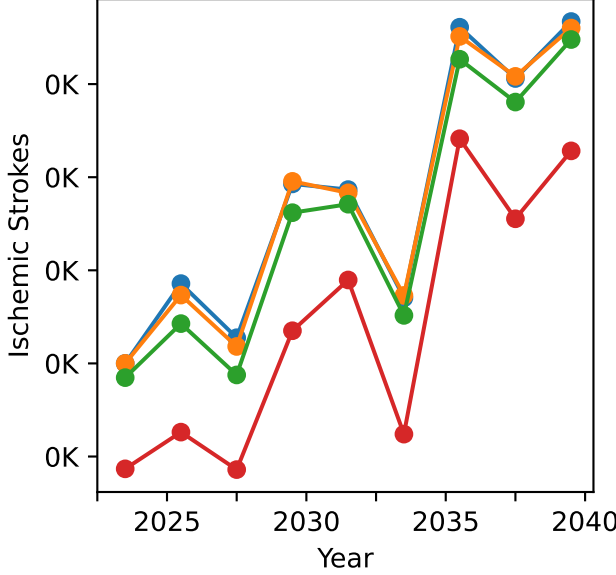

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

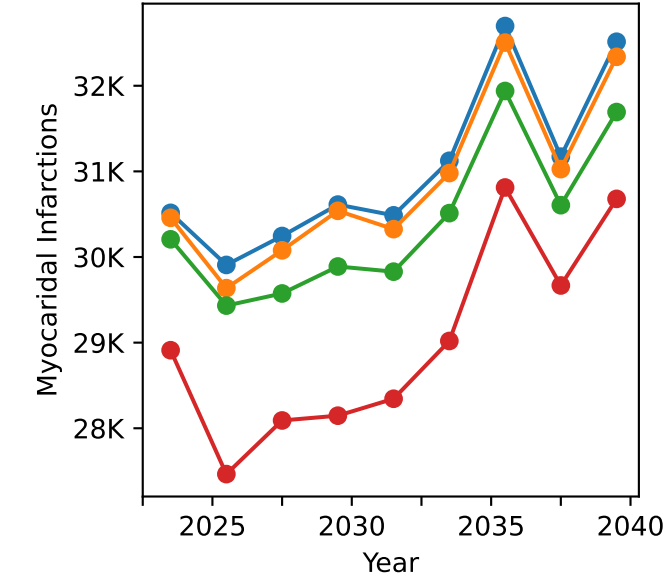

Count of Ischemic Strokes in Males

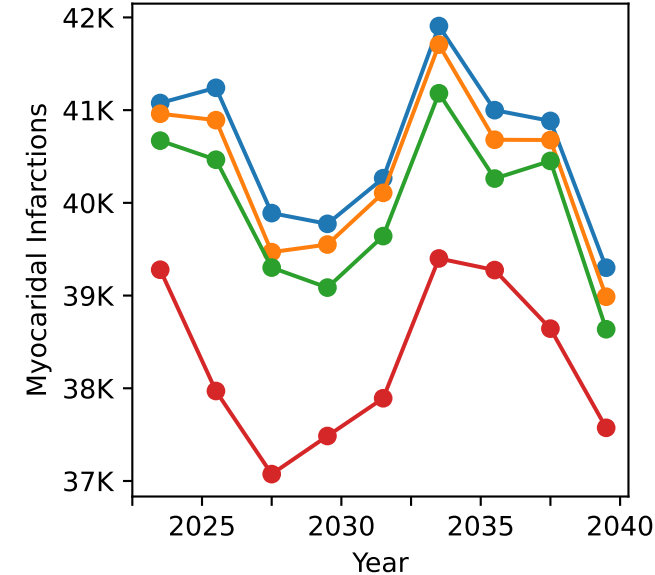

Comparing Incidence Across Scenarios in Florida

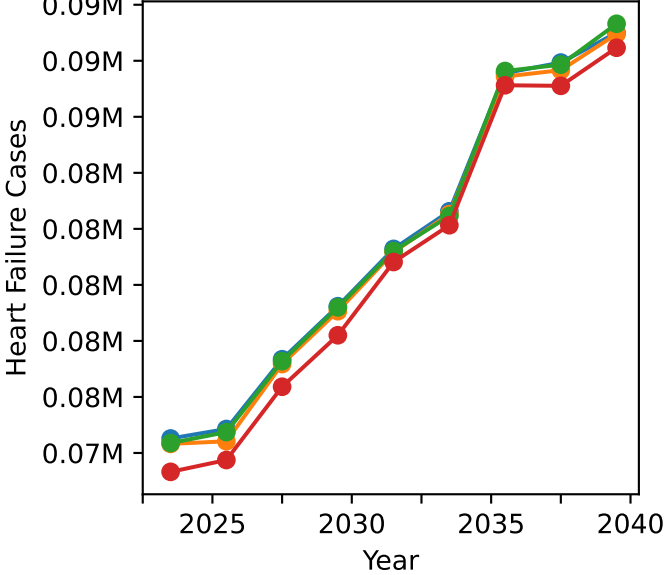

Count of Myocardial Infarctions in Females

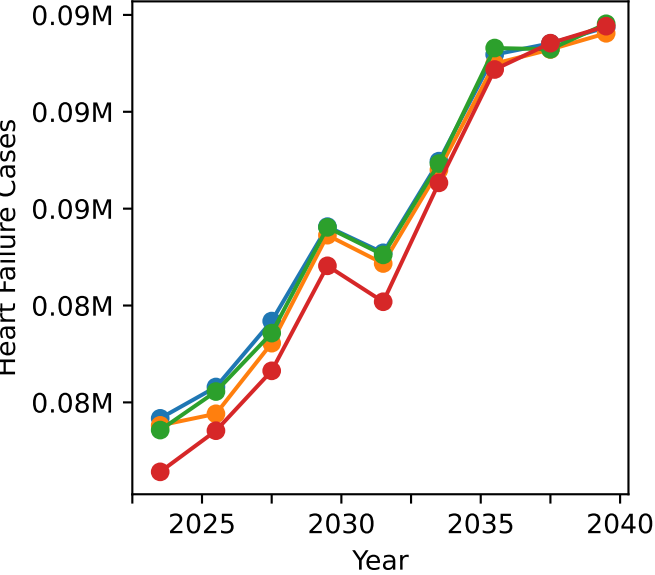

Count of Myocardial Infarctions in Males

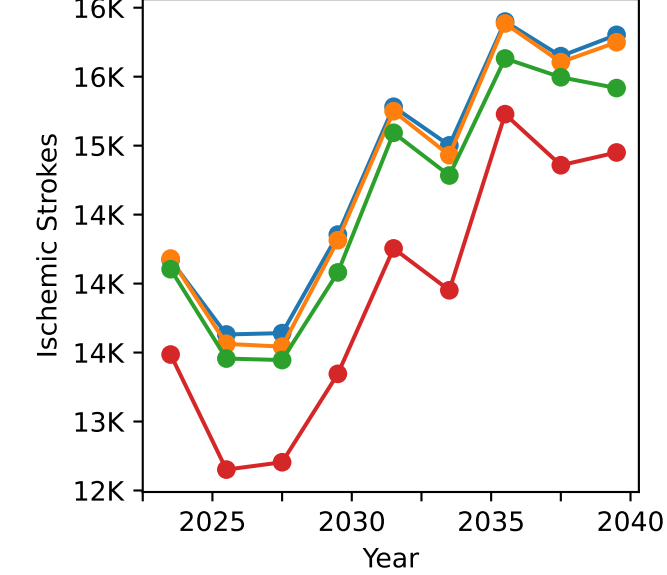

Count of Heart Failure in Females

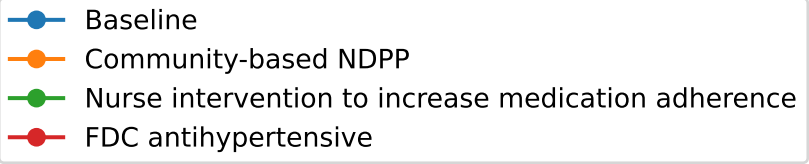

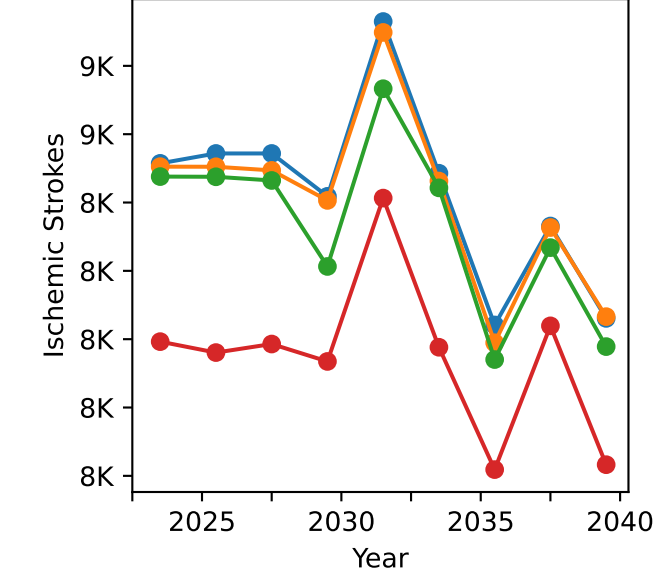

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

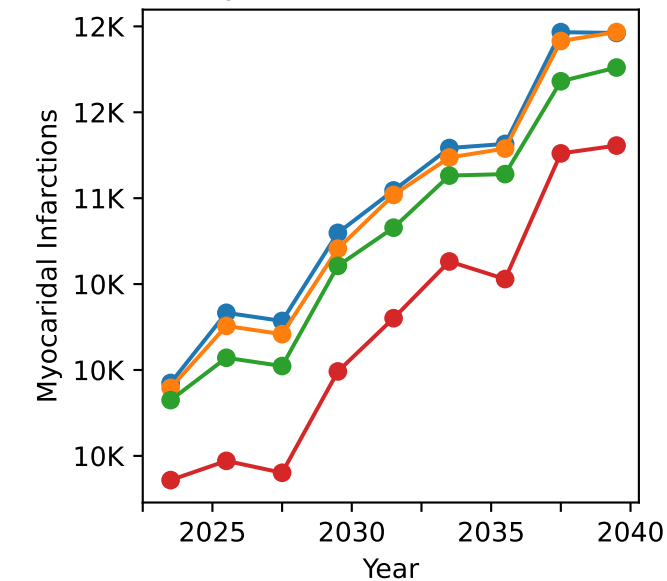

Count of Ischemic Strokes in Males

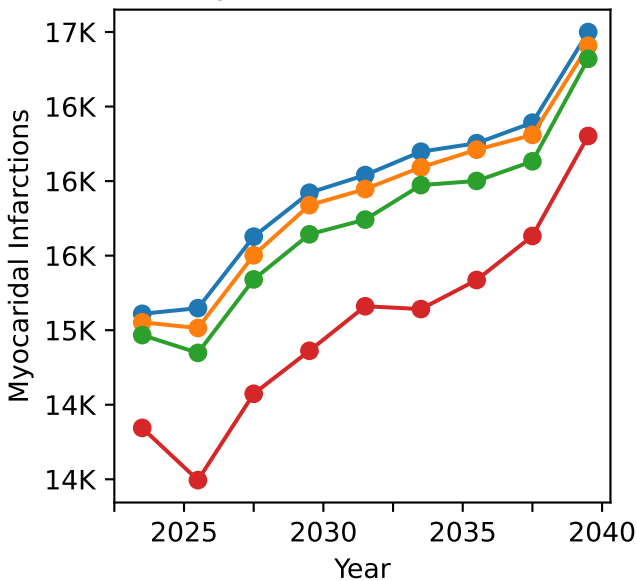

Comparing Incidence Across Scenarios in Georgia

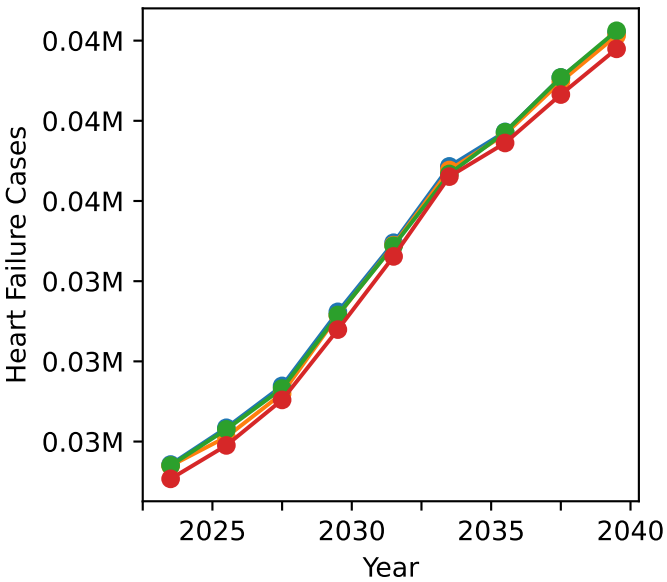

Count of Myocardial Infarctions in Females

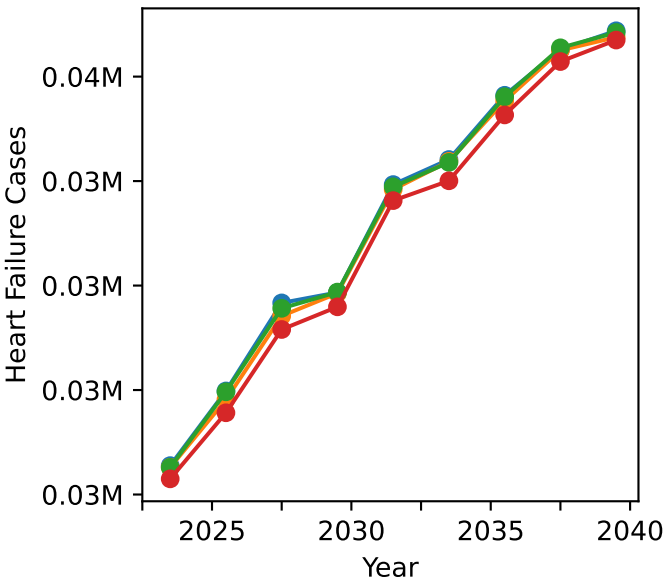

Count of Myocardial Infarctions in Males

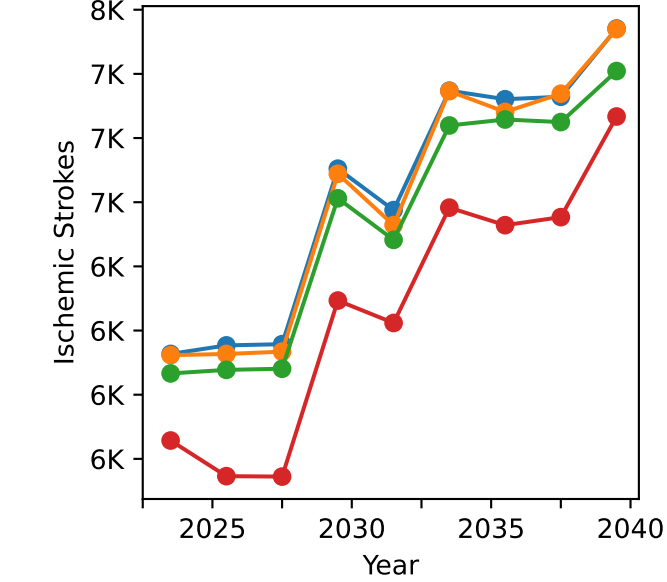

Count of Heart Failure in Females

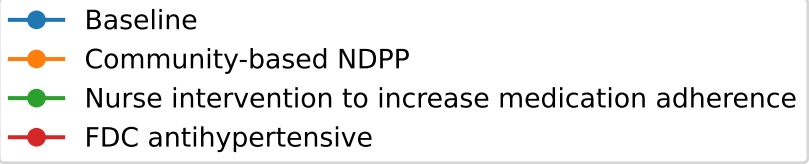

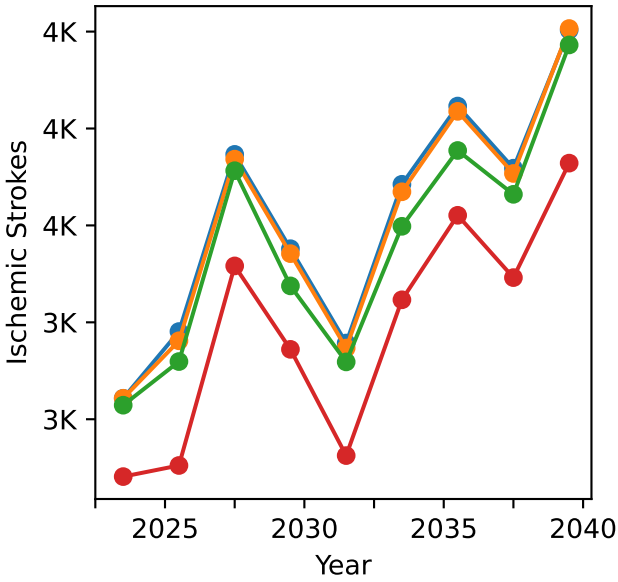

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

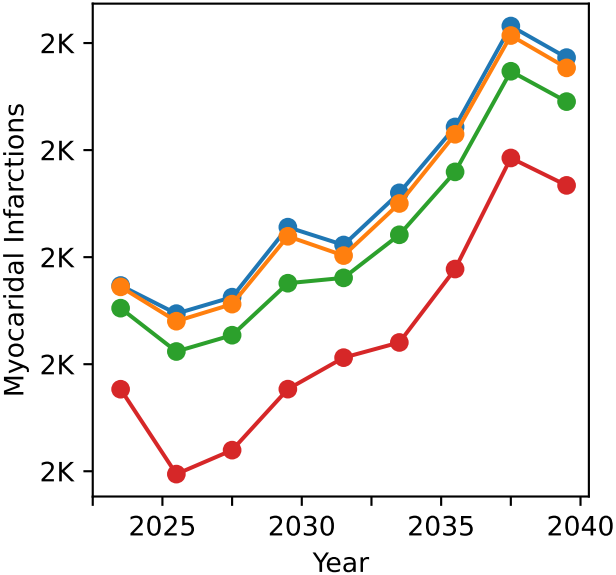

Count of Ischemic Strokes in Males

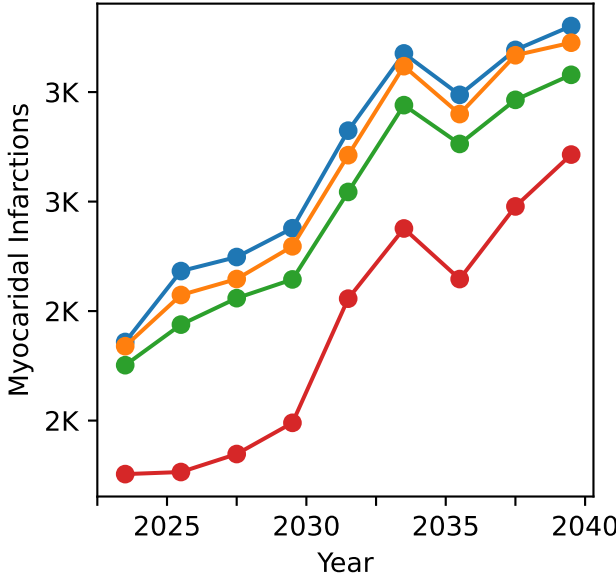

Comparing Incidence Across Scenarios in Hawaii

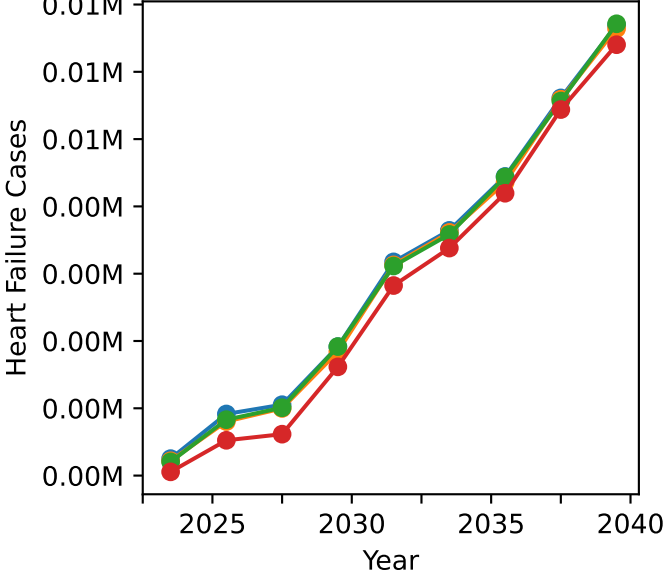

Count of Myocardial Infarctions in Females

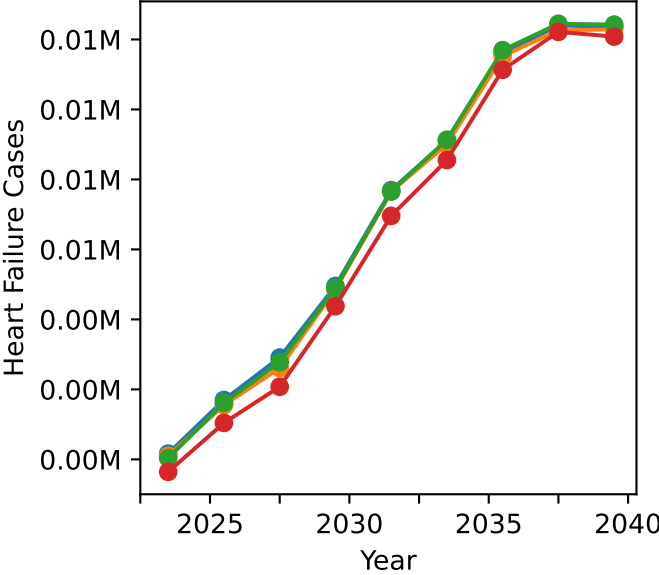

Count of Myocardial Infarctions in Males

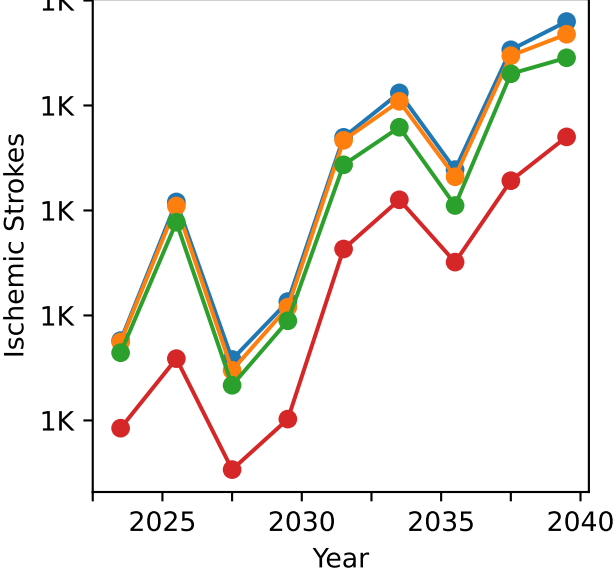

Count of Heart Failure in Females

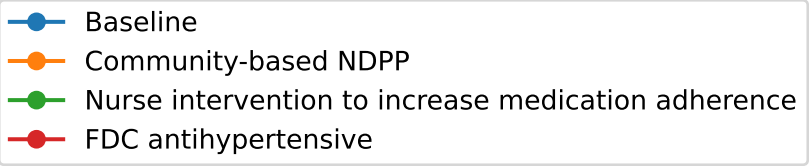

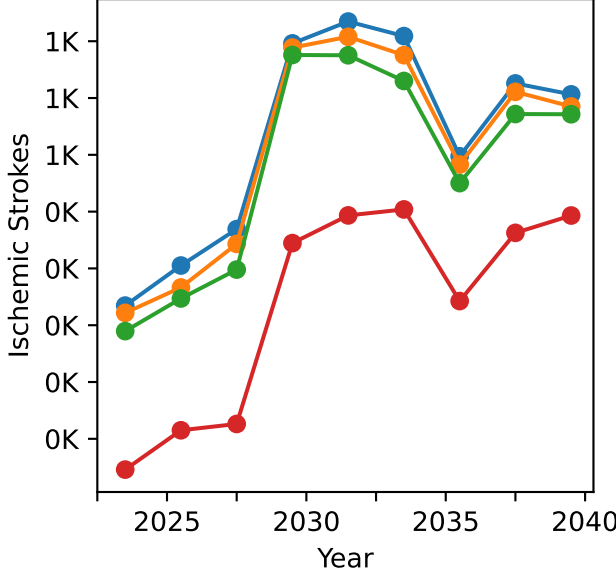

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

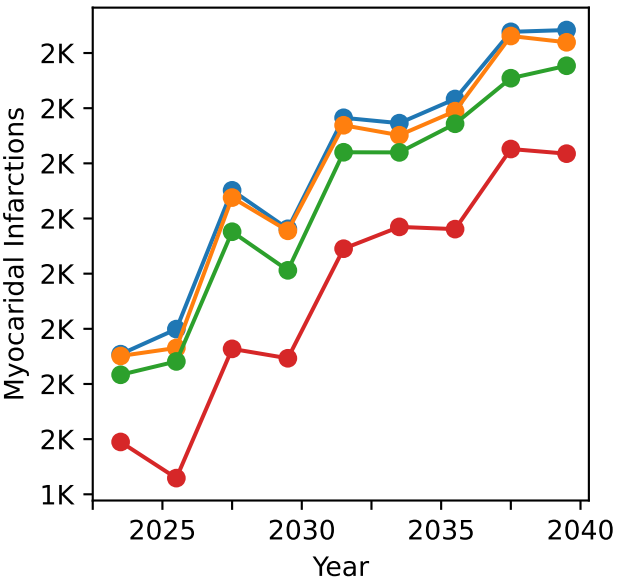

Count of Ischemic Strokes in Males

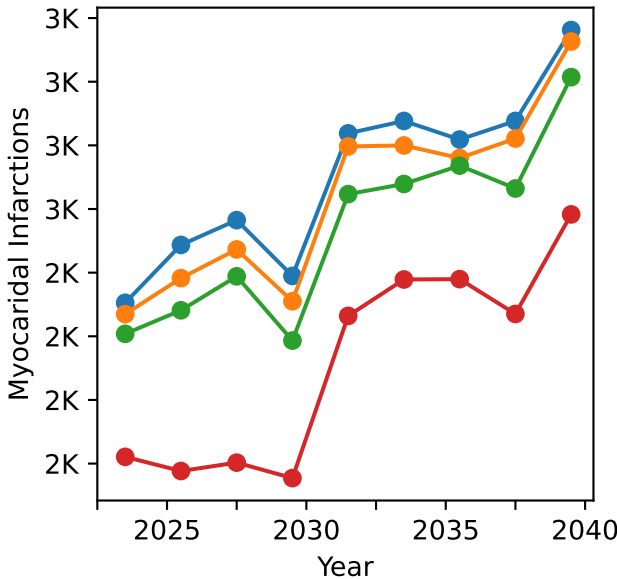

Comparing Incidence Across Scenarios in Idaho

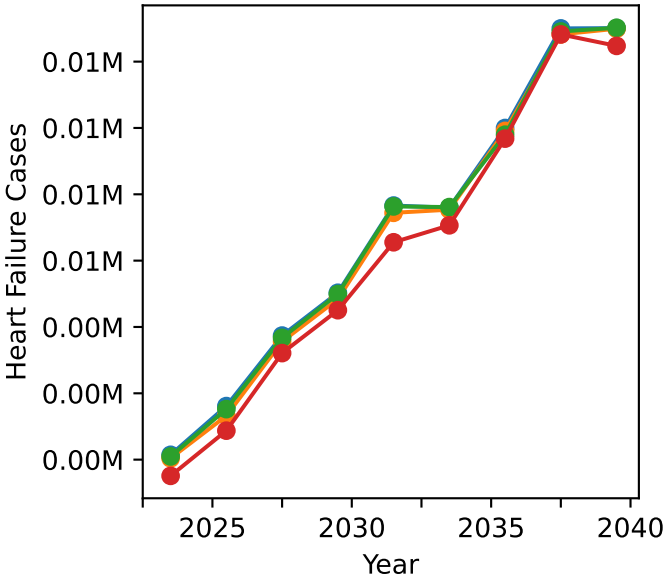

Count of Myocardial Infarctions in Females

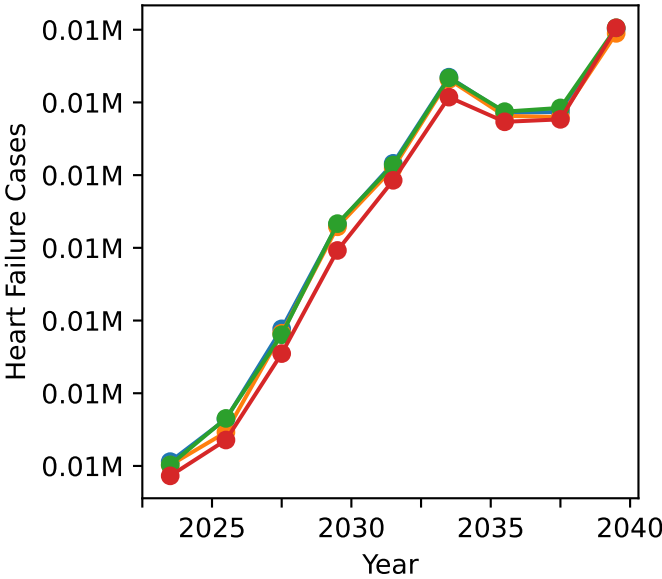

Count of Myocardial Infarctions in Males

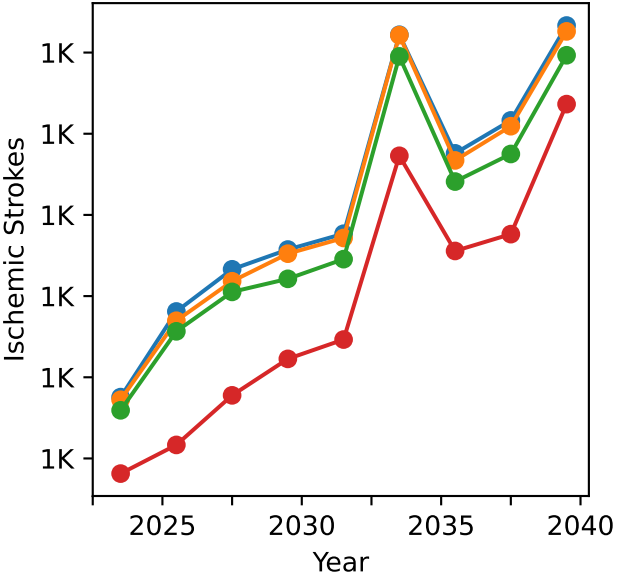

Count of Heart Failure in Females

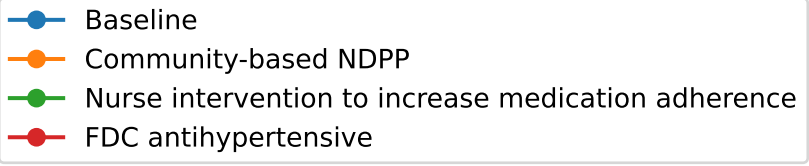

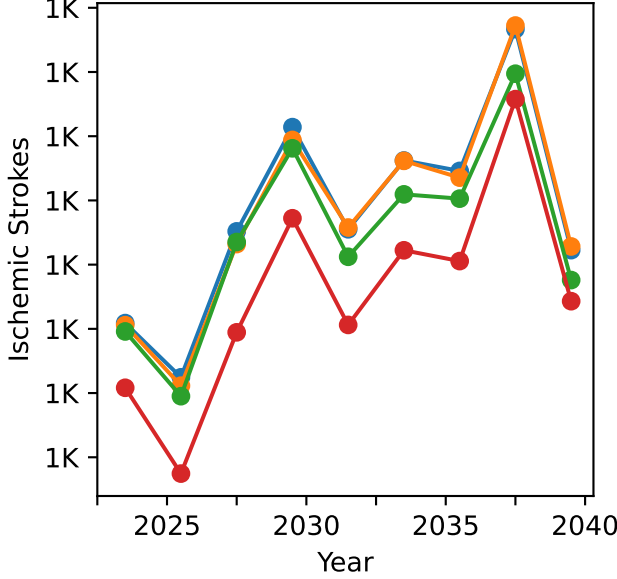

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

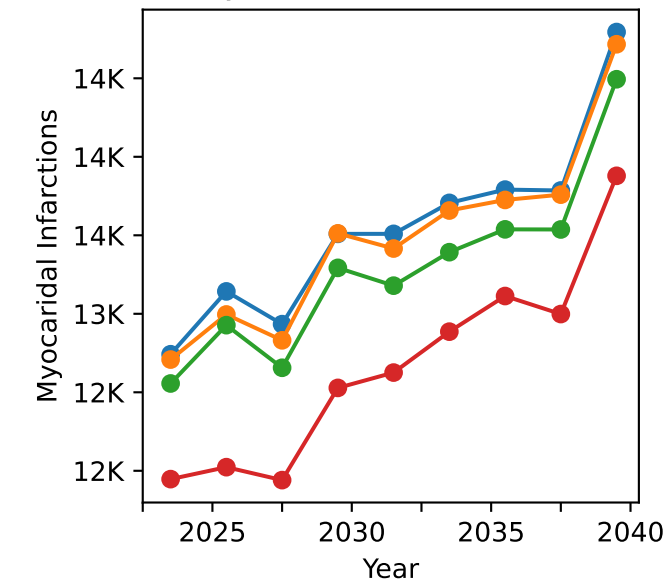

Count of Ischemic Strokes in Males

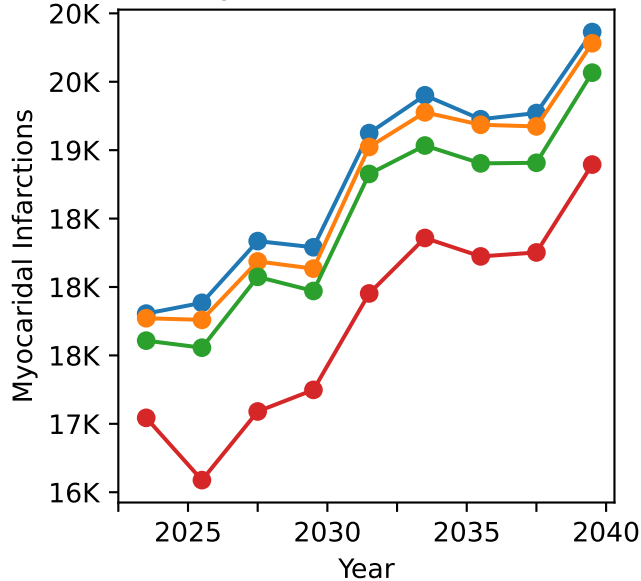

Comparing Incidence Across Scenarios in Illinois

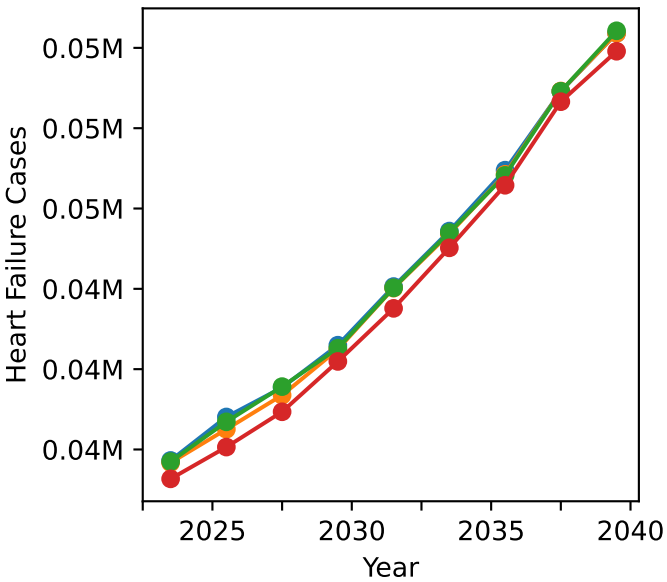

Count of Myocardial Infarctions in Females

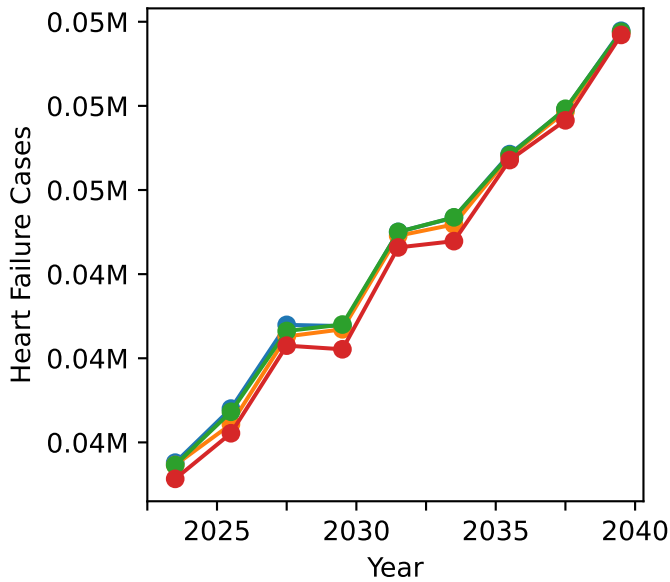

Count of Myocardial Infarctions in Males

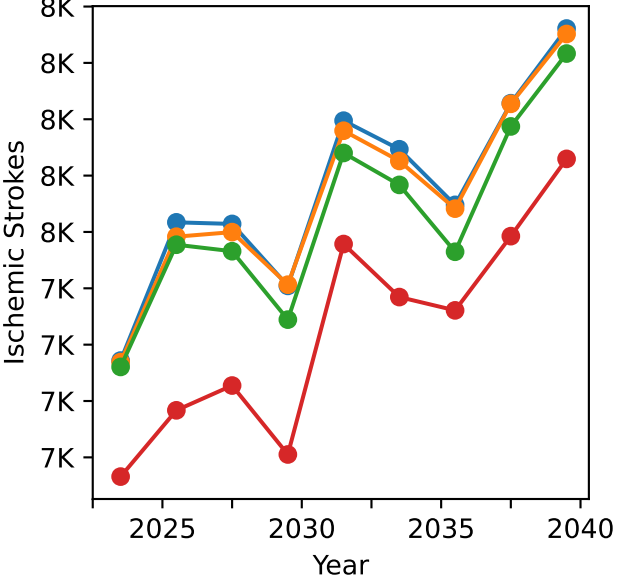

Count of Heart Failure in Females

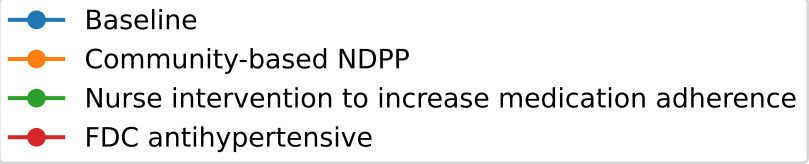

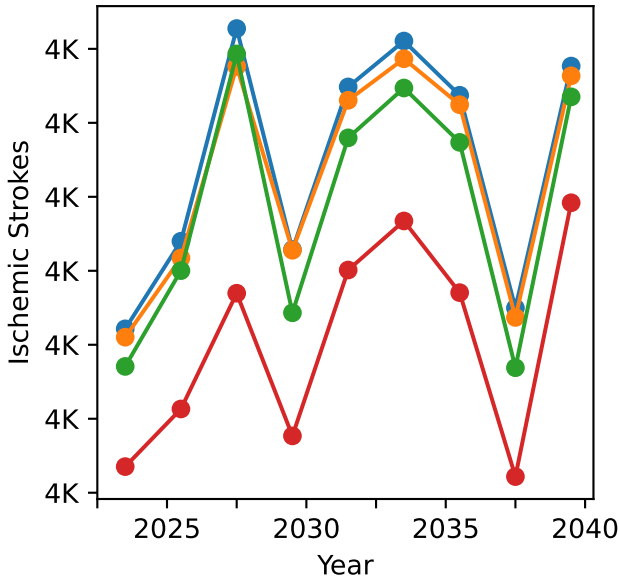

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

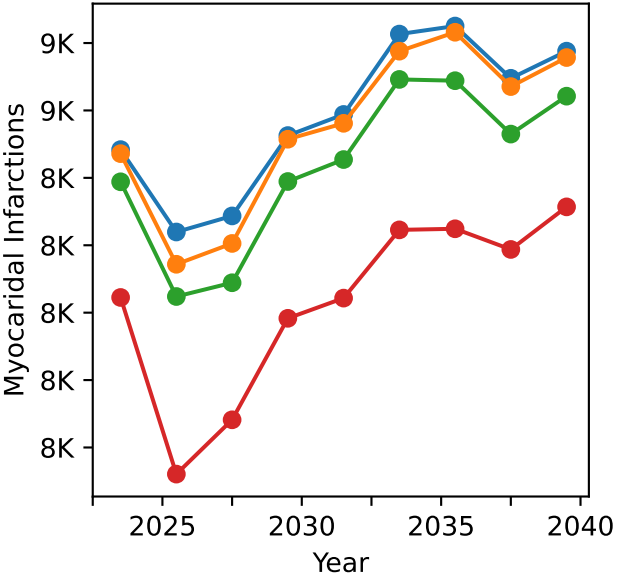

Count of Ischemic Strokes in Males

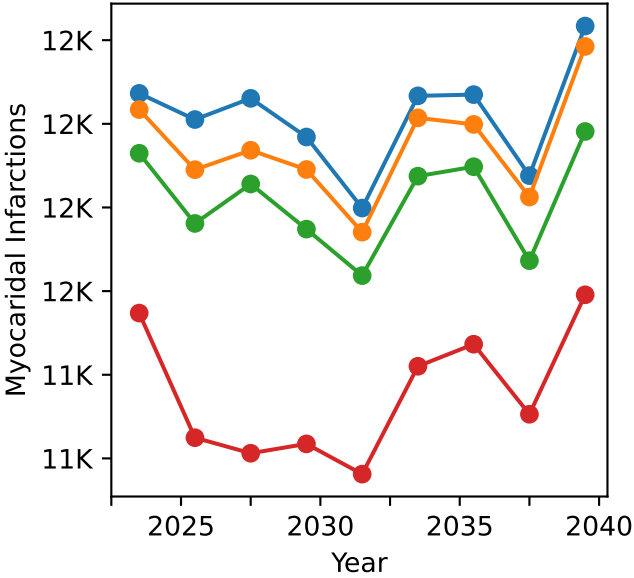

Comparing Incidence Across Scenarios in Indiana

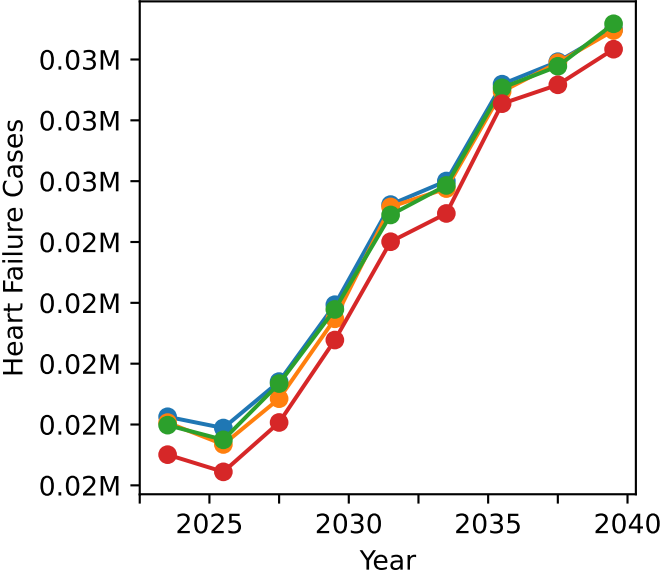

Count of Myocardial Infarctions in Females

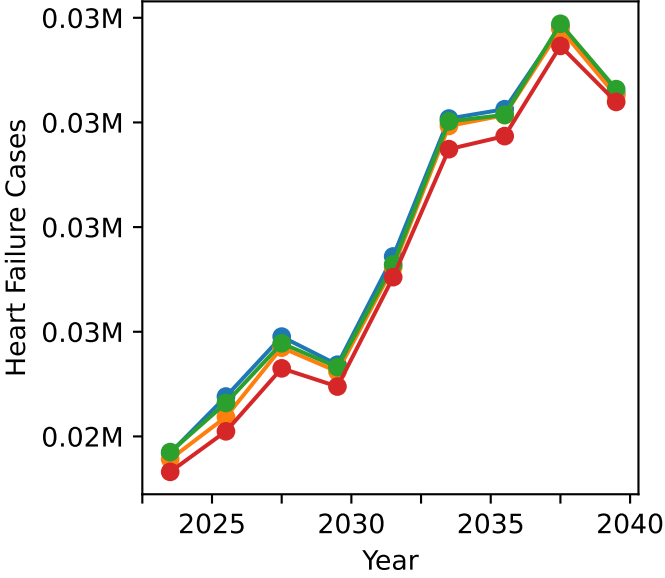

Count of Myocardial Infarctions in Males

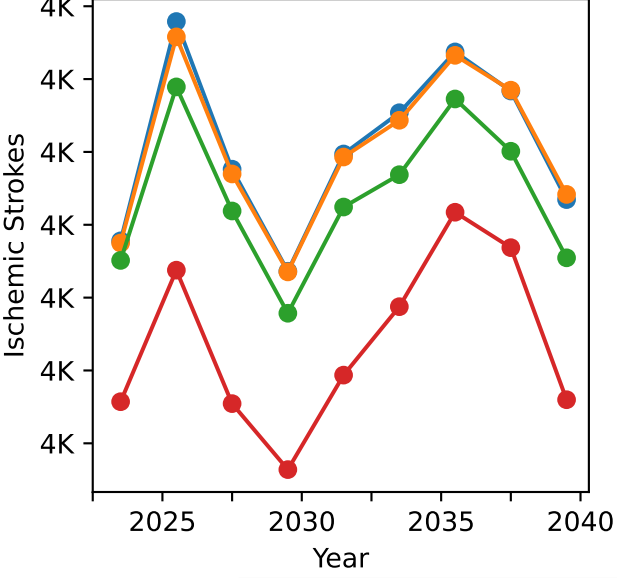

Count of Heart Failure in Females

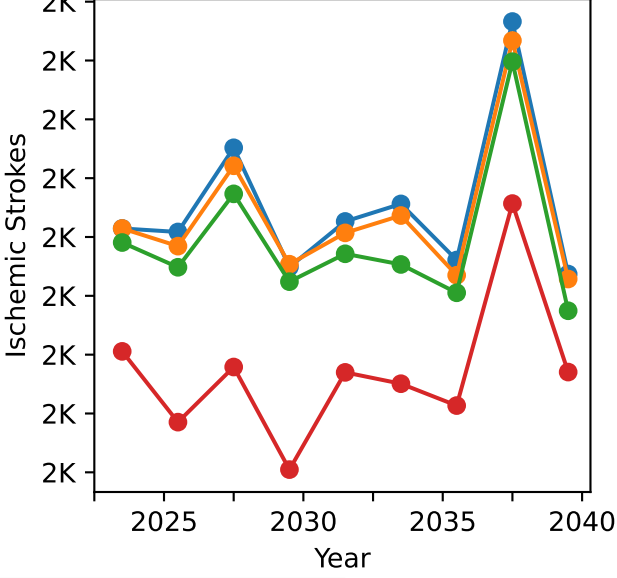

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

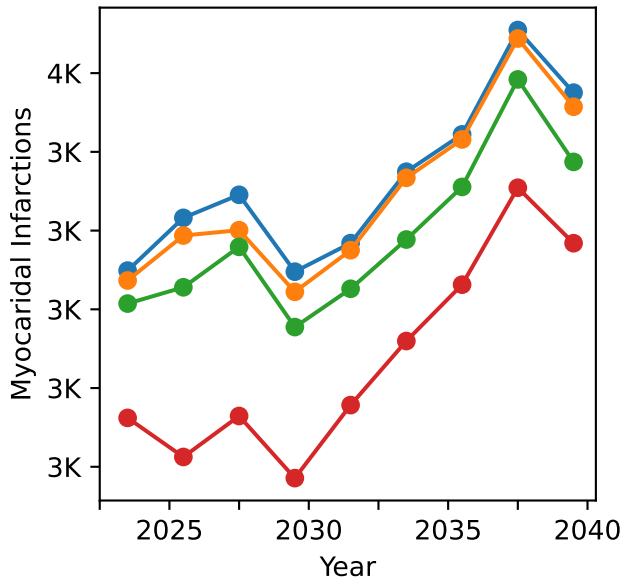

Count of Ischemic Strokes in Males

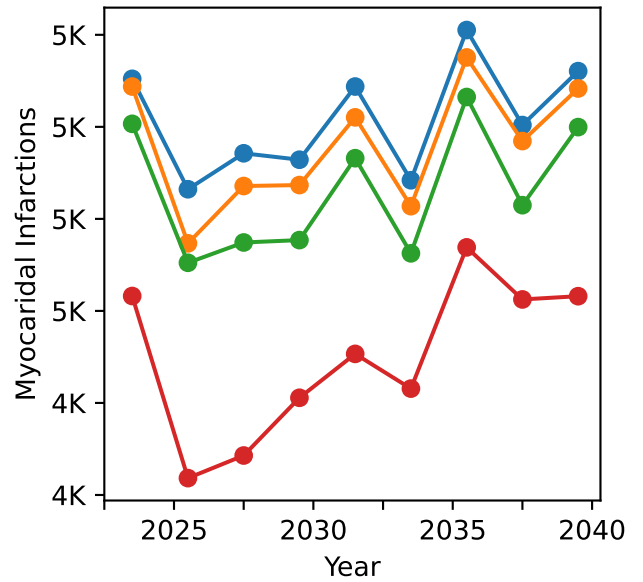

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in Iowa

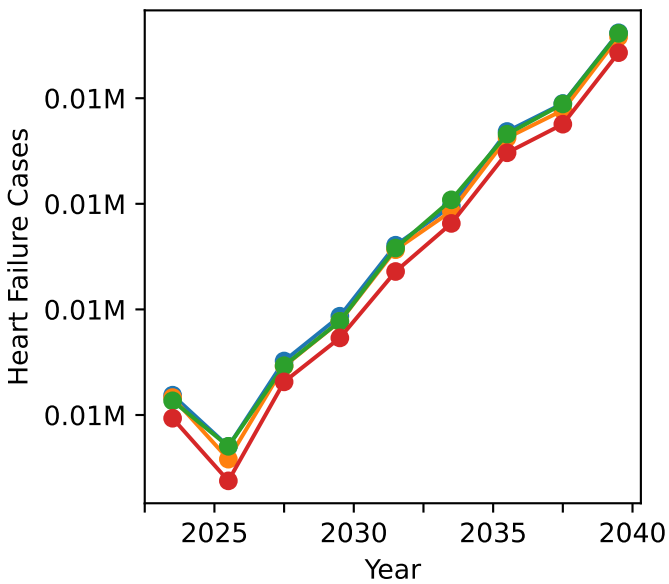

Count of Myocardial Infarctions in Females

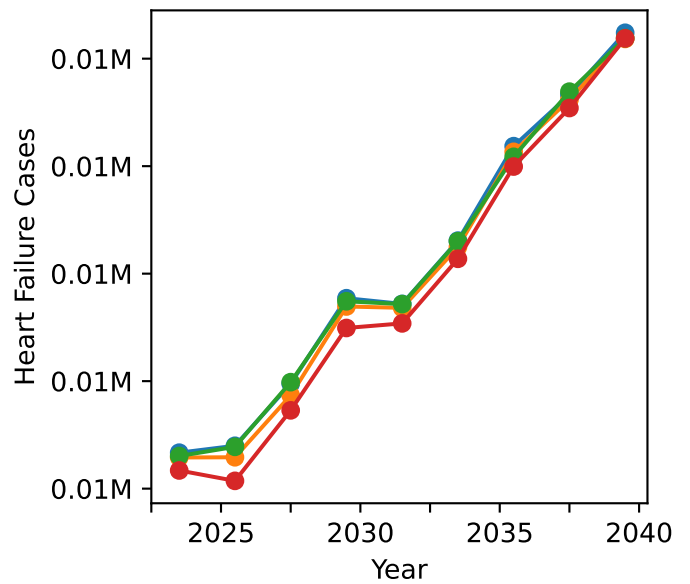

Count of Myocardial Infarctions in Males

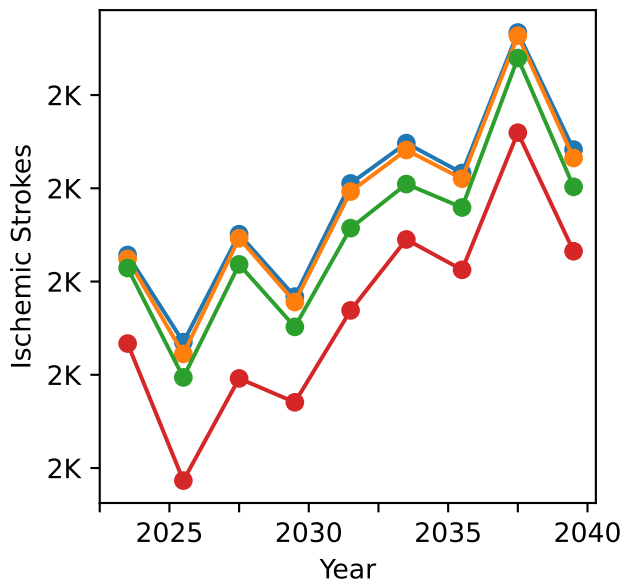

Count of Heart Failure in Females

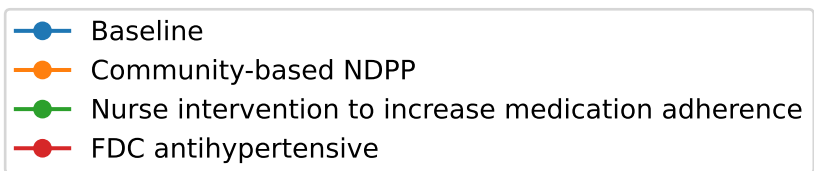

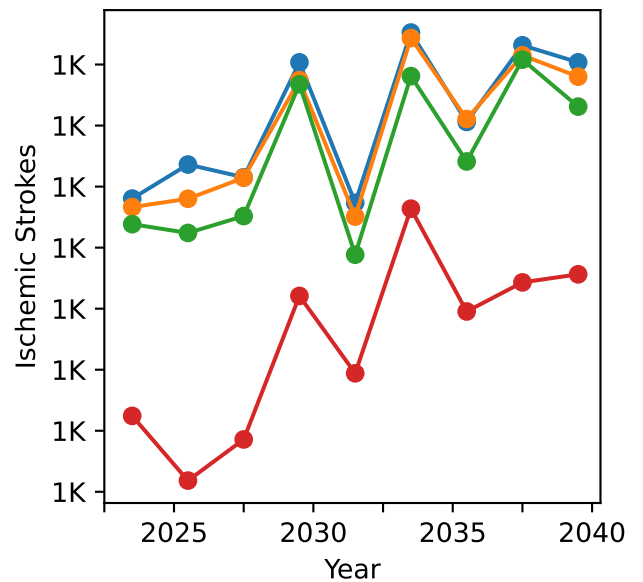

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

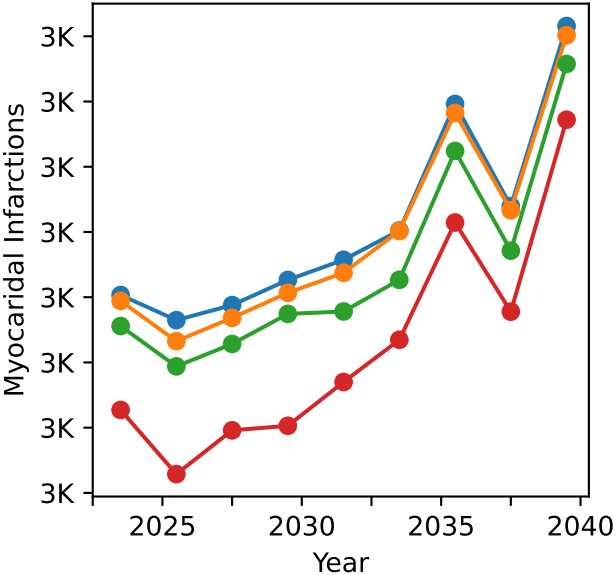

Count of Ischemic Strokes in Males

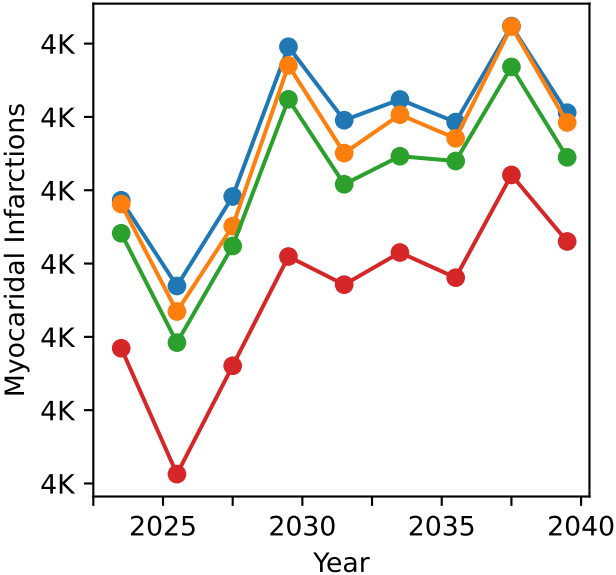

Comparing Incidence Across Scenarios in Kansas

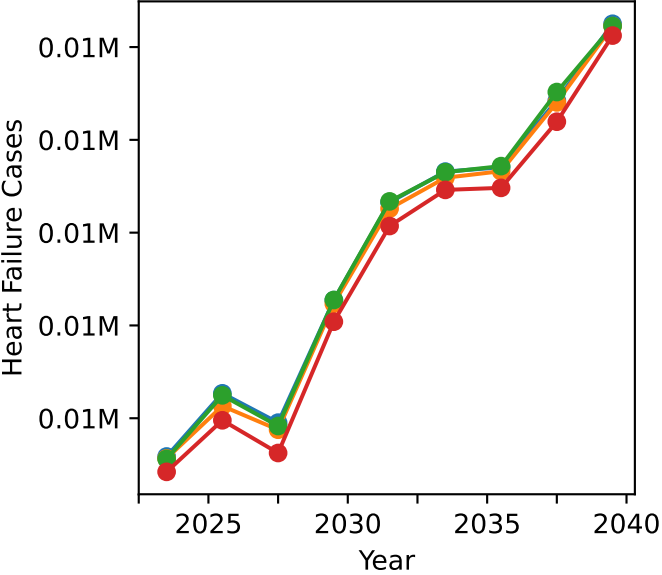

Count of Myocardial Infarctions in Females

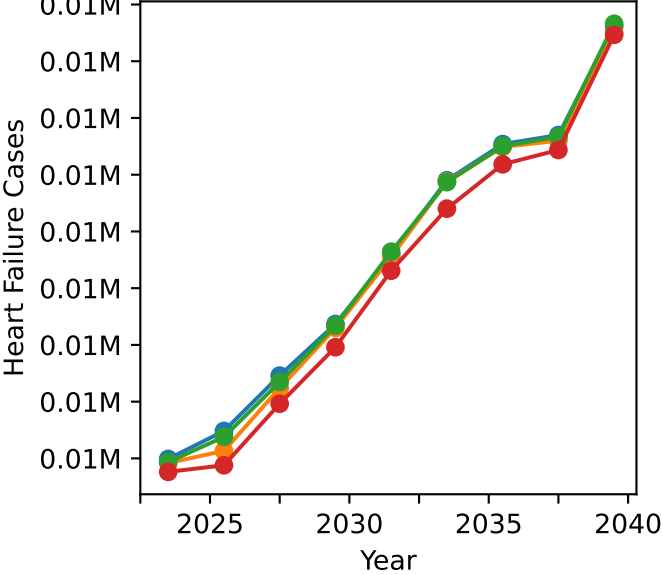

Count of Myocardial Infarctions in Males

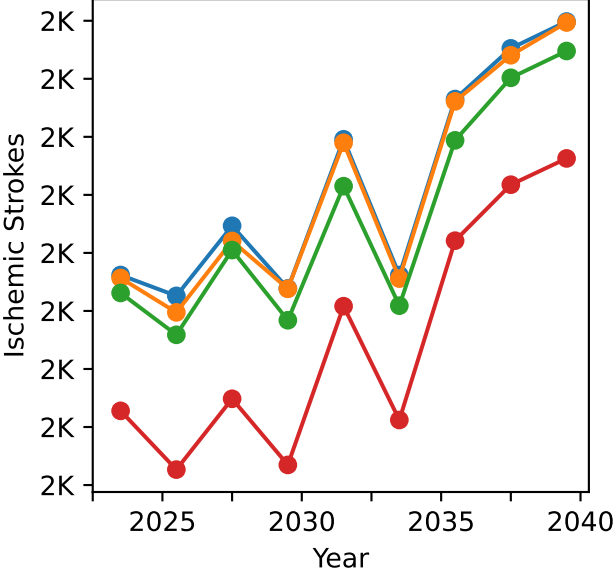

Count of Heart Failure in Females

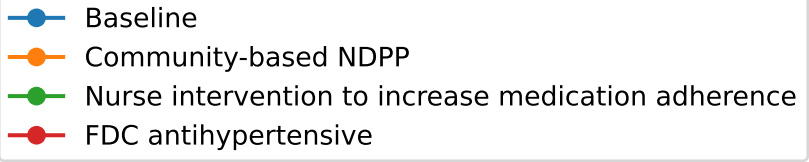

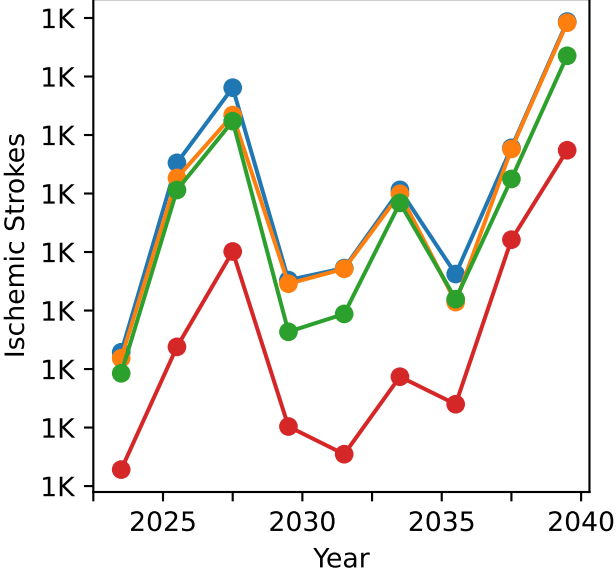

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

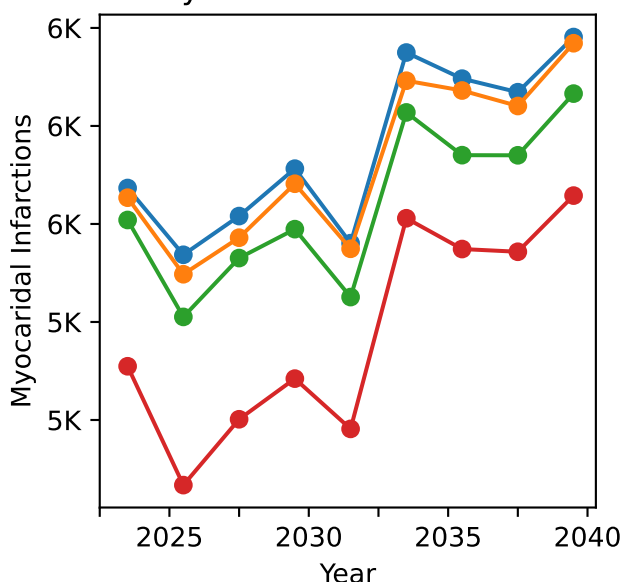

Count of Ischemic Strokes in Males

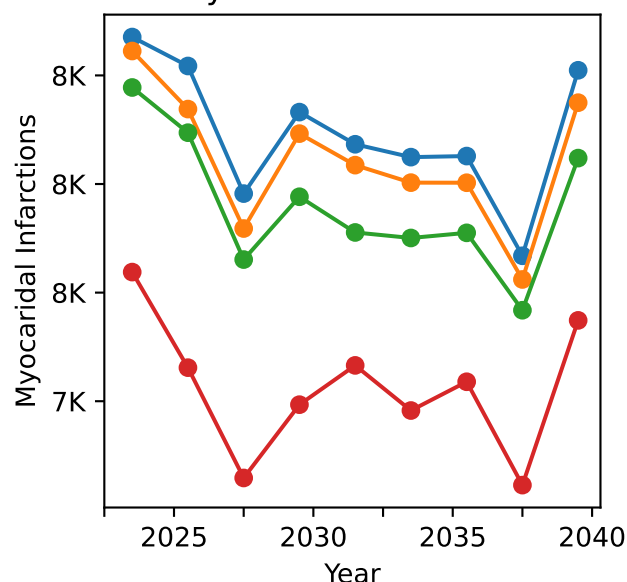

Comparing Incidence Across Scenarios in Kentucky

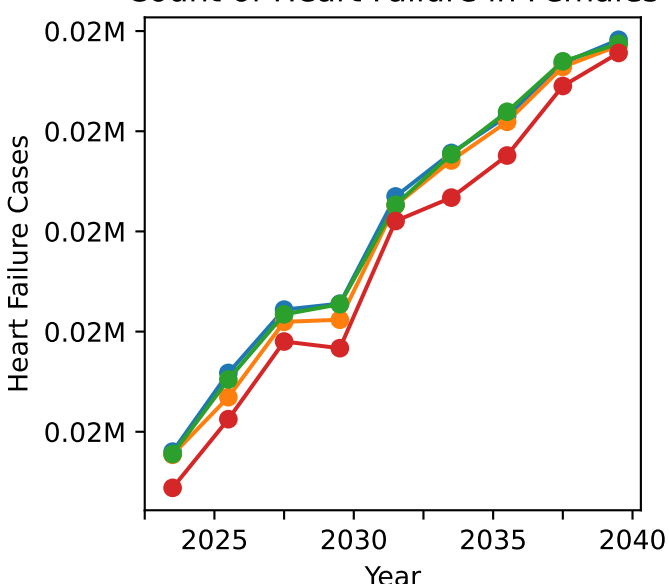

Count of Myocardial Infarctions in Females

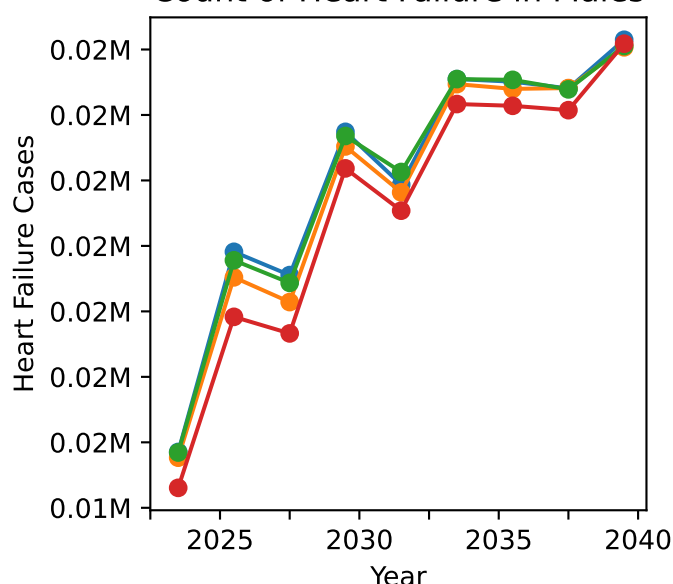

Count of Myocardial Infarctions in Males

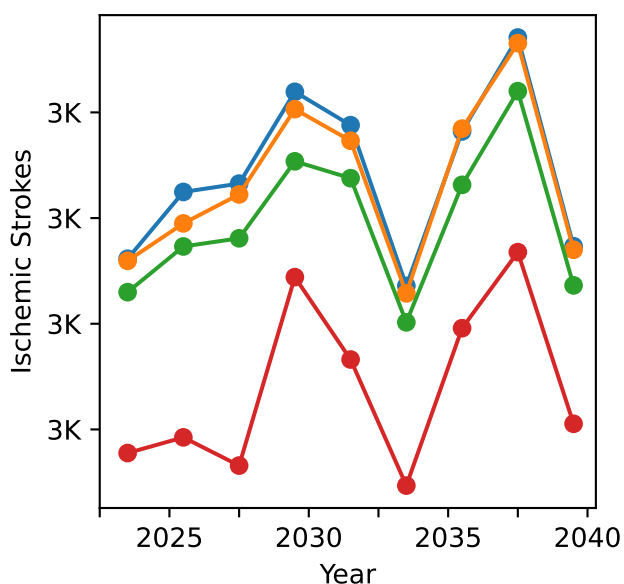

Count of Heart Failure in Females

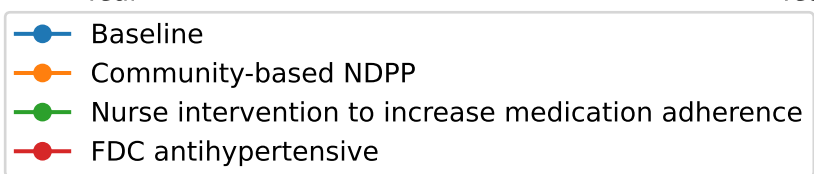

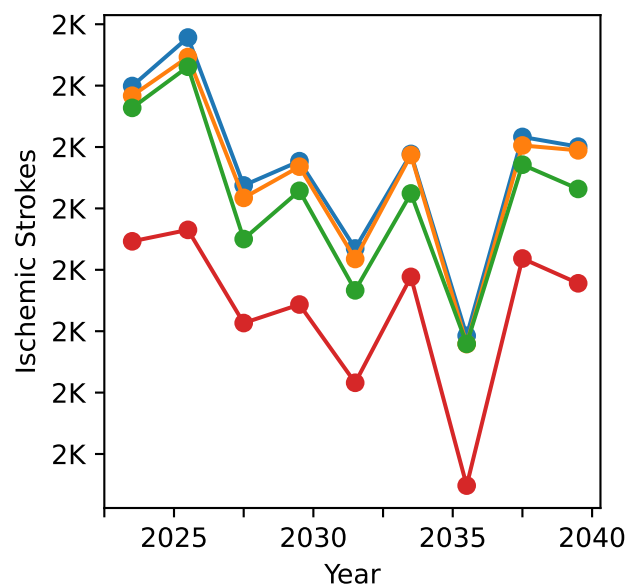

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

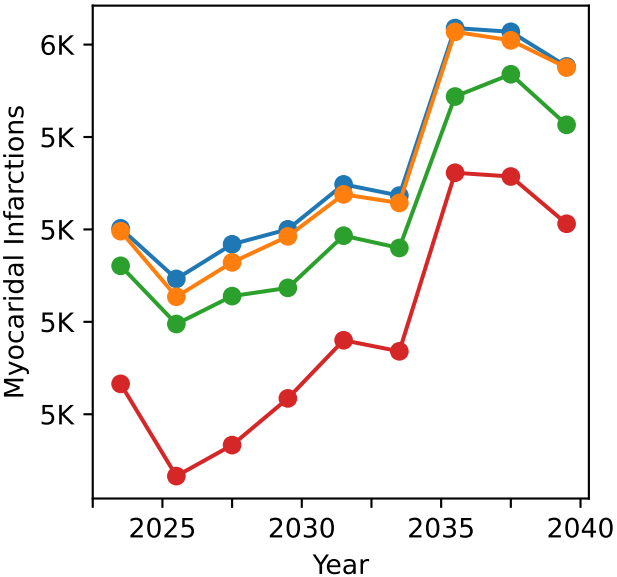

Count of Ischemic Strokes in Males

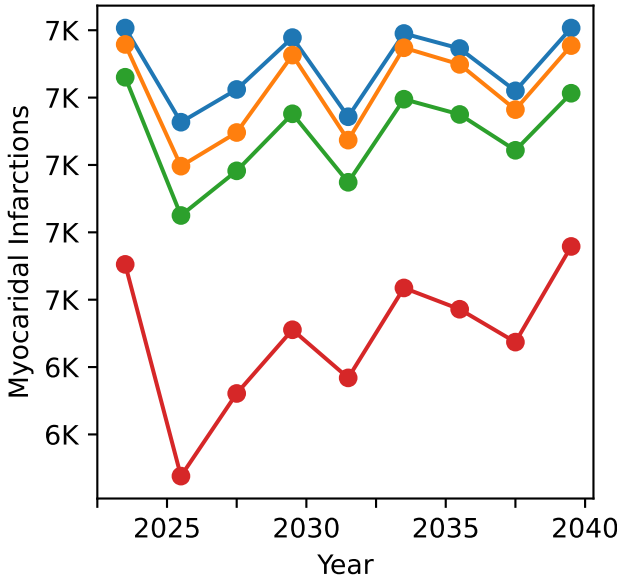

Comparing Incidence Across Scenarios in Louisiana

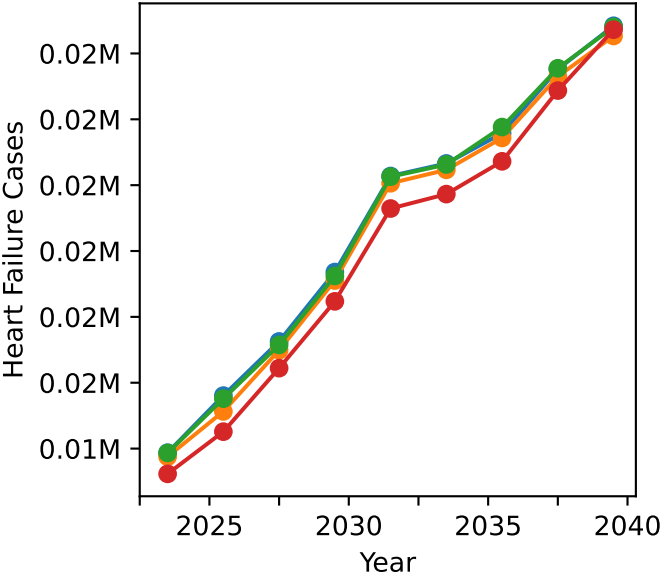

Count of Myocardial Infarctions in Females

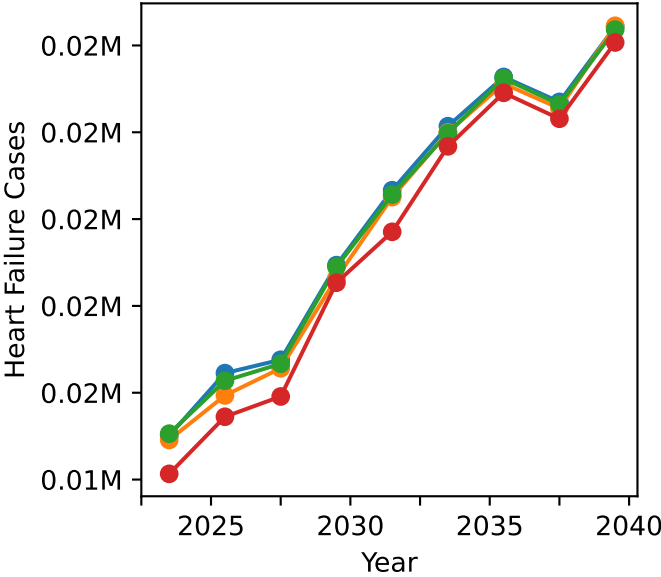

Count of Myocardial Infarctions in Males

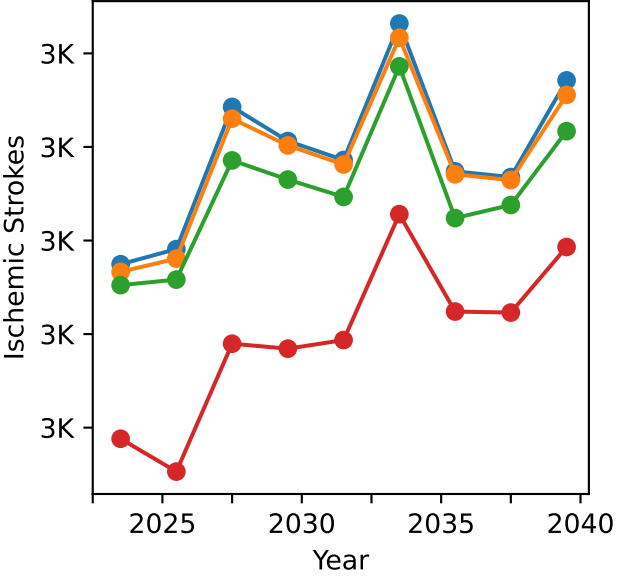

Count of Heart Failure in Females

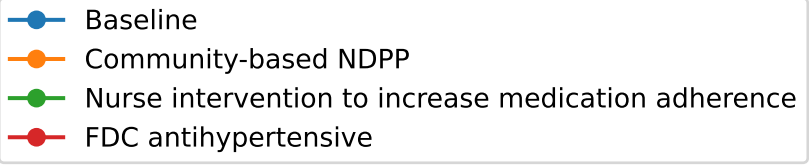

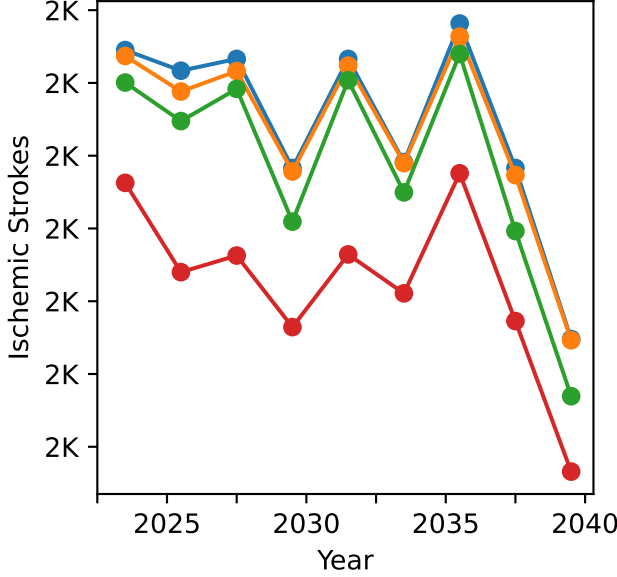

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

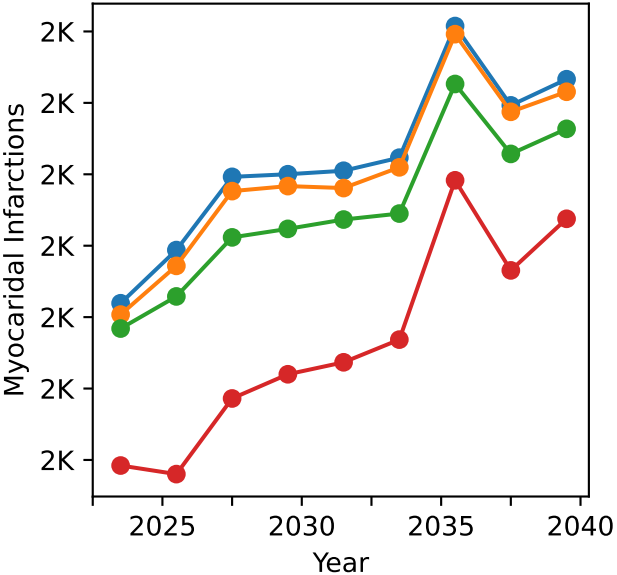

Count of Ischemic Strokes in Males

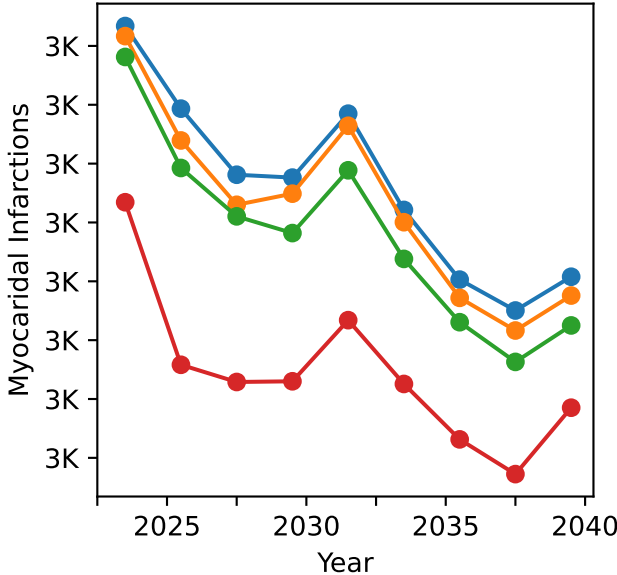

Comparing Incidence Across Scenarios in Maine

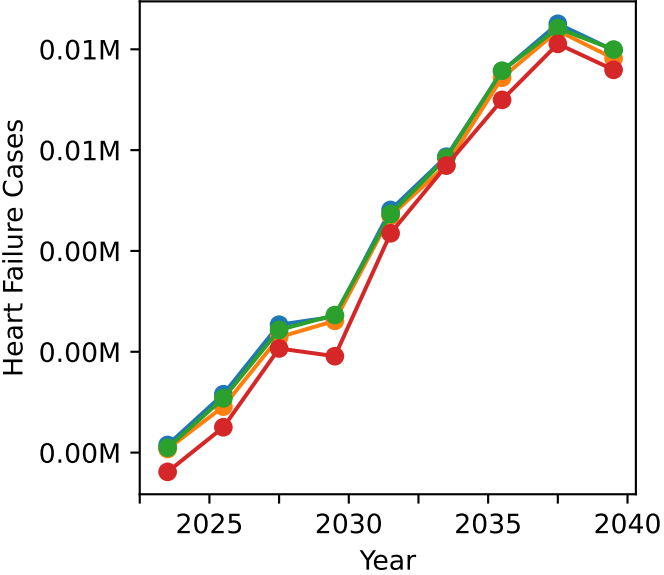

Count of Myocardial Infarctions in Females

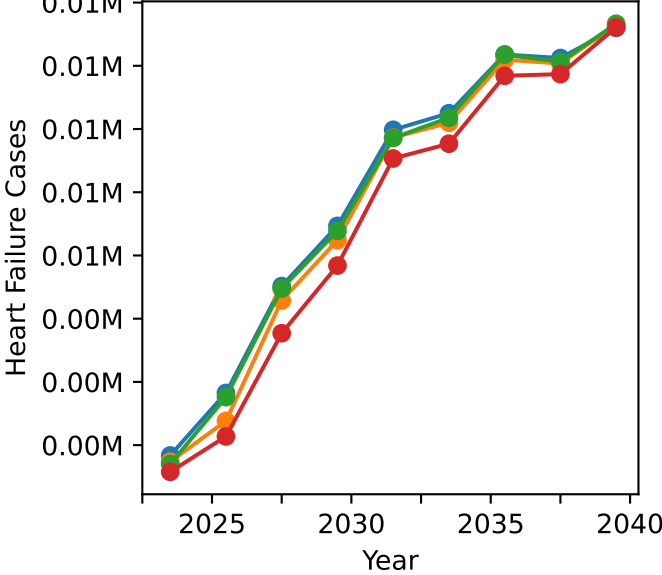

Count of Myocardial Infarctions in Males

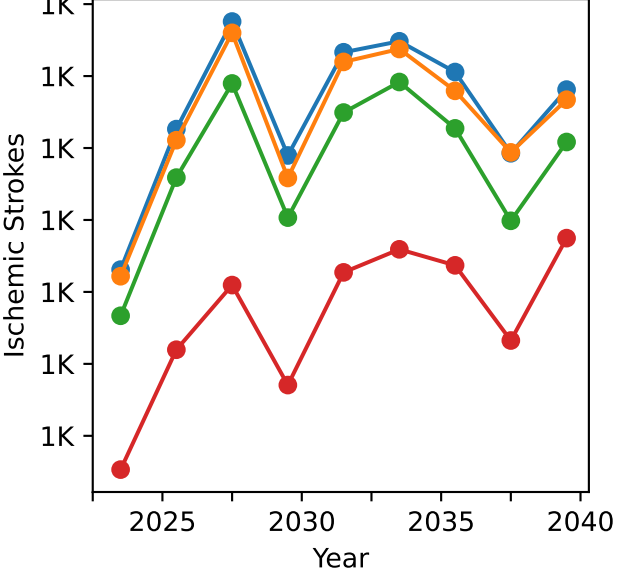

Count of Heart Failure in Females

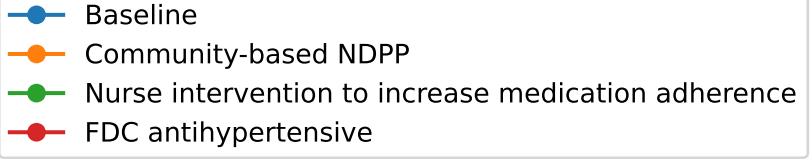

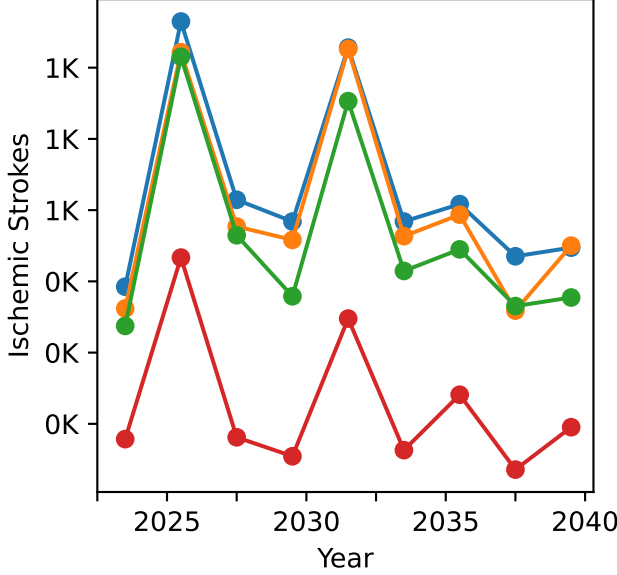

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

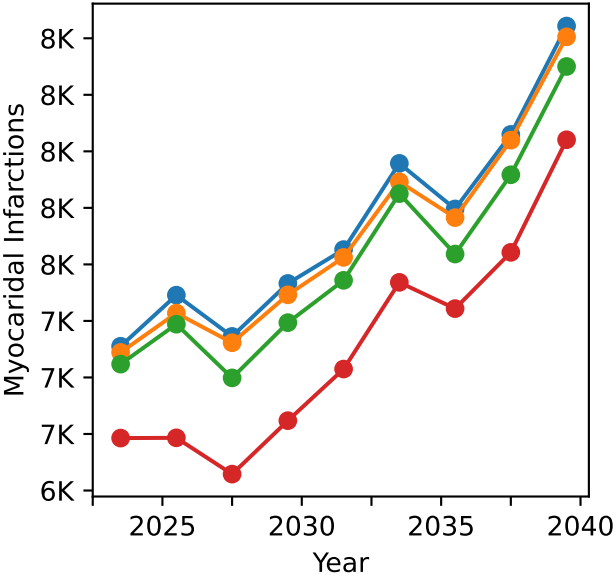

Count of Ischemic Strokes in Males

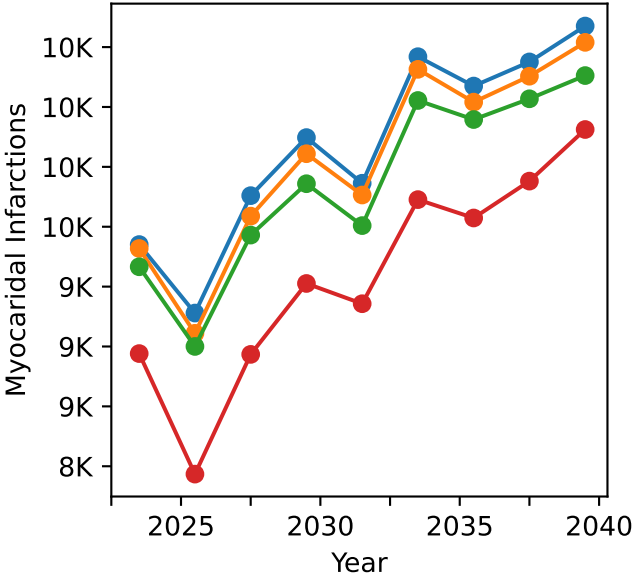

Comparing Incidence Across Scenarios in Maryland

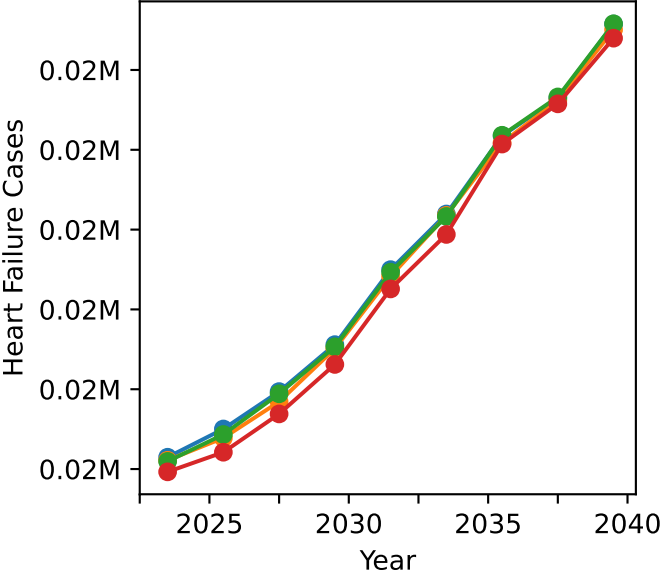

Count of Myocardial Infarctions in Females

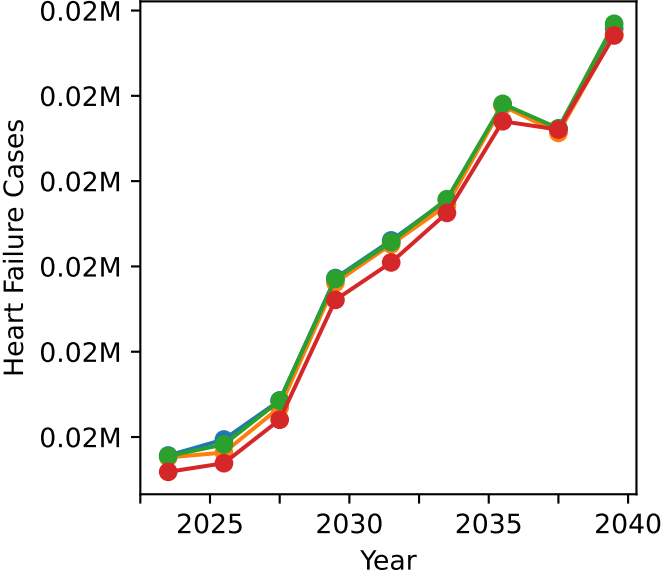

Count of Myocardial Infarctions in Males

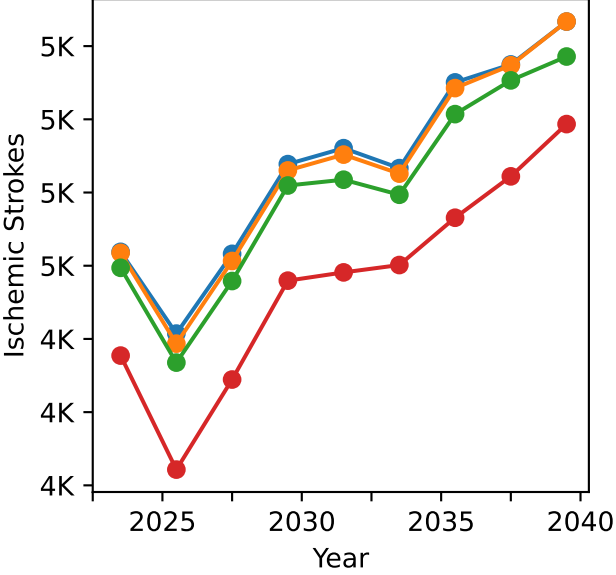

Count of Heart Failure in Females

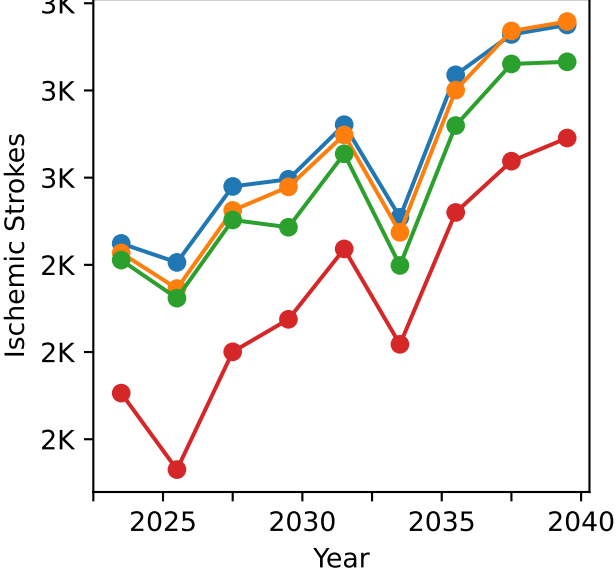

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

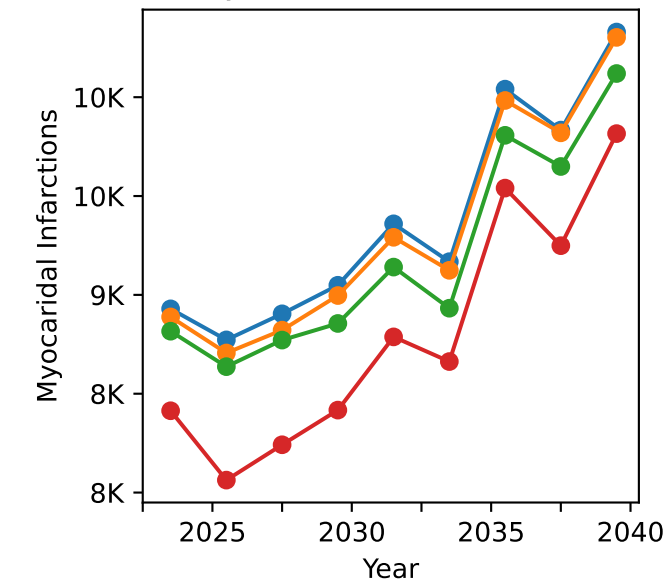

Count of Ischemic Strokes in Males

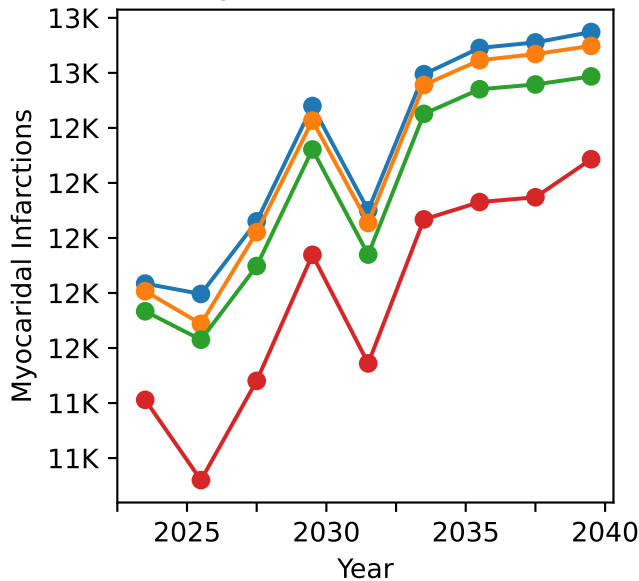

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in Massachusetts

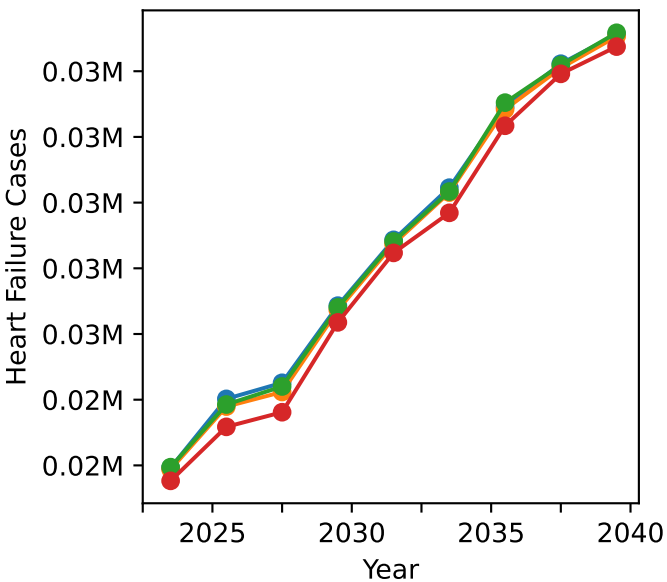

Count of Myocardial Infarctions in Females

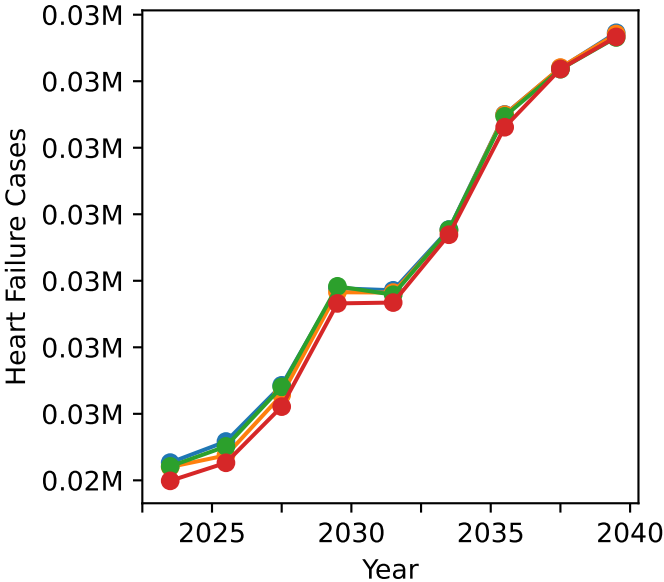

Count of Myocardial Infarctions in Males

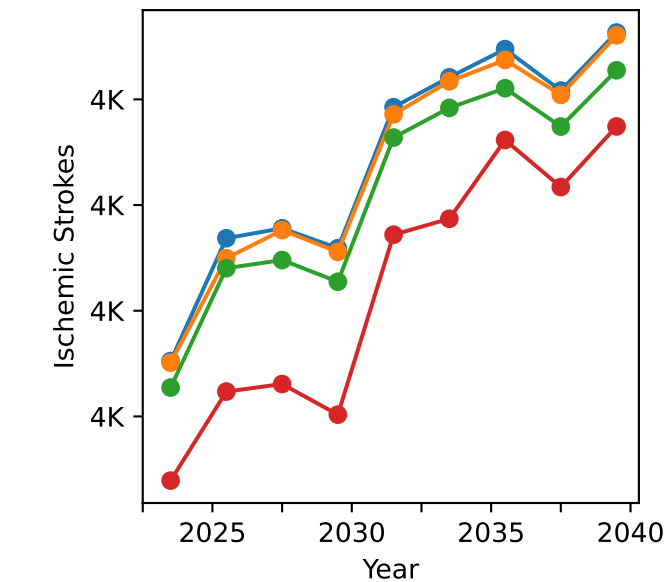

Count of Heart Failure in Females

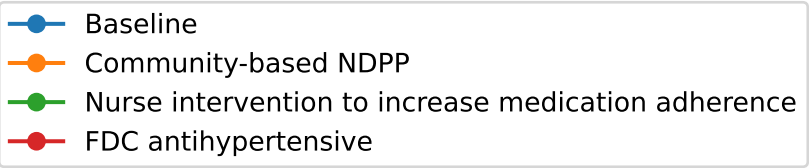

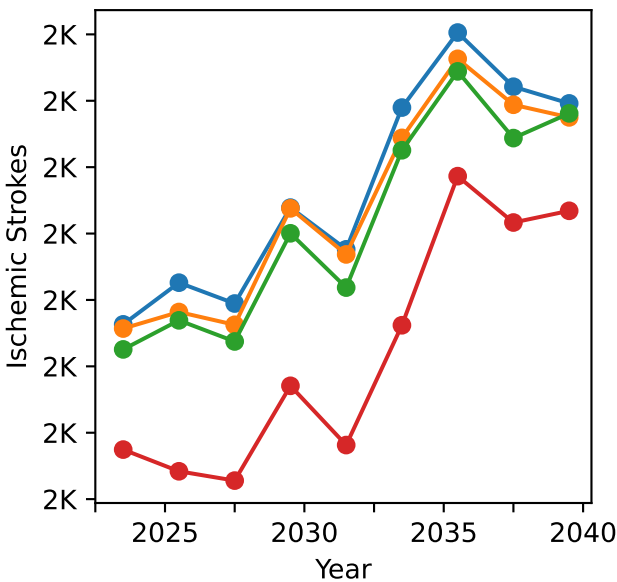

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

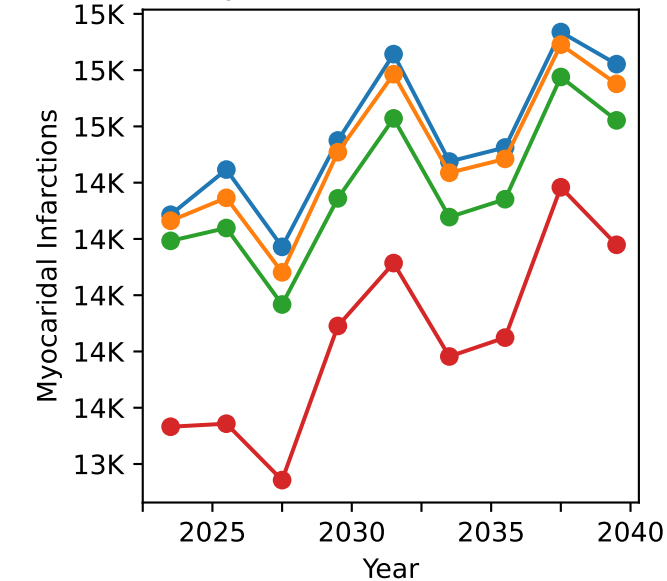

Count of Ischemic Strokes in Males

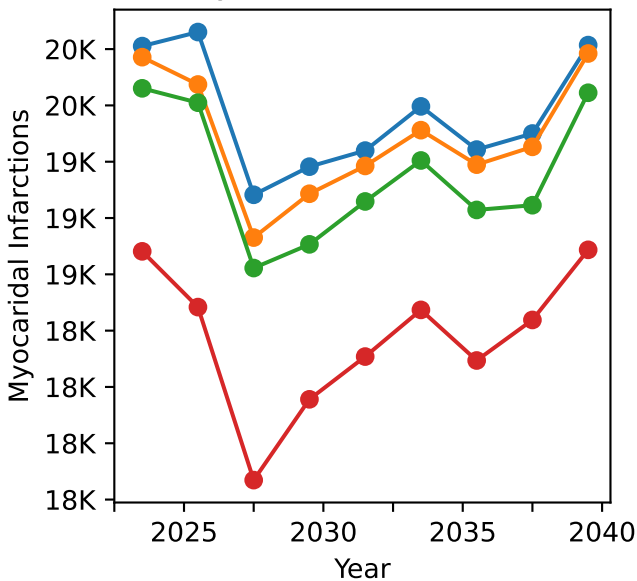

Comparing Incidence Across Scenarios in Michigan

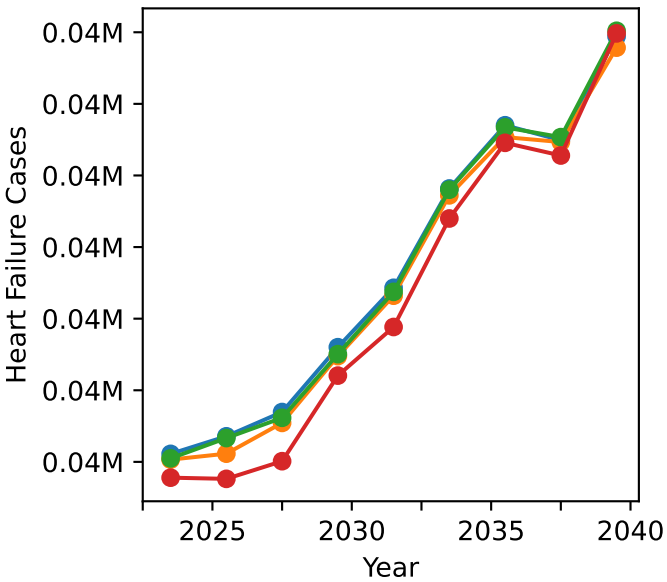

Count of Myocardial Infarctions in Females

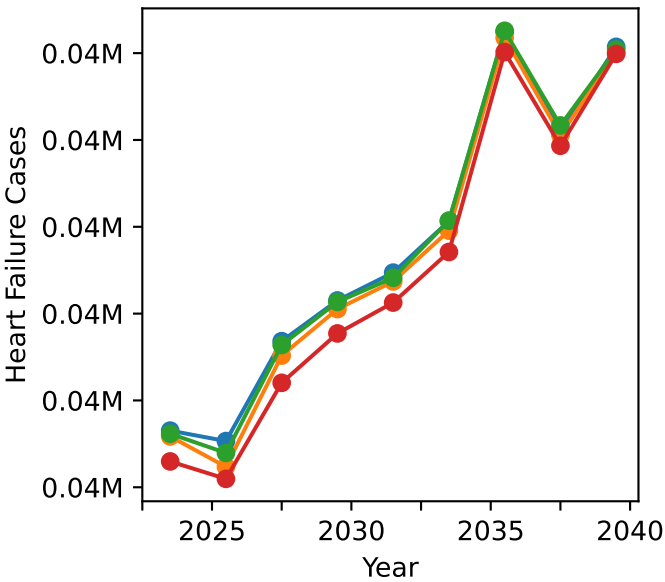

Count of Myocardial Infarctions in Males

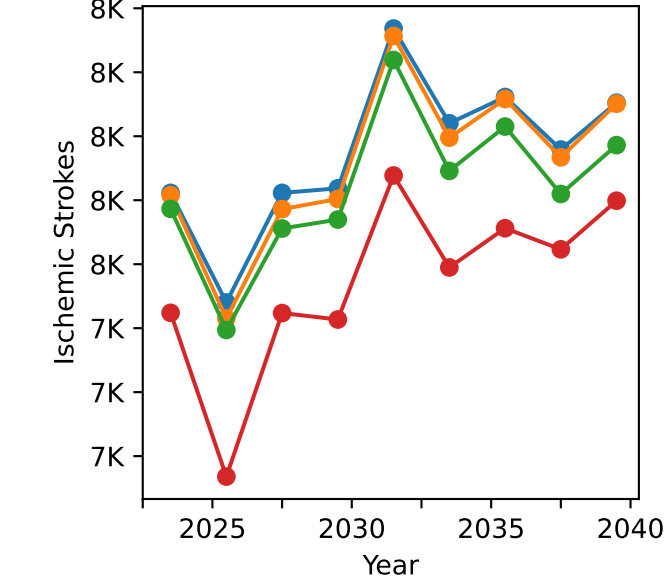

Count of Heart Failure in Females

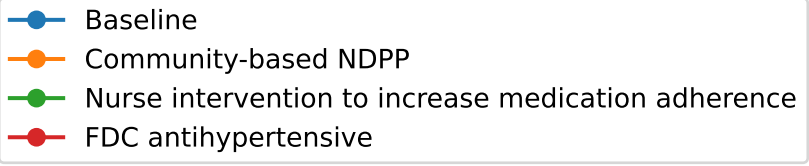

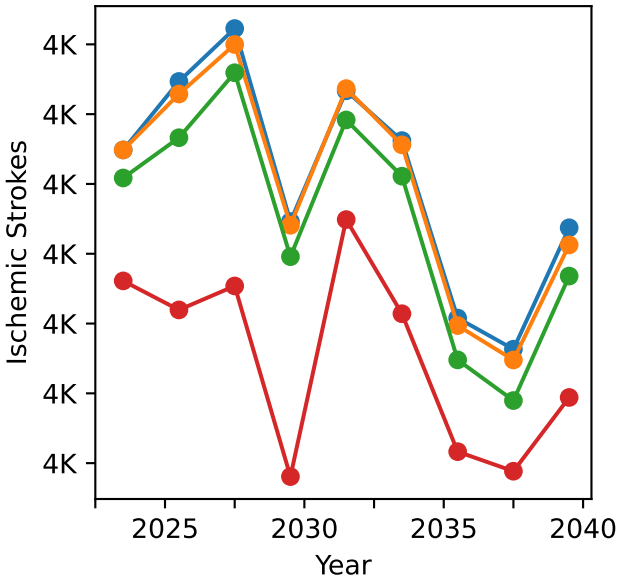

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

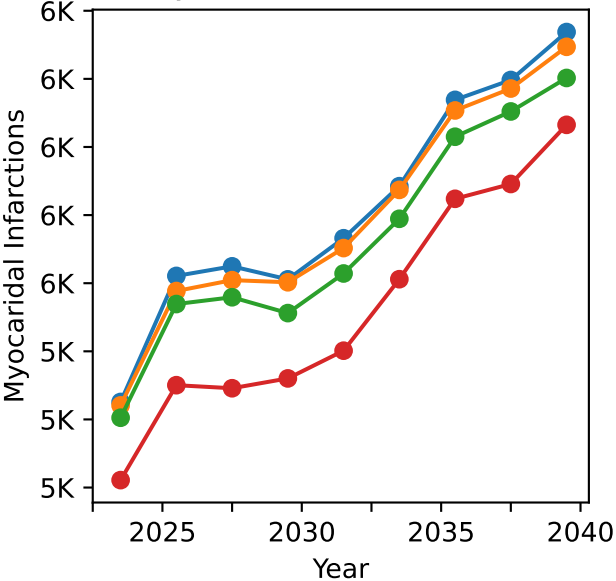

Count of Ischemic Strokes in Males

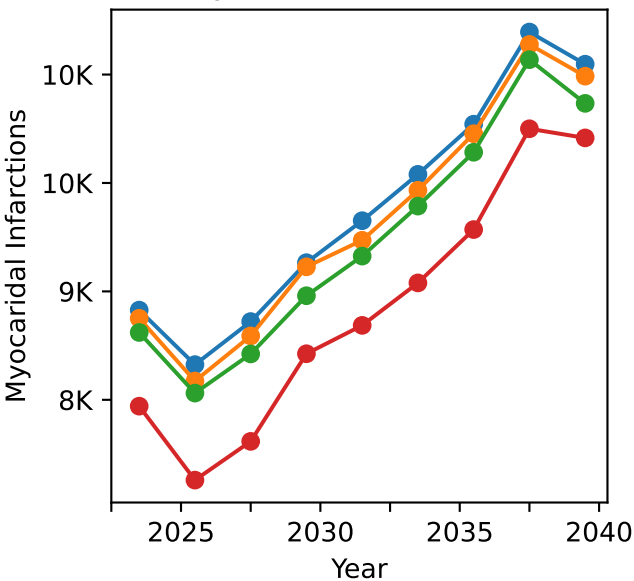

Comparing Incidence Across Scenarios in Minnesota

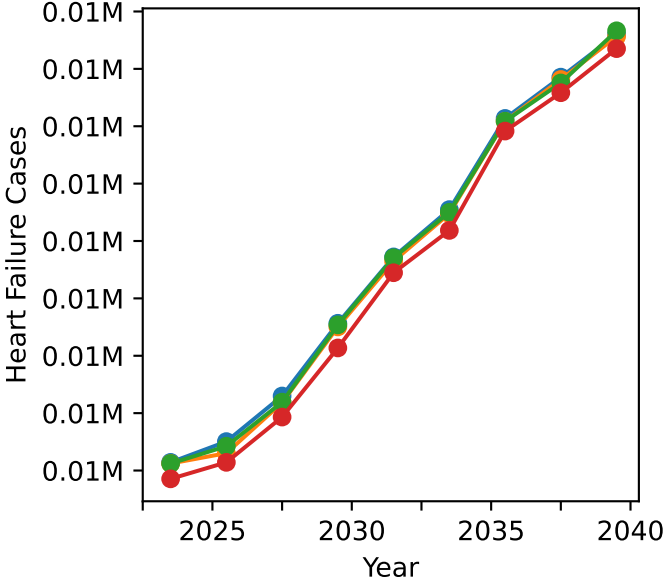

Count of Myocardial Infarctions in Females

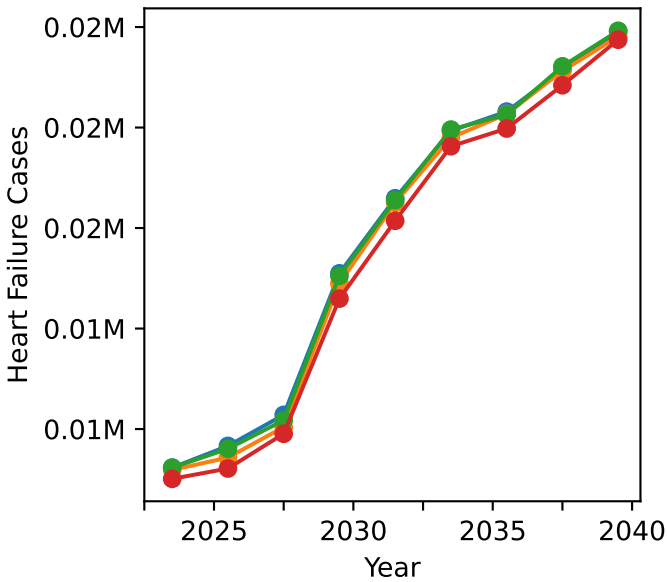

Count of Myocardial Infarctions in Males

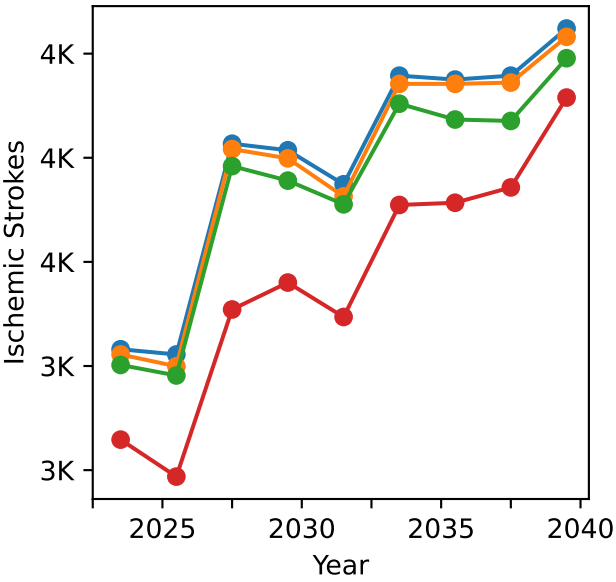

Count of Heart Failure in Females

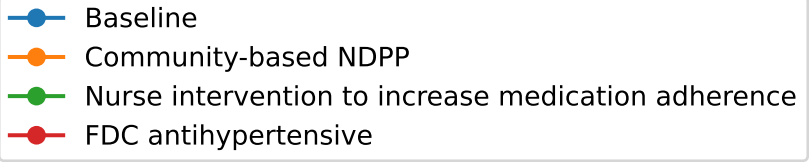

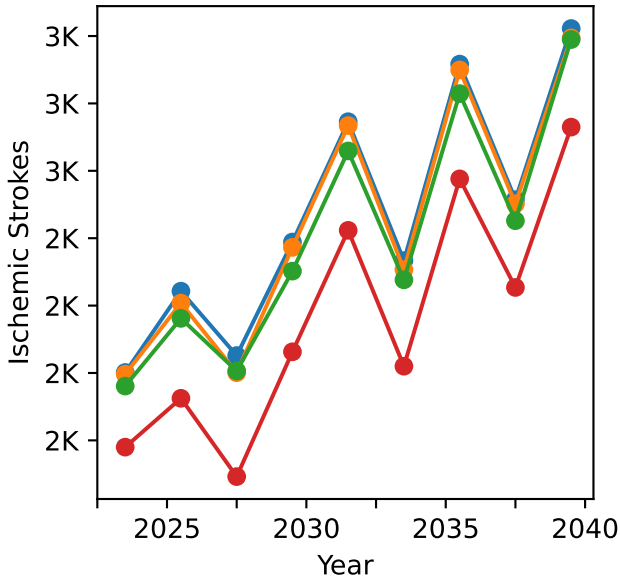

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

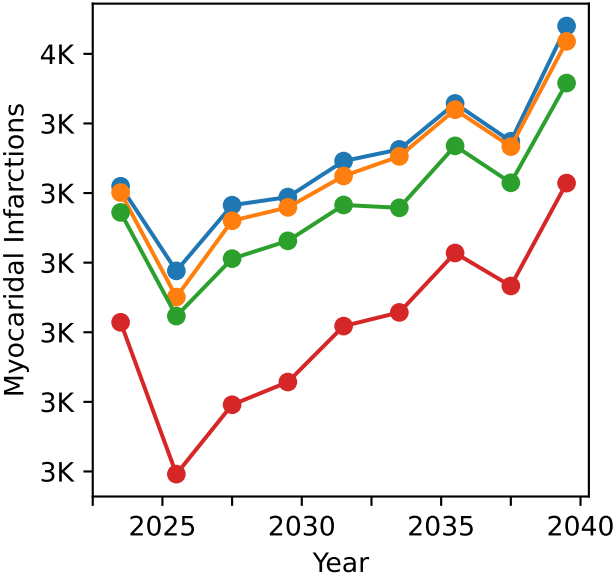

Count of Ischemic Strokes in Males

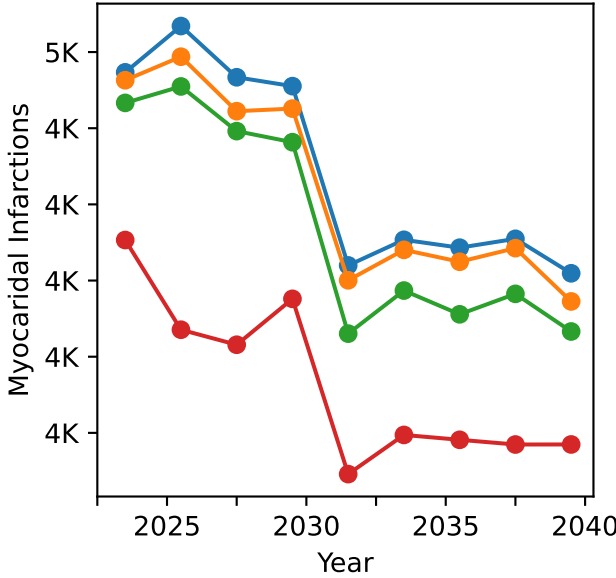

Comparing Incidence Across Scenarios in Mississippi

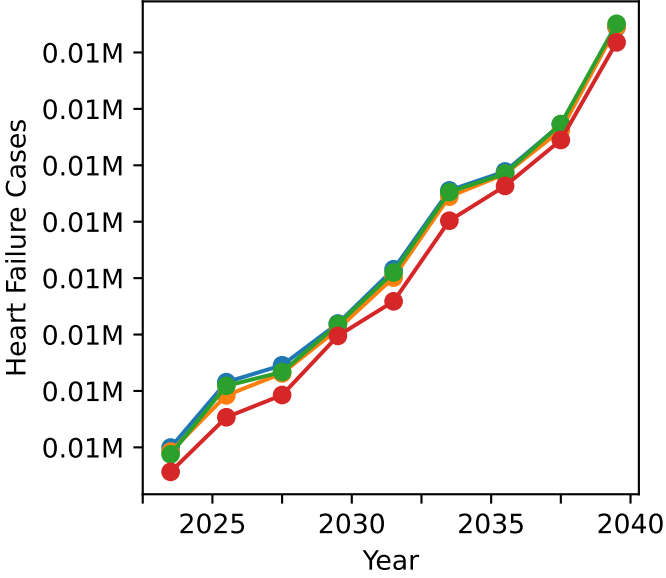

Count of Myocardial Infarctions in Females

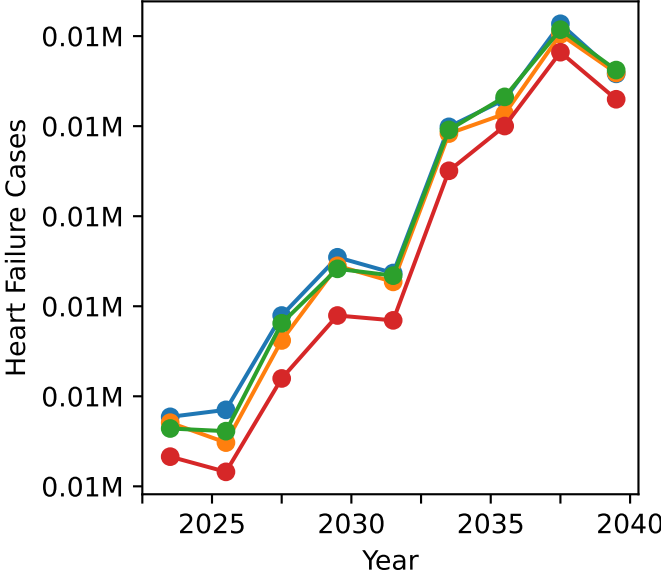

Count of Myocardial Infarctions in Males

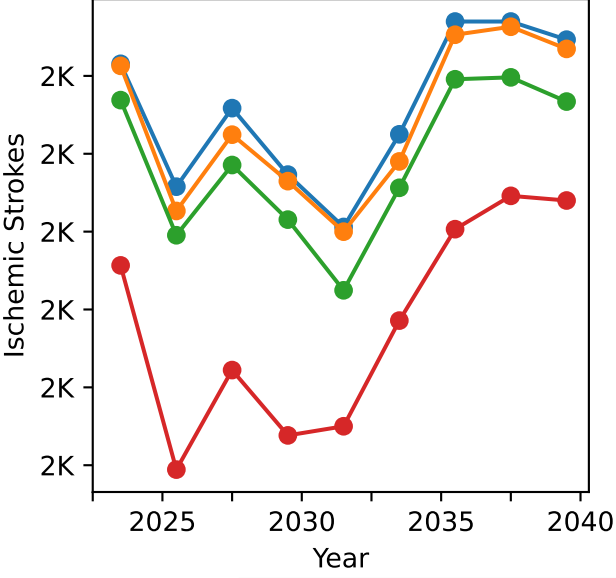

Count of Heart Failure in Females

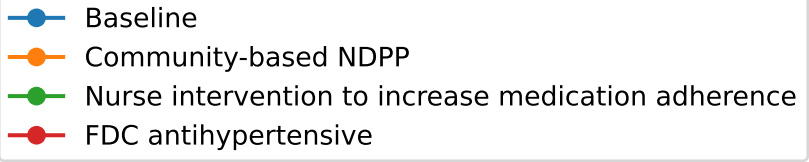

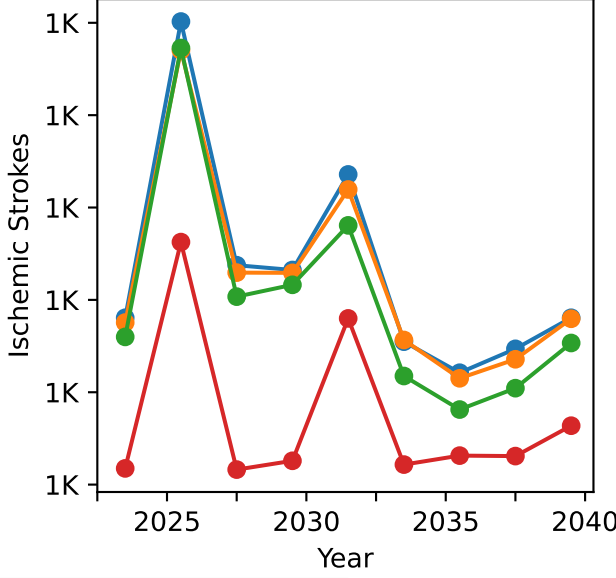

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

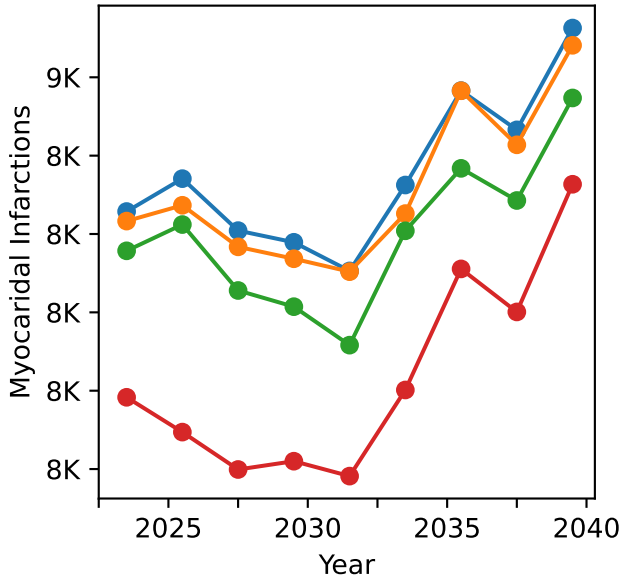

Count of Ischemic Strokes in Males

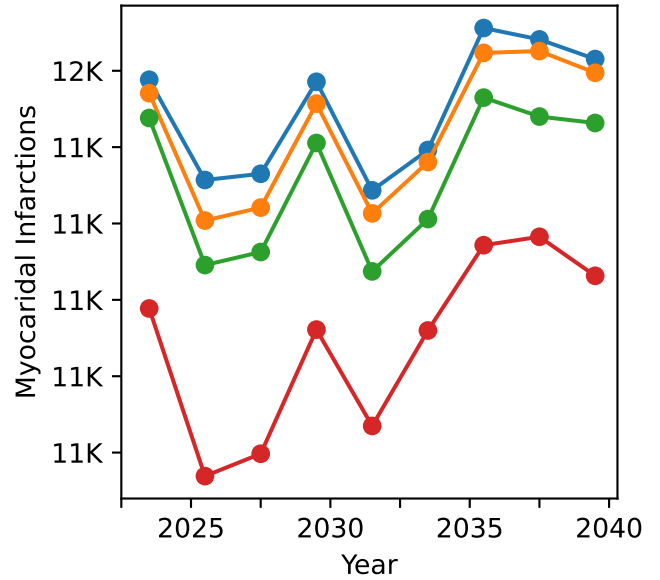

Comparing Incidence Across Scenarios in Missouri

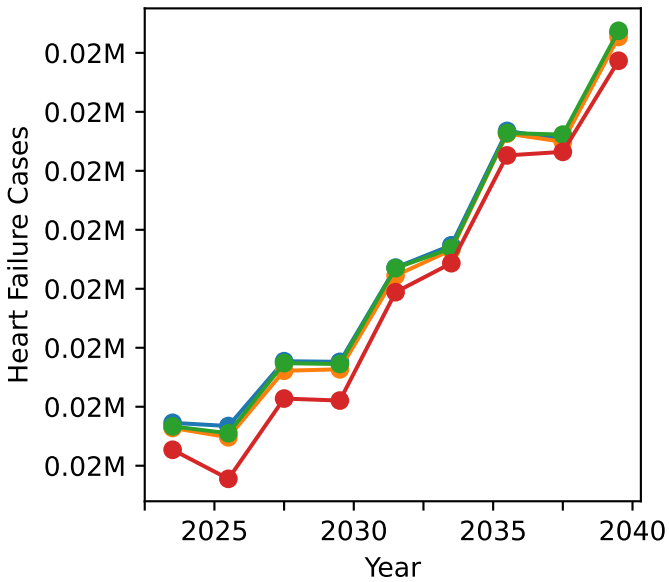

Count of Myocardial Infarctions in Females

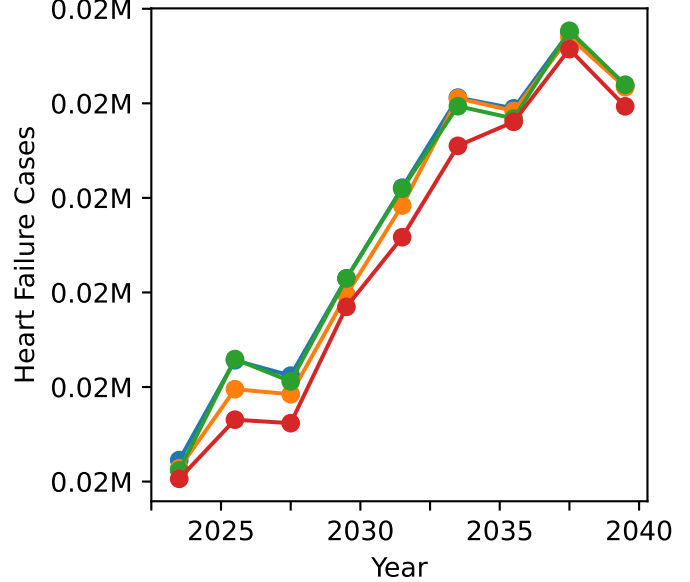

Count of Myocardial Infarctions in Males

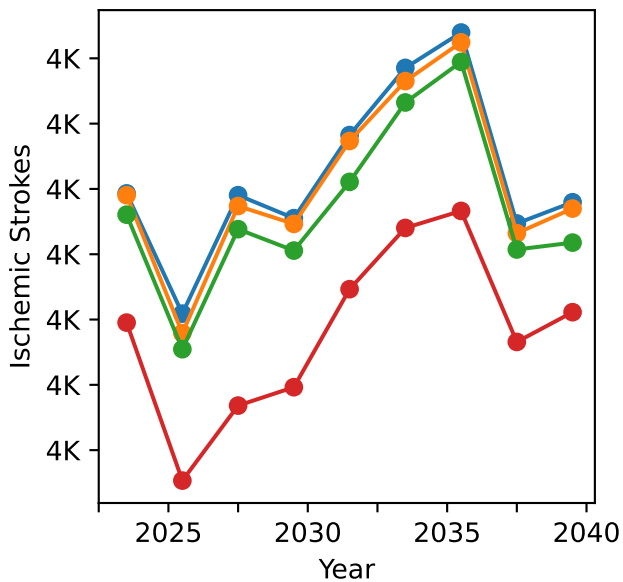

Count of Heart Failure in Females

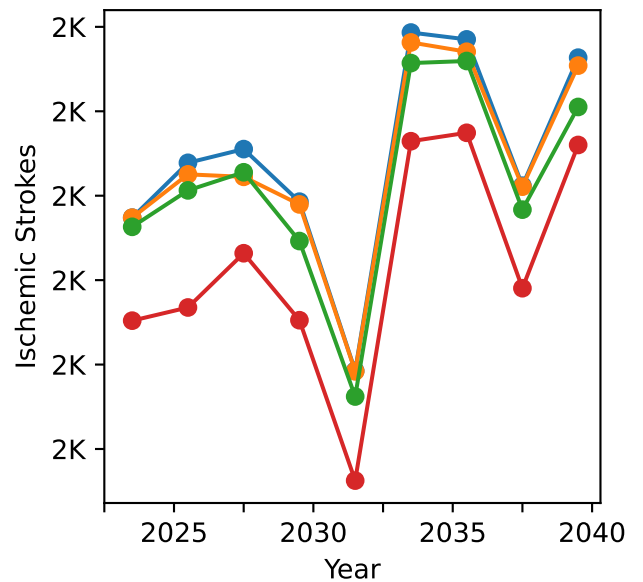

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

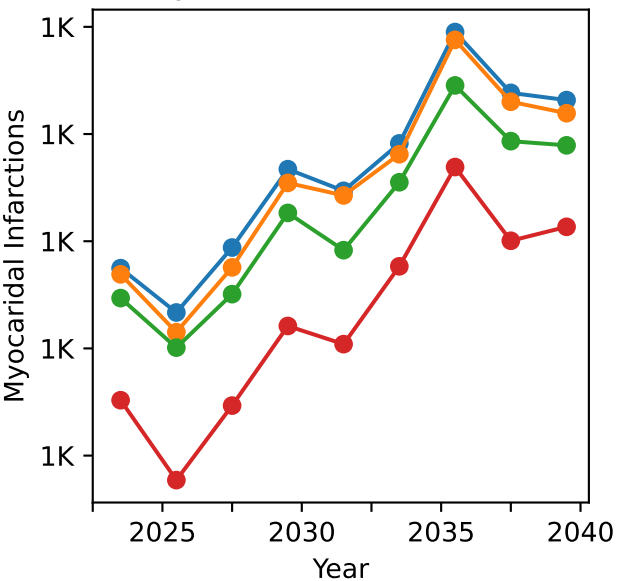

Count of Ischemic Strokes in Males

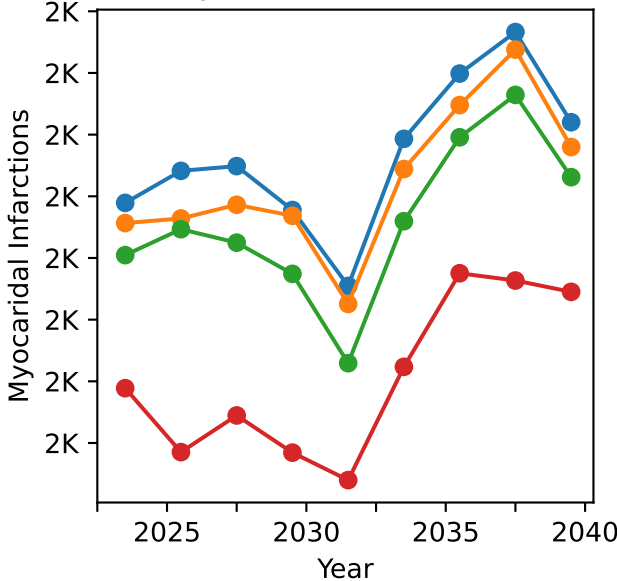

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in Montana

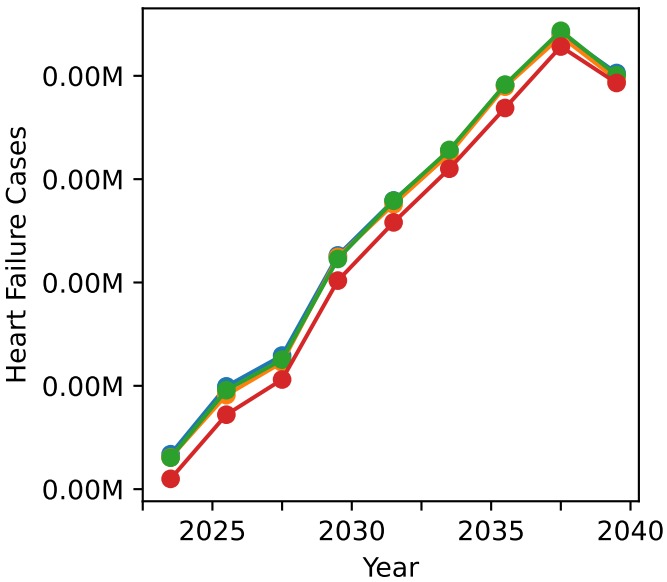

Count of Myocardial Infarctions in Females

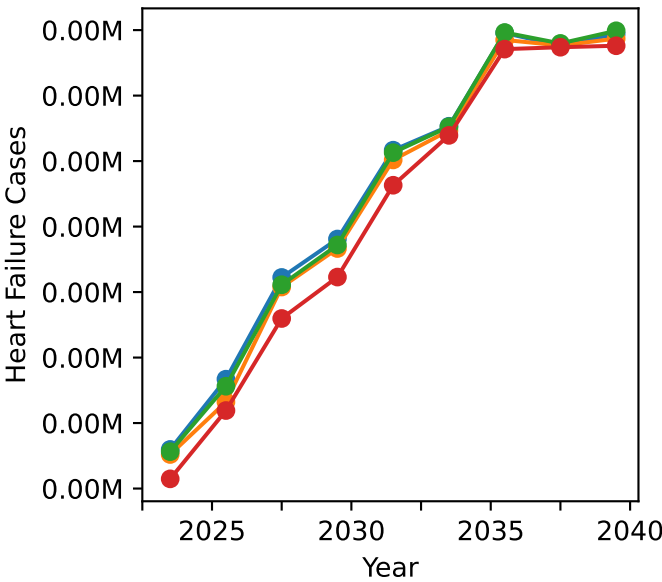

Count of Myocardial Infarctions in Males

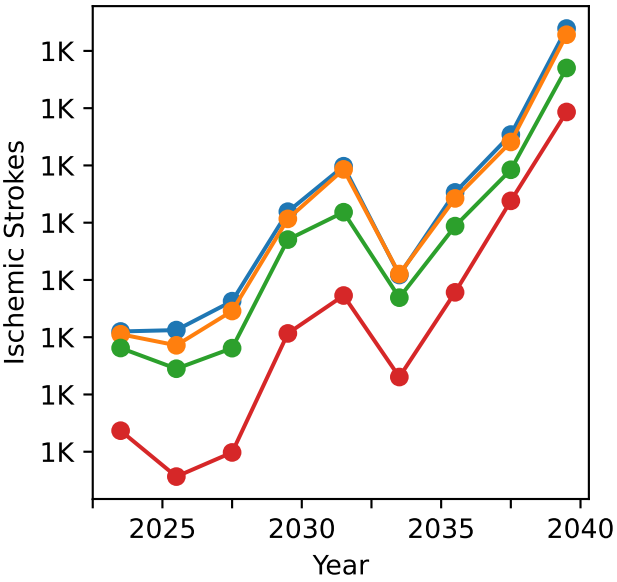

Count of Heart Failure in Females

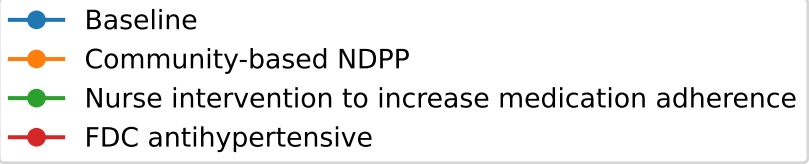

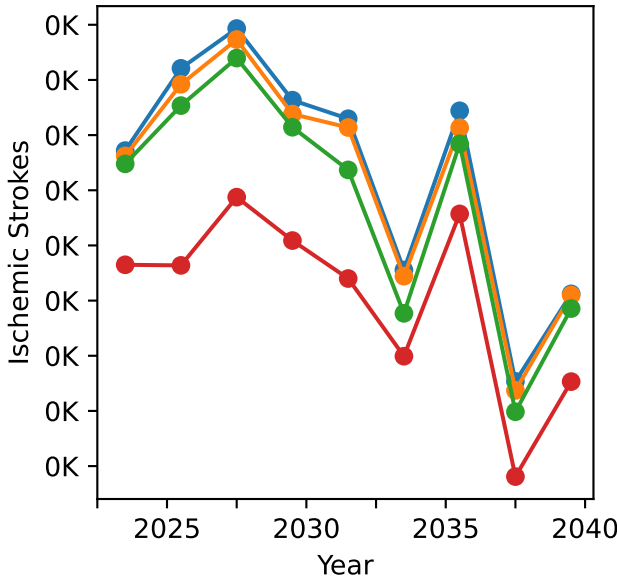

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

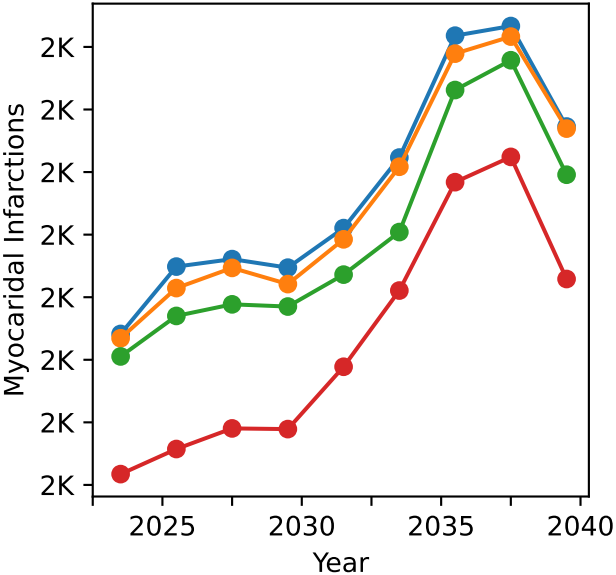

Count of Ischemic Strokes in Males

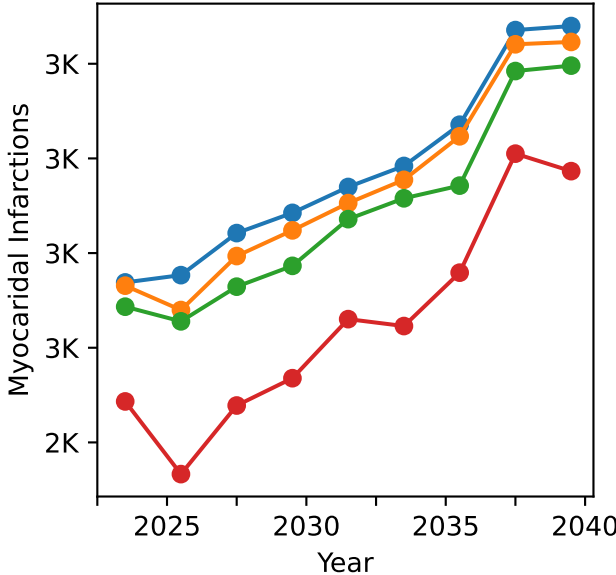

Comparing Incidence Across Scenarios in Nebraska

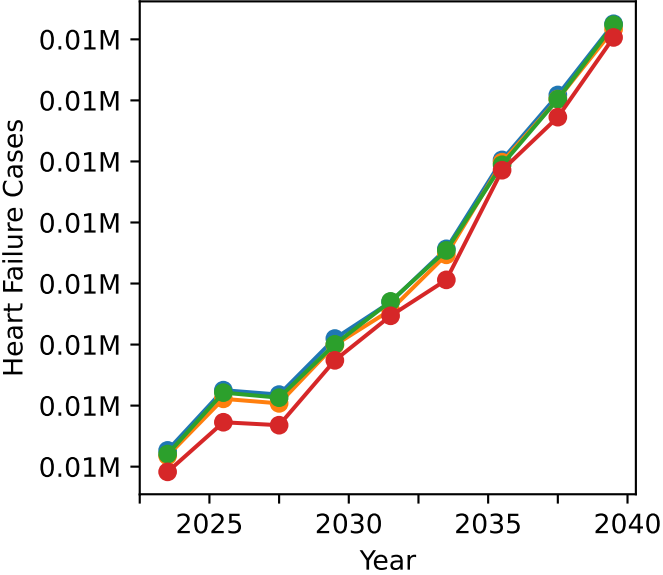

Count of Myocardial Infarctions in Females

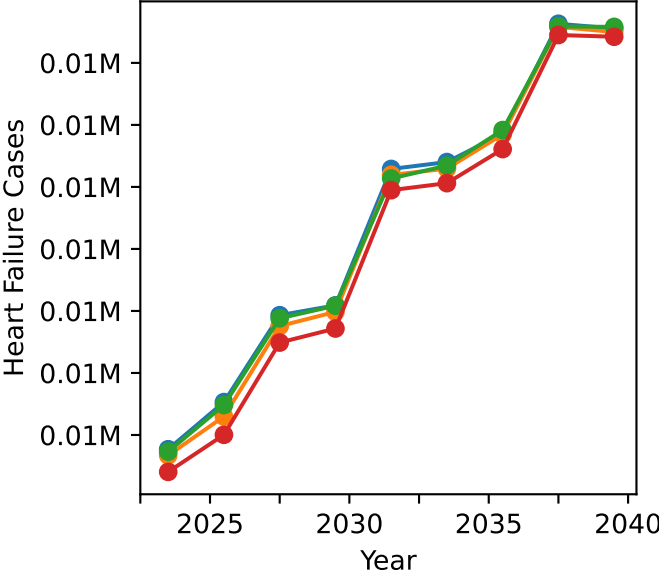

Count of Myocardial Infarctions in Males

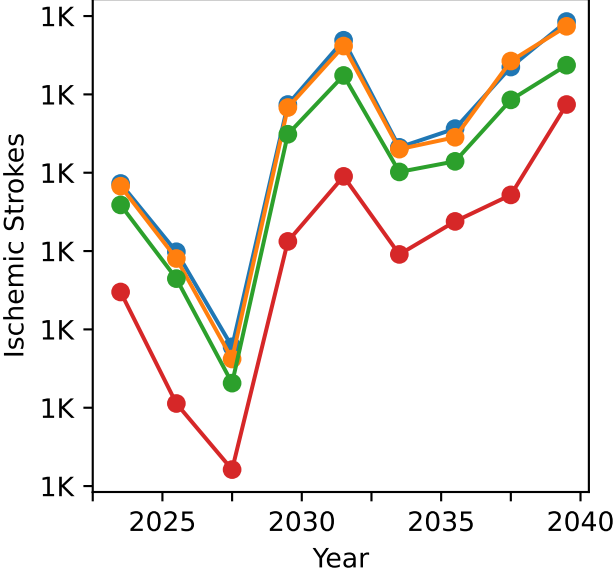

Count of Heart Failure in Females

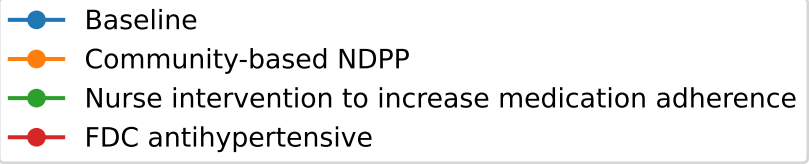

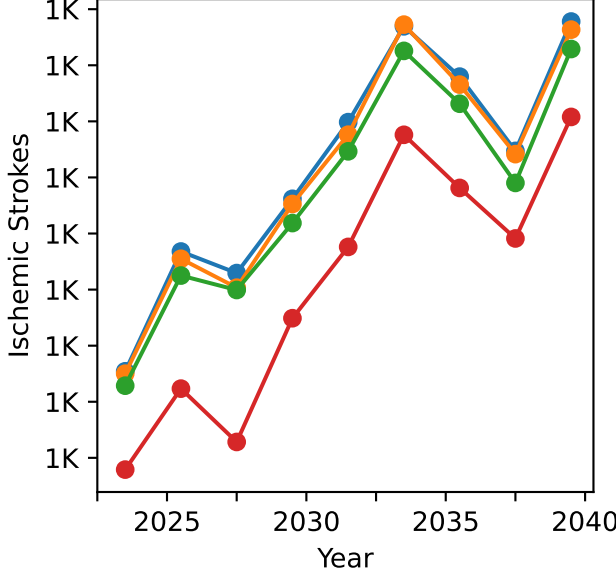

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

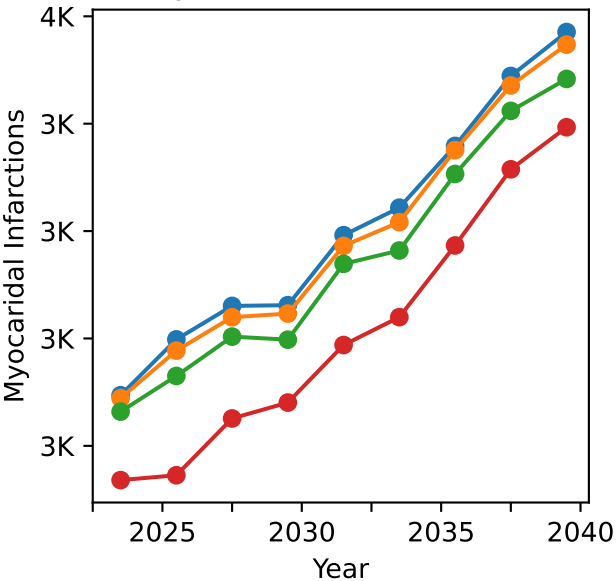

Count of Ischemic Strokes in Males

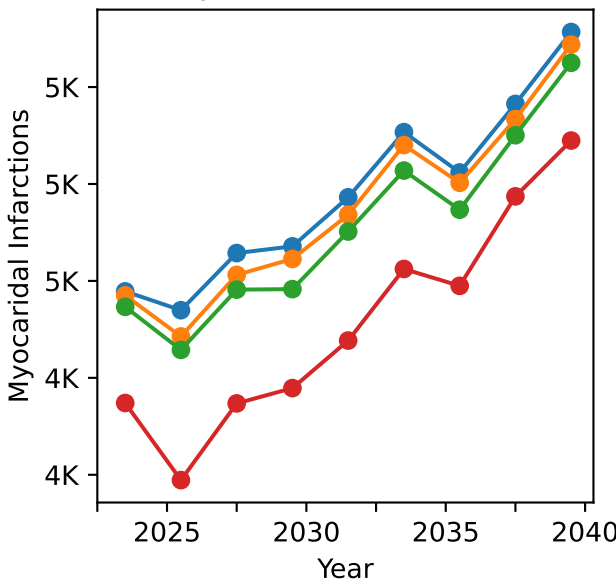

Comparing Incidence Across Scenarios in Nevada

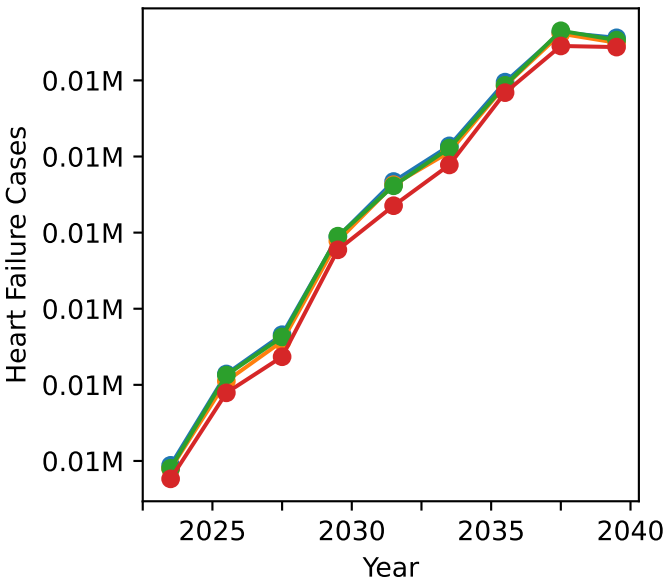

Count of Myocardial Infarctions in Females

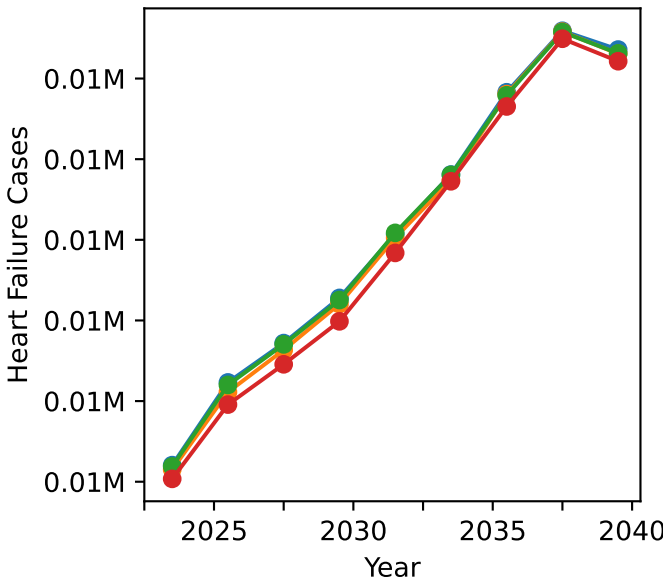

Count of Myocardial Infarctions in Males

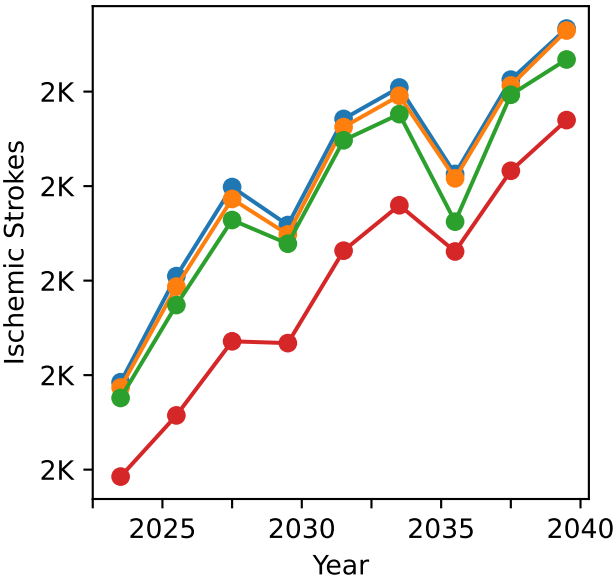

Count of Heart Failure in Females

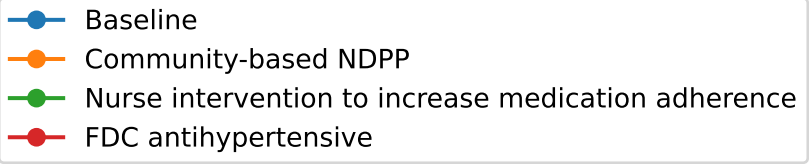

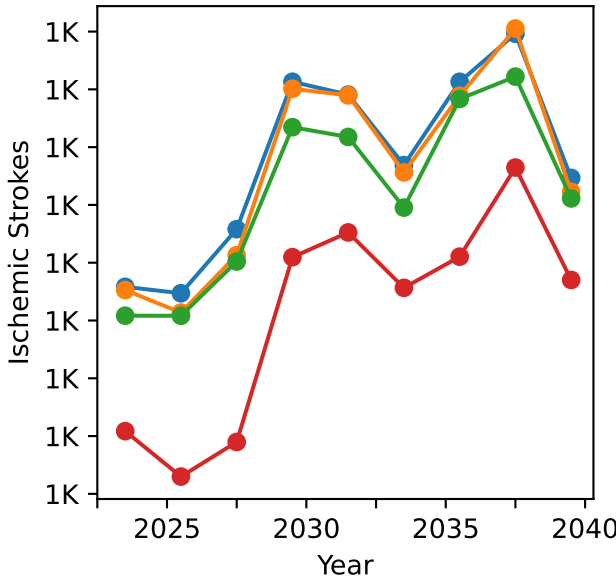

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

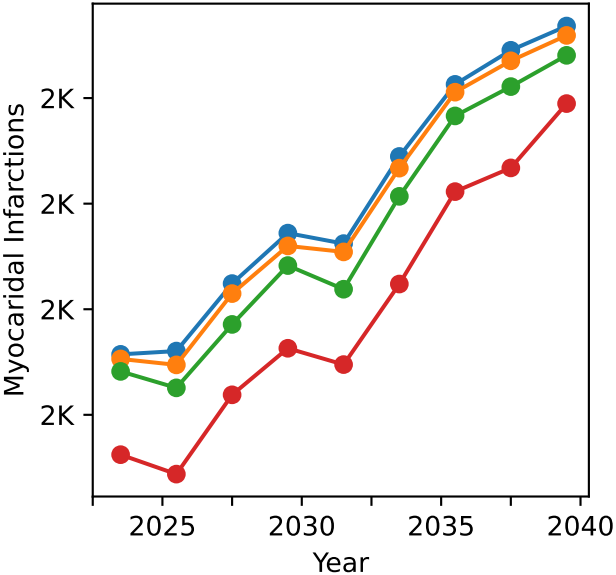

Count of Ischemic Strokes in Males

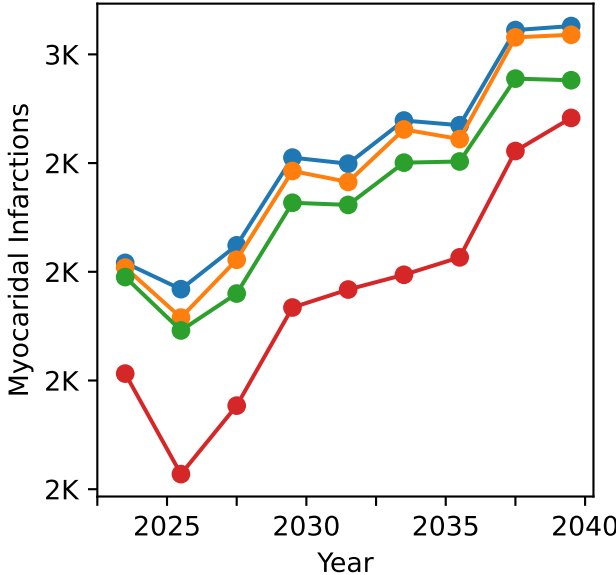

Comparing Incidence Across Scenarios in New Hampshire

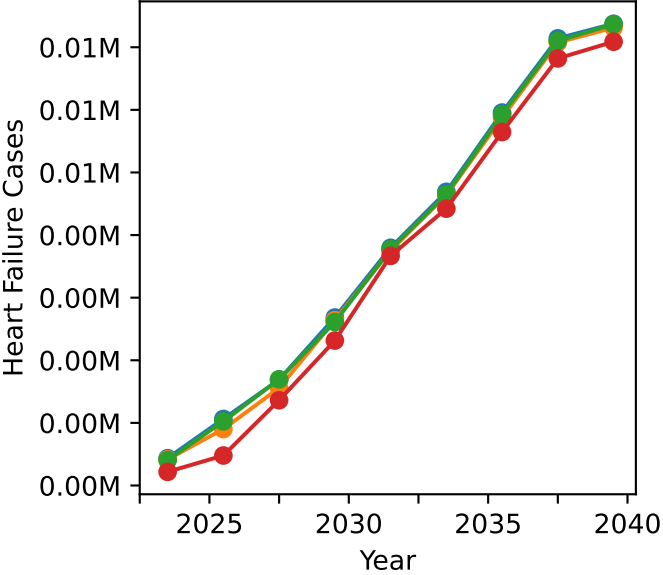

Count of Myocardial Infarctions in Females

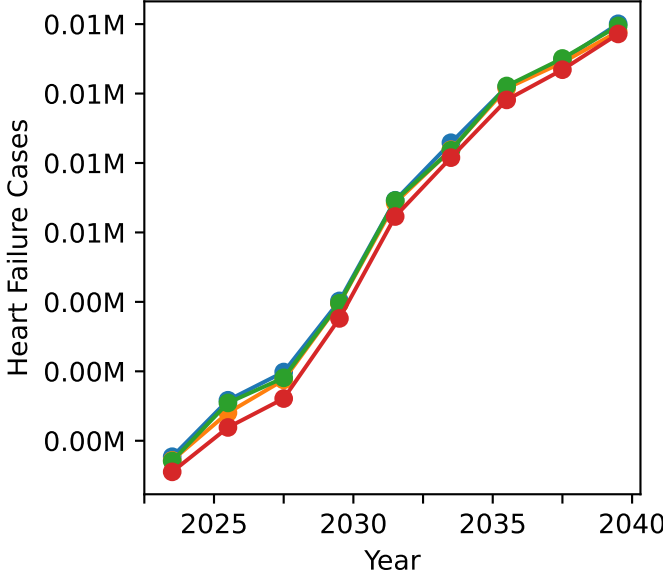

Count of Myocardial Infarctions in Males

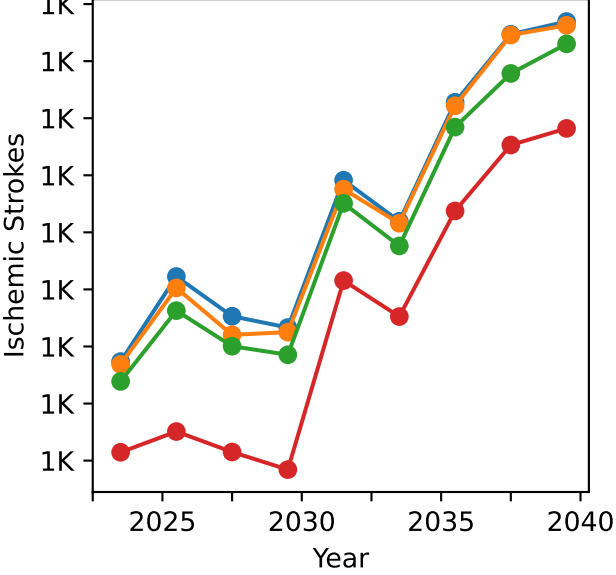

Count of Heart Failure in Females

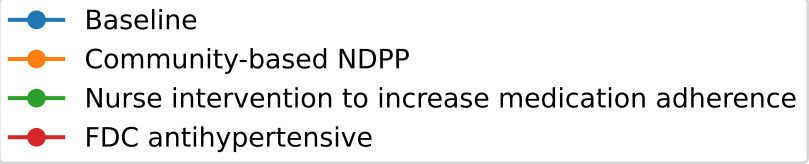

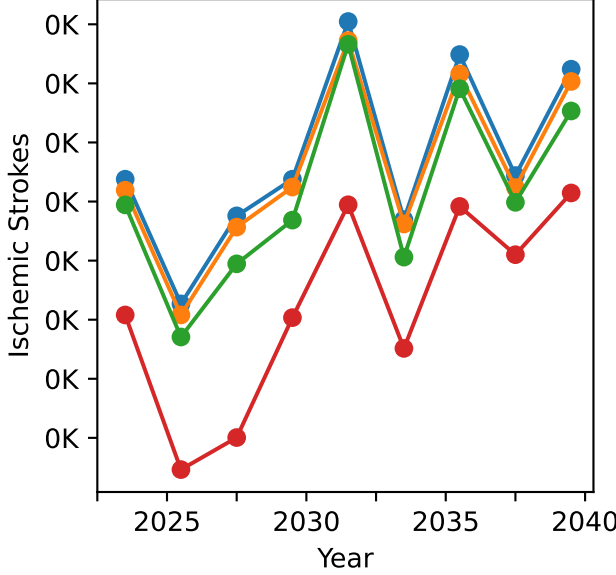

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

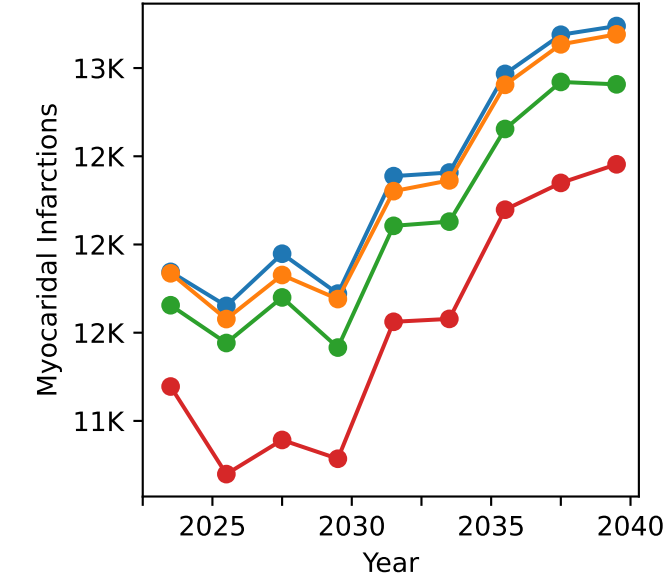

Count of Ischemic Strokes in Males

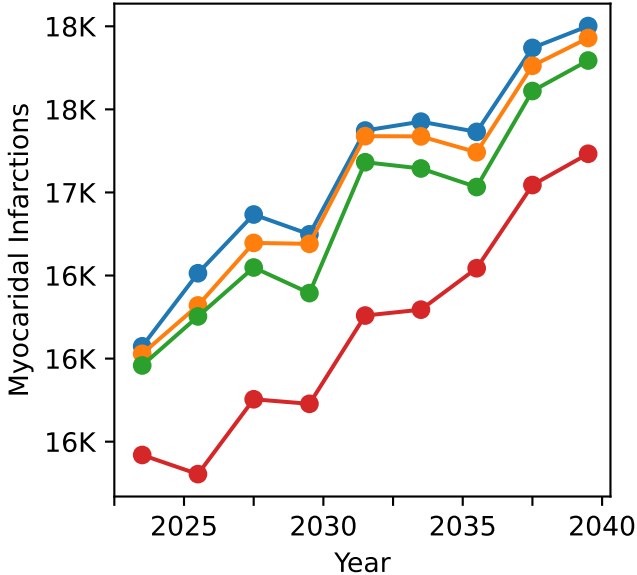

Comparing Incidence Across Scenarios in New Jersey

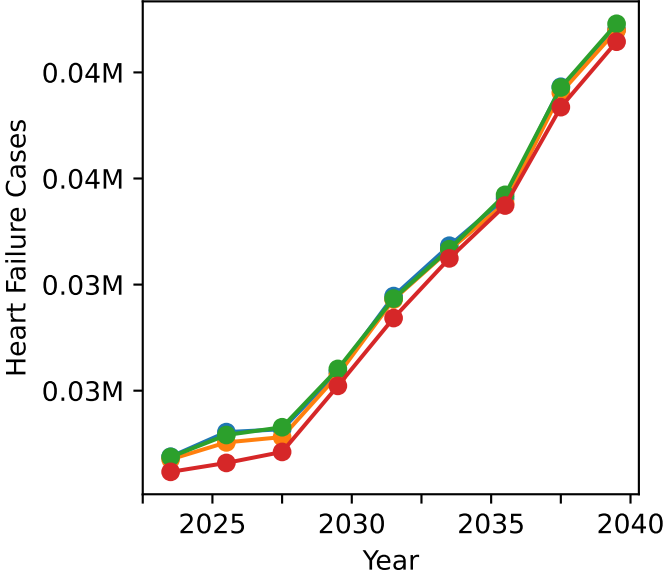

Count of Myocardial Infarctions in Females

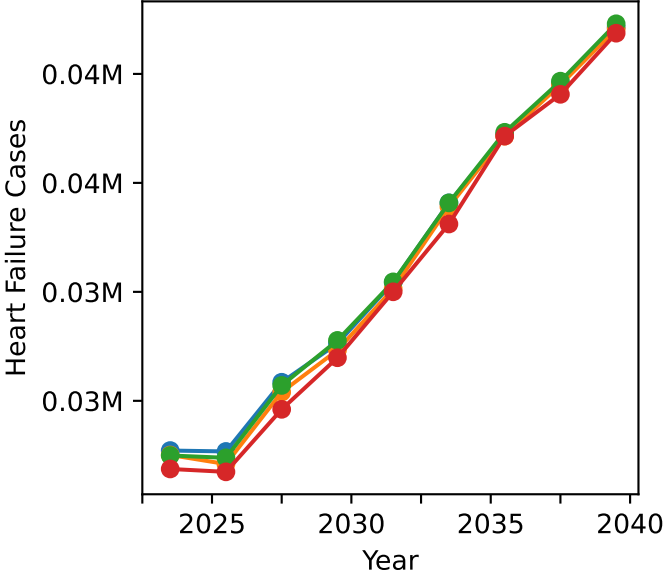

Count of Myocardial Infarctions in Males

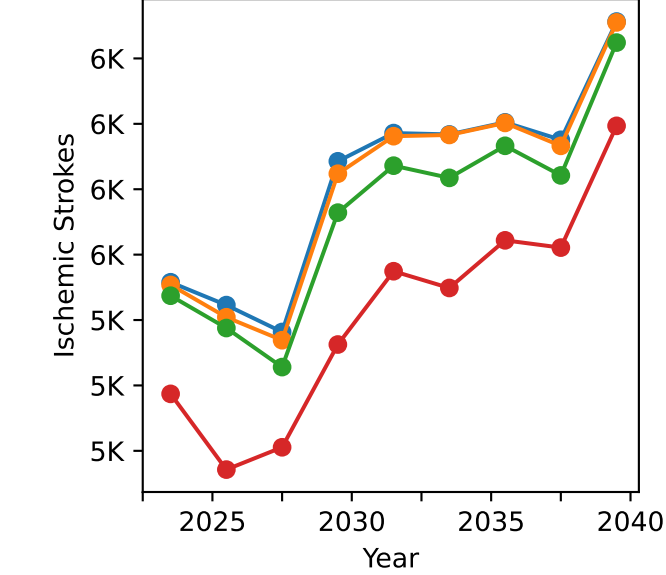

Count of Heart Failure in Females

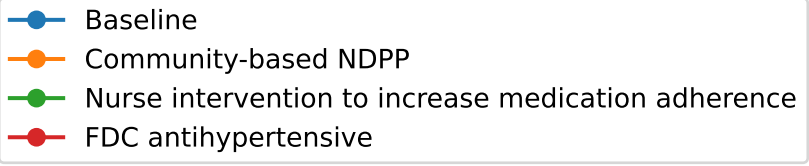

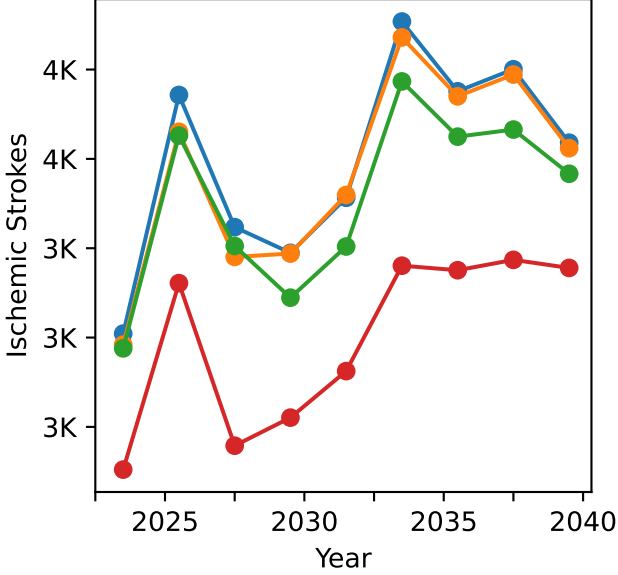

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

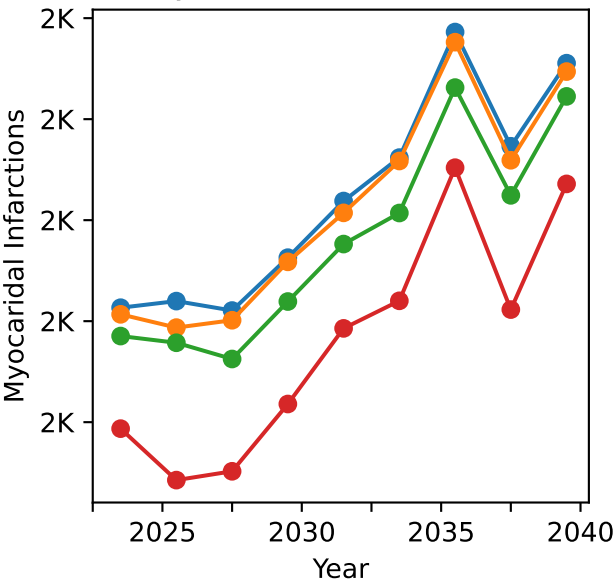

Count of Ischemic Strokes in Males

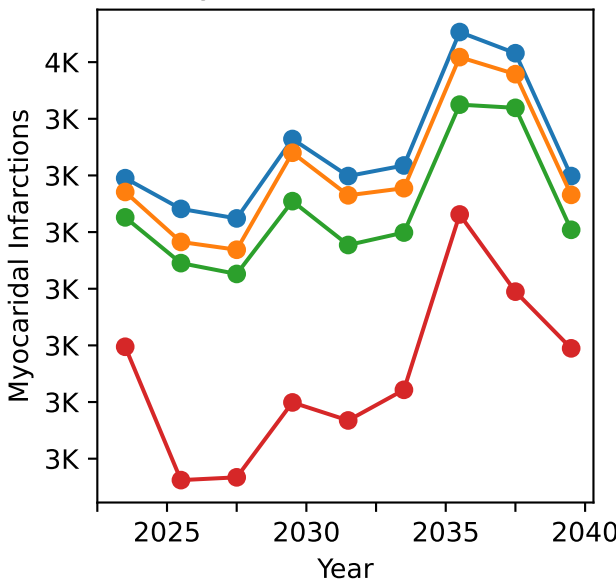

Comparing Incidence Across Scenarios in New Mexico

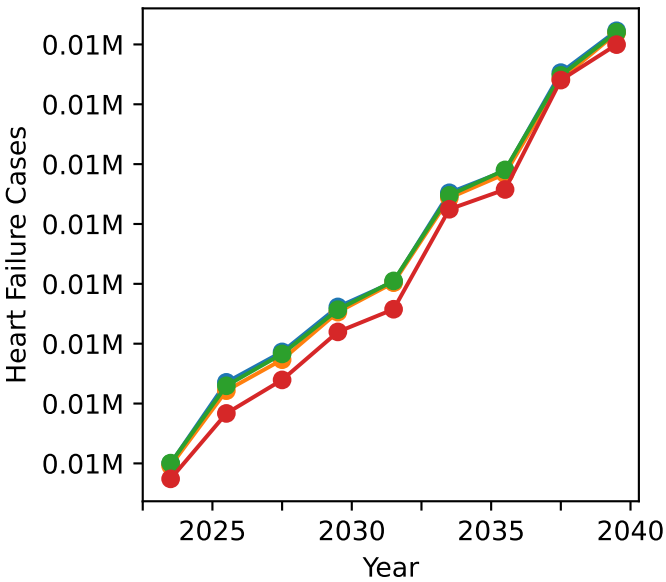

Count of Myocardial Infarctions in Females

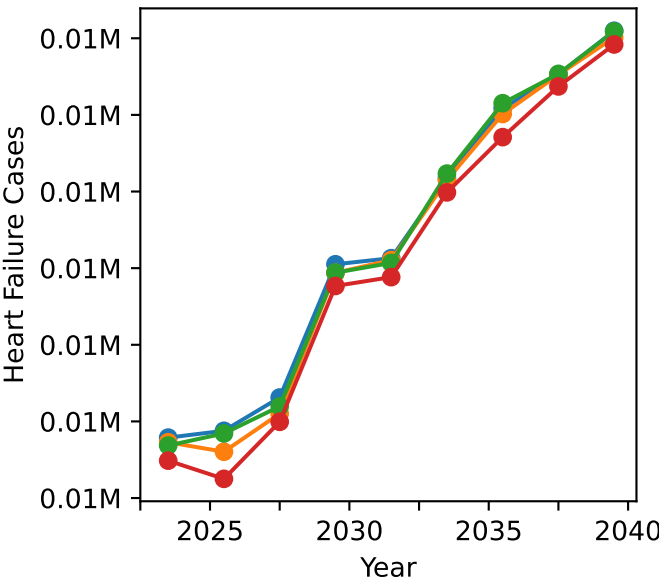

Count of Myocardial Infarctions in Males

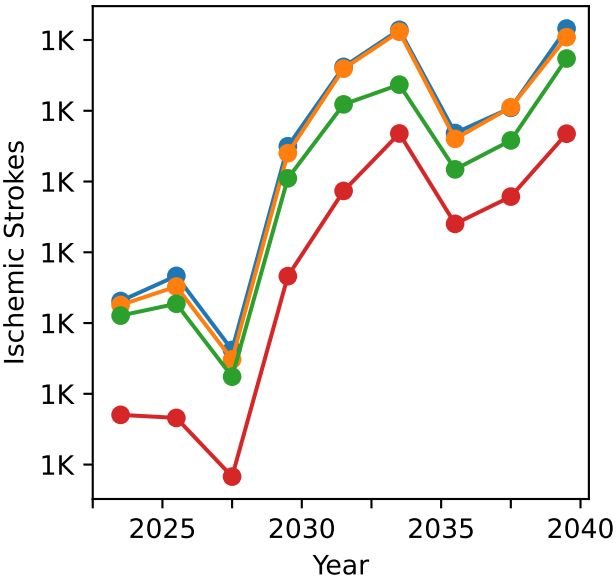

Count of Heart Failure in Females

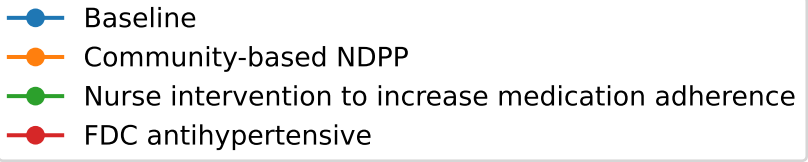

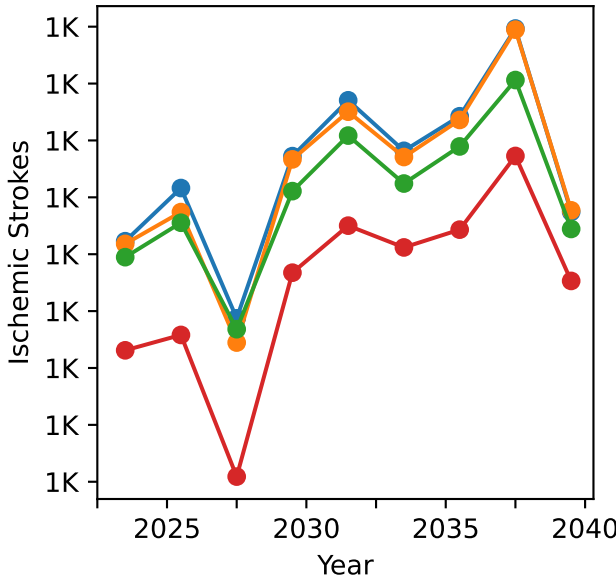

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

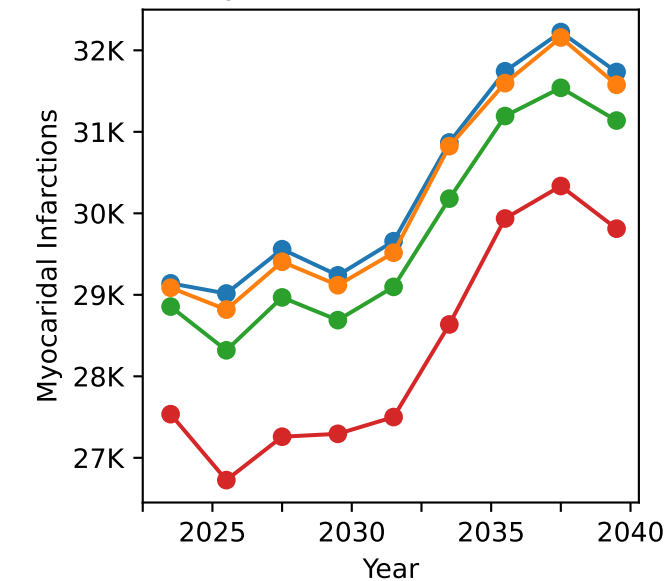

Count of Ischemic Strokes in Males

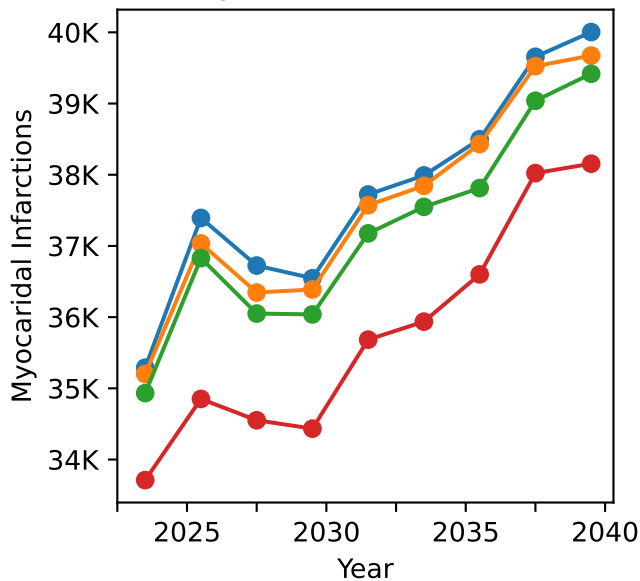

Comparing Incidence Across Scenarios in New York

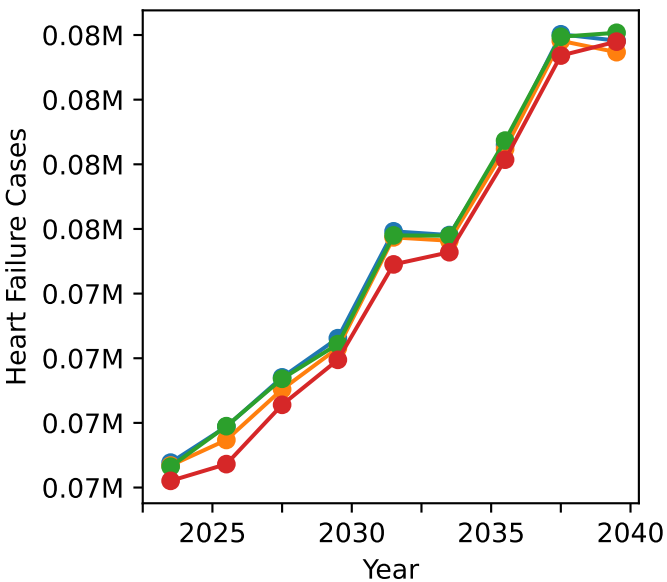

Count of Myocardial Infarctions in Females

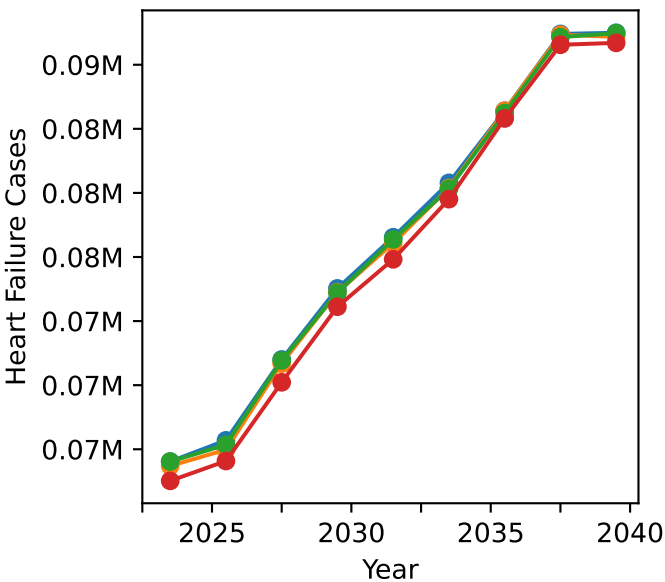

Count of Myocardial Infarctions in Males

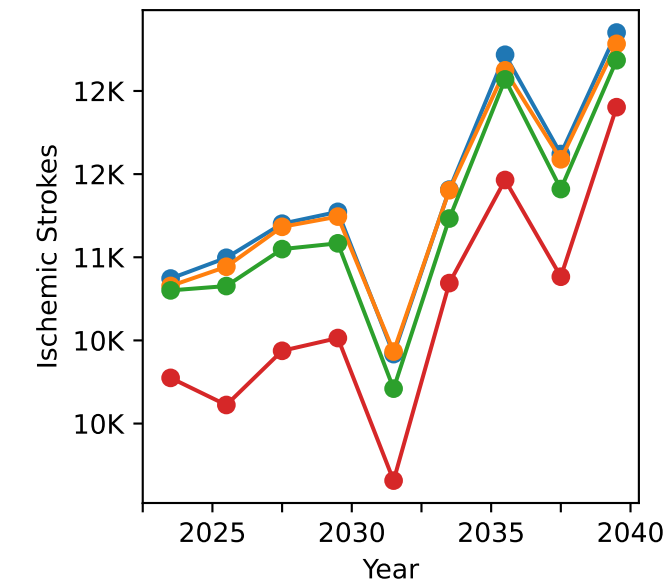

Count of Heart Failure in Females

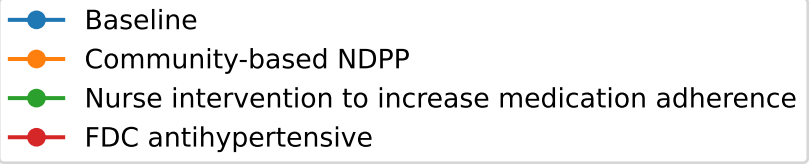

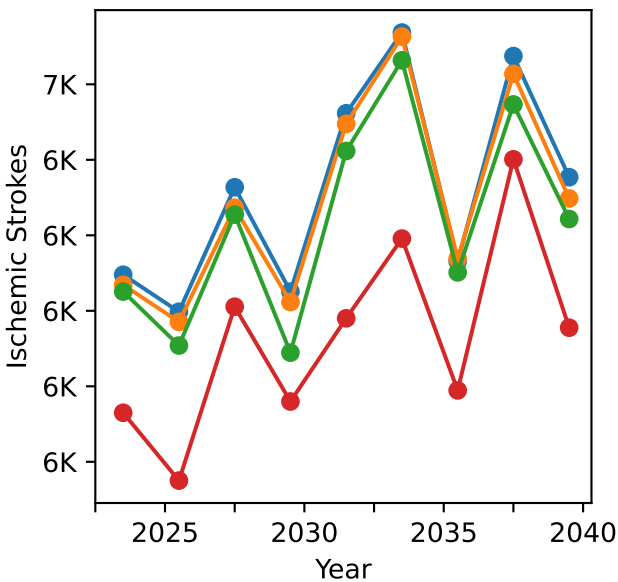

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

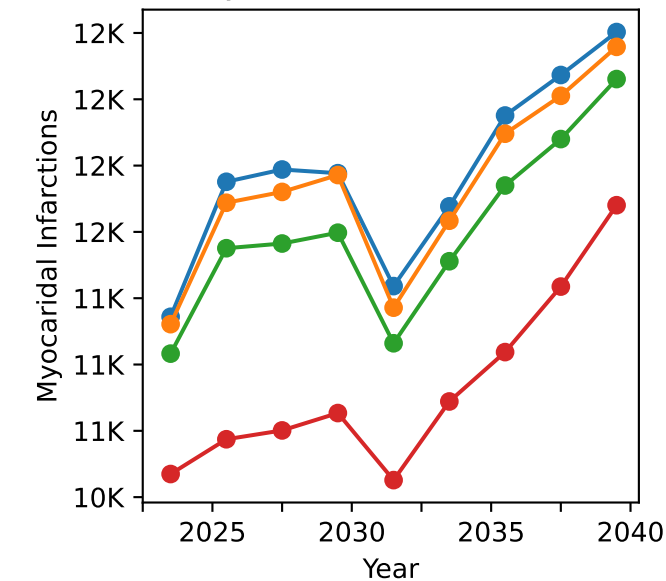

Count of Ischemic Strokes in Males

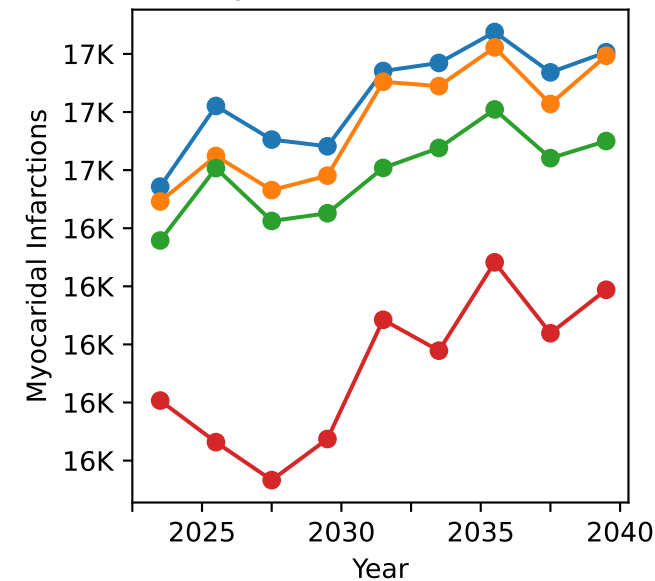

Comparing Incidence Across Scenarios in North Carolina

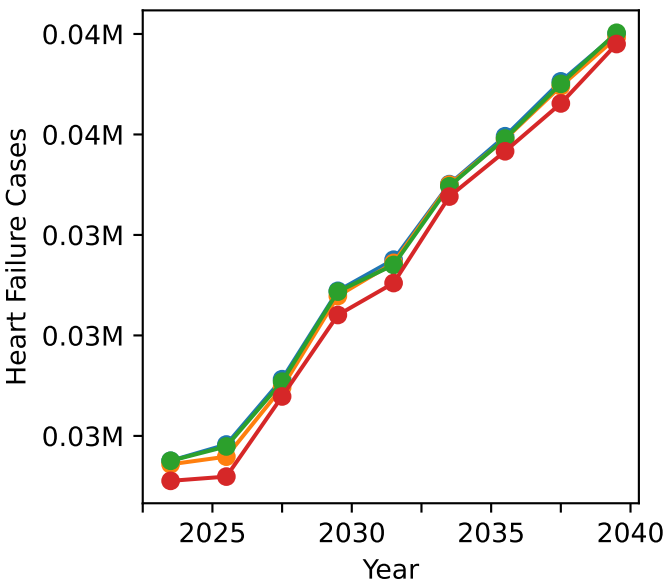

Count of Myocardial Infarctions in Females

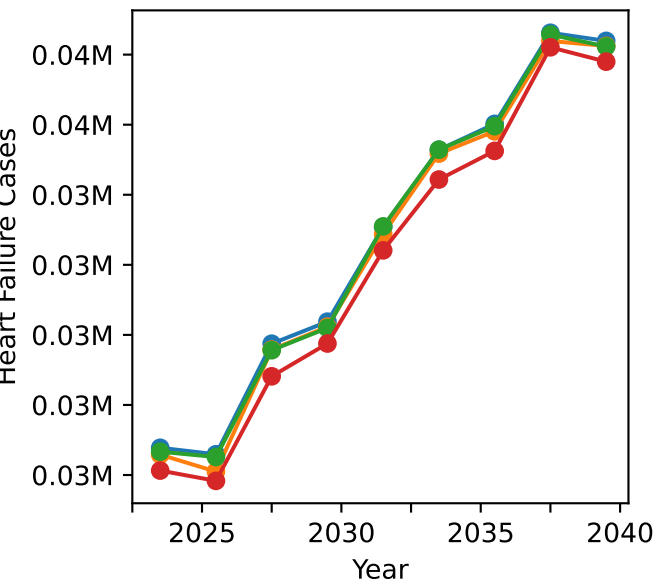

Count of Myocardial Infarctions in Males

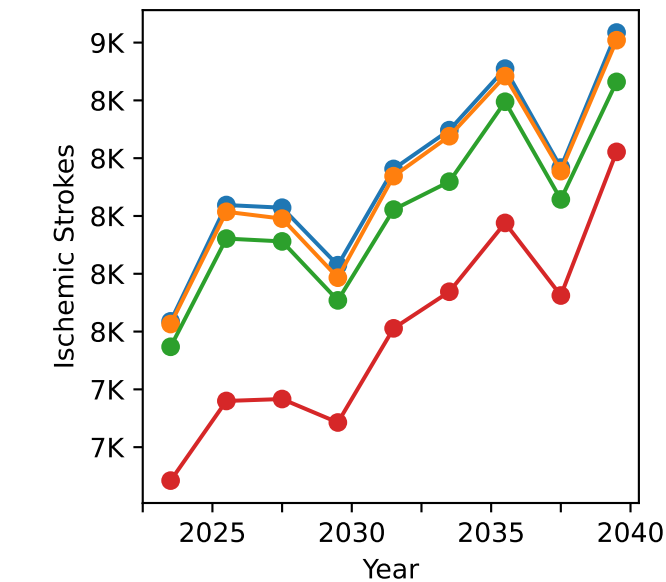

Count of Heart Failure in Females

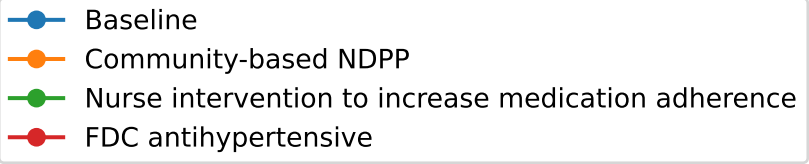

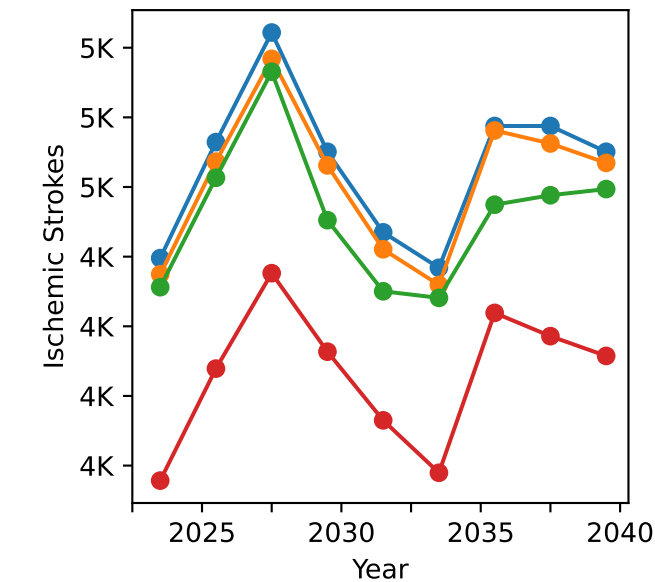

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

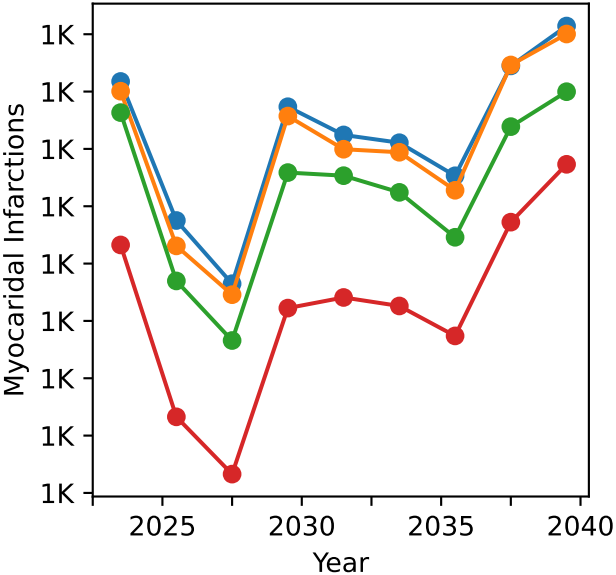

Count of Ischemic Strokes in Males

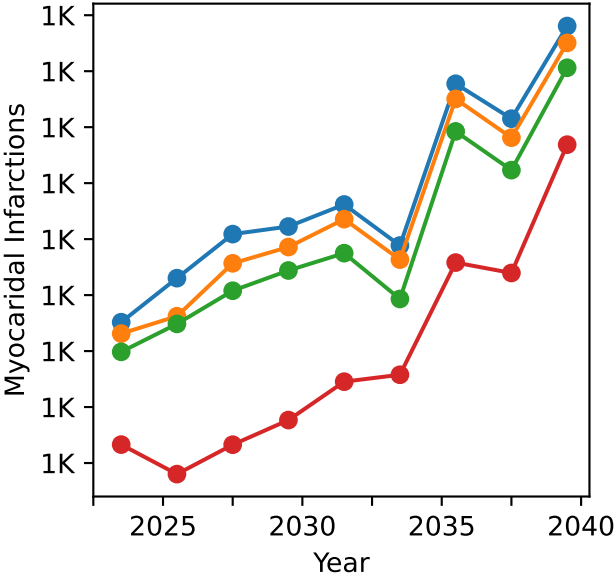

Comparing Incidence Across Scenarios in North Dakota

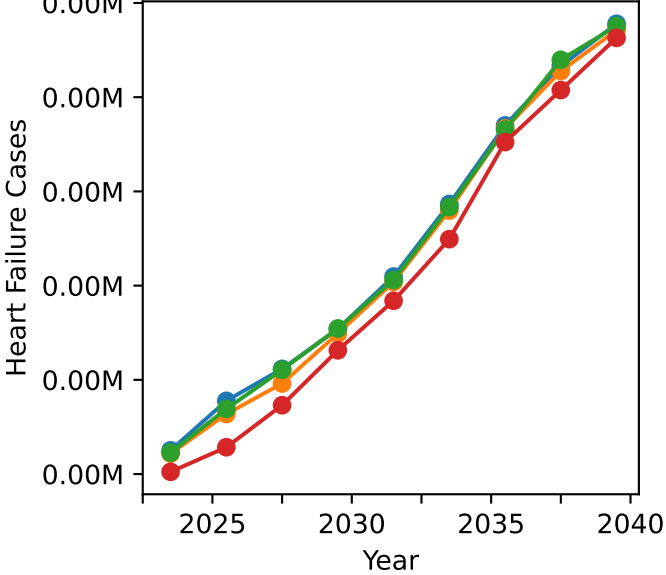

Count of Myocardial Infarctions in Females

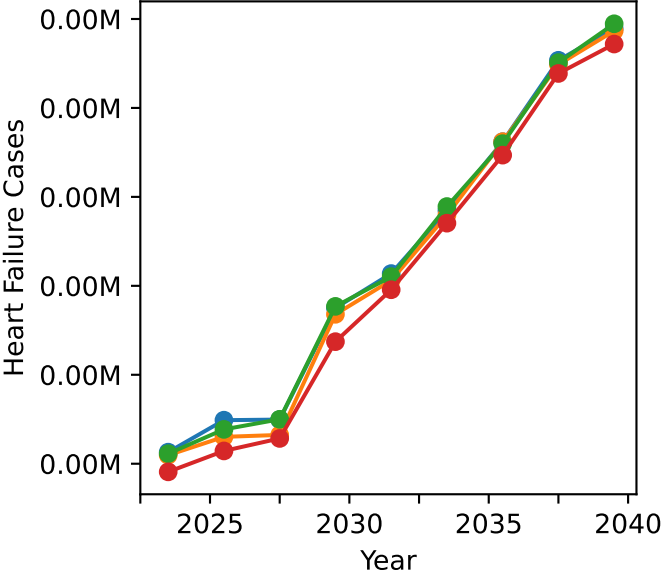

Count of Myocardial Infarctions in Males

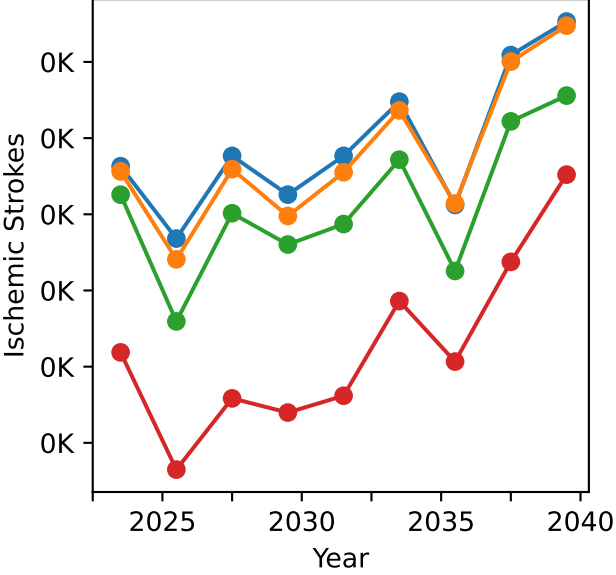

Count of Heart Failure in Females

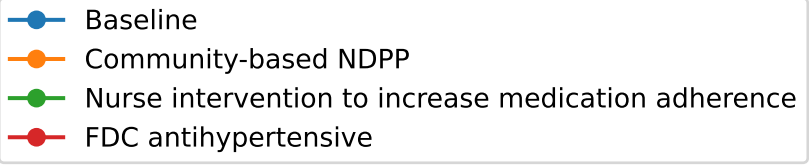

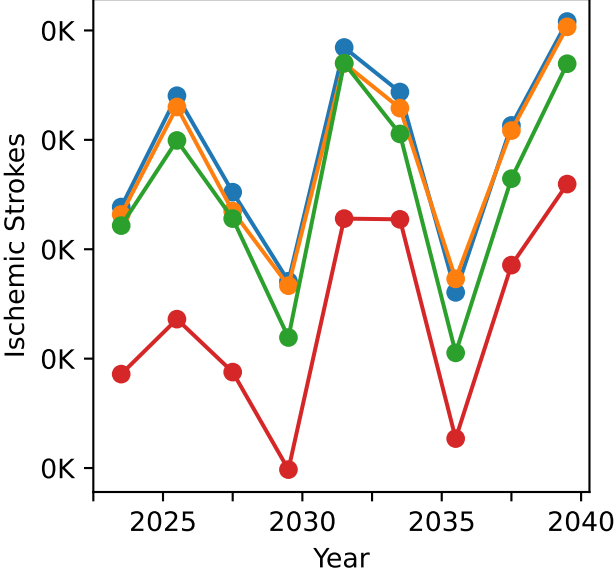

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

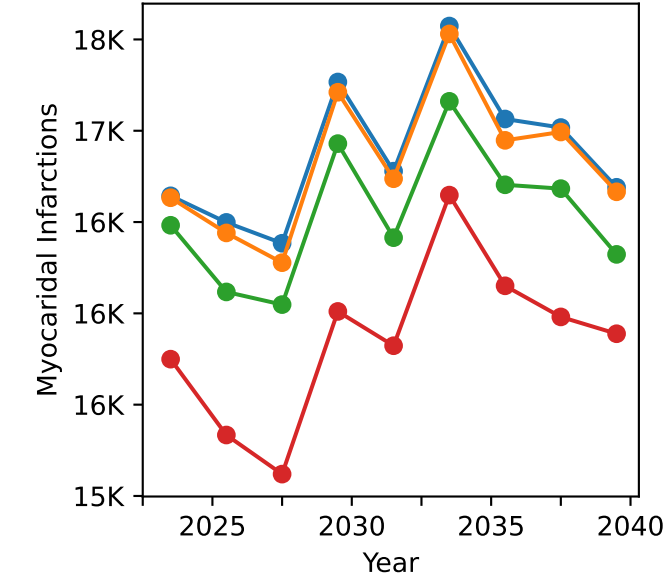

Count of Ischemic Strokes in Males

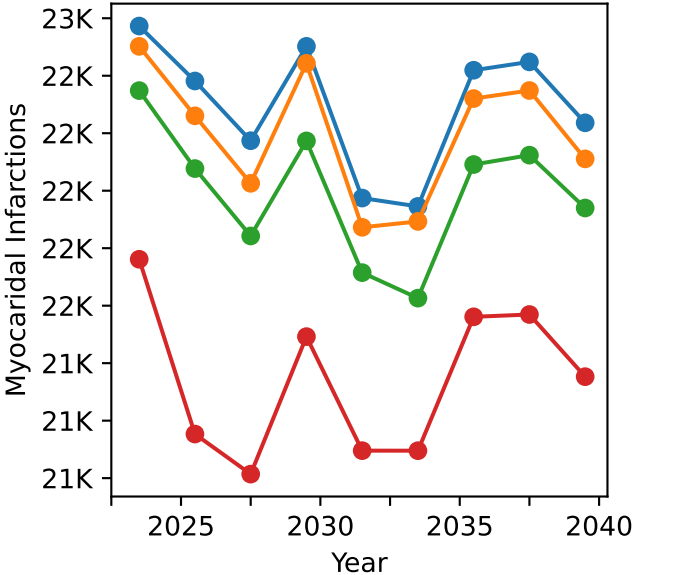

Comparing Incidence Across Scenarios in Ohio

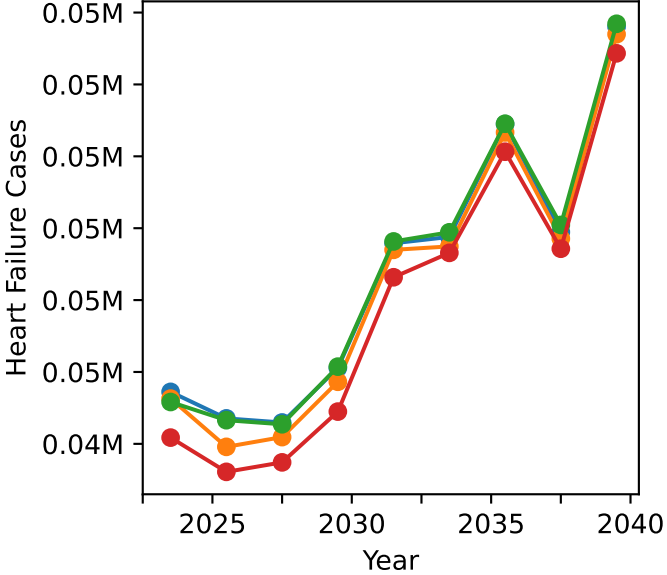

Count of Myocardial Infarctions in Females

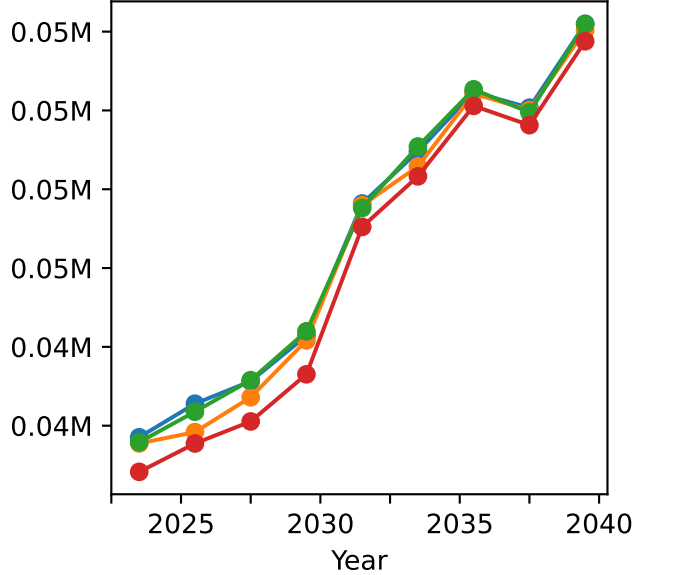

Count of Myocardial Infarctions in Males

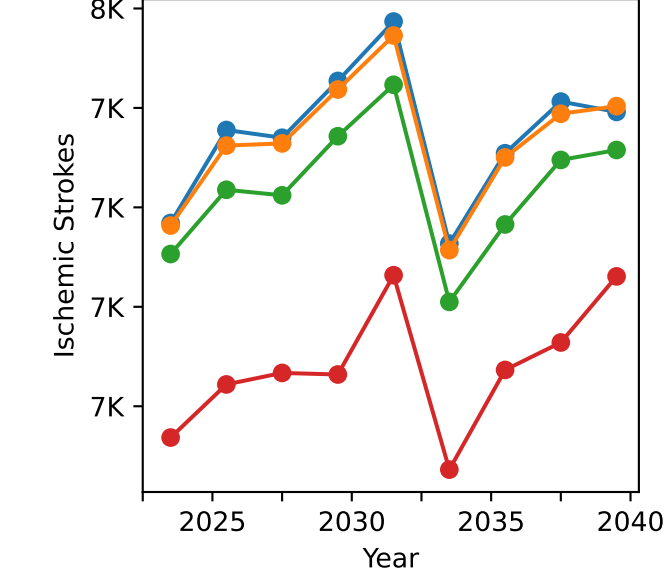

Count of Heart Failure in Females

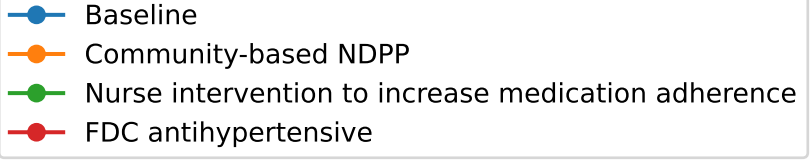

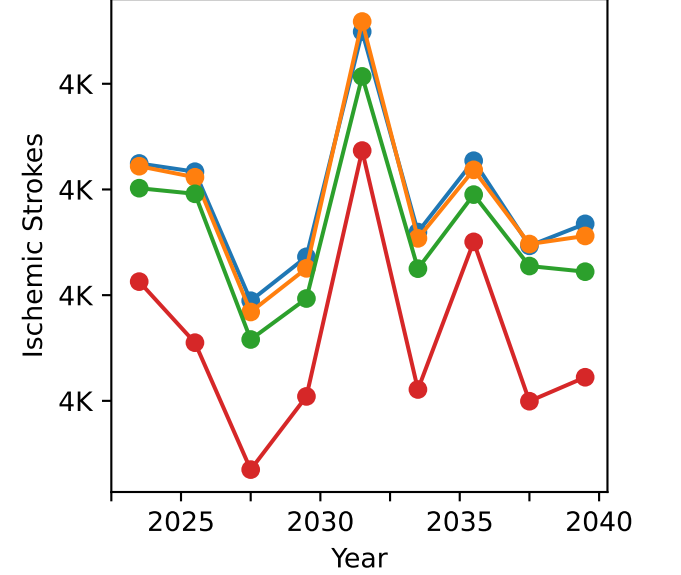

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

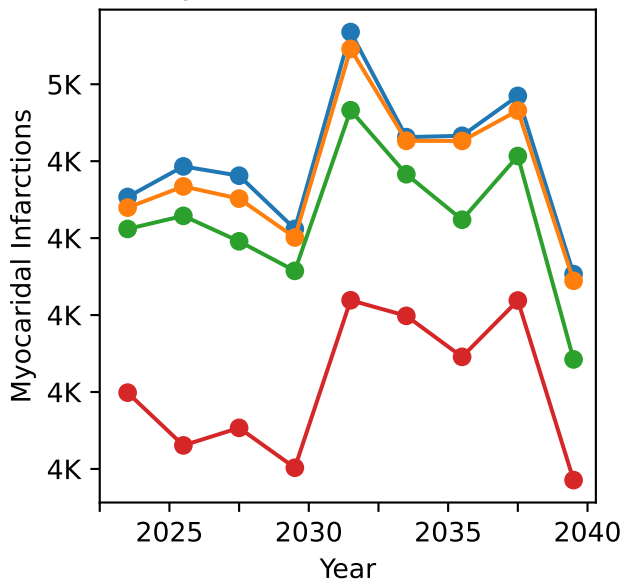

Count of Ischemic Strokes in Males

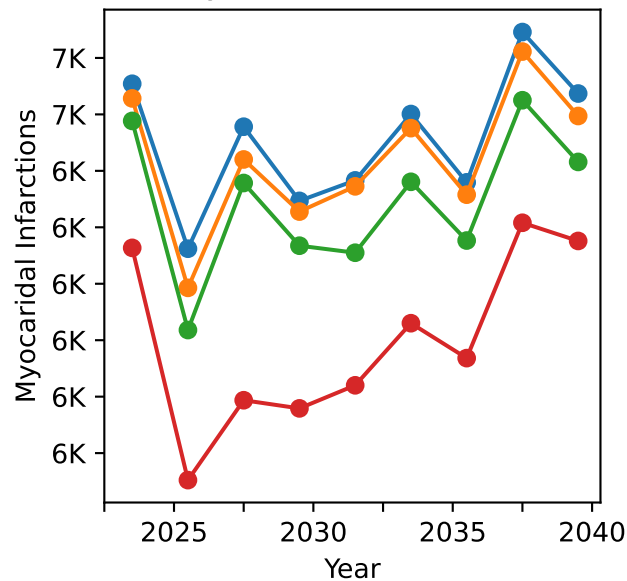

Comparing Incidence Across Scenarios in Oklahoma

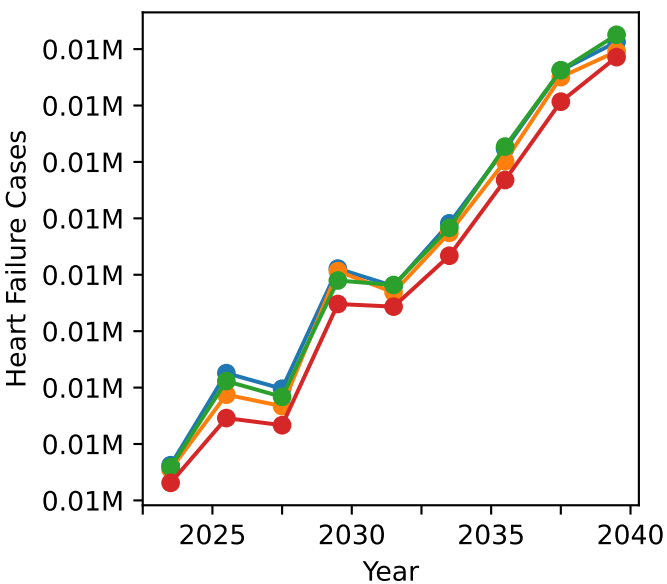

Count of Myocardial Infarctions in Females

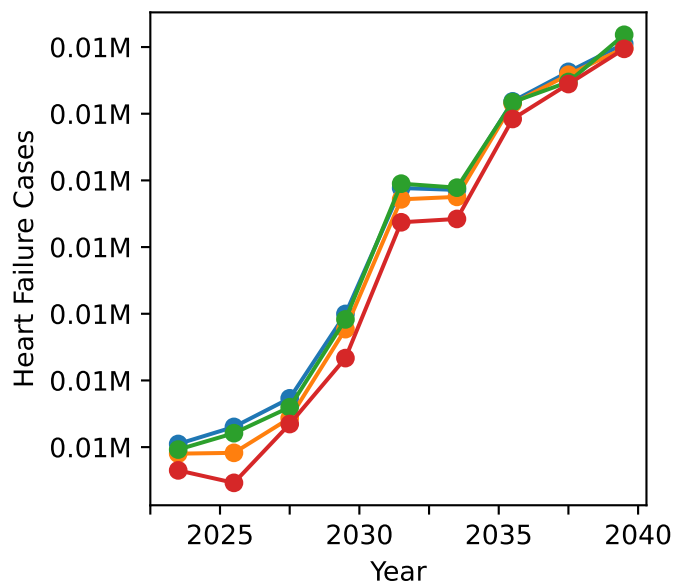

Count of Myocardial Infarctions in Males

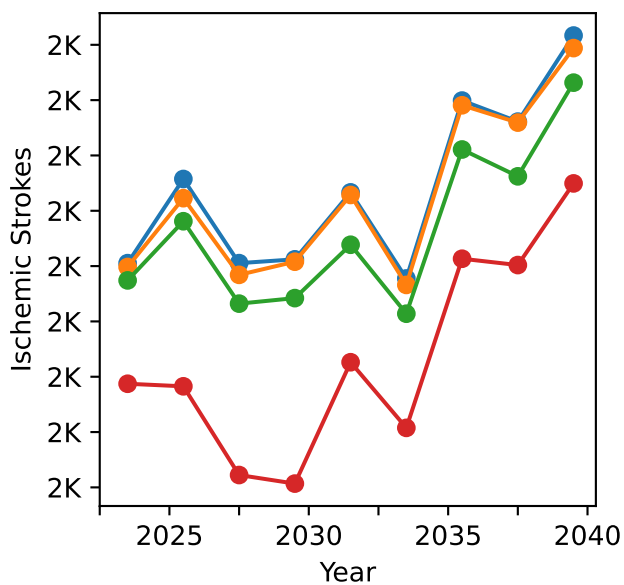

Count of Heart Failure in Females

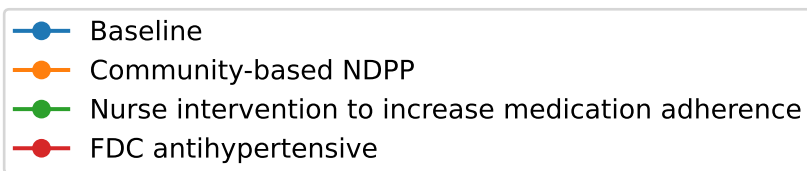

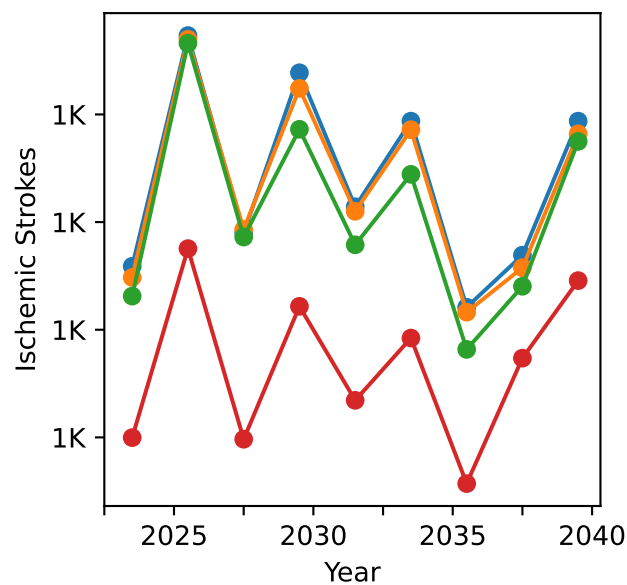

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

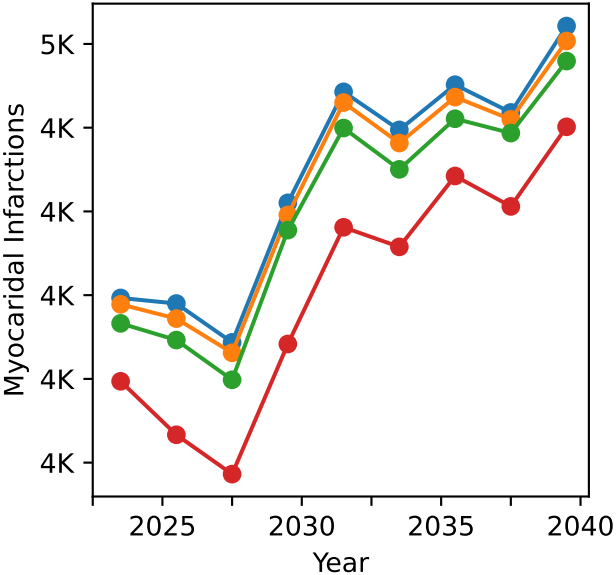

Count of Ischemic Strokes in Males

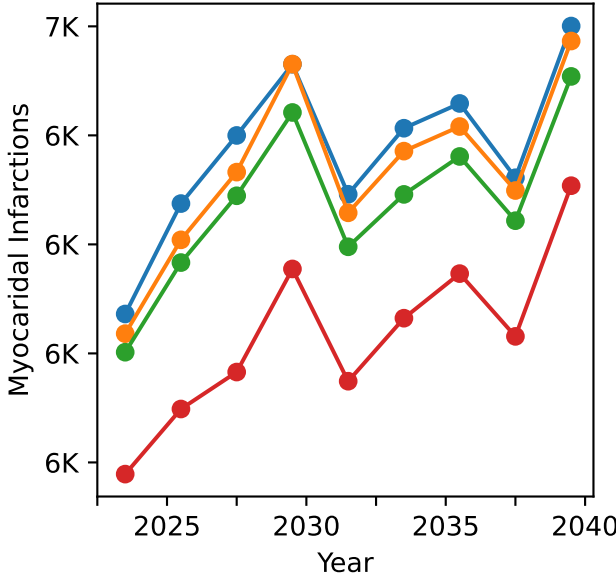

Comparing Incidence Across Scenarios in Oregon

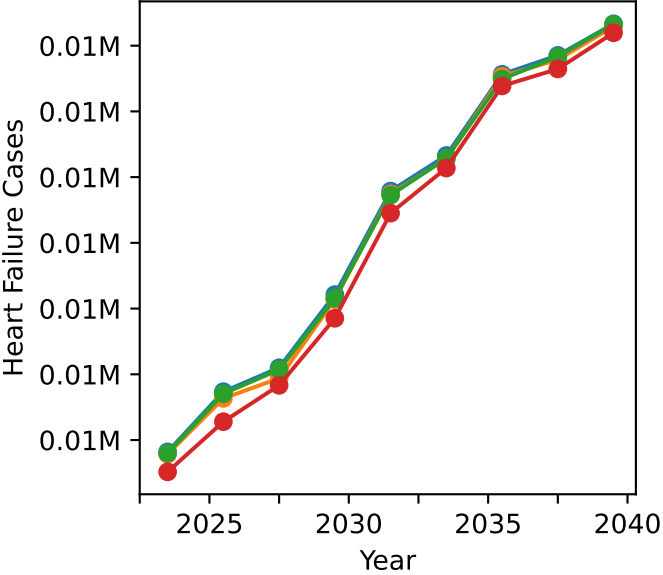

Count of Myocardial Infarctions in Females

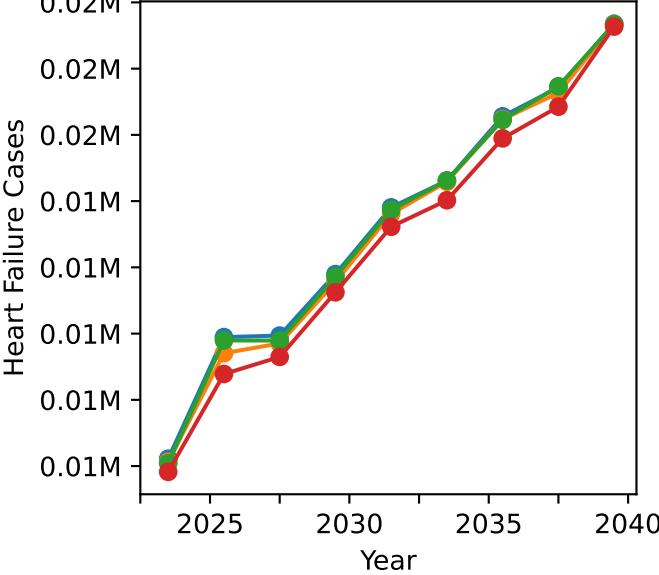

Count of Myocardial Infarctions in Males

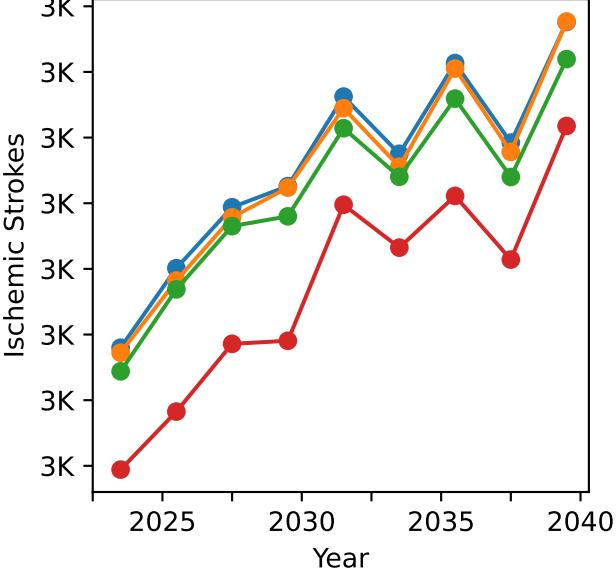

Count of Heart Failure in Females

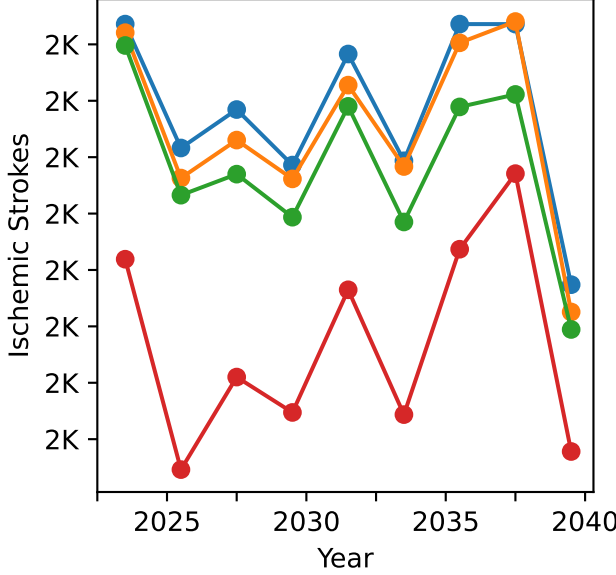

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

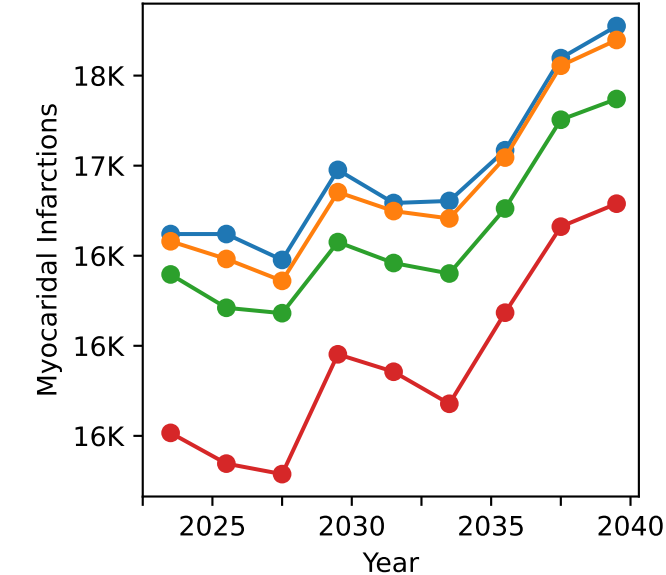

Count of Ischemic Strokes in Males

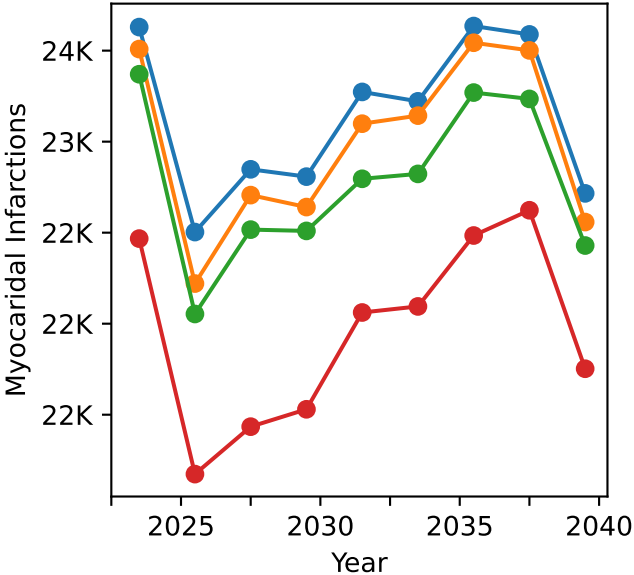

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in Pennsylvania

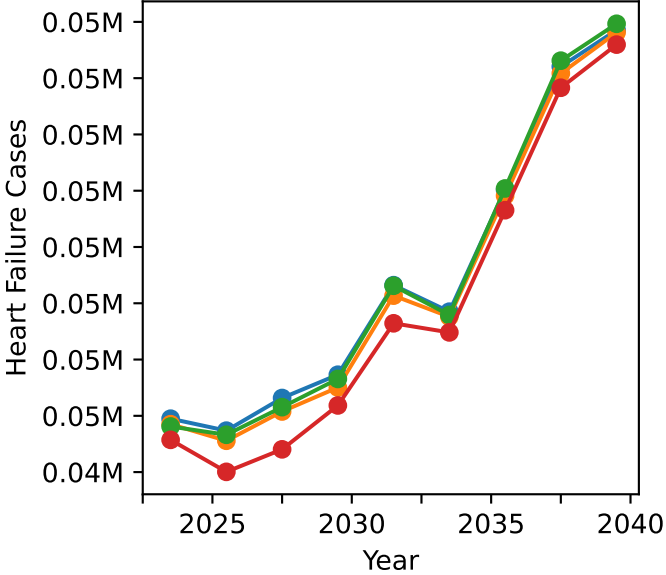

Count of Myocardial Infarctions in Females

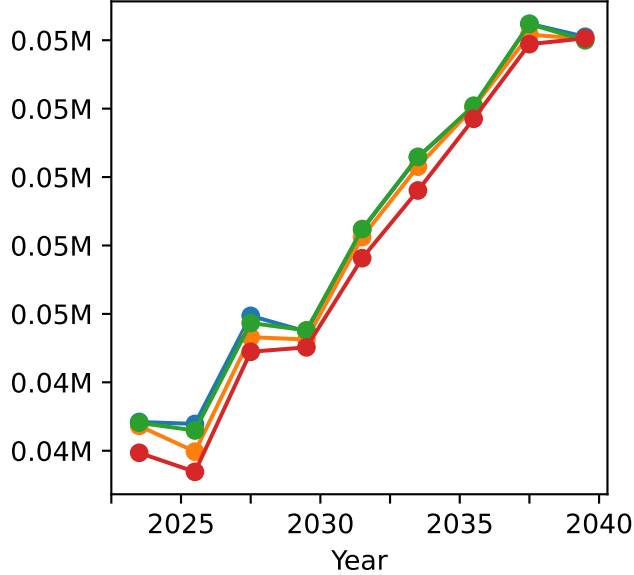

Count of Myocardial Infarctions in Males

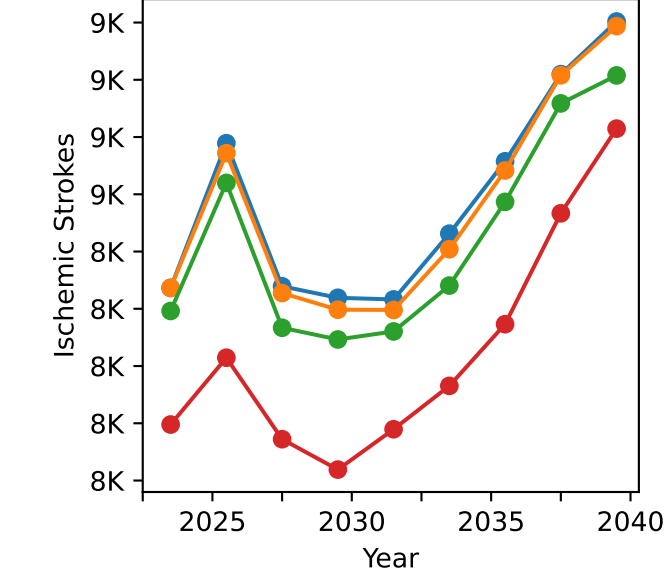

Count of Heart Failure in Females

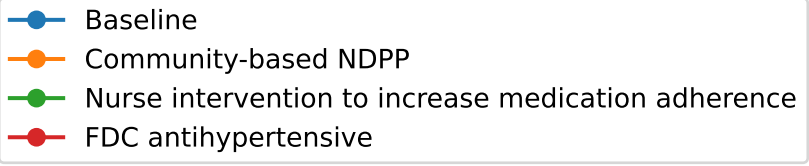

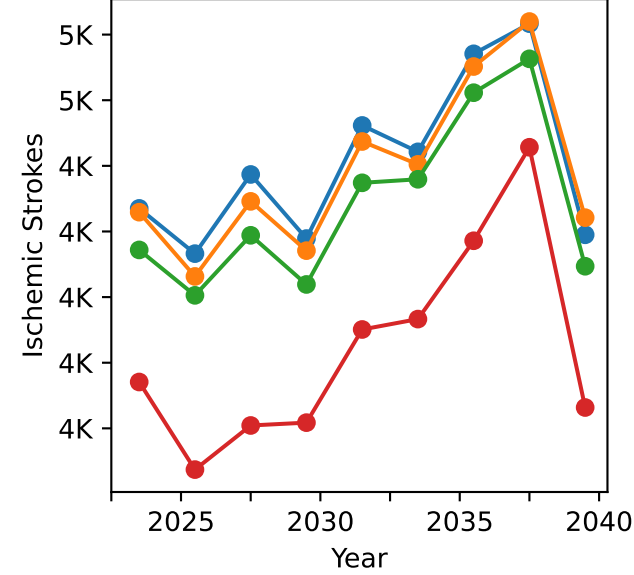

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

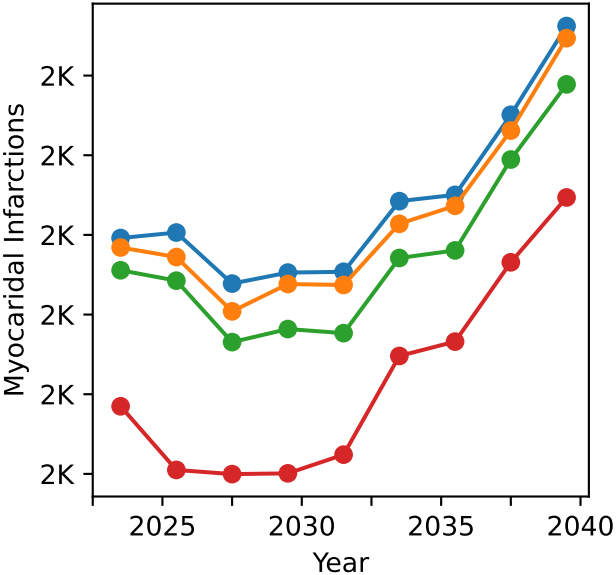

Count of Ischemic Strokes in Males

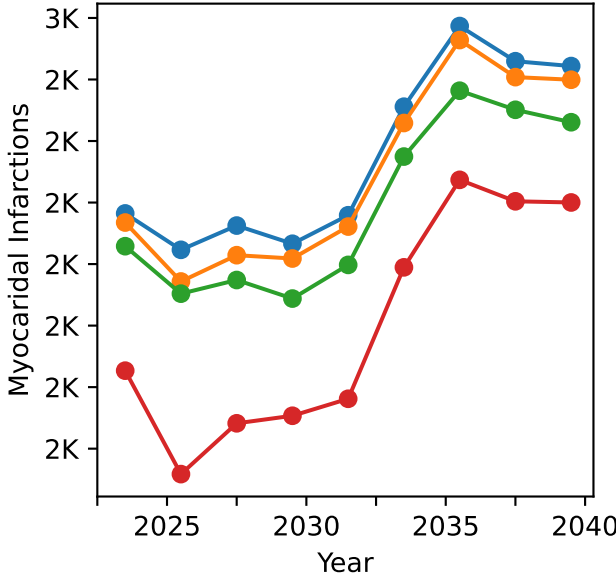

Comparing Incidence Across Scenarios in Rhode Island

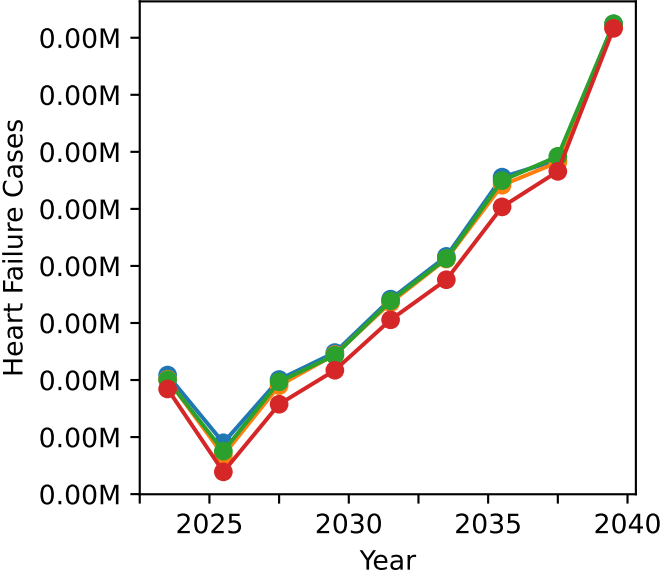

Count of Myocardial Infarctions in Females

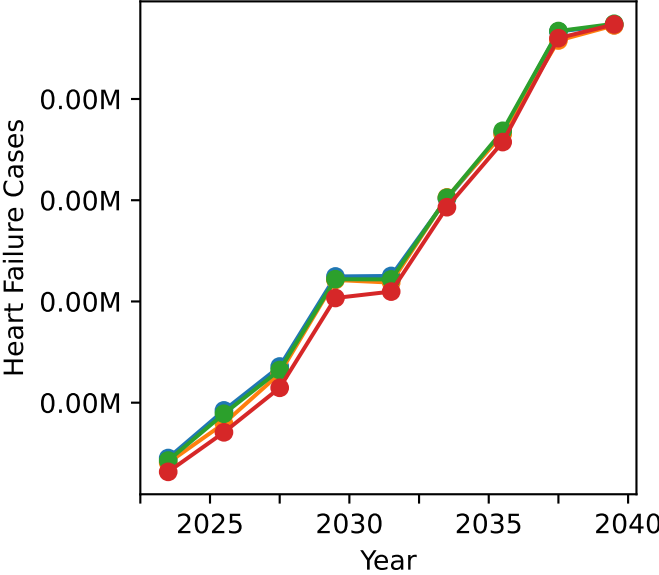

Count of Myocardial Infarctions in Males

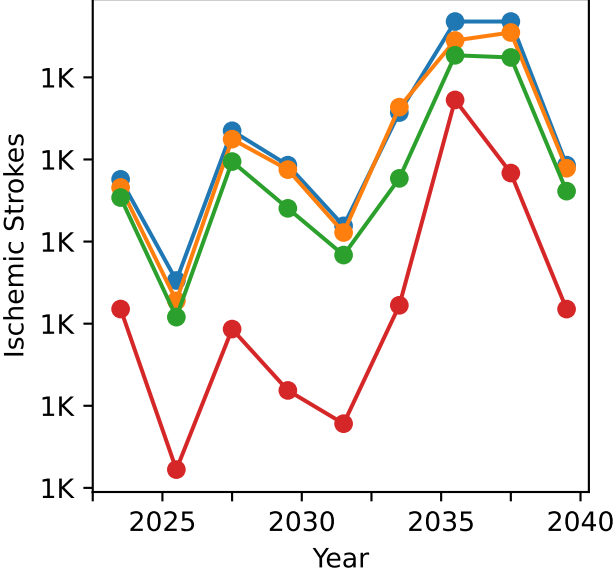

Count of Heart Failure in Females

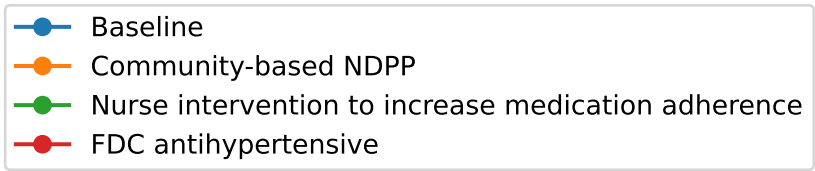

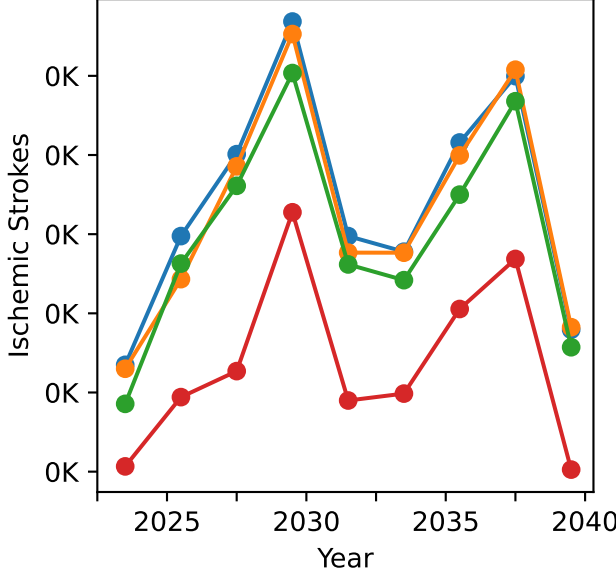

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

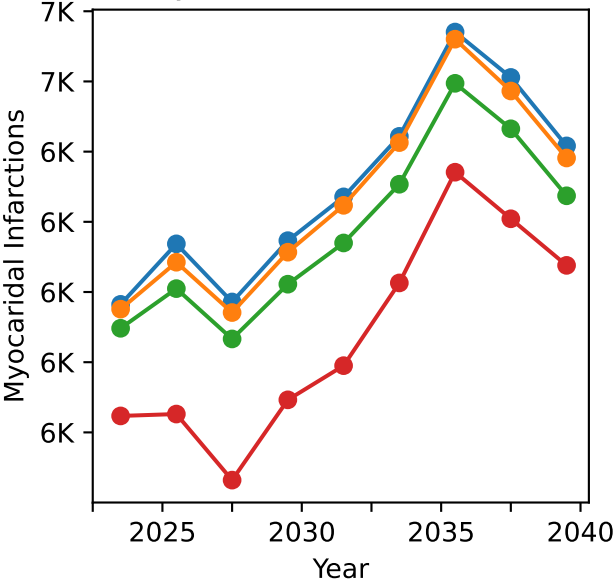

Count of Ischemic Strokes in Males

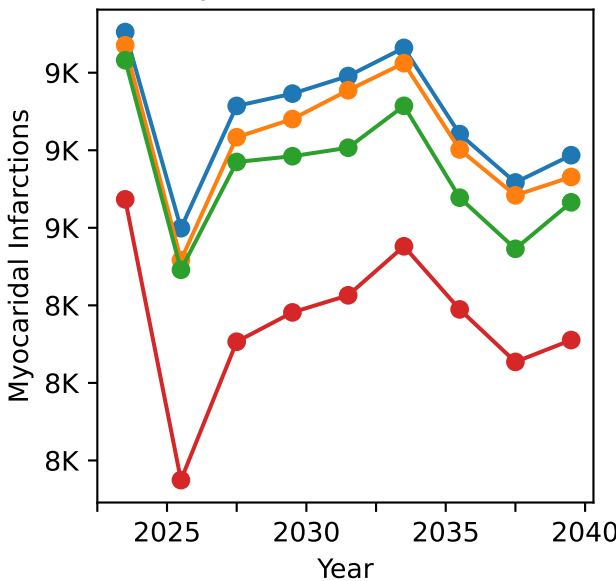

Comparing Incidence Across Scenarios in South Carolina

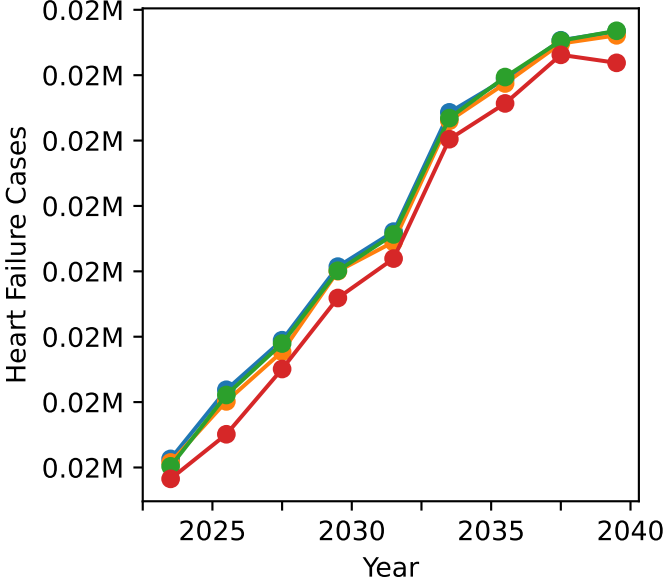

Count of Myocardial Infarctions in Females

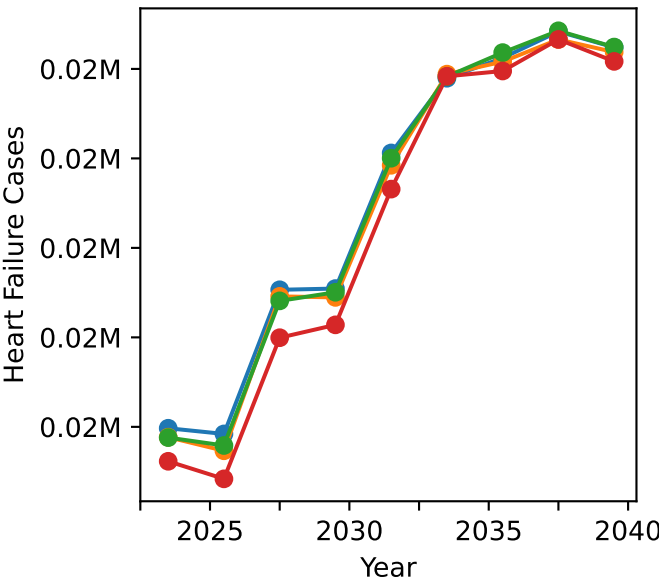

Count of Myocardial Infarctions in Males

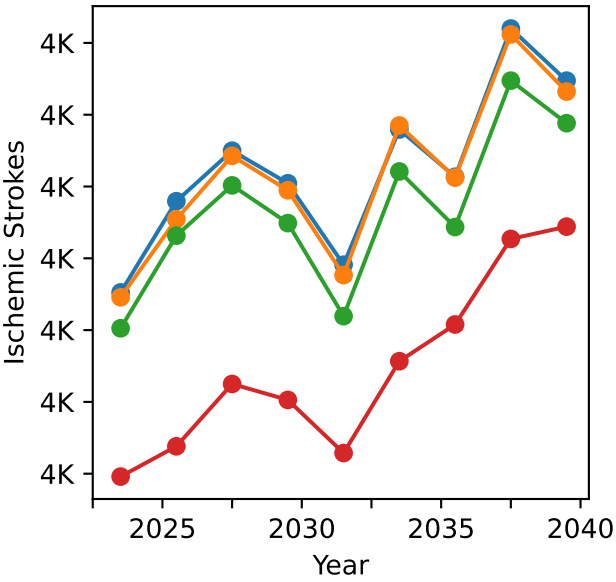

Count of Heart Failure in Females

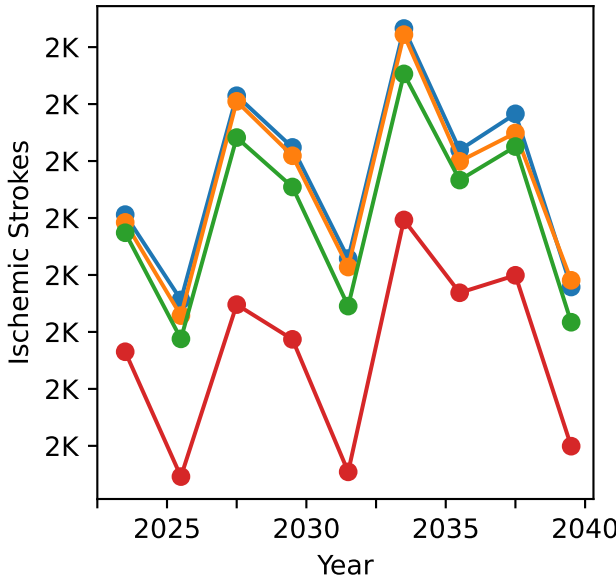

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

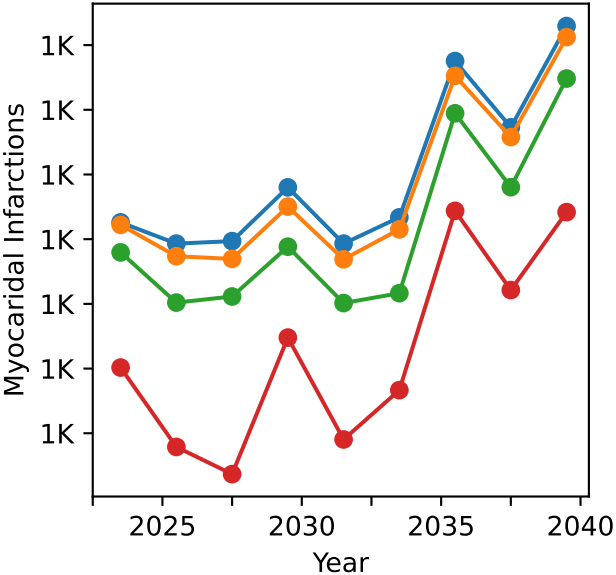

Count of Ischemic Strokes in Males

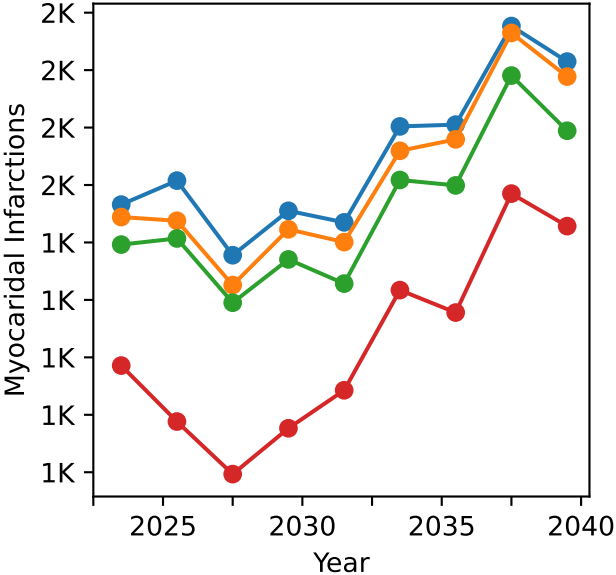

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in South Dakota

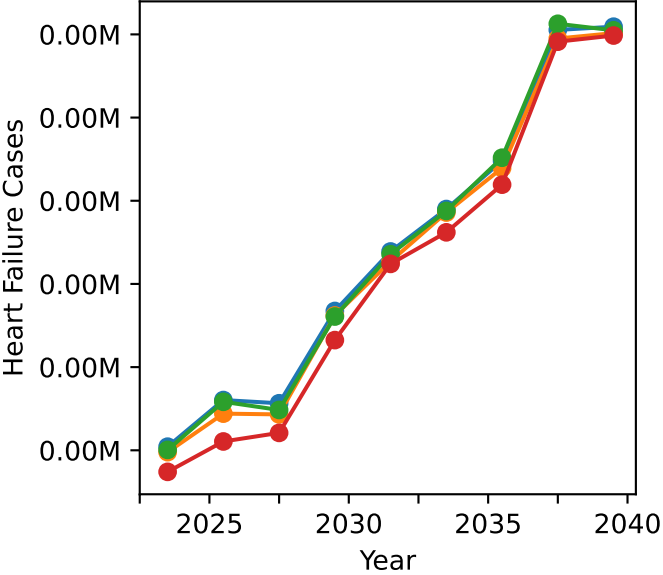

Count of Myocardial Infarctions in Females

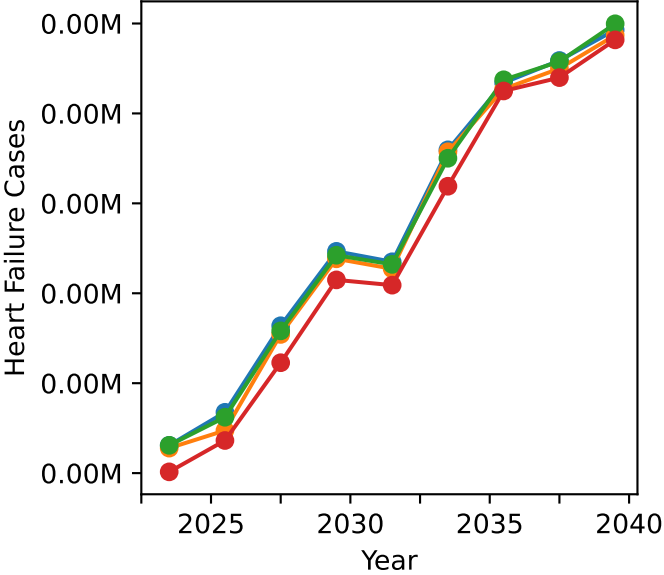

Count of Myocardial Infarctions in Males

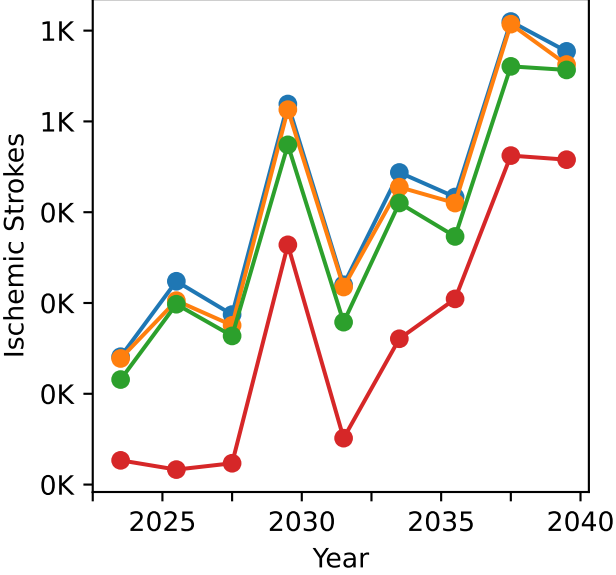

Count of Heart Failure in Females

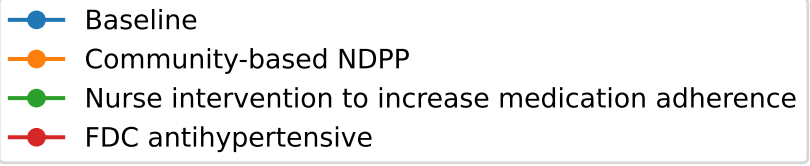

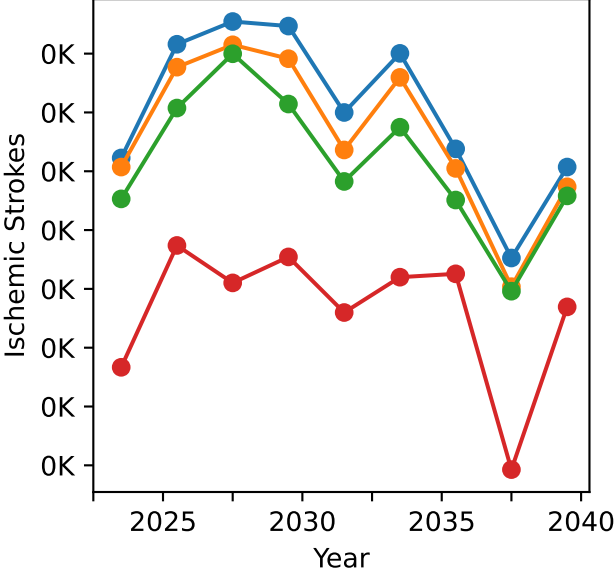

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

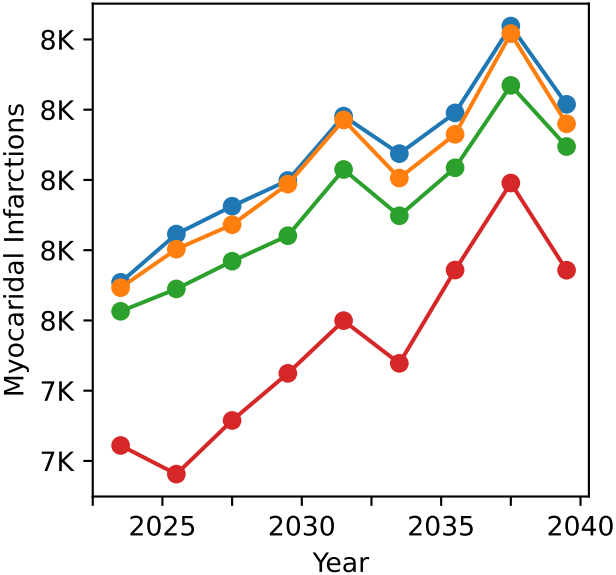

Count of Ischemic Strokes in Males

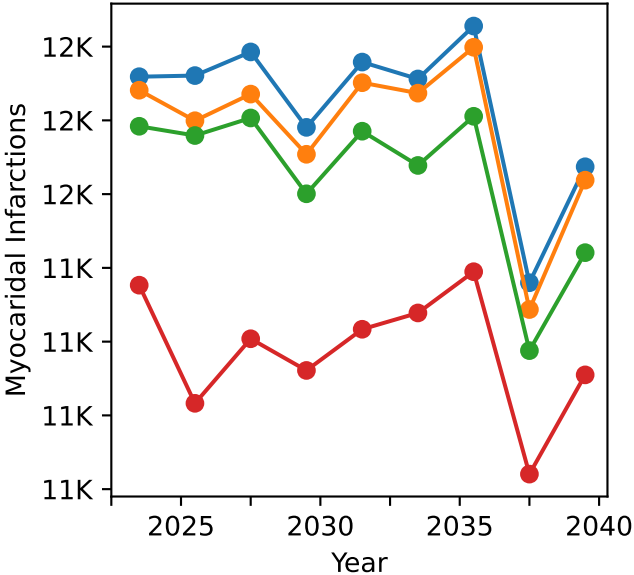

Comparing Incidence Across Scenarios in Tennessee

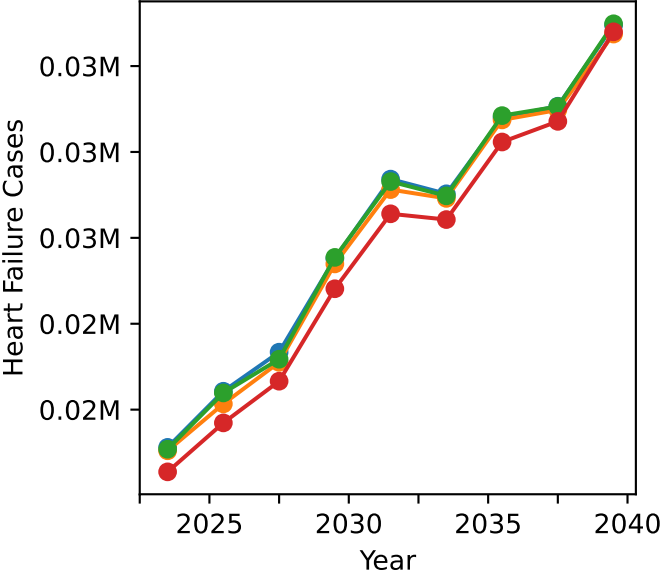

Count of Myocardial Infarctions in Females

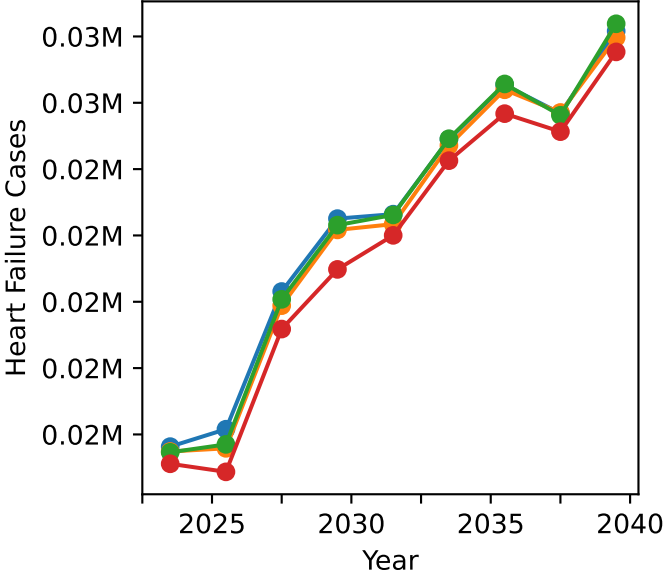

Count of Myocardial Infarctions in Males

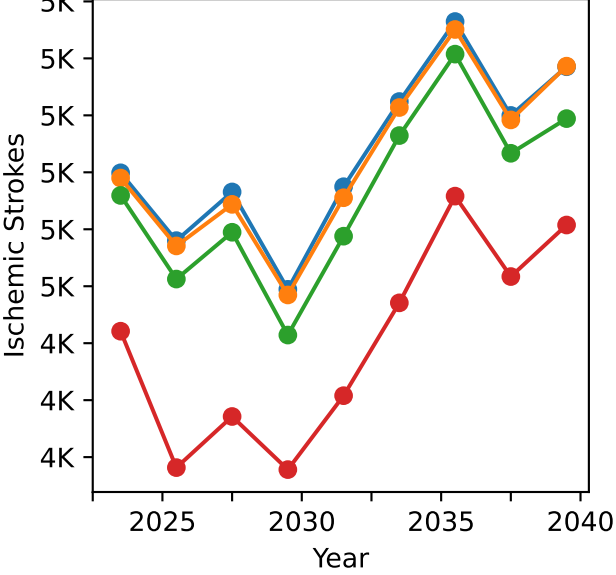

Count of Heart Failure in Females

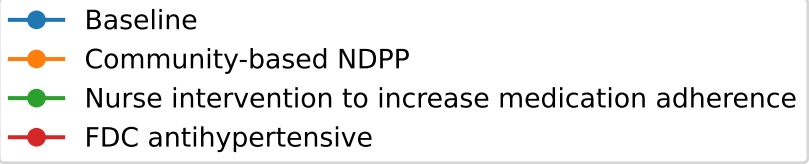

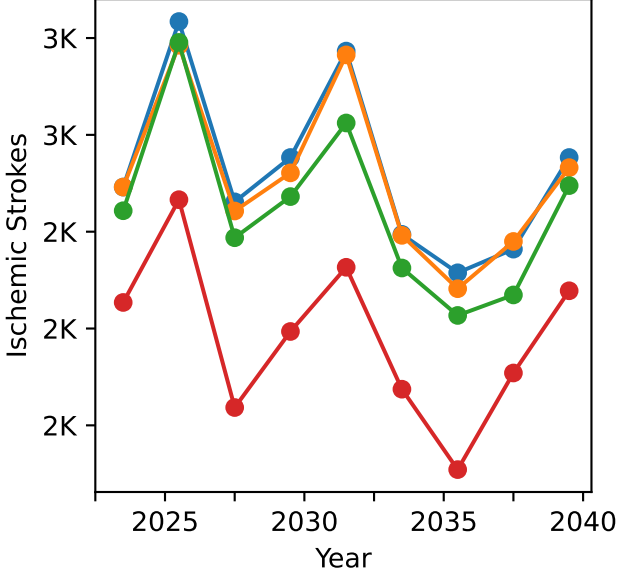

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

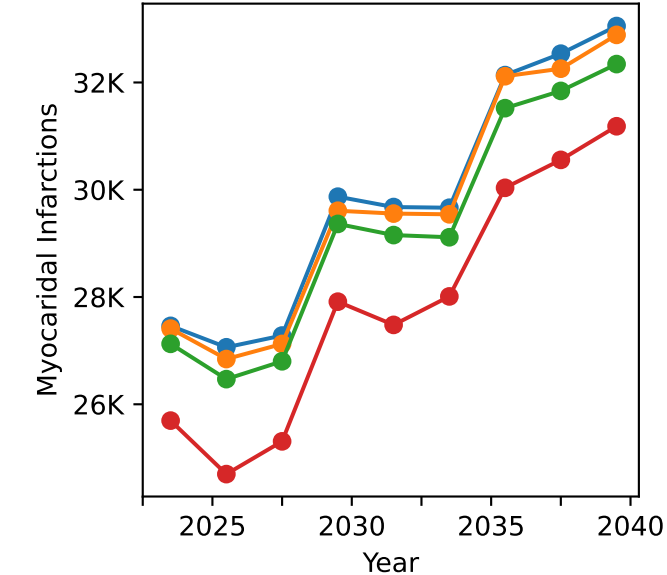

Count of Ischemic Strokes in Males

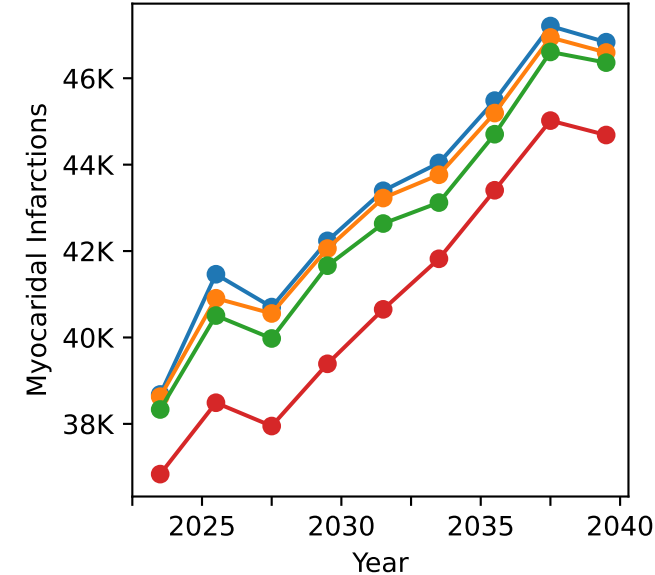

Comparing Incidence Across Scenarios in Texas

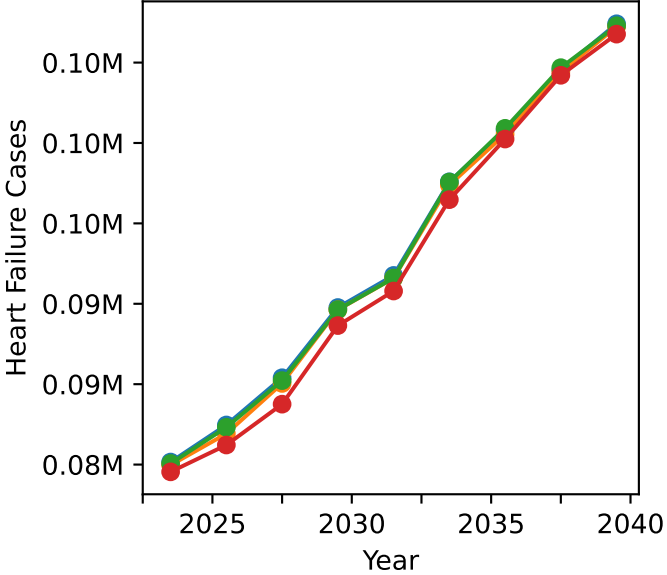

Count of Myocardial Infarctions in Females

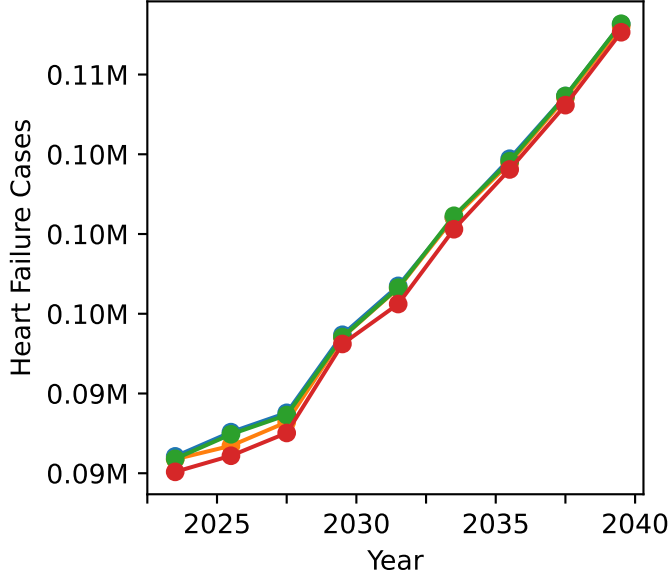

Count of Myocardial Infarctions in Males

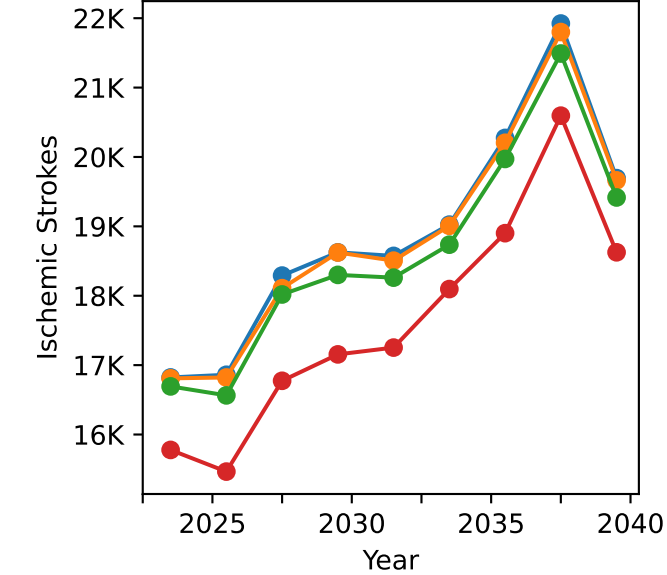

Count of Heart Failure in Females

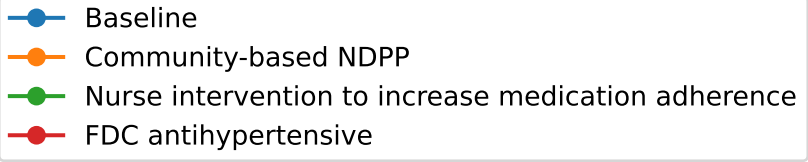

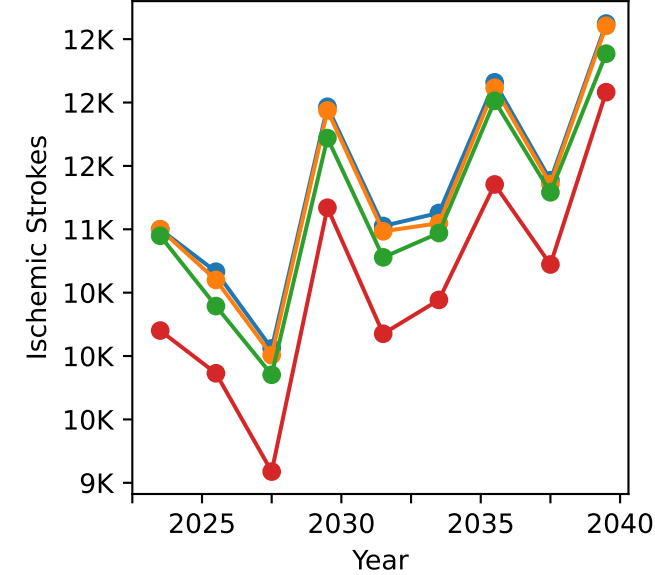

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

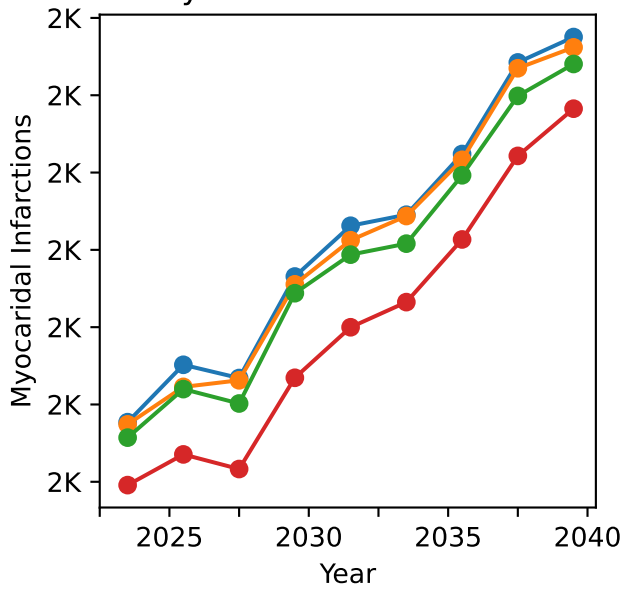

Count of Ischemic Strokes in Males

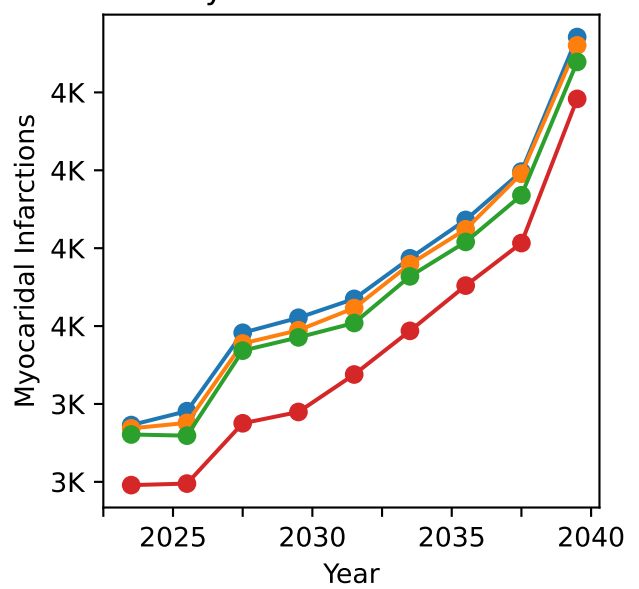

Comparing Incidence Across Scenarios in Utah

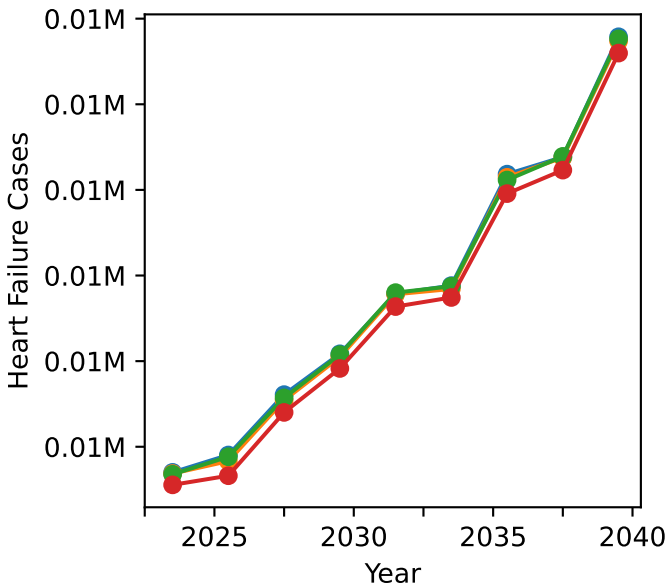

Count of Myocardial Infarctions in Females

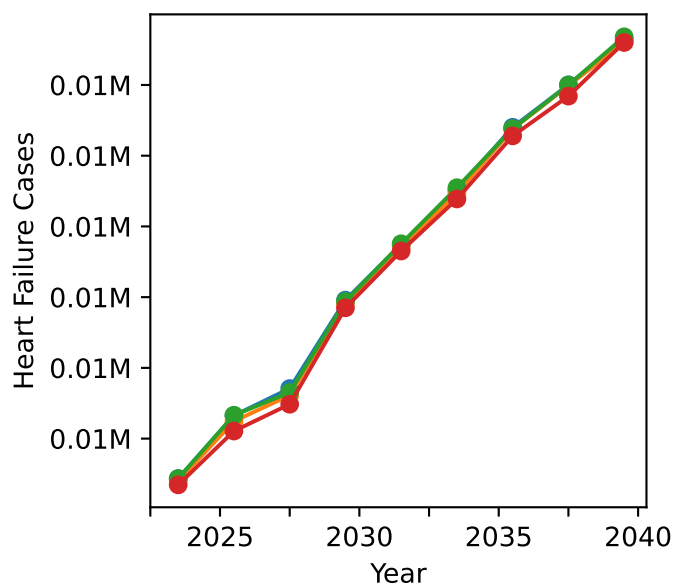

Count of Myocardial Infarctions in Males

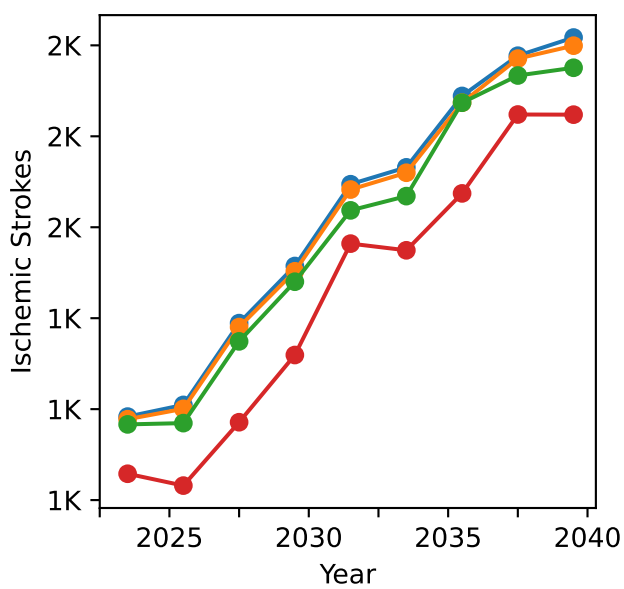

Count of Heart Failure in Females

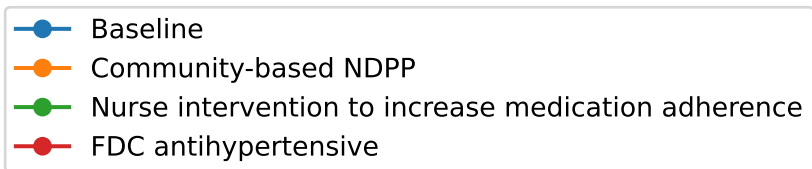

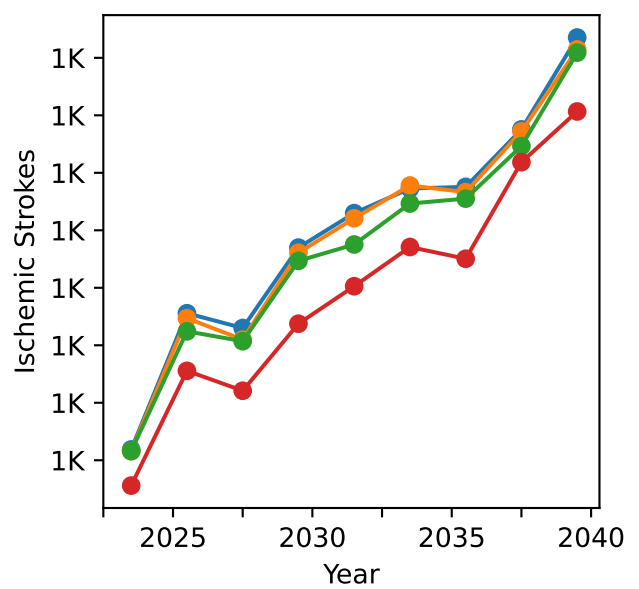

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

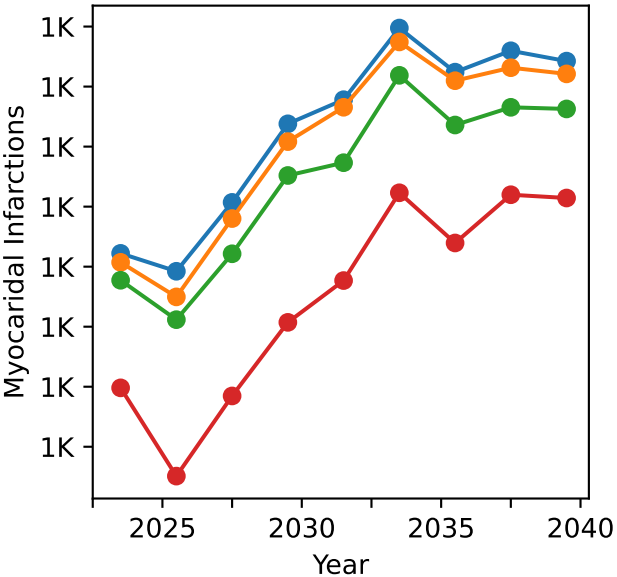

Count of Ischemic Strokes in Males

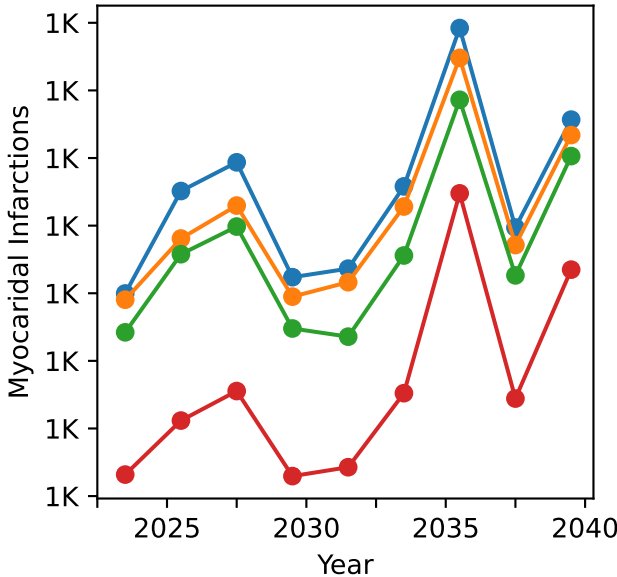

Comparing Incidence Across Scenarios in Vermont

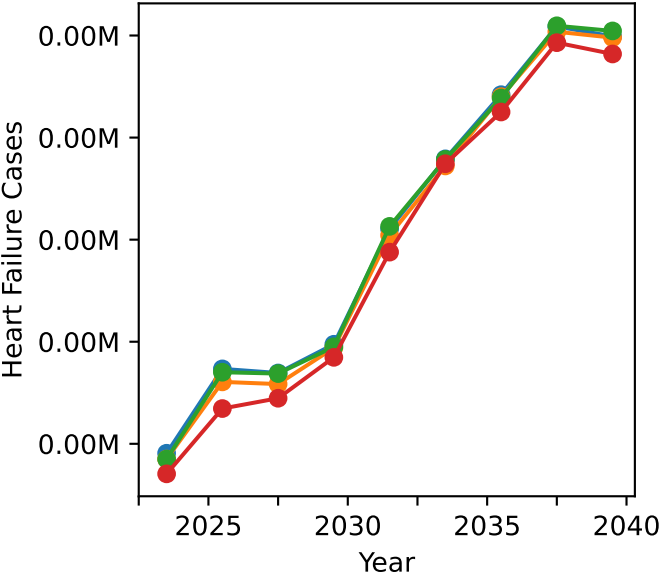

Count of Myocardial Infarctions in Females

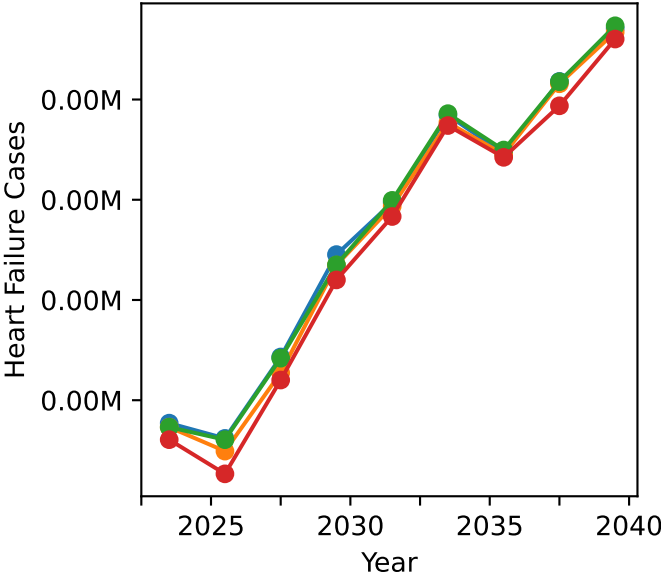

Count of Myocardial Infarctions in Males

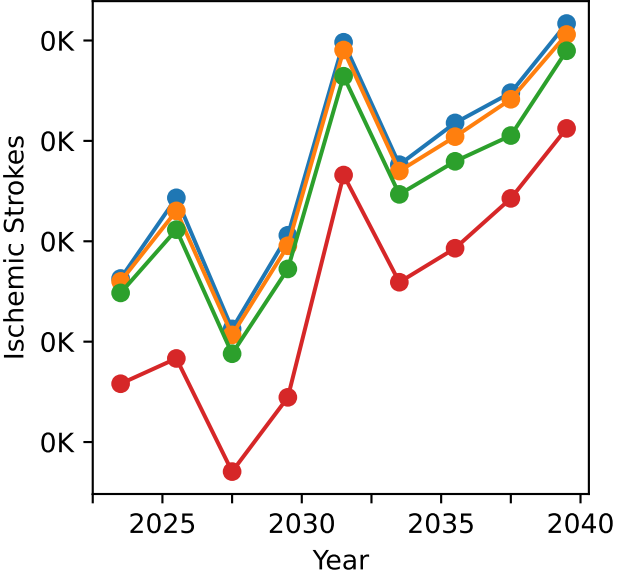

Count of Heart Failure in Females

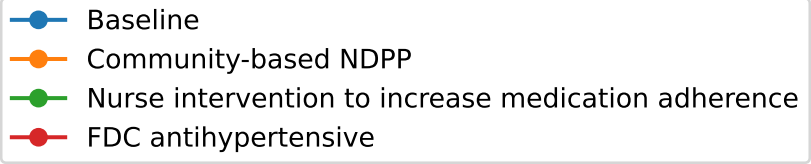

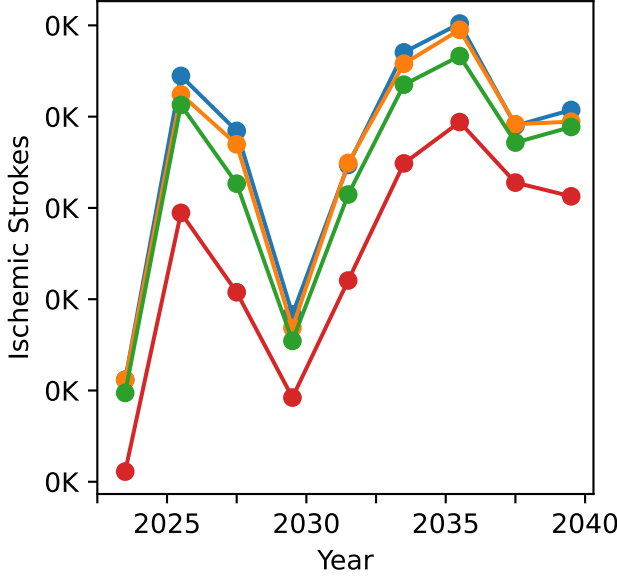

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

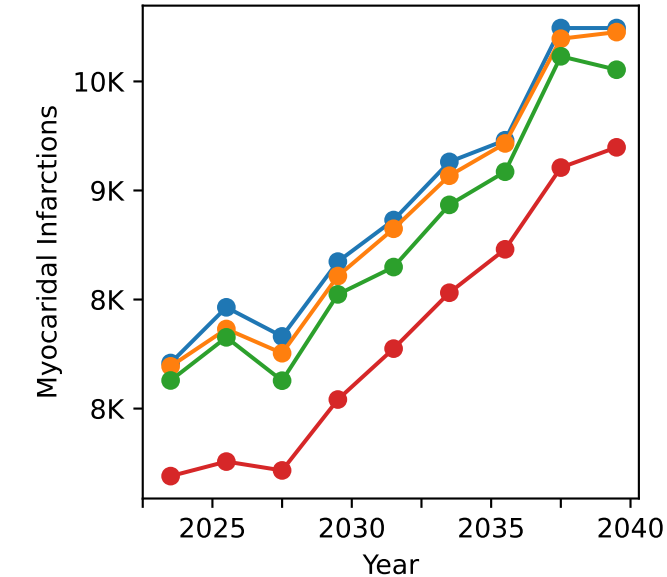

Count of Ischemic Strokes in Males

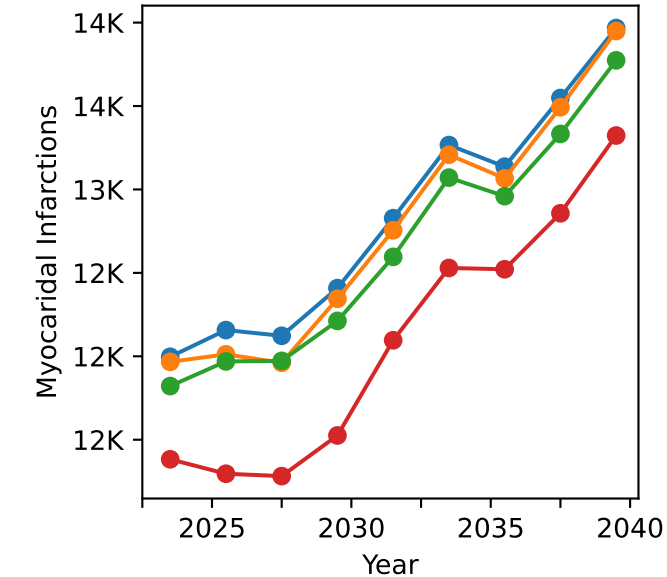

Comparing Incidence Across Scenarios in Virginia

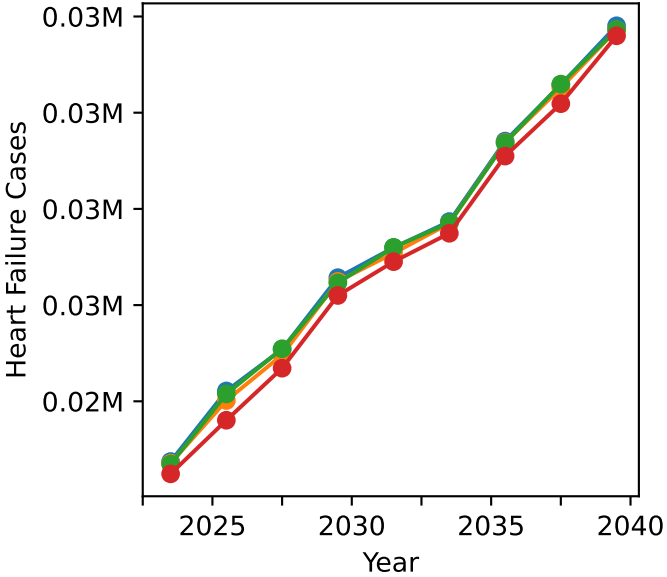

Count of Myocardial Infarctions in Females

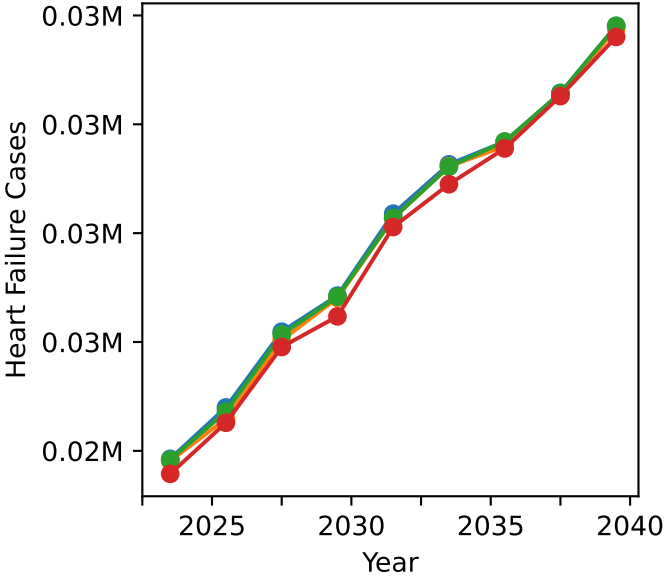

Count of Myocardial Infarctions in Males

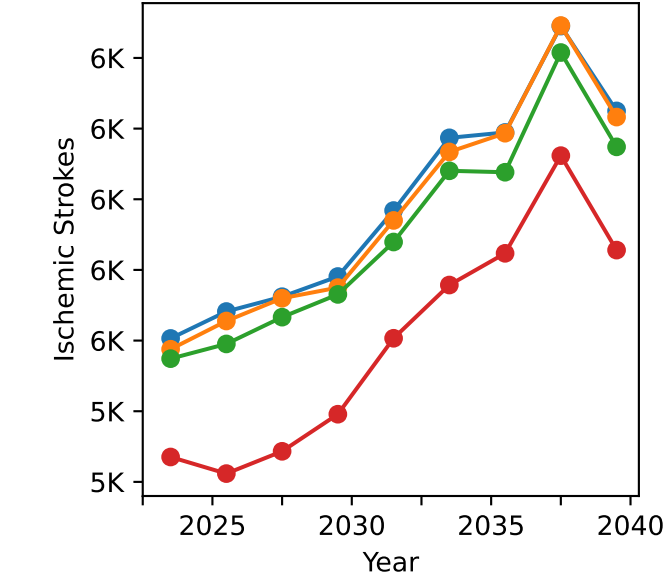

Count of Heart Failure in Females

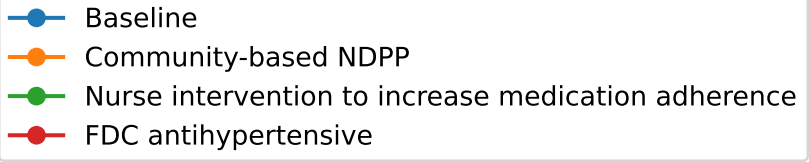

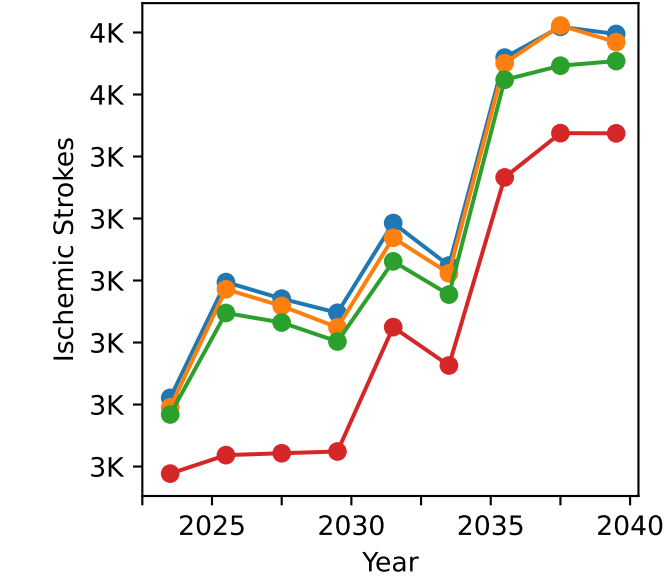

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

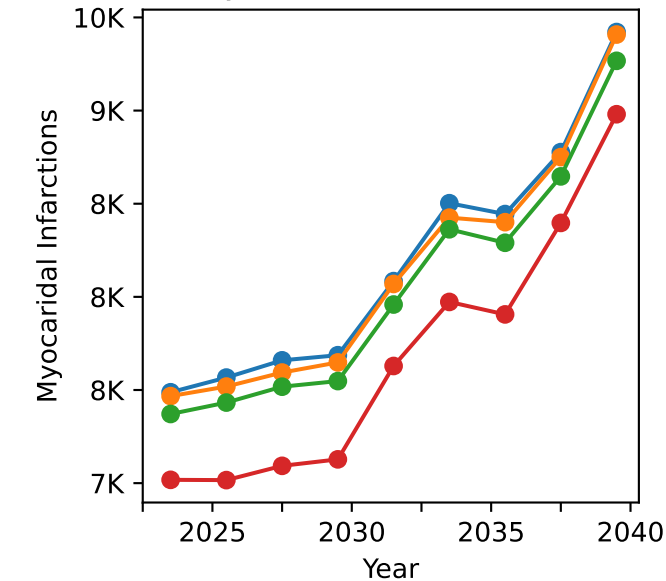

Count of Ischemic Strokes in Males

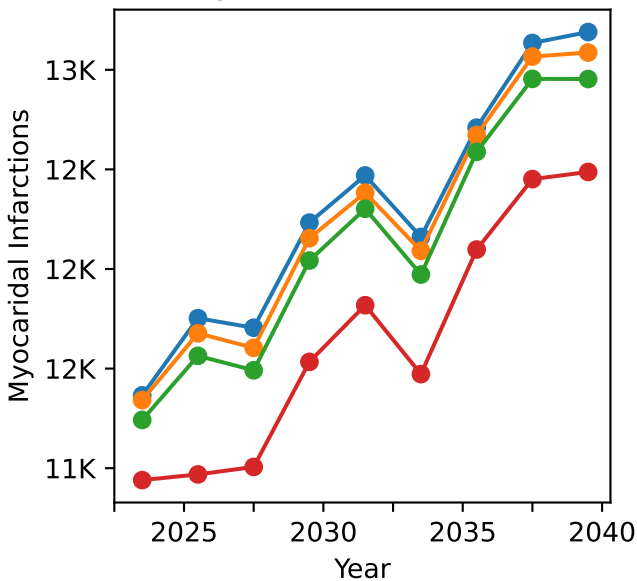

Comparing Incidence Across Scenarios in Washington

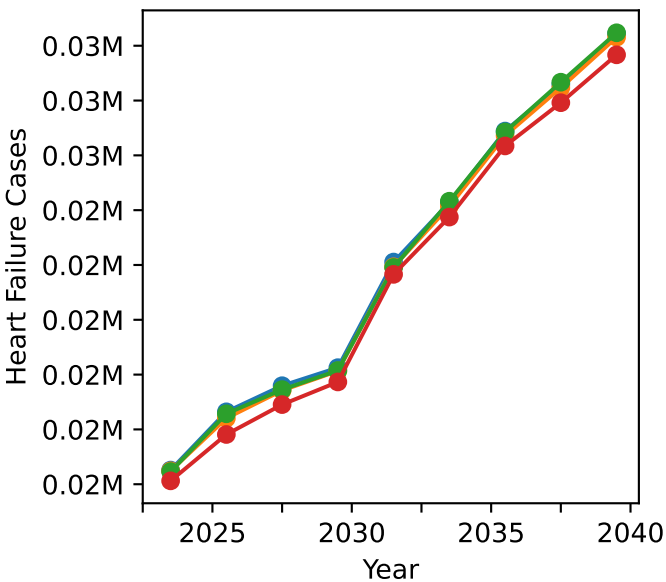

Count of Myocardial Infarctions in Females

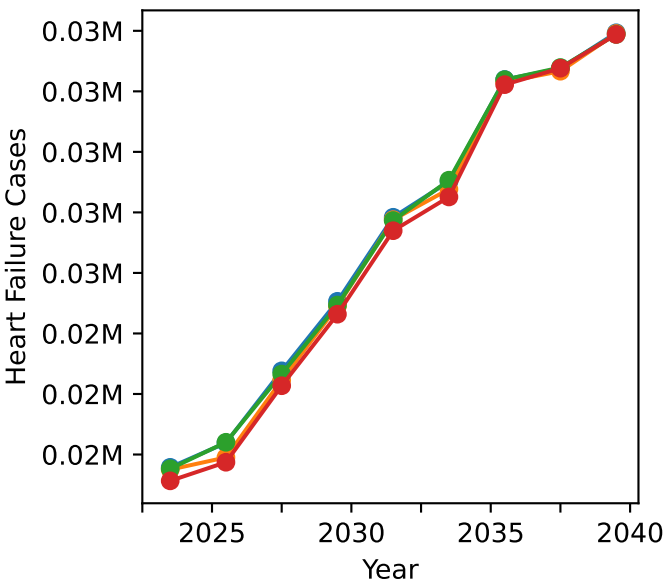

Count of Myocardial Infarctions in Males

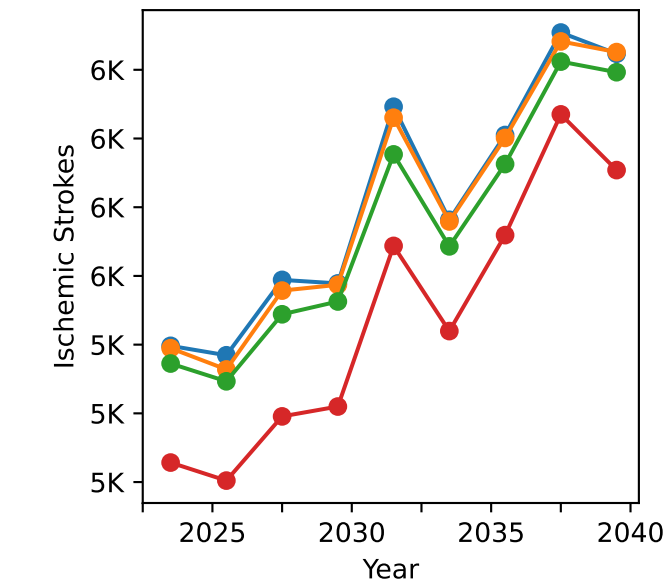

Count of Heart Failure in Females

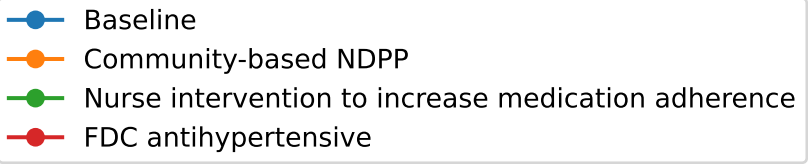

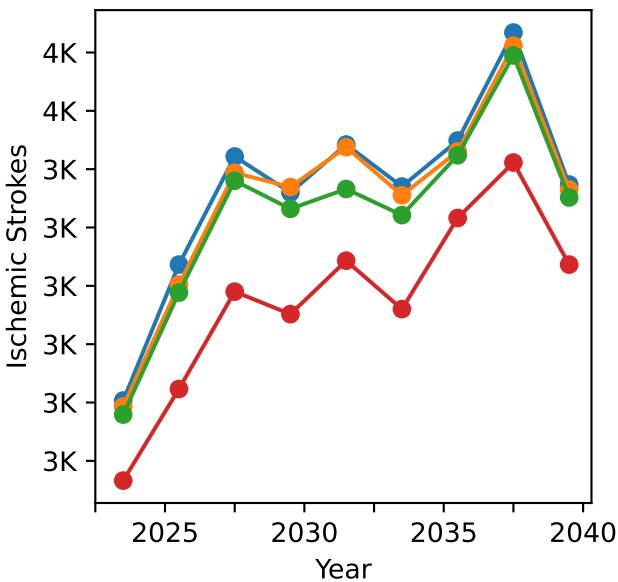

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

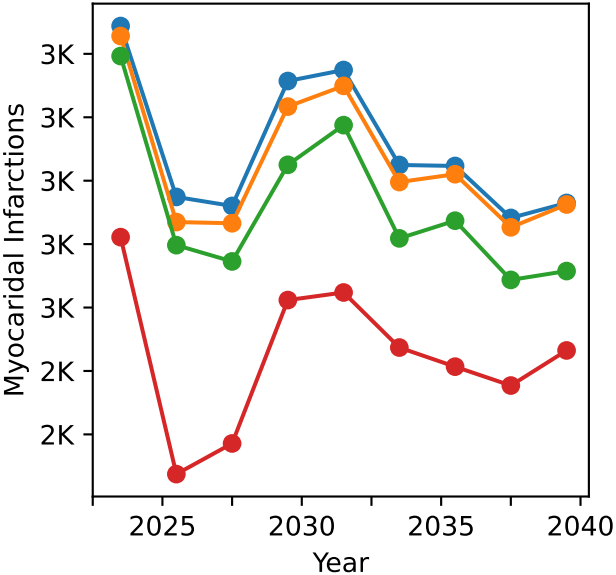

Count of Ischemic Strokes in Males

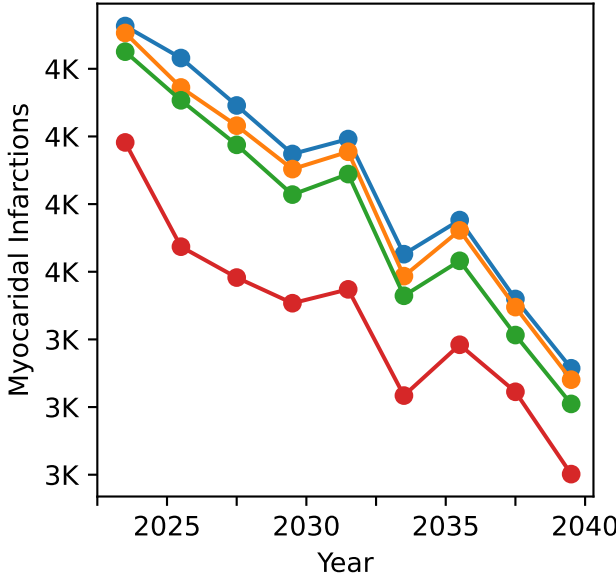

Comparing Incidence Across Scenarios in West Virginia

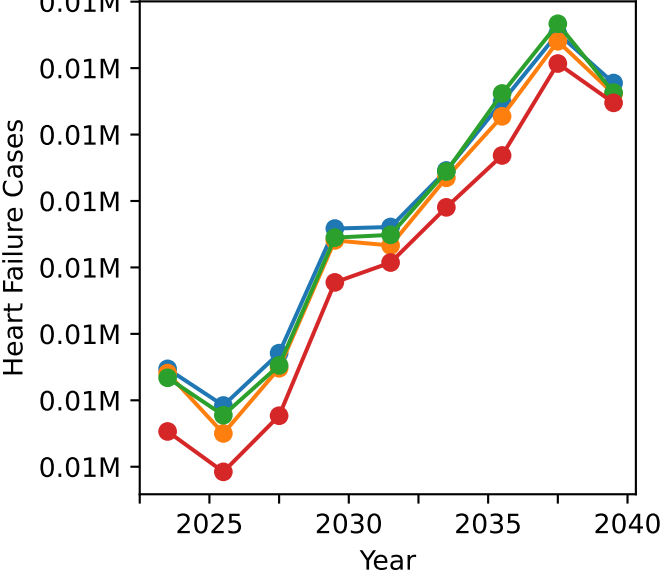

Count of Myocardial Infarctions in Females

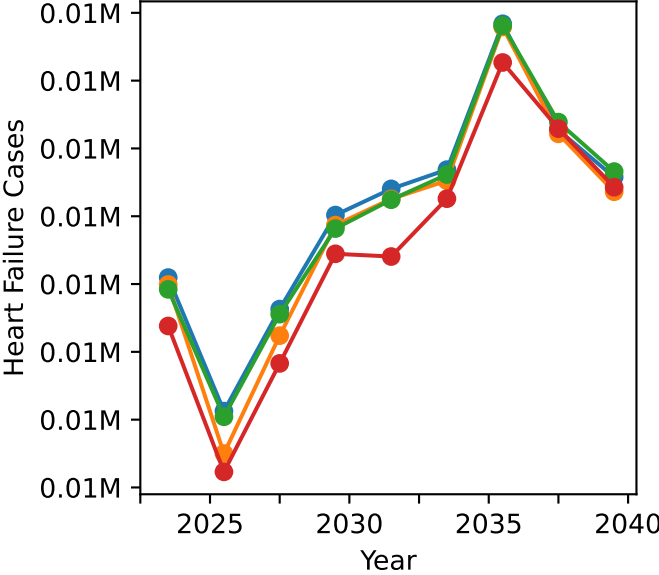

Count of Myocardial Infarctions in Males

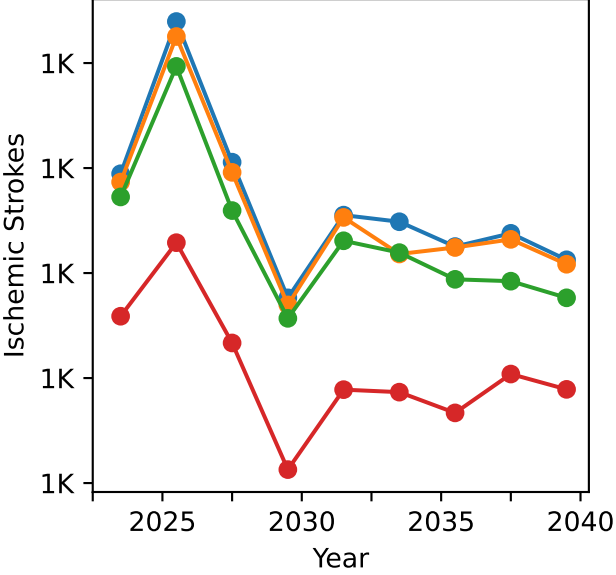

Count of Heart Failure in Females

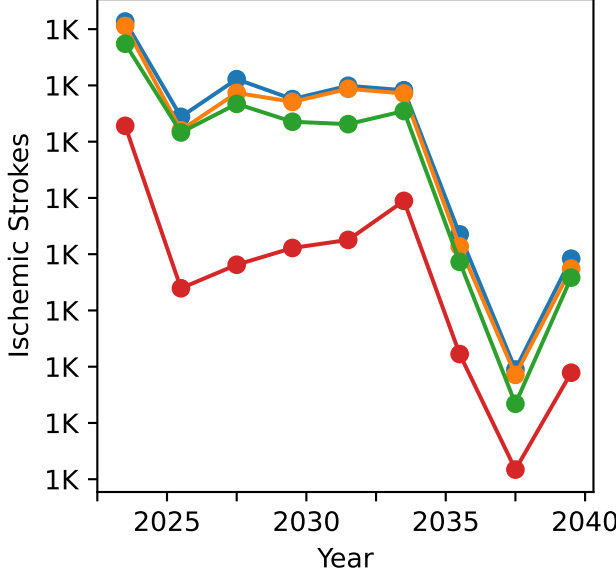

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

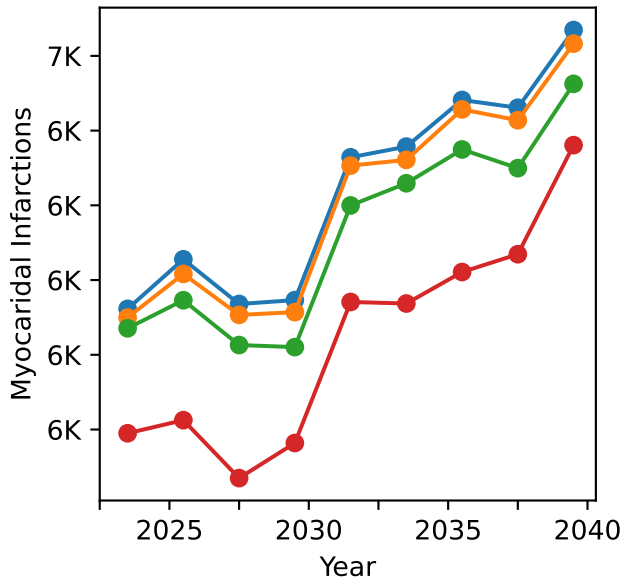

Count of Ischemic Strokes in Males

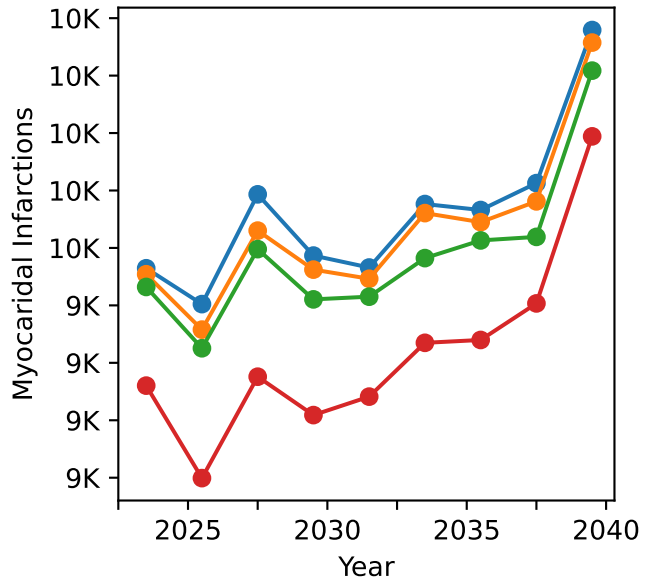

- Baseline
- Community-based NDPP
- Nurse intervention to increase medication adherence
- FDC antihypertensive

Comparing Incidence Across Scenarios in Wisconsin

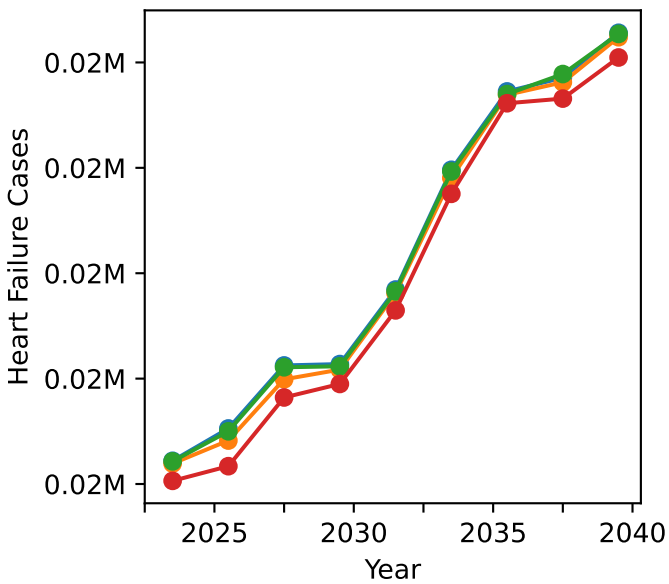

Count of Myocardial Infarctions in Females

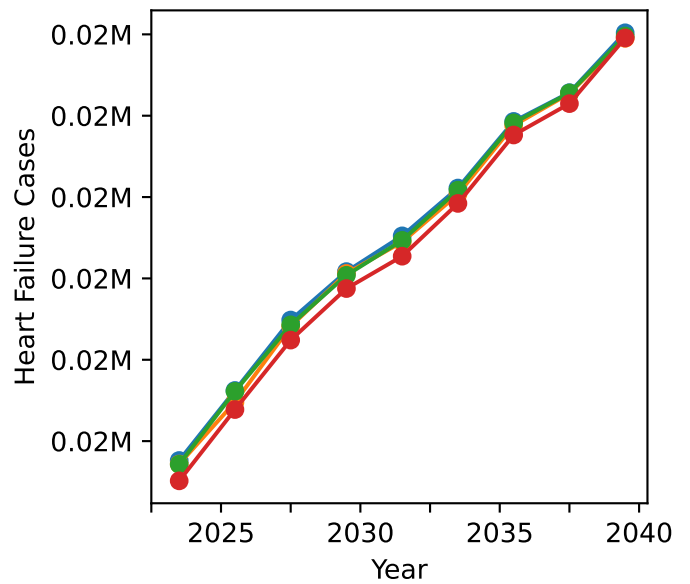

Count of Myocardial Infarctions in Males

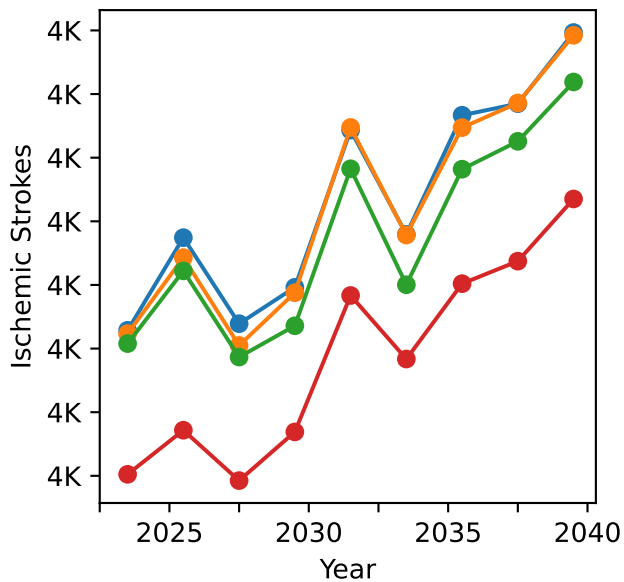

Count of Heart Failure in Females

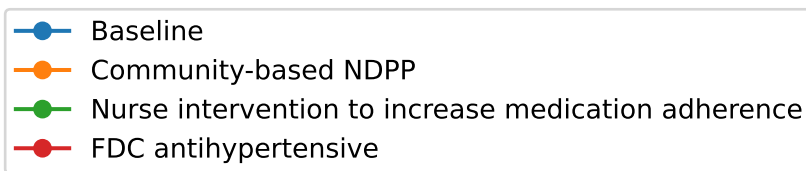

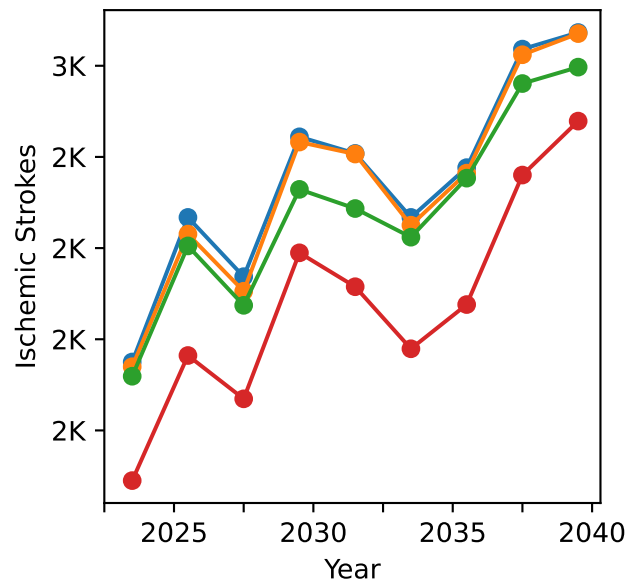

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

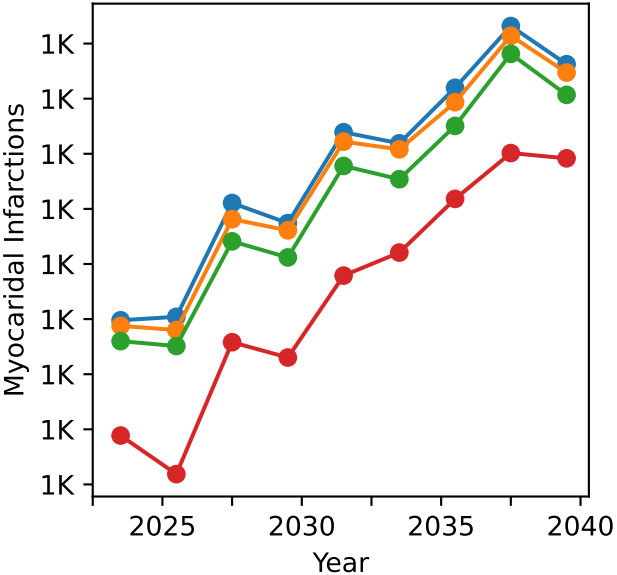

Count of Ischemic Strokes in Males

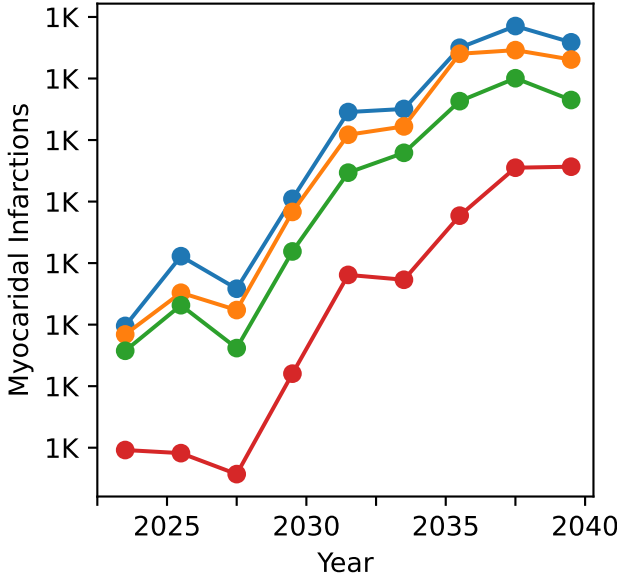

Comparing Incidence Across Scenarios in Wyoming

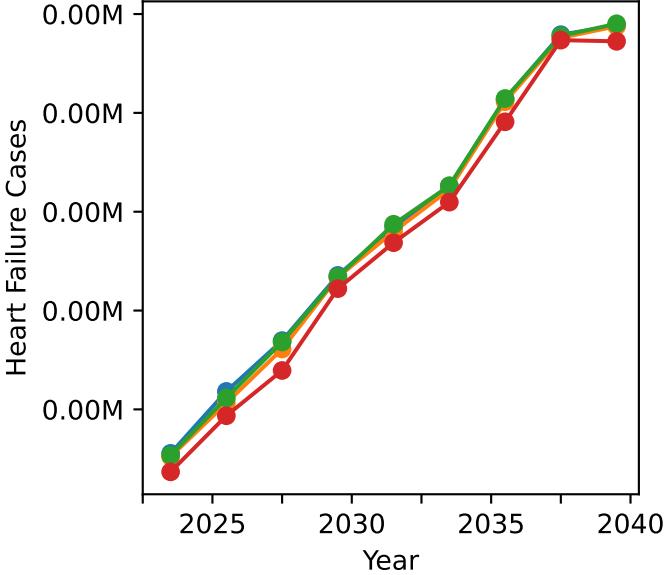

Count of Myocardial Infarctions in Females

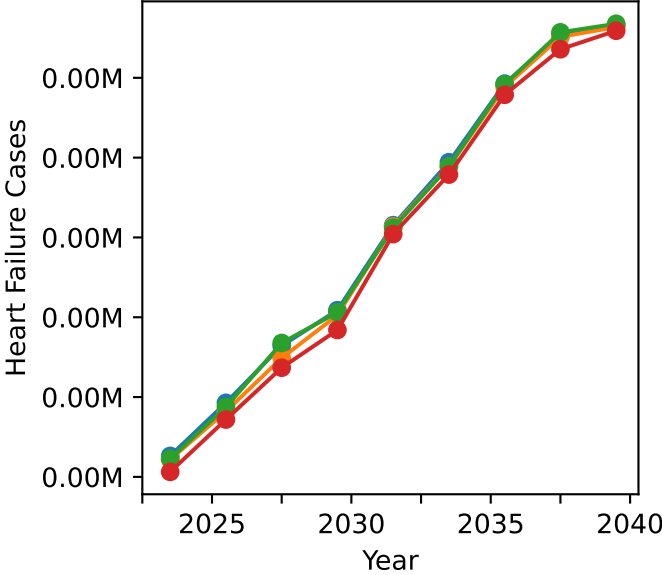

Count of Myocardial Infarctions in Males

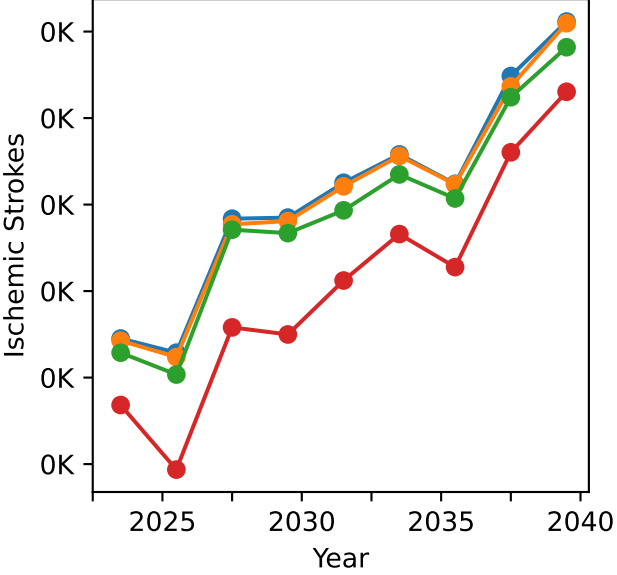

Count of Heart Failure in Females

Count of Heart Failure in Males

Count of Ischemic Strokes in Females

Count of Ischemic Strokes in Males
